professors Currying Favor of Students in Effort To Win
For Quiz At Same Time
Some assignments are expected to be very light this week as the In-stitute's pl of Student Council is about to meet for the first time since its organization by John C. Austin, '36, chairman ex-official of the Field Day Committee, presided at the meeting, introducing Richard Baule, '36, who explained the reason for the sentiment against the sale of vegetables. All the members of the Student Council, which is the first important one of the new groups. It was decided to supply an outlet for vegetables, which have been raised in the student loan fund. It will prove very necessary for a class to win the competition. Professor Robert E. Loom, former chairman of the meet-ting, presided at the meeting, introducing the student loan fund.

WE ARE STANDING STILL MORAL PROGRESS

The modern man prides himself in being a moral and philosophical creature. Morally, it is his idea that science, education, and economics are the three greatest and greatest doveloapers, are lifting man from a lower to a higher and higher moral plane.

This idea of progress is relatively modern, sprouting forth following the Middle Ages, when the new civilization's ideas of science and education had begun to bloom. The three great factors of science, education, and religion had come into being, and were better prepared to absorb the alleviating effects of literature, art, and poetry that man also had developed. They had also served to brown the baleful elements of their environment.

But, is it true that man has made progress in science; in art; in learning? Is humanism, humanism in its true meaning, a goal to be sought for and that we, as human beings, can have as we have always been and will always be. For these factors of science, education, and religion had been thought of as means to an end, and education was the greatest means to an end, because education was the way to progress. But, is there any evidence as to whether or not the humanist idea is true? Is there any evidence to show that we are any better off than the man of the Middle Ages, any better off than the man who believed in science, religion, and humanism?

Therefore, I believe that the modern man is as yet not any better off morally than the man of the Middle Ages. Even though the things we have today are not as good as those we had then, the things we have today are at least as good as those we had then.

Do we have as much to thank for the advancement of science as we were to thank for the advancement of science in the Middle Ages? Are we as much to thank for the advancement of science as we were to thank for the advancement of science in the Middle Ages? Are we as much to thank for the advancement of science as we were to thank for the advancement of science in the Middle Ages?

Egg Right
An Egg Right is a contest in which the winner is the one who can make the most eggs in a given period of time. The eggs are judged on their size, shape, and quality. The winner is awarded a prize for their efforts. The contest is typically held during the spring and summer months.

The Egg Right is a popular activity among children and adults alike. It is a fun and educational activity that teaches children about the importance of healthy eating and nutrition. The Egg Right also promotes friendly competition and teamwork among participants.

The Egg Right is often sponsored by local schools, community centers, and egg producers. The contest usually involves setting up an egguncation station where participants can learn about the egg, its history, and its nutritional benefits.

The Egg Right is an exciting and enjoyable event that brings families together and promotes a healthy lifestyle. It is a great way to celebrate the egg and its many benefits for our health and well-being.
Soccer Ambitious Tag Team
Snaps Fourteen Foot Bench

Snapping the post in two with the first pull, the Sophomores Tag-Team at the Third Annual Intercollegiate Track Meet demonstrated their prowess in the practice last night. The strength of a rope to which the rope is fastened is approximately 15,000 pounds and yet the bench was broken just above the level of the ground.

Several Sophomores6 carried the splintered post over to the track and began prepping it up before the office as a sign that the freshmen tug-of-war team.

Varsity Rifle Team
Tries This Week

Rifle Range Will Be Open From 1-5 Every Afternoon, 7-9 On Saturdays

During this week only, Technology's rifle range will be open from 1-5 every afternoon and from 7-9 on Saturdays in order to allow these interested in giving out the varsity rifle team a chance to show their accuracy.

Henry Hagedorn, '35, and Franklin Houghton, Jr., are members of the rifle team, and they will put on the show for the students.

There is no rifle range in the country with a higher rating than the one at Oakley Country Club. The rifle club will be in session all through the week end.

Golfers Hold Meeting To Plan Fall Tourney

A golf meet will be held today at 5 o'clock in Room 1-100. The gathering is for the purpose of making arrangements for the upcoming tourney and for deciding the honorarium that will be paid to the captain.

The luncheon will be held at 11 o'clock in Room 1-190.

A group of 150 schools considered so far, are interested. The meet will be held in a location to be announced at a later date.

Sports Substitutions

Figures from the department of hygiene show that 346 of approximately 400 schools who have applied for the Tech Institute have signed up for some form of preference in taking the students from Tech. The Tech Institute has a much larger amount available for equipment. The benefits are spread over the year.

Carmody's Orchestra Will Play November 1
At Dormitory Dance
Tickets At $1.50 Per Couple
Will Be On Sale To All Students Next Week

The scene of the annual Field Day Dance, which will as usual climax the events of the day of combat between the undergraduates. Open house will be observed in the dormitories from 2 till 11 P.M.

Jimmy Carmody's orchestra, which has just concluded a summer's engagement at the exclusive Equinox Hotel in Manchester, N.H., will furnish the music, and the decorations will feature the Field Day scene emblazoned in freshman ties. Arrangements this year are in charge of Harold E. Preston, chairman; David E. McLeod, '37 and Tuglough T. Smith, '37, of the Dormitory Dunes Committee.

Wallace will furnish refreshments throughout the evening in the Grill Room, and will have coffee, ice cream, as well as all kinds of cold beverages, for those who desire them.

Although the dance is sponsored by the Dormitory Dance Committee, it is by no means restricted to Dormitory residents—indeed all Technology students are invited to attend.

Faculty Club Outing Held Last Saturday

The Faculty Club held its first meeting of the season at the Kenmore Country Club last Saturday, under the direction of Professor George K. Russell, the vice-president, golf, tennis, and other sports were available to those who cared to play, and bridge was popular among the ladies. During the day, meeting places of some of the "daffers" swung a golf club were taken.

Over fifty members of the faculty were present at the dinner, at which Professor Harrison, the chairman called upon Dr. Karl T. Compton, who spoke briefly, and upon Professor Frederick K. Norris, Professor Walter M. Pike, Professor Dana P. Berle, and Professor Edwin H. Scheib.

The club officers are Professor George K. Harrison, the president; Professor Russell, the vice-president; John M. Nally, the secretary; and Professor Leicester P. Hamilton, the treasurer.

Copley Theatre Holds "Kind Lady" Contest

For a period of five weeks the John Craig Productions will give away five pairs of tickets for the best fifty-word criticism of the Kind Lady, now being shown at the Copley Theatre. All criticisms must be in before November 10.

The judge of the contest will be Miss Helen Eager of the Boston Traveler, Miss Kitty Donovan of the Boston American, and Miss Mary Boit, Dalton, Church & Hamilton

Conditions Improving Says Pennell N. Aborn

A substantial improvement in the outlook of jobs was noted by Mr. Pennell N. Aborn, secretary of the Undergraduate Employment Bureau, who told a reporter, yesterday, that 700 students earned $1,000 or about $130 per man during the past summer.

"This is a large increase over the previous summer and there is everything to believe that conditions are in general improving," declared Mr. Aborn.

Three hundred and fifty students are likely to be placed through the Bureau during the school term, he stated. This is in addition to the two hundred and forty jobs provided by the National Youth Administration.

Mr. Aborn qualified his statistics by stating: "In judging these figures one must take into consideration the conditions in the Institute, which make it possible for a student to put in only a limited amount of time. These conditions result from the fact that an extra large amount of work must be covered in order to prepare a student sufficiently for the profession which he intends to follow."
