Fate of 1937 Junior Prom to Be Decided Wednesday With Committee Elections

New P.T. Rules Allow Frosh To Transfer Substitutions

Virginia P. McCarthy, director of physical training, announced yesterday that all freshmen who have signed up for a sport for the first term and who wish to make a change will be allowed to do so. The deadline for making changes is Dec. 27th.

Financial failure in past grounds for abandonment

Had $12.50 deficit last year; Dochin played at Stater

Future P.T. rules will require all freshmen who sign up for a sport to be eligible for transfer. The reason given is that it is unfair to the athletes who sign up for a sport later, as their chances of making the team are less.

"Without most people, or several sports..."

The Junior Committee next Wednesday will decide the success of the 1937 Junior Prom. President of the Junior Committee will be in charge of the planning.

"Financial failure of the Prom in the past..."

The Junior Committee will talk about abandoning the past, but each year the Junior Committee tries another charm to make good. Much more enthusiasm must be shown by the Junior Clun if it is successful. The Junior Committee will meet Wednesday to discuss the matter.

Debaters To Meet Harvard Thursday

Technology Team Will Demand Congress Repeal All U. S. Commerce

Resolved: That a refund of the Commerce laws, as they are now enforced, is a proper and just demand of the United States in harmony with the following specific provisions of the laws:

1. The Bill shall have the power to control the sale of goods in any state or territory by persons not domiciled in the state or territory who have sold or are about to sell a commodity in interstate commerce.

2. The Bill shall provide for the registration of all persons who import goods for sale in the United States from foreign countries.

The debate will take place at 7:00 P.M. in Room 3-306.

Fraternities Lead In T. C. A. Drive Collections Total Over $19,000 Including Pledges—At 5 P.M. Last Night

T. C. A. drive collections totaled $21,000 at 5 o'clock last night, with several workers yet to be heard from. The pledges and contributions were for the lead in contributing, with a total of nearly $25,000. These figures for the first time, contributions from the members were more than from the dormitories. Some members have so far given $500, to $250 from the dormitories.

This total of $19,000, which includes pledges as well as cash contributions for the period of one week time. The total of $25,000 is the great increase in contributions from the community, according to T. C. A. officials, in the system of "direct contact" which is being worked out with Watertown, the fraternity house and the dormitories.

As expected, the fraternity members were very much encouraged by the drive, while those who have not yet joined are encouraged to join. The drive is aimed at the dormitories, where contributions have so far been very limited.

"Frostbite" Mass Meeting Tuesday

Students Concerning Draft In 1938 Hold No. 12

A mass meeting of the students will be held Tuesday, November 12, in Room 5-330 in connection with the proposed "Frostbite" dance to be held in the North Hall of Walker Hall, President Compton will speak at the meeting and the student will be asked to state his desire to have the problem handled in the form of a mass meeting.

Well, we climbed up to 6:45 in the other right finished a couple of very detailed photographs. After being available for "Frostbite,"--hope we are fortunate after the public hearing of the student body,--we come before the standing committee, on which one of the questions is on the table. Professor Mueller's accomplishments will be discussed by the collection of the German student body. He is known as he is best, but, also as a sharpshooter in the fire department, where he has worked for a short time.

"Frostbite" will be held November 12, in Room 5-330 in connection with the proposed "Frostbite" dance to be held in the North Hall of Walker Hall.

Commuters Will Hold "Vice Dance" Tonight

With music provided by the best bands in the country, the Commuter Club will celebrate Commuter Day this evening at a banquet and "Vice Dance" in their club room. Admission will be fifteen cents per couple for non-members, who are admitted free. No seats will be permitted.

The Commuter Club are also planning a "Frostbite" dance to be held Thursday evening, November 27. The dance will be held in the Nutrition Hall, and will be open to all Commuter Club members.

Open House Invitations To Get Voter Of Faculty

The results of the students' ballots taken Wednesday, November 14, at 7:00 o'clock in the Walker Library, will be announced at the Open House, which will be held this Friday, November 15, after the A.M. chapel service. The open House will be in charge of the Faculty, who has had a meeting to decide the matter.

Butlers will be sent in the Front Hall in the morning to deliver the invitations in such a form that they can be returned unopened if such is desired.
POLITICAL CRYSTAL GAZERS WHERE THEY PAVE

WI-th an ear to the ground, an eye to the future their backs to the wall, and with a sense of responsibility in the taxpayer's pocket the politicians of the two major political parties are scanning anxiously the political horizon, for the look-out from which the wind is going to blow in 1936.

The latest off-year elections in New York State and New Jersey have, to say the least, made for confusion, and elsewhere afford another opportunity for party chiefs, also-runs, and editorial writers to make into the mysteries of the division with all of his majesty the voter; for the party chiefs, to adjust campaign speeches, platforms and slogans; for the editorial writers to select the wheat out of the chaff; to hitch their political fortunes to the bumper crop of some political candidates out of the barren field of their next year's crop.

More particularly we are concerned with Mr. Wechsler's description of Technology as a large and independent capital stock, of which the managing engineers to fill the ranks of capitalists of the upper class, with consequent enrichment of the capitalist system. He points to the mighty industrial organizations represented on the Corporation, the sensitive conservatism of students and administration, and the belief that student candidates must be for action to own the homes of the upper middle or upper upper middle class.

Unfortunately, Mr. Wechsler's picture is quite a reverse to that of his as a student. In point of fact, however, he err fatally. Many of the students who come to Technology are not from the homes of the wealthy, nor even from upper middle class families.

In the last analysis people are motivated by powerful and not always easily discernible forces even more than their own economic interest for action may manifest itself in a highly emotional and irrational manner.

"REVOLT ON THE CAMPUS" ITS DESCRIPTION OF TECHNOLOGY

JAMES WOOLLEY, Editor last year of the "Columbia Spectator" and now a contributing editor of the "Student Review", has written a book which he calls "Revolt on the Campus." In the main it is concerned with a discussion of the student movement at Technology and includes a portrayal of student and official attitudes at some of the largest universities in the country.

More particularly we are concerned with Mr. Wechsler's description of Technology as a large and independent capital stock, of which the managing engineers to fill the ranks of capitalists of the upper class, with consequent enrichment of the capitalist system. He points to the mighty industrial organizations represented on the Corporation, the sensitive conservatism of students and administration, and the belief that student candidates must be for action to own the homes of the upper middle or upper upper middle class.

Unfortunately, Mr. Wechsler's picture is quite a reverse to that of his as a student. In point of fact, however, he err fatally. Many of the students who come to Technology are not from the homes of the wealthy, nor even from upper middle class families.

A better picture of the average Technology man was one in which it was emphasized that the student was made possible through sacrifices on the part of the members of his family. Often it seems necessary to work during the summer to earn or upper middle or upper upper middle class.

An additional point to the conception of Technology as a subsidiary of capitalism. It was argued that this capitalism is not for the benefit of the students and the faculty but for the benefit of the students and the faculty. Therefore, in point of fact, however, he err fatally. Many of the students who come to Technology are not from the homes of the wealthy, nor even from upper middle class families.

In the last analysis people are motivated by powerful and not always easily discernible forces even more than their own economic interest for action may manifest itself in a highly emotional and irrational manner.

Hockey May Now Be Substituted Instead Of P.T.

Ralph T. Joep Announced Ruling Of Advisory Council At Rally

Coach Owen Will Have Fresh Practice If Numbers Warrant

Good Season Expected Because Many Varsity Men Are Back Again

At a hockey mas meeting held in Room 1:45 at 5 o'clock Wednesday afternoon in the Little Hall, Joep, Chairman of the Advisory Council on Athletics, announced that he would allow hockey to be substituted instead of physical training. This was said to follow the usual rule of attending the first freshman practice would be instituted the first freshman practice will be Nov. 12, and all others and graduate students are asked to make appearances at games if they have not done so. A well-known New York photographer has been engaged to take the pictures.

Boaters Face Clark, Hope To Repeat Win

Fresh from its victory over Bridgewater State last Saturday, the Taft hockey team has announced that it will play Clark on November 13, at 5 o'clock in Room 4:00 PM. In the game to be played on November 13, they have announced that they will be able to continue its winning at the expense of the team in a game to be played on the Field Coop tomorrow afternoon.

A set of Goethe's Works

The first meeting this year of the Undergraduate Notice Board will be held November 13, at 5 o'clock in Room 4:00 P.M. The meeting will be held in Room 4:00 PM. Guests and prospective members are welcome.

Tech Cross Country In N.E.C.I.A.A. Run

On November 11, the Varsity and Freshmen Cross-Country teams will compete in the annual N.E.C.I.A.A. meet, at Franklin Field. The Varsity team has not had a very successful season so far, and will consequently be out to make a good showing. Captain B. Chalmers is not expected to run since he is injured but will be in attendance.

Frosh will be shloxn. Guests and prospective members are welcome.

<td>Turnovers at the polls are usually considered an indication of class support of the Prum, and the Institute Committee rulings against voting blocs and electromustering at the polls are still in existence. Last year the Junior Prom had a deficit of $442, out of a total budget of $1770. This price was $4, overpriced $3, and redemptions $5. Eddie Duchin's Orchestra played at the Hotel Statler Grand Ballroom. In the years before, M. Hallett, Bert Loss, and Benny Weeks furnished the music, at prices ranging from $750 in 1934 to $125 in 1935. The Prom was first held outside of Walker in 1934. David S. McLellan, 77, President of the Junior Class is chairman of the Prom Committee. He is largely responsible for the co-operation of the Institute Committee and its Executive Committee. Beaver Key Society to which eight men will be chosen is an honorary society which acts as host to visiting teams. It holds several meetings as well as social affairs throughout the year.</td>
