Musical Clubs Give Second Concert
Miss Elizabeth Travis Featured; Program Proves Popular With The Public
Many people from the Institute were among the 500 or more who at tended the second of a series of Sun day Concerts presented this summer by the precision Thermal calorimeter. Many of these who came from the Institute attended an earlier concert under similar conditions.

On Thursday, April 13, the Combined Clubs will give a concert in the Masonic Temple and the Institute's group is among the eight organizations participating in the series. The program will consist of over 18 musical numbers, sung by the Institute Chorus and Orchestra, and will be accompanied by a piano recital by Miss Elizabeth Travis, who has received special training in Hawaii and has recently been awarded a scholarship to study at the University of Washington.

The concerts are a part of the Institute's annual musical series, and are open to all members of the Institute and its associated organizations. The concerts are held in the Masonic Temple at 8 p.m., and are free to the public. The Institute encourages all its members to attend these concerts and to support the Institute's musical activities.
The anti-war strike movement scheduled for April 11th has brought to light some conclusions which are characteristic of the氚elements of war: that it may be justified to conclude from a single isolated incident that a strike is feasible. The editorial board of The Tech believes that the attendance of classes is more important than the meeting which is an infringement of Institute regulations. However, if the N. S. L. feels that it can compete in the campaign with the NA's. O. C. C., let it have its own way.

OPEN FORUM

In opening its columns to letters addressed to the Editor, THE TECH does not guarantee publication nor does it necessarily endorse the views or the signed communications will be considered. However, if the writer desires, only the initials will appear as publicity.

The Anti-War Strike Committee scheduled for April 11th has brought to light some conclusions which are characteristic of the氚elements of war: that it may be justified to conclude from a single isolated incident that a strike is feasible. The editorial board of The Tech believes that the attendance of classes is more important than the meeting which is an infringement of Institute regulations. However, if the N. S. L. feels that it can compete in the campaign with the NA's. O. C. C., let it have its own way.

There is a group of people who have a habit of writing to the Editor, THE TECH does not guarantee publication nor does it necessarily endorse the views or the signed communications will be considered. However, if the writer desires, only the initials will appear as publicity.
#### Sports Comment

The Tech's riflemen didn't come out on top at the Intercollegiate championship Saturday, but they should derive some satisfaction from the fact that they contested N. Y. U. to lead the New Yorkers in the scoring at least partially against the Tech defeat in the Intercollegiate last year and the defeat of a dual match earlier this season. Incidentally, Drexel Institute, a dark horse that had not been considered beforehand, topped second place in the big meet.

The final game in the fraternity basketball tournament, nearly two weeks after the schedule, is slated to be played tonight. Sigma Chi and Chi Phi are the two teams that will battle it out for the title. Sigma Chi will be seeking its third straight championship, but the Chi Phi brothers will offer plenty of opposition. Although it has not been definitely settled yet, it seems fairly certain that Walton, winner in the form bachelor league, will clash with trustee winner in a contest to determine the dorm-fraternity champion. Last year no such competition was held but there appears no likelihood this season to revive the custom of previous years. Next Monday evening has been set as a tentative date for the battle.

* * * * *

That Intercollegiate Gym Championship competition that will take place in Walker Gym next Saturday will be well worth watching. The gymnasts from Temple, Army, and Navy have competed here earlier this season and there are plenty of smooth performers on these three teams. Add to them the Furtmehl and Princeton teams, not to mention the two or three outstanding Tech men, and you have an attraction that is hard to match. Just in passing we might mention the fact that Dick Lewis, Tech's best bat on the parallel bars, is at present among the Tech eaeaters, victims, but it is expected that the quarantine will be lifted before Saturday.

Dr. W. M. Bennett, of the local hospital, said yesterday that he is doing pushups on the in
cubator to keep fit for the competition this month-end.

CALENDAR

Tuesday, April 9
6:30—Society of Automotive Engineers Dinner, North Hall, Walker Memorial.
4:00—Technology Majors' Tea, North Hall and Faculty Dining Room, Walker Memorial.
6:00—The Graduate House Club Dinner, North Hall, Walker Memorial.
6:30—Alpha Chi Sigma Dinner and Speaker Meeting, Faculty Dining Room, Walker Memorial.
5:30—The Scroll Society Dinner, Silver Room, Walker Memorial.

Thursday, April 11
1:00—Nominations for Class Officers due.
2:00—Colloquium on Partial Differential Equations, Mr. E. J. Schremp, Room 2-363.
3:00—Theoretical Similarity, Theories of the scattering of Light, "The Kramers-Heisenberg Dispersion Formula", Mr. W. Schockley, Room 6-130.
4:30—Physical Colloquium, "Electron Diffraction by Gas Molecules", Professor Linus Pauling (California Institute of Technology), Room 6-100.

Promotions (Continued from Page 1)
Professor Robert B. Rogers of the department of English also has been promoted to full professor of English. Professor Rogers was graduated from Harvard in 1908 and was an instructor in English at Williams College the following year. He joined the teaching staff of Technology as an instructor in 1913, and was an assistant professor in 1917 and an associate professor in 1925.

Promotions to the rank of associate professor include Professors Donald C. Stockbridge, John A. Braddock, and Hans Mueller, all of the department of physics; Professor Ernest R. Hoitzen of the department of chemistry; Professor R. A. Compton, electrical engineering; Nicholas A. Milne, Charles M. Warneken, and Arthur S. Davis, department of chemistry; Howard R. Hartlett, English, and Marshall W. Jennings, history.

Promotions to the rank of instructor include: J. Ross McKeever, architecture; Arthur R. Fitzgerald and Edward W. Kischke in electrical engineering; John K. Venard and Herman G. Puzan, Jr., mechanical engineering; John L. Parker, biology; Robert H. Armstrong, chemistry, and Harold A. Freeman, economics.

Moreland (Continued from Page 1)

Commissioners and of the Sewer Commissioners.

Moreland was born at Lexington, Va. in 1885. He is the son of Sidney T. and Sally Preston Moreland, and his father was for many years professor of physiology and dean of Washington and Lee University, later becoming professor of physics and dean of the pre-medical school of the University of Tennessee. Mr. Moreland received his early education at the McDonogh School of McDonogh, Md., where his father was principal for several years, and the Boys' Latin School of Baltimore. He received his bachelor of arts degree from Johns Hopkins University in 1910, coming directly to Technology for his advanced studies. Upon his graduation, he entered the Boston engineering firm of D. O. and W. B. Jackson, which in 1910 became the firm of Jackman & Moreland, from which Professor Jackson retired in 1930. The members, in addition to Mr. Moreland, now are Frank M. Carruth and Ralph D. Hunt.

Open House (Continued from Page 2)

for Measuring Analyzer, and Grading of Wool for Maturity by Polarized Light.

Many events typical of undergraduate life at Technology, including a crew race and a track meet, will be held. Free copies of Technique, the student year book, will be awarded to the winners of Technique rush. The rush begins with the appearance of the first paddles, representing a copy of Technique, in an unannounced place. The students scramble for the remaining paddles as they appear through a hole in the roof of a thoroughly greased hut located in the center of the athletic field. The contestants must climb over the oily surface of the hut and fight for the coveted paddles as they appear.

Free copies of The Tech and Voo Doo will be presented in the Main Lobby and elsewhere on that day.

Walker Memorial will do its share to make Open House a success with its gymnasium the scene of many student activities. A short concert will be given by the Combined Musical Clubs, followed by a play presented by Dramashop. The audiences will then be entertained by the popular dance of Technique.

Northfield/Student Conference Scheduled

On Wednesday, April 16, at 12:45 will be held a luncheon meeting of all adults and students of men's colleges in greater Boston interested in plans for the annual Northfield student conference on June 18-19, which will be held at North Hall of Walker Memorial.

Sherwood Eggy, who is scheduled to speak at the conference, will discuss the importance of the conference in the life of the student.

To loneliness...I bring companionship

I'm your best friend

I am your

Lucky Strike

I am a friend indeed. A better friend than others, because I am made only of mild, fragrant, expensive center leaves. I don't permit a single sharp top leaf nor a single coarse bottom leaf to mar my good taste or my uniform mildness. I do not irritate. To loneliness I bring companionship. I am the best of friends.

LUCKIES USE ONLY THE CENTER LEAVES...CENTER LEAVES GIVE YOU THE MILDEST SMOKE

They Taste Better
