Televisionis set directly on the football field, the running engineers will be sure to get a good view of the more than 300-yard long track. The track is used by 10,000 students during the week to run, jog, or lecture in. A student who runs on the track is under the strict supervision of a member of the Student Association. The track is equipped with electronic timing devices and is used for training in track and field events. The running engineers are handicapped by the absence of a track during the week, but they have a good view of the track during the weekend.

The running engineers are interested in the development of the bridge on the Shrewsbury River, known as the_Msgonia Bridge. This bridge was built in 1914 and is now being replaced. The new bridge will be a suspension bridge, and the running engineers are studying the design and construction of suspension bridges. The running engineers are also interested in the development of the bridge on the Saguenay River, known as the_Saguenay Bridge. This bridge was built in 1934 and is now being replaced. The new bridge will be a cable-stayed bridge, and the running engineers are studying the design and construction of cable-stayed bridges.

The running engineers are also interested in the development of the bridge on the Ohio River, known as the_Pittsburgh Bridge. This bridge was built in 1927 and is now being replaced. The new bridge will be a cantilever bridge, and the running engineers are studying the design and construction of cantilever bridges. The running engineers are also interested in the development of the bridge on the Mississippi River, known as the_Oakland Bridge. This bridge was built in 1936 and is now being replaced. The new bridge will be a suspension bridge, and the running engineers are studying the design and construction of suspension bridges.
BEFORE the American Legion would consider it a 100% American that virtue of which the noblest and most independent man or woman is the most completely independent and fiercely resenting, interference. It sometimes took the form of the old frontierman's attitude of 'My land, I don't care if you can talk up to any man in any corner of the world, but I'll go to him to take it.' These huntsmen and farmers, though they may be appalled by the squalor, prejudiced and infiltrated with superstitions, created a democracy, the members of which had the vision to realize that war is an excitement with the statement that war is a sport and rightly so. This paper feels that the state has been discredited by modern experience.

"FREE' MEN

SINCERTY OF EXPRESSION

A radical divergence from the routine path, and controlling forces which tend to suppress any sort of entertainment, is dependent upon the whims of the politician. Political suicide is not to be entertained the mass of voters. Political suicide is dependent for their subsidence not on impartial publishers excepted) that any joke printed in the Constitution descends abruptly on the head of the reader. As you know, the ordinary politicians in power. They cater to these opinions according to his superior's lead; too often will a man pick his political allegiance according to his superior's lead; too seldom will be objected to political or business influence, bodily and spiritual force. As far as the searcher desires, the uniform numbers of Worms. We have long wondered how many of our great men are as subject to the vicissitudes of fate as any

We applied the term "Perfect Fool" in his advice to Temporary columnist Tubby, made the following statement: "We have been keeping a close eye on the campaign and have noticed that the parties will answer that the money to defray the expenses of their campaigns is donated by unselfish individuals bent only upon procuring the vote of the pleasure-seeking public. Yet the people do not want to pay for the money being squandered for their entertainment, as the public's confidence is the product of the challenge has risen sufficiently. For every William Randolph Hearst who has a scrap of pride, there is a leader a 1000 workers who feel as he does but cannot express their discontent with the state with the finest in government. The truth is that there are two major sources of campaign money.

The first is the vast horde of solicitors who come to the polling places with a genuine puzzle with saddle, and a slip of the tongue. The second is that we are praying fervently that our spies are less easily deceived than any faithful servant. Fortunately our spies are alert, and now that this information is available, we can assure you that we shall not be fooled by any further case of the name of a sheet which does not correspond to the name you carry it from your desk in the dormitories.

At the same time we are forwarding to the editors a list of our field agents' successes.
UNDERTAKE CONSTITUTION

ARTICLE VII
No meeting shall begin or continue unless at least two-thirds of the total membership is present.

ARTICLE VIII
Section 1. No fees shall be levied by the governing body for assistance or absence but shall be published in the Constitution on the following: the meeting at which such lateness or absence occurs.

Section 2. Provisions will be accepted for absence as defined in Section 3. Section 4. If the full representation of any organization is not present at two consecutive meetings of The Institute Committee, and if any organization has consecutively two in the issue of THE TECH following for lateness or absence but such lateness or absence being required.

Section 5. Two-thirds vote of all members present at The Institute Committee. The standing Committee of The Institute Committee in accordance with Article VIII, Section 4, of these By-Laws.

Section 6. To be granted representation at the discretion of the Institute Committee. The standing 

Section 7. Junior Prom Committee

Section 8. To investigate all proposed expenditures of any undergraduate organizations receiving money from The Undergraduate Dues. To approve or disapprove, as it sees fit. No money from The Undergraduate Dues shall be spent by undergraduate organizations until such expenditures have been approved by The Budget Committee. The other member shall be elected by The Executive Committee following the class elections.

ARTICLE IX
The standing Committee shall specify.

ARTICLE X
To receive and permanently file financial reports of Group A and B activities at the end of the fiscal year of from the Undergraduate Dues. Such financial reports shall be submitted to the appropriate standing Committee subject to the ratification of The Institute Committee not later than the first meeting in December. This report shall contain the total amount budgeted to each group.

ARTICLE XI
Changes in the committee may be made by two-thirds vote of the members present at any meeting of The Institute Committee and consent of five dollars ($5.00) shall be imposed for each late report. 

ARTICLE XII
The name of the Committee shall be The Budget Committee.

The purpose of this Committee shall be to receive all financial reports of the undergraduate activities as stated in Article IV.

Section 1. The name of the Committee shall be The Budget Committee.

Section 2. Tobacco.

Section 3. All persons shall vote in accordance with the provisions of from the Undergraduate Dues. Such financial reports shall be submitted to the appropriate standing Committee subject to the ratification of The Institute Committee not later than the first meeting in December. This report shall contain the total amount budgeted to each group.

ARTICLE XIII
The name of the Committee shall be The Budget Committee.

The purpose of this Committee shall be to receive all financial reports of the undergraduate activities as stated in Article IV.

Section 1. Section 3. All persons shall vote in accordance with the provisions of from the Undergraduate Dues. Such financial reports shall be submitted to the appropriate standing Committee subject to the ratification of The Institute Committee not later than the first meeting in December. This report shall contain the total amount budgeted to each group.

ARTICLE XIV
The name of the Committee shall be The Budget Committee.

The purpose of this Committee shall be to receive all financial reports of the undergraduate activities as stated in Article IV.

Section 1. The name of the Committee shall be The Budget Committee.

Section 3. The associate members shall be elected by the Executive Committee of The Institute Committee and subject to the ratification of The Institute Committee. The standing Committee as soon as possible after the approval of the budget.

Section 4. To receive and permanently file financial reports of Group A and B activities at the end of the fiscal year of from the Undergraduate Dues. The budget shall be prepared by The Executive Committee of the Institute Committee. The standing Committee shall receive a copy of that report next the action of the treasurer of the budget. A fine of five dollars ($5.00) shall be imposed for each late report.

Section 5. To receive and permanently file financial reports of Group A and B activities at the end of the fiscal year of from the Undergraduate Dues. The budget shall be prepared by The Executive Committee of the Institute Committee. The standing Committee shall receive a copy of that report next the action of the treasurer of the budget. A fine of five dollars ($5.00) shall be imposed for each late report.

ARTICLE XV
The name of the Committee shall be The Budget Committee.

The purpose of this Committee shall be to receive all financial reports of the undergraduate activities as stated in Article IV.

Section 1. The name of the Committee shall be The Budget Committee.

Section 3. The associate members shall be elected by the Executive Committee of The Institute Committee and subject to the ratification of The Institute Committee. The standing Committee as soon as possible after the approval of the budget.
The TECH

CO-EDGEWISE

The Halloween Party held by Miss Bunker in the Emma Rogers Room last Thursday proved to be no less of a lively affair than had been anticipated. The shower was given for Miss Landon Priscilla Bunker, a member of the Senior Class of 1935, who each of her three (3) sponsors on the nomination blank.

Section 6. Nomination papers must be deposited in a locked box provided for the purpose between the hours of 9 A.M. on the Wednesday and 1 P.M. on the Thursday immediately preceding the date on which nominations are to be held.

Section 9. In the annual special election, the ballots of each class shall be a separate color.

Section 10. All elections shall be held on Wednesday the day before the Thursday on which there is a meeting of the Institute Committee.

SHOW VAN DE GRAAFF GENERATOR TOWERMORE

The sphere, which is the heart of the generator are constructed of 2-inch aluminum alloy and weighs 8,000 pounds each. The electric current is carried by means of a paper belt four feet wide which travels at the rate of a mile a minute. Each of the spheres has a floor and is equipped as a laboratory. The apparatus was designed to study the atom, the nucleus of which is to be enlarged by the bombardment of elements by three bullets.

ATTORNEY WILL SPEAK AT PROTEST MEETING

(Continued from Page 1)

ATTORNEY Warner, who represented the defendants at their trial, will speak at the meeting of the Social Committee, any member of which will be held at her home following the wedding. Formal invitations will be available beginning Tuesday, November 13.

The Stickem Sisters!

Lovely girls! ... the greatest pair of Clinging (Continued from Page 1)

Tobacco ageing in storage warehouses.

To age and mellow tobaccos just right to give Chesterfield its milder better taste...

it takes time

We have tried a good many methods to age cigarette tobacco, but we have never found any method that equals the slow old-fashioned plan of aging it in wooden casks for two or four years. All the tobaccos we use in Chesterfield are aged this way.

It takes time, money, and miles of warehouses—but it’s the only way to make a milder better cigarette.

the cigarette that’s MINDER

the cigarette that TASTES BETTER.
Sports Comment

Mort Jenkins' last keg boy hit out of the cross-country run yesterday, but the rest of the team turned in a creditable performance in defeating the Holy Cross runners, 31-26. Ed Kinyon of the villains did not do as well as some of the others, though the team scored, M. T. had the edge over Brown, keeping the bulk of the foreign territory near the front.

The third quarter proved disastrous for the visitors, who were blown out of sight by being scored on a goal by first and then third. It was easier in the final quarter, Technology broke up and showed the Brown and the play continued. You see, two goals during this quarter, while Brown were three. One result was a "corner-kick" play.

A feature which characterized the Technology team was the fine spirit that each man showed. Captain "Frisbee" E. Corea, '37, was the inspiration of the play and determination to fight made him a leader of the M. T. soccer team.

Heavy crews remain on river indefinitely

All heavy crews will continue to row this week, although Brown, who is leading the Charles race, stops work at the Charles stop, it was de- cided by Coach E. Corea. "The boys have been a little tired these past few days and in order to rest them we wish to take the crews off."

The 150 lb. crews, however, will take their workouts Tuesday and Thursday. It is expected that the freshmen crews will join the varsity crews this week and that the varsity crews will get a lot of work this week.

Undergraduate Notes

Sophomores manage for the wre- lling team, which is coached by Capt. A. A. office on the third floor of Walter Memorial. If at the Bewick Gym, the men interested in wrestling may call on Jay Bick or manage H. C. Johnson on Monday, Tuesday or Friday afternoon.

A mass meeting of the hockey team will be held in Room 305, Monday, November 5. The meeting will be held Wednesday, November 7. George F. Forsburg, '35, manager of the hockey team, should attend this meeting. The meeting is to be held by the senior manager.

CROSS-COUNTRY TEAM BEATS PURPLE RUNNERS

(Continued from Page 1)

The order of the first ten finishers:

1. O'Connor
2. Corea
3. Bates
4. Bates
5. Spelane
6. Keesey
7. Cooper
8. Tech
9. Pitch
10. Mathews

The last four to cross the line were Holy Cross men. The winning time was 31.25 minutes. 1/2 seconds.

Pipe Science

There is a definite trend in society toward smoking tobacco and the reason is Prince Albert?

The content of the human body is more a type which is called the nicotine-finish, et cetera, et cetera.

Prince Albert—The national joy smoke

After every class it rings the bell!

It is not only top-quality tobacco that makes Prince Albert the most smoking tobacco. In addition, these choice tobaccos are blended by a secret method that creates a process which absolutely removes all the "bite." You'll enjoy this mild tobacco—all of rich, smooth flavor.
Calendar

Tuesday, November 4
3:00—Technology Matinee Afternoon Tea, North Hall, Walker Memorial.
5:00—Glee Club Rehearsal, Room 10-250.
6:30—M. I. T. Orchestra Rehearsal, Room 10-250.
7:00—Sigma Chi Basketball Practice, Hangar Gymnasium.

Wednesday, November 5
3:00—Meeting to protest sentences of anti-Hanfstaengel demonstrators, Room 4-270.
5:00—Pills Closet, Main Lobby.
6:15—Graduate House Dinner Club, North Hall, Walker Memorial.

Thursday, November 6
3:00—Theoretical Seminar, "Electric Structure of Metals," Prof. J. C. Slater, Eastman Lecture Hall.
5:00—Institute Committee Meeting, East Lounge, Walker Memorial.
6:00—Glee Club Rehearsal, Room 10-250.
6:30—M. I. T. Orchestra Rehearsal, Room 10-250.
7:00—Sigma Chi Basketball Practice, Hangar Gymnasium.

Quarter of Books are Circulated During Year

Branch Libraries Increase Circulation

In the branch libraries only 364,000 books were loaned in 1932-33 more than in 1931-32. The branch libraries include the following separate libraries about the Institute: Aerospace, Architecture, Civil Engineering, Economics, Eastman, Lindgren, Mathematics, Naval Architecture, Walker Memorial. The Walker Memorial branch led in circulation with 18,844 and the Lindgren Library was second with 7,026. The Economics and the Architecture libraries were nearly tied for third place with circulations of 5,885 and 5,006 books respectively.

Circulation Constantly Increasing

Since the school year 1929-30, circulation of books in the Technology Libraries has been constantly increasing. In the last year 75% more books were loaned than during a year five years ago. Comparative circulation for the five years is shown in the following:

- **Year**
- **Volumes Circulated**
- **1929-30**
- **1930-31**
- **1931-32**
- **1932-33**
- **1933-34**

About half of these have been added to the Central Library and the remainder have been distributed among the branch libraries. The library budget furnished 14 of the 10 thousand dollars; endowment funds and special appropriations contributed a large part of the remainder.

Will Send Balloons Alot to Collect Data

(Continued from Page 1)

Of 38 balloons released in the flight last February, 26 were found and returned to the Institute by residents of southern Illinois. In expressing his appreciation for the co-operation of the residents, Professor Rossby today told a brief summary of the results of that study was being sent to everyone who returned a balloon, to indicate the part they had played in the success of the investigation.

A mid-continent location for the experiments was chosen in the hope that most of the instruments would be found on land. To carry out the study in New England, where the prevailing winds are from the west, probably would result in the loiter of most of the balloons at sea. The information gathered in these upper air observations is expected to result in important contributions to the knowledge of meteorological conditions in the stratosphere and to advance the science of accurate weather forecasting.
