Dr. Levy stated the purpose of the organization was to get dinner for the ladies in the dormitory and fraternity. The meeting, held to institute a...
THE QUALITY OF MERCY

Hauptmann Execution

W ITH the electrocution last Friday night of Bruno Richard Hauptmann, the forum on page 76, the last of the dramas of American crime. Yet there is still a lingering mystery about the case which gives to it a peculiar fascination. The truth is not yet out and that only with time will the complete story be known. Even though the court has arrived at a definite action in the condemnation and execution of the beloved officer of society, there seems to be no one who are absolutely convinced that justice has been done in its entirety.

Of the original principals of the case, two of the most important have been killed. The others, except during College vacation. Walker Memorial. Cambridge, Mass.

The pedestrian often walks away from serious accidents when there is no penalty. The challenge to the pedestrian is the physical danger, that is not realized unless he is stopped. The pedestrian has to make sure he is not going to be punished on the road on foot, that is to be a crimp in a cornet, and not to walk until it is too late to save his life or health.

The general principle of any tariff is to restrict the importation of articles which domestic production at a higher cost. This is known as the principle of special protection. There is a great deal of evidence in favor of special protection to articles in the United States. Without the tariffs, the article would never have been established on a competitive basis with the imports from England which was founded many years previous to that of the United States.

SPORTS COMMENT

The promise of new floodlights on the Coop field for the soccer team means a better chance for the team in next season’s competition. In the afternoon, the lights will be basking—half are damaged because of practice, which will be more interesting and hard fought.

Half of the freshman team’s score was due to the advent of Coach "Tunky" Tucker into the game in the second half. The game went well for the Boston Lacrosse Club before his entry, but his presence was invaluable, and his goal did much to boost the team and make the last few minutes of the game more interesting and hard fought.

The freshman lacrosse schedule is being made up now. There was a second practice day that would have been scheduled for the freshmen under normal circumstances. Since the season has changed, and there is no room for making outside meets possible.

Since the varsity team is going to be away on Open Day, it is possible that the freshmen will demonstrate their skill before the visitors.

It is refreshing to find a coach who is not perturbed because another player is not hitting the goal. Tucker has been successful in obtaining a large goal because of his insistence on practice, his lack of patience and his lack of fast shooting. However, in the last half, the Tech attack improved considerably and the team scored two goals to their opponents' one.

Coach Takes Band

As it was only a practice game, Johnson, ineligible Varsity goalie, played for B. L. C., and Tommy Tucker, the Technology coach, played during the second half. DeRaismes and Tucker scored for Technology.

The line-up for the Boston Lacrosse Club was: Johnson, p.; Scholfield, f.; Boy, m.; Matthes, Colby, g.; Childs, c.; Herbert, s.; DeRaismes, st.; Tucker, bs.; Brown, m.; C. I. F.; Twelvetrees, Hamilton, w.; Milam, g.; Proctor, s.

In the opening lacrosse game of the season, the Beaver team event is held at the Beaver Club on April 3. Hanson was the winner of the first informal race over the two-mile course on the Charles River, and Burgess was the winner of the second race. The winners of the various races were Wood, Ky- ryl, Johnson, 3; Brown, 2; Milam, 1; Proctor, 1; and Cameron, 1.

First Yacht Regatta Held by College

The Boston Yachting Club held its first regatta on April 6. It was a fine day, weather-wise, and the fleet had a long, triangular course. In a brisk appearance, they were as neat as nicks, and the honors were evenly divided.

First Yacht Regatta Held by College

Undergraduate Notice

Professor William Emerson, head of the department of architecture, is to address the Boston Architects’ Club this evening on "Sancta Sophia, of Which the Greek-Saxon is Considered to be One of the Most Beautiful Buildings in the World."
Each Puff Less Acid

A LIGHT SMOKE
OF RICH, RIPE-BODIED TOBACCO

Over a period of years, certain basic advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes.

They include preliminary analyses of the tobacco selected; use of center leaves; the higher heat treatment of tobacco ("Toasting"); consideration of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product.

All these combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.
