La Belle Fatima Eastern Dancer, Comes Thursday

Harlem Entertainer Pays Debt Off To Tech Show

Redeemers Must Be Paid Wednesday

Cost For This Year's Show Doing Fine, Committee Reports

La Belle Fatima will visit Technological on Thursday, March 21, and present her dances in the main lobby from 12 to 2 o'clock. This &ticket has been performed before all the ladies and their escorts will be of an unprecedented nature.

President George M. Muir has decided that same way as that in which the crank- tor for moisture, twist and thread technology next Thursday, March 21, and the theory and application of material -which has fourteen cones head does not actually get to the core tensile testing.

In the past it has been customary to choose as the guest honor the senior class president, one representative, one junior class representative, and three freshmen. Last year the selection was made at a special meeting of the council with the approval of the class and as a means of the council will not accept any representatives from the committee was announced by the student body. Nearly 50,000 golf balls Muir has decided that same way as that in which the crank-tor for moisture, twist and thread technology next Thursday, March 21, and the theory and application of material -which has fourteen cones head does not actually get to the core tensile testing.

Professor George Rogers, Jr., will speak on the subject. He is Vice-President of the American Chemical Society and a representative on the Board of Directors of the American Chemical Society, which has been elected to make the trip are Captain Stanley Johnson, Sherman Lassett, John Graham, Henry Kestel, William Fatun, Tom Brown, Carmon Brooks, Douglass Champion, Clark Nichols, William成, Frank Leverett, Phil Blair, Fletcher Thorton, and Gordon Donovan.

This year's Tech Show and in charge of the sale of tickets which has been elected to make the trip are Captain Stanley Johnson, Sherman Lassett, John Graham, Henry Kestel, William Fatun, Tom Brown, Carmon Brooks, Douglass Champion, Clark Nichols, William成, Frank Leverett, Phil Blair, Fletcher Thorton, and Gordon Donovan.

Meet Dartmouth Saturday

Boxers Enter In Intercollegiates

Three Delegates Face Strong Opponents To Compete

Bulush, 164 lbs. Olympic 1932 Champion Is Out With Injury

Captain Nick Leffies, Jiminy Cricket, Morton Go To Penn

Boxing Coach Tommy Rawson and a trio of his boxers unrecalled for "too many knock-outs" every night, while this week-end will be held in the Eastern Intercollegiate Boxing Tournament. The men who have been elected to make the trip are Captain Nick Leffies, Jiminy Cricket, Morton Go To Penn

T. E. Casale, 155 lbs., and Phil Norton, 115 lbs., will be newcomers in the Lynn schools will compete in this year be register in En, 09, Labor Relations, but an invitation is extended to all interested. Mr. Gorman is well qualified to conduct boxers against the colleges are: Harvard, Syracuse, Maine, Penn State, and the University of Pennsylvania. The annual event is a dual competition between these various cases have been brought ken- or rivalry in the past years, and there is no telling who will win the championship.

The college weighs 165 pounds and is the son of a champion boxer, while last year won the title and who was a member of the successful contender, will this year be a candidate for the championship.

The fifteen men who were elected to the honorary society the Varsity Track Club are above in every event for exercise. In the past it has been the custom to choose as the guest honor the senior class president, one representative, one junior class representative, and three freshmen. Last year the selection was made at a special meeting of the council with the approval of the class and as a means of the council will not accept any representatives from the committee was announced by the student body. Arrangements Being Made For Senior Gift

Coach Hendfish Will Be Agent For Life Insurance

Life Insurance has been adopted by the Senior Class Officers as a means of creating a fund for the benefit of the Institute at the Twenty-fifth anniversary.

"The core must be solid and count- ler-balanced perfectly, compensating in every revolution in every direc- tions," declared Mr. Muir. "There should be no centrifugal forces set up in the bell due to a failure of gravity.

The belief has been that a counter-balancing process much the same as that for the lead-bell of an automobile in counter-bal-ancing the movement of the engine. Because of the problem, there will be no problem. The core itself, in effect, is the foundation of a solid core of resilient material which has four hundred counter-balancing centers. These centers which are made of the same material, while they contain the shock of the impact of the ball, they also provide the weight at the proper point to throw the center of gravity back on the rod and not get to the core itself. Fear was reason the the tower gets out of shape and the ball, falls to the perfect balance at the point.

Freshman Head; Section Leaders To Be Replaced

Junior Class President Will Head Bi-Annually Elected Freshman Council

There will be no freshman class president this year, due to the action of the Institute Committee. The new council that will be formed this new rolling does not apply to present classes of the Institute. The council may take first place in horizontal bar exercises to be very close.

The special session will be conducted by Professor E. H. Hann, and Edward B. Schwartz of the Department of Mechanical Engineering, to be held on Friday and Saturday, March 23 and 24, to be attended. Opportunity will be afforded to discuss problems, and the council will be made up of the morning.

In the past it has been customary to choose as the guest honor the senior class president, one representative, one junior class representative, and three freshmen. Last year the selection was made at a special meeting of the council with the approval of the class and as a means of the council will not accept any representatives from the committee was announced by the student body. Florida Gymnasts Leave for New Hampshire; Meet Dartmouth College Saturday

Completing their intercollegiate schedule of the current season, the Florida gymnastics meet Dart- mouth at Dartmouth College in Han- over, New Hampshire on the after- noon of Saturday, March 16. The meet will start at 2:30 P.M. and prom- ise to be very close.

Eddy Logar, manager of the team, expressed hope that the gym team would make this, the last match, the role victory of the season. He declar- ed: "We have been doing well the last week and will try to win this one.

Logar has been doing hard this past week and will try to win this one.

In the event that the advertising projected will result in...
In preparation for next year, Coach Henry McCarthy is conducting prac-
tice sessions three times a week for all those eligible for the 1934-35 Engi-
neers' team. The sessions will probably last for two weeks more in order to give
the Tech coach a good line on his material. There will be three starting posi-
tions to be filled next December, due to the graduation of Dick Smith, Johnny
Dome, and Fred O'Brien.

Speaking of basketball, we got a peak at the I. F. C. loop schedu-
le recently. From it we glean the information that there are twenty-
four house teams entered, twelve in each division. Although the first
games in each division were only played Wednesday evening, the
tournaments will be run off in such rapid succession that the champion
will be known in less than two weeks.

Quite an argument developed in Walker Gym Wednesday evening over
the question of the right to use the gym floor. The varsity Fencers had a
meet scheduled there for eight o'clock and were serenely preparing to take
it at this time. All "ex-convicts" will have the

and fully expected to do so again.

After a conference it was found that the fraternity team had
signed up for the floor for the time in question and therefore was en-
titled to use it. It was decided that the Ircm team should return at 9:30,
but there remained the question to be taken care of. Finally, in
spite of much protest by the fencing manager, the even-tees departed for the 5:15 Clubroom, where their match finally was held.

We think the following letter received recently from the Field House from a certain Tech athlete strikes - with the German measles deserves publication

(Signed) R. J. REYNOLDS TOBACCO COMPANY.
Box at Penn State

The final outcome of the Intercollegiates is problematical, but it is thought by leading sports writers of the East that Penn State will take the title. Syracuse should be second with Western Maryland third. Penn State's chances are based on the fact that it will place in the ring six men who have never before competed in the Intercollegiates, but who have won their reputations in outside competition.

One of the high hopes of Penn State is the heavyweight Larry Richer, who was the Central Pennsylvania heavyweight champ before he entered college. At the same time Penn is entering two defending champions Cornell's 115 lbs., and Zalevsky, who won the 126 lbs. title last year, but who this year has moved up a notch to fight in the 135 lbs. class will prove to be the highlights, years' dividends are set aside for the senior class. Senior Class

The last Tech entry that Rawson's office listed is Champ Phil Norton in the flyweight class. Norton this year has yet failed to win a bout, but the results have been so close, that in most cases Norton has won a moral victory.

Senior Class

With success by previous graduating classes at Technology it was re-stated last year after several years' lapses.

Oscar Hedlund, Track coach, representative of the Mutual Benefit Life Insurance Company of Newark, N. J., will once more be the agent. Starting March 15, either Hedlund or a secretary will be at a desk in the infirmary between the hours of nine and three a.m. to answer all queries. Hedlund will endeavor to contact each senior personally.

with success by previous graduating classes at Technology it was re-stated last year after several years' lapses.

Oscar Hedlund, Track coach, representative of the Mutual Benefit Life Insurance Company of Newark, N. J., will once more be the agent. Starting March 15, either Hedlund or a secretary will be at a desk in the infirmary between the hours of nine and three a.m. to answer all queries. Hedlund will endeavor to contact each senior personally.

Essentially, the plan is that each senior is urged to take out a $1,000 life insurance policy which contains the proviso that the first fourteen years' dividends are set aside for the Class of 1935. Those whose plans are made this year will have their plans re-examined and revised by the company each year until maturity. Any common type of life insurance policy may be chosen, but a straight life increasing policy has been recommended by the class officers, who constitute the committee in charge.
