Institute Receives Million From Will Of Charles Hayden

Bequest Will Be Used For Expansion Program

Dead Corporation Member Is Eulogized By Pres. Compton

Philanthropist Gave Dormitory And Helped Mining Department

One million dollars was left the Institute in the will of Charles Hayden, '90, which will be used as a nucleus for President Compton's \$12,500,000 expansion program. Other bequests were made for the development of the youth of America.

Dr. Compton issued the following tribute yesterday to Hayden who was a member of the Corporation:

"Mr. Hayden's generous bequest to the Massachusetts Institute of Technology only serves to emphasize the constructive value of his lifelong interest in the institution and the great personal loss suffered in his passing. At the time of his death, he was not only a member of the corporation of the Institute but was, also a member of its finance committee, chairman of its student loan fund committee and chairman of the Research Associates of M. I. T. To the latter two of these activities Mr. Hayden

New Managing Board Of The Tech Will Be Announced Tomorrow

WBZ, WBZA Program Manager Will Be Guest Speaker At Banquet

With the stage all set for the inauguration of Volume LVII, the annual formal banquet of The Tech will get under way tomorrow night at 6:30 o'clock in the Parker House. A host of important Institute personages have signified their intention of being present, with John F. McNamara, program director of radio stations WBZ and WBZA, scheduled to deliver the main address.

All the mingled emotions of "Ring out the old, ring in the new" will prevail as the present managing board turns over the reins to its successors, whose identities are still a secret.

Preceding Mr. McNamara, the retiring board—consisting of Walter T. Blake, '37; James G. Loder, '37; Arthur M. York, '37; and Leonard A. Seder, '37—will deliver brief farewell addresses.

Tech Men Are Leaders In Boy's Club Work

Several Institute men are acting as boys' club leaders at the Marginal Street Center in East Boston under the sponsorship of the T.C.A.

Robert E. Hadley, '38, is organizer for the Center; Albert M. Mendle, '39, is in charge of woodworking; Alden E. Acker, '37, and Russell E. Coile, '38, are organizing a radio society. Harry S. Shubart, '37, Augustus Murillo, '39, and William F. Newkirk, G., are assisting in other projects.

Office Asks Registration Material Be In By 1 P.M.

Today is the last day that students may return their registration material, without paying the fine of five dollars. The material should be left in Room 3-107 before 1 P.M.

Students are warned not to deposit their registration material in mail boxes today, expecting it to be delivered before 1 P.M. All material should be delivered directly to room 3-107.

Course XVI Hears Speech By Gorrel

President Of A. T. A. Predicts Atlantic Air Service By Next Year

"By 1938 there will be regularly scheduled passenger service over the Atlantic Ocean." This was one of the many vivid predictions made by Colonel Edgar S. Gorrel, president of the Air Transportation Association of America, in a Course XVI Open Lecture Wednesday afternoon in room 5-330.

Colonel Gorrel, former president of the Stutz Motor Car Company, is a graduate of the United States Military Academy and received an S. M. degree in Aeronautical Engineering from Technology in 1917. During the World War he was aviation representative on General Pershing's Staff.

Predicts Big Future For Aviation
Colonel Gorrel presented a glorious future for aviation in his lecture. He expressed an opinion that within five years airplanes will have a 200 foot wingspread and weigh around 125 tons. He also believed

Dramashop Presents Annual Play In April

Committee Appointed To Report On Plays Considered

April 8, 9 and 10 were set as the tentative dates for Dramashop's spring production at its final business meeting of the term Wednesday evening. A committee was appointed to read and report on the plays under consideration for the production.

The play selected will be either one of the modern school of drama or a sophisticated comedy. The committee consists of: James J. Souder, G; Ruth G. Raftery, '38; Gordon Stephenson, G; David L. Morse, '38; Joseph A. McGinniss, '40; and Norton Polivnick, '41.

One hundred dollars were made on the "Ghost Train", presented this fall. About half of this was used for the Dramashop Christmas party, leaving a balance of fifty dollars in the club treasury.

The next meeting will be held on February 10 at which the officers for next term will be elected and the play for the spring production decided upon. More Dramashop tryouts will be held later on in the year.

T.E.N. Announces Managing Board For Coming Year

Saunders, Kemp, Novak Will Manage Engineering Publication

Donald Fink Speaks At Banquet

The Senior Board and the Managing Board of Volume XVIII of the Tech Engineering News, and the presentation of a new cup were announced at the publication's formal banquet held last Tuesday evening in the Captain's Ball Room of the Myles Standish Hotel.

The new officers of the Senior Board are: Harry O. Saunders, '38; General Manager; Frank B. Kemp, '38, Editor-in-Chief; and Richard A. Novak, '38, Business Manager.

The new members of the managing board are: Joseph J. Donovan, '39, managing editor; R. Dixon Speas, '39, associate editor; Monarch L. Cutler, '39, associate editor; Paul B. Farwell, '39, treasurer; Robert V. Smith, '39, advertising manager; Augustus A. DeVoe, '39, circulation manager; Samuel E. Hutchins, '39, staff manager; and John C. H. Lee, Jr., '39, publicity manager.

Seniors To Dance Tonight In Walker

Tommy Blanton And Orchestra Will Furnish Music For Prom

Fourth-year men will dance tonight to the swing music of Tommy Blanton and his orchestra at the annual Senior Dance, to be held in the Main Hall of Walker Memorial from nine until two.

No Admission Fee

The dance is free to all seniors and fourth year students who are enrolled in five year courses, the expense being met with funds from the class treasury. Careful precautions will be taken to see that no others are admitted. No tickets are necessary for admission, as arrangements are to be made at the door.

Beaver Club To Usher

Ushers for the occasion will be provided by the Beaver Club, Junior honorary society. The fifteen members of that organization who were initiated last spring will serve as ushers.

Chairman of the committee on arrangements for the dance is G. Richard Young.

Freshman Cabinet Holds First Meeting

The freshman cabinet of the T. C. A. held its first organized meeting this week under the direction of Philip A. Stoddard, '40, president. Guests were Chauncey F. Bell, '38 who spoke on the Handbook and Foreign Student work, Edward J. Kuhn, '38, director of the T. C. A. Drive, and J. Warren Evans, '39, director of the Meetings Committee.

It was voted to maintain a passenger-driver service for the vacation following mid-year examinations. Drivers wishing passengers to any part of the country, or students wishing transportation will sign up in the T.C.A. Office.

Statler Is Chosen By Prom Committee

Heads T. E. N. Board

Harry O. Saunders, '38

Chairman Says Hotel's Better Facilities Led To Choice

March 5 Set As Date For Affair

Disadvantages of the present Walker led the committee to decide on an outside location," said Frederick J. Kolb, Jr., '38, in announcing the selection of the Hotel Statler for the Junior Prom on March 5.

Speaking for the Prom Committee, Kolb outlined the reasons for the choice. "Walker wasn't built for a ballroom or a dining hall," he said, and it lacks a foyer and facilities for the guests. There is no room off the dance floor for a receiving line and small gatherings."

This is the fourth consecutive year that the Prom has been held at the Statler. After reviewing the facilities of all available locations, the committee decided on the Statler again.

Other reasons given by Kolb for the Prom Committee's choice were: "Although Walker has larger floor space than the hotel, there is no suitable place for the orchestra which has to be placed on the dance floor, and the available space is reduced. "The Statler has not the atmosphere of a

Dorm Vandals Are Found; Must Pay

Wreckers Billed For Damage; Affair Is Closed Says Mott

Finis was written this week to the dormitory episode in which several doors and windows were smashed in an early morning revelry before Christmas. The persons responsible for the vandalism have been billed and the matter is now closed, according to Gilbert C. Mott, '37, chairman of the Dormitory Committee.

The committee had refrained from taking action earlier, it was revealed, until Professor Leicester F. Hamilton, chairman of the Dormitory Board, had completed his investigation. When the Dorm Committee was given jurisdiction, it immediately proceeded to indict the guilty parties, the identities of whom were known, and to issue bills for the damage against them.

The total amount of the wreckage was not revealed, but it was generally rumored about the dormitories that replacement of the heavy plate

Freshman Dance In Walker On Feb. 19

Committee Tells Opportunities For Activities All Year

February 19 is the date set by the Freshman Council at their meeting Tuesday for the annual Freshman Dance.

The dance will be a formal affair to be held in Walker. admission will be \$1.75 a couple and \$1.00 stag. The choice of orchestra which will not be announced until the beginning of next term, will be decided upon by the dance committee, consisting of Frederick A. Libby, chairman, Marshall A. Wight, James S. Rumsey, and Richard H. Wheeler.

The activities committee reported that, unknown to most Freshmen, there is another period of activity opportunity at the beginning of the second term and most activities always have a few places open at any time.

16 Students Downed By Grippe Epidemic None Seriously Ill

Cases Tax Homburg Facilities Number Ill Unchanged From Last Week

The epidemic of colds still kept the Homburg Infirmary crowded last night, with 16 students in bed there. No unusually serious cases were reported, when The Tech made inquiries yesterday evening, although the infirmary facilities were severely taxed by the large number of sick cases.

The number sick was approximately the same as that of last week. Their names follow:

G. E. Brush, '40; W. E. Gwatin, '38; T. H. Halpern, '38; M. B. Hodgson, '39; Frank Kearney, '38; M. C. Morrill, '39; O. B. Mapua, '40; R. L. Ortynsky, '37; L. P. Rietz, '37; A. J. Shafer, '39; N. E. Sparks, '39; W. H. Spaulding, G; Abner White, '37; J. W. Irvine, Jr., G; Haynes Memorial; D. W. Ross, '40; Haynes Memorial; R. M. Crossen, '40, Brooks.

Dorm Dance Features Bernet's Orchestra

The first dorm dinner dance of the year will present Charlie Bernet and his orchestra on Friday, February 12, from 6:30 P.M. to 3 A.M. in the main hall of Walker.

Several prominent men are scheduled to speak after dinner.

The dance is open to all Technology students. Signups will be on sale at \$2.00 in the Main Lobby, beginning Monday, January 18. Redemptions, which will be started after the mid-year vacation, will cost \$2.00, thus raising the total price to \$4.00 per couple.

TRUTH WILL OUT OR WHY DANCES LEAVE WALKER

WHEN the Junior Prom Committee elaborated on the disadvantages of Walker Memorial as a locale for the Prom it covered adequately a point which has been bothering many of us for some time. Especially during the last year many have wondered openly and to themselves just why the larger dances always choose to go off the campus for a dance floor. Up until now the answers to these questions have been little more than statement and restatement of the obvious fact that "they just don't like to dance in Walker."

Recently there have come from several quarters the rumors of a "back to Walker" movement which would make an attempt to demonstrate to the unenlightened student the real advantages of keeping Walker Memorial the working social center of the Institute and of holding all Technology functions upon the campus. Those who would benefit from a greater number of activities in Walker have either overlooked the disadvantages of the one small building, or, knowing the real difficulty, they have been unable to affect any changes.

Now the answer comes, voiced through the Prom Committee which, after consideration of all possible places for holding the dance, deciding again on the Statler. In essence the difficulty lies in the fact that, until extensive enlargements are made to the present Walker building, the facilities will be extremely inadequate for the insured success of a major social event. In the first place, according to Kolb, Chairman of the Committee, the Main Hall was built neither for a dance hall nor a dining hall. As a matter of fact it was originally intended only as a central lobby at the center of a much larger building which would include a large dance floor, an auditorium, and lounges and activity offices without end. The lack of room off the dance floor for orchestra, receiving line, and small gatherings has been included in the list of reasons why the Prom has decided to go outside of Walker for the fourth consecutive time.

There is one point which is probably as important as any of the others. The statement from Kolb in the name of the Committee is "Any drinking would be more refined and more limited where the guests would not be obliged to bring their own liquor in bulk." There is no doubt that one of the greatest reasons for students desiring to have dances off the campus is that they can have the service of a bar and can feel free to drink openly. The present status in Walker is a close analogy of the universal case during prohibition days. It is deplorable that liquor can never be sold and served in Walker for so doing would greatly improve the atmosphere and the whole situation. But if such a thing were suggested there would of course be much criticism, and we could never stand that.

SOCIAL WELFARE

A NEW EXECUTIVE DEPARTMENT?

PRESIDENT Roosevelt asks for the creation of a new cabinet member, the Secretary of Social Welfare. The functions of his department are to advise on social welfare, protect the consumer, and administer the Federal aspects of security programs, among other things.

The significance of this step is great. Not so very many years ago the thought that the government would legislate social security laws was far from the minds of those who guided the nation. But today it has become so much a part of the existing scheme of things for the government to take care of the unemployed and aged that a Federal department to take care of all the work arising under this new function of government is proposed. It indeed symbolizes an era of humanism which should prove to the liberal that small gains, almost insensible gains, add up, and their net result is finally made apparent, just as in the calculus infinitesimals are added and a finite answer results.

Reviews and Previews

METROPOLITAN: — Champion of all champion figure skaters, Sonja Henie is the star of *One in a Million* which also includes on its cast, Adolphe Menjou, Jean Hersholt, Ned Sparks, and Don Ameche. Fred Waring will appear on the stage with his Pennsylvanians and a host of special entertainers.

KEITH MEMORIAL: — Among the youthful star discoveries of the season is Deanna Durbin. She appears in *Three Smart Girls* along with Binnie Barnes and Alice Brady. Many of us have heard Deanna with Eddie Cantor on his radio program.

RKO BOSTON: — Sally Rand is in town again with her fan and balloon dances. Minstrel man, Benny Fields is on the same program which includes several snappy acts of vaudeville. *The Luckiest Girl in the World* is on the screen.

LOEW'S STATE AND ORPHEUM: — Bing Crosby croons his way into the heart of Miss Average America in his latest, *Pennies from Heaven*. Five of the latest popular songs are included. More than a Secretary is the co-feature starring Jean Arthur and George Brent.

FINE ARTS: — Ski Chase, featuring Hannes Schneider, goes into its sixth week.

PARAMOUNT AND FENWAY: — *The Plainsman*, Cecil B. DeMille's latest production, features Gary Cooper and Jean Arthur in the leads. The other half of the twin bill is *Easy to Take* with Marsha Hunt.

Trust busters

We'll call them Riverson and Intersectionally. They being young, boy and girl, and spring-inclined, were the subject under discussion in a bull session. "Riverson and Intersectionally Incorporated" said one of the Bulls. "Not yet", responded another, "they're only a Holding Company now".

Stopped over at the Technique stand to watch people look at the monkeys and watch the monkeys look at the people, the un-slide-ruled critters being huddled in a corner wrapped in each others' arms and scared vectorless. Freshmen used to look like that their first night in the dorms and co-eds their first "only girl in the room" class, but the breed have hardened and perhaps in time Technique will acquire monkeys which will grab the bars with both paws, stick out defiant tongues and squeak at passing Upperclassmen, "You ain't so much, big shot."

INCOMPETENCE IN WISCONSIN

ON WHICH SIDE

NOW that the sound and the fury are subsiding, a few important points about the Frank-La Follette fight stand out.

It is next to evident that Glenn Frank was not dismissed because of incompetence or inefficient administration. Of course, it is difficult for an outsider to form a well-substantiated opinion, but Wisconsin's high position in the educational world is sufficient evidence of his ability as an educator. Whether or not the Governor's charges of laxity in financial and other administrative matters are true is more difficult to determine.

But unfortunately Dr. Frank's removal was only indirectly a result of these charges, true or not. He was ousted solely because Governor La Follette wanted him ousted. The board of regents did not act until La Follette had filled its ranks with his own supporters.

President Conant of Harvard summed up the situation "in a nutshell." He said, "The problem seems to me to be whether or not this present board of regents had the capacity, competence, and independence to make a judgement free from prejudice of a political or personal nature."

As long as such a doubt can exist, "academic freedom"—freedom from unjustified interference—is not present.

OPEN FORUM

January 12, 1937

Editor, The Tech:

Today I read with very much interest the stories in The Tech concerning military training at the Institute. I believe it is a great mistake to let any man finish school without having some military training if he is physically fit.

It seems to me that every man should want to learn something about military science so that in case of a national crisis he would be better able to serve his country. This appears especially true at the present time when International Relations are so uncertain. Although we all hope this Country will never again be involved in a war it does not hurt to be prepared.

The petition drawn up by the Freshman I think is ridiculous for the simple reason that they are not competent to judge at the present what they should take and what they shouldn't, especially on a subject which affects so many people. If they or anybody else does not wish to take military science there are other schools which have no military science and they are perfectly free to attend these other institutions.

If for nothing else, military training should be compulsory to teach men to work together in harmony, and also some respect for the Country. I believe the results would be very shocking were the new men asked the National Anthem.

It is my opinion that these conscientious objectors are only trying to get out of a course or else their personal vanity is injured because they are being made to do something against their will. I think a man is pretty rotten who is not willing to give up

Maybe your Dad remembers
 (WHEN HE WAS VERY YOUNG)

AS small boys, many fathers now living knew the telephone only as a little used curiosity. It grew into today's constantly used necessity largely because the Bell System never ceased looking for the new and better way. It stayed young in its thinking.

Young ideas developed "conference service", enabling several nearby or widely separated persons to talk on one telephone connection. Young ideas steadily made long distance service better, quicker, yet cheaper.

Young ideas are at work day and night to make sure America continues to get more and better service for its telephone dollar.

Why not call Mother or Dad tonight?

The retiring managing board of volume XVII of the Tech Engineering News donated a handsome cup to be put into competition in the Engineering College Magazine Association "to be awarded annually for distinguished achievement in undergraduate publications."

The Tech Engineering News has won the Sheffield Cup, donated by the Yale Scientific School for the best engineering publication, three times and has thereby become the permanent owner of the cup. Since there would therefore be no cup for competition, the T. E. N. Cup was donated.

The cup will be awarded annually to the best technical publication in the Engineering College Magazine Association, The Tech Engineering News judging the competition. When the cup has been won three times it becomes the permanent possession of the winner.

H. Arthur Zimmerman, '37, retiring general manager, was toast master at the banquet and Donald S. Fink, '29, Editor-in-Chief of the Tech Engineering News for Volume XII in 1932-33 at present Associate Editor of "Electronics", was the guest speaker. J. Rhyme Killian, Jr., of the Advisory Council on Undergraduate Publications, commended the Tech Engineering News on its good work.

Hayden

(Continued from Page 1)

had been a generous contributor as well as active in their administration. "Mr. Hayden's interest in the welfare of young men is memorialized at the Institute by the dormitory unit which he contributed and which, by action of the executive committee, bears his name. His interest in his professional training in mining engineering was given material expression in his contribution of a principal portion of the funds used in the construction of the Institute's building devoted to mining and metallurgy. In addition to these major contributions Mr. Hayden was continually and quietly contributing to student needs, as for example in various ways to aid in the development of recreational sports so much needed in an institution of this type where the academic load is severe.

"To all of his Institute colleagues and friends, Mr. Hayden exhibited his impulsively warm and generous disposition, his colorful personality and that fundamentally sincere devotion to the welfare of young men which is so notably expressed in the terms of his will.

"His specific bequest of one million dollars to the Institute gives us great encouragement and will enable us quickly to make substantial progress in the twelve and a half million dollar program of objectives which were approved by the corporation last October as representing the urgent needs of the institution at this time".

Two Hundred Visitors Hear Compton Speak

Church Group Shown Institute, Sees Motion Pictures

Two hundred and twenty prominent church people of Boston visited Technology last Saturday afternoon. President Karl T. Compton greeted and addressed the visitors in the main lobby.

Professor Kenneth C. Reynolds explained to the guests the workings of the Cape Cod Canal model and Professor Richard H. Smith met the group at the wind tunnel. Mr. Hemenway R. Bullock put on a display in the welding laboratory. Mr. Arthur B. English guided the group through the machine tool laboratory, and Professor George A. Owen lectured in the naval museum.

Visitors See Spectroscopy Lab

At the spectroscopy laboratory the party was divided into smaller groups and Mr. Frederick W. Paul thrilled the listeners with his story of the workings of this wonder spot of Technology. Later the visitors filled every seat in room 6-120 for one hour of Technology movies.

At 5:15 one hundred and twenty members of the party were greeted by Mr. Bert Bridges, and they enjoyed supper in the Walker Memorial, at a specially prepared table reaching the length of the main dining hall.

Junior Prom

(Continued from Page 1)

made-over dining room." "Any drinking would be more refined and more limited where the guests would not be obliged to bring their own liquor in bulk".

Although both the date and place for the dance have been selected, the price has not been set. The choice of the orchestra will determine the admission price. No definite action will be taken until the end of the month.

Kolb concluded his announcement for the Committee by stating, "Despite the appropriateness of having all Institute functions at Technology, the disadvantages of the present Walker led the Committee to decide on an outside location."
