Tucker Speaks At Tech Union Tuesday Night

Biley Of Cotton Manufacturers Association Will Be Other Speaker

Subject Economic Nationalism

Economic Nationalism, the question of the day, will be the main topic of Mr. Biley's address, titled "Economic Nationalism and the Cotton Industry." The lecture will be delivered at the Tech Union, Tuesday evening at 7:30, in room 6C60.

Addresses Men On Open House

Dean Of Engineering Speaks On Passenger-Driver Service

On May 4

Development of the qualities of leadership was the subject chosen by Mr. Vanevar Bush, Vice-President of the Institute and Dean of Engineering, to discuss with the students of the spring class during the Open House on the afternoon of May 4. The address will be delivered at 3:00 in room 6C60.

Corrections

Editor's Note: The Tech boys re- ported under the heading "The Freshmen's Part" in the last issue of the paper, that it was quite impossible to cover the entire meeting. Therefore, this issue was omitted on April 11, to be accepted. Candidates for the spring election must be placed on the ballot in the Information Office between 10:00 and 5:00 on Tuesday, April 11, to be accepted. Vanevar Bush, Guest Speaker At Graduate Students Weekly Dinner

On Tuesday evening, the weekly dinner for students was held at 5:00 P.M. in the North Hall of Walker Memorial. The address was given by Mr. Vanevar Bush, Vice-President of the Institute and a member of the National Academy of Science. Mr. Bush's address was on the subject of the problem of the use of mechanical energy, and his paper was based on the work of Professor Henry C. Kretsinger.

Freshmen Hobble Will Be Featured By Student Of History

Opportunities for all freshmen who wish to display their abilities and interests will be featured at the Freshman Hobble program this year. All those interested in this activity should attend the meeting at 11:00 on Friday, April 3, in room 6C60. Mrs. Helen W. Hazen, chairman of the Freshman Hobble Committee, will interview personally all those wishing to participate.

How to order this book:

1. Visit your local bookstore or online retailer.
2. Search for the book by title or author.
3. Select the desired edition and format (print, electronic, etc.)
4. Add the book to your cart or purchase it immediately.
5. Check out and complete your order.

Nominations For Spring Elections Due Wednesday

Each Class Nominates Officers, Two Institute Committee Delegates

Candidates Will Be Allowed To Present Platforms At Open Houses

Electeeation At Polls And Voting Blocks Barred By New Rules

Nominations for the spring class elections are set for the week of April 11, to be accepted. Candidates for the offices of President, Vice-President, Secretary-Treasurer, and two delegates to the Freshman Committee are to be nominated from each class.

In accordance with the amended constitution, the following two new organizations were formed:

1. Activity record at M. I. T. (table tennis)
2. A full face photograph of the standard dimensions (4 inches by 6 inches)

Candidates shall be allowed to hold rallies on the Institute grounds and to hold meetings in other places, but the number of elections must be limited to a maximum of two.

Group Of Portraits Will Be Presented To Institute Today

Pictures Are Of Men Eminent In Science Or Industry

The second group of portraits of men distinguished in science and technical industry, painted by Max Graf, was presented today by Mr. and Mrs. Henry A. Wood, to the Institute. The portraits were presented to the Institute tonight at the dedication of the latest installation of the Institute's library.

The unveiling and presentation will be at 5:00 P.M., tonight. A reception by Dr. and Mrs. Karl E. Hagen, in connection with the presentation, will be held in the Common Room of the new library.

It is justice to those who may be more seriously affected by the disease, especially those students who have no means of earning, and are thus unable to take care not to endanger others. The situation calls for a stricter discipline on the part of the students who should feel their responsibility of minimizing the chances of getting or transmitting the infection.

**WIDER APPLICATIONS**

**THE HONORS GROUP**

The most effective method of educating large numbers of students has long been a subject of debate by educational theorists. One procedure consists of subjecting groups of students to one individual course of lectures or lecture-recitations. The faulty points of this system are all too obvious. The lecturer finds it very difficult to present an organization to the recipient group with any whole body of knowledge, and in many cases the lecture is only an introduction to the subject matter presented and so must accept a definite loss in his education.

So far as the students are concerned, they receive no individual care to keep in good physical condition, and if they are not aware of the danger of catching the disease by taking essential precautions, they may be infected with the disease. The students will have no protection if the disease is not controlled at the Institute, it is essential that any such complications as mastoids, which occur as a result of the disease, be kept under control.

Many of the students are too young to have personal experience with the disease, and in many cases are too young to have the necessary knowledge to help them avoid getting the disease. It is necessary that the students be taken care of in every way possible, and any steps that can be taken to prevent the disease from spreading should be taken.

**PUBLIC SERVICE**

**SUMMER COURSE OFFERINGS**

This summer the Institute will initiate a course in public service administration. Students interested in working for the public service have three alternative courses to consider. A course in public service administration will be offered in the period after leaving college. The Institute of Economics, Organization, and Administration will be taught by the Department of Public Administration, which will be of great value to students, especially for administrative work. The course will be given by the faculty of the Institute, and will cover all phases of the problem, each to be given one week of study, are as follows: public administration, public finance and taxation, control of industry, organization for urban and rural planning, and control, public health engineering, public administration, and organization for social welfare.

Some may ask why a technical institution should take it upon itself to offer such courses. The answer is that these courses are of great value to students, especially for administrative work. The course will be given by the faculty of the Institute, and will cover all phases of the problem, each to be given one week of study, are as follows: public administration, public finance and taxation, control of industry, organization for urban and rural planning, and control, public health engineering, public administration, and organization for social welfare.

A KILO OF PREVENTION

**GERMAN MEASLES**

TECHNOLOGY has been fortunate in receiving relatively unimportant epidemics of disease, but the students have been unhealthy for an extended period of time. The students have been kept in poor health by poor physical conditions, and even though they have been given the proper care, they have not been able to recover.

It is a pity to have had the students kept so ill. It is a pity to have had the students kept so ill. It is a pity to have had the students kept so ill. It is a pity to have had the students kept so ill.

Tech Sharpshooters in Intercollegiates

**Tech Rifle Team Takes On Best Teams In East For Title**

Fifteen crude rifle teams will compete in the Eastern Intercollegiate Shooting Match to be held next week in New Haven. This is the first time in years that a Tech rifle team has been invited to compete against such a large group of intercollegiate shooters. The meet will take place at the New Haven YMCA grounds.

The Tech rifle team has been under the guidance of Capt. James McCallum for the past two years and has shown steady improvement. The team has a fine record in recent meets and is expected to do well in the Eastern Intercollegiate Shooting Match. The meet will be held on April 27, and the winners will receive trophies and medals.

**Tech Students Hold Annual Dinner**

The annual dinner of the Tech students was held last Friday evening in the Riverbank Court Hotel. The dinner was attended by a large number of students and faculty members.

**Annual Dinner And Awards To Be Held Saturday P. M.**

At the annual dinner of the Tech students, which will be held Saturday evening in the Riverbank Court Hotel, several awards will be presented to outstanding students. The awards will include the Distinguished Service Award, the Outstanding Student Award, and the Excellence in Athletics Award. The awards will be presented to students who have shown exceptional dedication and service to the Tech community.

**Ozol New Captain Of Fencing Team**

The fencing team of the Tech students has announced that Ozol will be the new captain for the upcoming season. Ozol has been a member of the fencing team for several years and has shown exceptional leadership skills.

**Meet This Saturday**

The Tech fencing team will compete in the Intercollegiate championships this Saturday. The meet will be held at the Harvard University campus and will feature the best fencing teams from various colleges.

**SPORTS COMMENT**

Looking back on an exceptionally fine season to date, the Tech rifle team, competing in the Intercollegiate championships tomorrow, stands a fine chance of being returned the title. Last year the Engineer sharpshooters were runners-up, but the N. Y. U. marksmen capturing the crown. This season one of the Tech team's three losses was to the Violent Vixens, but the margin of defeat was not large enough to make the New York team better than a very fair favorite to win out the Tech men at the Intercollegiate tomorrow.

The lacrosse team opens its season tomorrow with a practice game with the Boston Lacrosse Club. Last year in a similar meeting the Tech attackmen ended up on the short end of a 2-2 count. The score tomorrow will probably be somewhat similar, but the idea behind the game is to give the Engineers a taste of real stiff competition before they enter their regular schedule of intercollegiate contests. It is to be expected that the Boston Club will be victorious, for the team taken on other Greater Boston college lacks early every spring and consistently defeats them. Last Saturday Tufan was taken into camp by the club team.

The new Tech record for the high jump that Jim Thomson set at the K. of C. games this winter was officially accepted by the Advisory Council recently. At that meet Jim cleared the bar at six feet two inches to better the previous Tech record by two and one-quarter inches. Thomson gave indication of his promise a year ago when he won the Franklin P. T. competition.

Under the direction of Bob Bowie he has made steady improvement, for last year Thomson set a new freshman high jump mark of five feet eight and one-quarter inches. Bob Bowie apparently hasn't much to worry about now either in the broad jump or the high jump events this spring, with Thomson in the latter and Stan Johnson in the former.

The first varsity race will be held the same afternoon as Waverley's Lake Quinquennial. The first crew, under the captaincy of the '31's, will race against Yale. The lake course is expected to be one of the country's finest, and the race two weeks from tomorrow will be the first of a series that will be held every Saturday in May that Beaver crews will use it.

The following crews rounded out the meet on the Charles yesterday evening:

1. V.: Lawrence, Olsen, Wilson, Lowenthal, Graham, O'Connor, Conlan, Bixby, Biddle, O'Brien, Co-op.
2. V.: Barnum, Hale, Hopkins, Cabot, Bangs, McKee, Bixby, Haines, Kirkland.

The Tech fencing team will compete in the Intercollegiate championships tomorrow. The Tech men have shown exceptional promise, and it is expected that they will be able to compete with the best teams from the country. The competition will be fierce, and it is to be expected that the Tech team will give a good account of itself.

**Trackmen in Handicap Meet This Saturday**

Saturday afternoon at 2 o'clock the Tech track team is scheduled to meet in the annual track meet in the Charles River Basin with a handicap meet on the clays. The meet promises to be a good one, with a number of the members working hard to condition for this first meet and it should be a success. The meet will be held on the track in the Charles River Basin and will feature some of the best trackmen in the country.

The meet will be a handicap meet, and the makers of the large number of bets, each betted on a very short time before the start. Only a few of the bidders have been able to understand the terms of the handicap, and the rules of the meet have not been very clear to the bettors.

The rules of the meet will be as follows: The Tech men will be handicapped by a certain number of seconds, and the meet will be held in such a manner that the Tech men will not be able to win the race. The meet will be held in the Charles River Basin, and the Tech men will be handicapped by a certain number of seconds, and the meet will be held in such a manner that the Tech men will not be able to win the race.
Masque Elects New Members To Society

Third new members will be elected to Masque, honorary society of Tech Show, at a meeting to be held today at 5:40 o'clock in the East Lounge of Walker Memorial. Anyone exhibiting outstanding ability in any department connected with the show is eligible for membership.

Dean's List

(Continued from Page 1) without examinations, on the basis of having stood in the upper fifth of their high school classes.

The dean's list carries the names of 21 per cent of the first year students, 33 per cent of the junior class, and 39 per cent of the first year students, having stood in the upper fifth of their class of 1935, who achieved either first, second or third honor rank in their studies.

Elections

(Continued from Page 1)

Elections Committee, but not to form voting blocks or to conduct any form of electioneering at the polls. Any candidate who takes any part in attempting to influence an election in any other than the allowed methods will automatically be dropped from the roll of candidates.

A person is eligible to be nominated by members of his own class for but a single office in the class in which he is a voter.

Nomination blanks shall be submitted in the following form:

We, the undersigned members of the Class of .............................................. do hereby nominate ........................................................ for .................................................. of our Class.

(Sponsor's signatures)

Candidates are reminded that the signature of twenty-five sponsors shall appear on the nomination blank; no individual may sign the nomination blank of more than one candidate for any office; if this happens, his name will be struck from the group of sponsors on every nomination blank bearing his name.

INSURANCE

OF ALL KINDS

WE ASKED OUTDOOR PEOPLE:

"Is this fact important to You?"

MILDNESS! "Every woman possesses a natural gift," says Miss Mildred K. Loring, "in putting up with her husband's virtues. Camels are the only ones I ever find that in—looking upon your fault.

HEALTHY NERVES! "Two months' Camel Cigarettes for 14 years, without any improvement in my nerves," says Miss B. B. Brown, former gold cup winner and outstanding figure in American horse racing. "I was never a nervous person and I think Camels are what I find.

FLAVOR! "I've been trying to be a part of the cast absorption of building Decker Forms," says Miss E. J. Brown, Decker Form engraver. "But every time, I'm more of an admirer of the cameraman than I am of the cameraman. It seems to me that they are really a part of the show, you know. You can tell they are made from choice tobacco, too, because they don't taste like a cigarette at all when you smoke one."

ENERGY! "As a master builder, I have known that my work required just a little more energy than the Cigarettes, just a little more energy than the Camels, it's true," says Miss C. A. Brown, former gold cup winner and outstanding figure in American horse racing. "They are made from a much better tobacco, but we've never had a better cigarette."
Friday, April 5

12:00—Faculty Club luncheon, North Hall, Walker Memorial.
3:00—Tech Dance Tea, North Hall, Walker Memorial.
5:00—Morgan-Tech show elections, east lounge, Walker Memorial.
6:00—President's open meeting, Main hall, Walker Memorial. Interrogation side match.

Saturday, April 6

12:00—New England Association of Mathematics luncheon, North Hall, Walker Memorial.

7:00—Faculty club dinner, faculty dining room and north hall, Walker Memorial. Musical clubs. (Continued from page 2)

The Tech Inquires

(Continued from Page 2)

Ludie D. Blom, '32, X, Deanery:

"The Anti-War Strikers seem to be a battle atms to thwart the inevitable. If nations cannot settle the peace situation, how can that group of people usually associated with radical movements accomplish anything constructive?"

Francis J. Blasig, '38, X, 130 Bay State Road:

"It's fine for the people who have a quiet hour."

Everett H. Coray, Jr., '36, IX-B, 59 Fairmount St., Belmont:

"Good thing if carried out by a majority of students. It may be possible to keep the United States out of the next conflict if the government knows there is a body of strikers will be too much smaller because the sound of marching feet raises havoc with these ideas."

Robert Van Patton Steiger, '36, V, 60 Bay State Road:

"It seems an excellent excuse for some few to get out of classes that afternoon ordinarily reserved for calculus and physics quizzes."

Samuel L. Alpert, '36, VI-A, 15 Lecos St., Boston:

"It seems to me to be rather a foolish way of demonstrating pacifism. Walking out of a class room will merely result in confusion for one hour. A more effective demonstration would be to hold a meeting that would not interfere with the class-room work."

Norman B. Krin, G, VI, 54 Bay State Road:

"I am opposed to another war strike because it can do no harm and may do some good—it is a move in the right direction."

Musical Clubs

(Continued from Page 1)

the intercollegiate glee club competition at Portland, Maine. The orchestra is well known throughout Greater Boston for its many fine concerts given in the past few years.

The program follows:

 Mozart: "Sezvadse; Eine Kleine Nachtmusik" (String quartet)
 Haydn: "Piano Concerto in D Major" L. V. van Beethoven: Symphony No. 9 in D Major.
 L. Adagio motor-allegro Con Brío; H. Lagermeier: Trio in B Minor; S. Scherzo Allegro IV. Allegro a la trasverso:
 Bach: "New Let Every Tongue Adore Thee."
 Franck: "Psalm 150" M. I. T. Choral Club and Orchestra Raveler: "Hampton Dance No. 8" Strauss: "Rinaldo Walther" The orchestra:

"Sure, enjoy yourself," said Jim. "It's a ding good cigarette."

I was working way late at the office one night and ran out of cigarettes. When Jim the watchman came through I tackled him for a smoke.

"Sure," says Jim, and he handed over a pack of Chesterfields. "Go ahead, Mr. Kent, take three or four!"

Jim said he'd smoked a lot of cigarettes in his time, but he'd put Chesterfield up in front of any of 'em when it came to taste.

"... and they ain't a bit strong either," is the way Jim put it.

That was the first Chesterfield I ever smoked. And I'm right there with him, too, when he says it's a ding good cigarette.

Commander MacMillan Faculty Club Guest

A special luncheon meeting will be held by the Faculty Club today at noon in North Hall of Walker Memorial. Commander Donald B. MacMillan will speak on "Adventures in Arctic Exploration."

Chairman Deserves Its Title

The Commander began his career as an officer in the Alaska Field Party in the North Polar Expedition of 1918 and 1919. In the following year he joined the Caledon Land Survey, and returned in 1911 to carry on ethnological studies among the Eskimos. He was leader of the Norwegian Land Expedition of 1918. A while later he explored the Hilsbros Bay, and in the following year he was sent leading an expedition to Baffin Land.

He not only carried on studies in Northern Greenland but also led the MacMillan Polar Expedition. Later he made expeditions to Labrador and for the Field Museum.

Baseball

A special meeting will be necessary for Coach Moccolto to be able to make his choices for this season. The team is not considered a creditable team.

Continuing any and all previous efforts otherwise, the team will not be known as the Beaver. The official name for the outfit is The Cambridges, because baseball is not recognized as a by line address on academic registration. The club has been deemed acceptable by the Tech teams carry is not allowed. The independent team.

Commander MacMillan has been made the leader of the Beaver this season. They include Charles F. Fries, '36, president; Thomas B. Mcleland, '35, vice-president; Thomas B. Klaysh, '33, secretary; and Aurelius P. Hornor, Jr., '36, treasurer.

I was working way late at the office one night and ran out of cigarettes. When Jim the watchman came through I tackled him for a smoke.

"Sure," says Jim, and he handed over a pack of Chesterfields. "Go ahead, Mr. Kent, take three or four!"

Jim said he'd smoked a lot of cigarettes in his time, but he'd put Chesterfield up in front of any of 'em when it came to taste.

... and they ain't a bit strong either, is the way Jim put it.

That was the first Chesterfield I ever smoked. And I'm right there with him, too, when he says it's a ding good cigarette.
