The WHOLESALE KIDNAPINGS
ALTERNATIVE TO EGG-ThrowING

I am sure that we read in our last issue that the climax of the kidnapping season had arrived when freshmen took over at All-Over. That same night the wholesale kidnapping of some 600 freshmen by Sophomores took place, thus establishing a new record in the number of kidnappings at one time.

And Field Day was a complete success. Not one led smothering egg-bombed admission to the Tech Show ever written," said Fred, looking like a previous Tech Show. He walked out the most

Compton Will Talk On Nov. 12 In North Hall
Talk Will Be On Engineer's Work With The Government

The Tech Union will feature Dr. K. D. Compton, President of the National Science Advisor Board. The content of Professor Compton's talk will be much the order of what was covered in the `Children of the Century," the reference to the National Science Advisor Board. The Advisory Board, composed of the foremost scientists and research workers in the United States, is ready to present a research program to the various fields.

PEACE

(Continued from Page 1)

which included support of neutrality legislation, support of the Suy-Kiviat Bill as an aid to victory, and the prin- ciple of the return of all territory to the same

status from which it was taken.

In addition to the presentations that were

made, the committee received a list of all

names of members of the Intermural League,

including those from the places where the pro-

posed committee would be located.

In conclusion, the committee expressed

its desire to have the support of all groups

on the campus, and to have the support of

the people in general.

THE TECH

Inquires

This column endeavors to solicit student opinions on questions of timely interest. Questions and comments published in this column have been edited and, when necessary, compiled by the TECH staff for publication.

The Tech endeavors to reply to every question submitted if possible.

This week's questions:

1. Professor Theodore Smith and Professor Henry Abbot are to be proud of what they have done in organizing the Intermural League. Many students have expressed the hope that some form of committee will be organized to continue their work.

2. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

3. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

4. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

5. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

6. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

7. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

8. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

9. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

10. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

11. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

12. The Intermural League has the power to make laws for the league. Is it not desirable that the meetings of the Intermural League be open to the public?

**Field Day**

(Continued from Page 1)

Sophomores recovered before the freshmen had taken the lead.

Football in Rain

The president who was interested enough, to sit through the football game in the rain as Field Day was a well played game. The freshmen were forced to play entirely on the part of the field that had been wet, and although they held off a few strong attacks in the first quarter, the Sophomores scored in the middle of the second quarter The second half brought forth a hard fought goal push by the freshmen; they managed to get away with their touchdowns with a completed twenty yard pass. With the score tied, both teams played hard. The Sophomores went for the winning tally ending the game at 14 to 6 in favor of the Sophomores.

**T. C. A. Drive**

(Continued from Page 1)

At the close of the meeting, the workers were themselves asked for their contributions. The progress of the Drive will be measured by a check-book memorandum in the Main Lobby. The drive this year is on for four days, closing at 4 o'clock Friday.

**Student Christian Council Has Meeting**

Five Technology Students Are Present At Cedar Hill

Five Technology representatives were present at the first meeting this year of the Student Christian Council at Cedar Hill, held last Saturday afternoon and Sunday.

**Architectural Prize**

First and third prizes for the best competitive weekend problems is in architecture of students at Technology, Harvard and the Boston Architectural Club participants for the H. Langford Warren Prize were taken by two Institute students, George S. Lyle of Boston and Victor C. Colbert. Second place was won by a Harvard student.

**P.E.P.**

Pi Tau Phi Sigma, the honorary Signal Corps Fraternity, will conduct a smoker in the Grill Room at Walker at 7:30 Wednesday evening, November 21. Moving pictures of Summer Camp will be shown, and Colonel Vedal will cap off the Nile-Ralph ethnological talk.

**Informary List**

At present the students in the infirmary are: George T. Fee, '39; Theodore Harris, '39; John H. Gander, '39; Henry langford Warren Prize were taken by two Institute students, George S. Lyle of Boston and Victor C. Colbert. Second place was won by a Harvard student.

only players who had their trouble with the west ball.

Play during the first quarter was hard and fast with the edge going to Tech.
In the second quarter, the Tech forwards who so far had not been able to click, suddenly found themselves and began a steady serious offensive. This Artie of the Beavers dropped a corner shot in front of the goal which Gilly Wu masterfully placed for the first score. Wu now had the scoring samples, and five minutes later, he tapped a short left twenty yards out and drove home a terrific drive that Whitcomb never had a chance to get.

The half ended 2-0.

When the second half started, the Beavers suburbs concentrated in the chose of two hundred co-eds in the windows of a nearby dormitory, unleashed a vigorous attack on the Tech goal. Finally Zypricki drove a hard shot which Gray, the Tech goalie, partly deflected into the upright, but the ball bounced off and hit Gray on the back and bounced in for the first Bridgewater score.

Once again, Tech rallied and late in the second stanza, Wu, from thirty yards out, tied the game, and began a steady serious offensive. The summary:

**Commuters Will Hold Free Victrola Dance**

**Dance In Main Hall Is Planned For Last Of November**

The Commuters' Club will hold another of their informal victrola dances in the choral room on Saturday evening, November 16, from eight-thirty until midnight. This dance will be in celebration of Armistice Day. Admission will be free to members, and guests will pay 50 cents per couple. No stage will be admitted.

Please see also being made for a dance on November 27. This dance will be held in the Main Hall at Walker and Ken Burns' Orchestra will furnish the music.
