New Home For Tech "Coop"

Architect's drawing of the new $30,000 structure to be built for the "Technology Store." It will be located on Massachusetts Avenue, across from the Naval Architectural building.

"Coop" To Move Into New Building; Will Be Known As "Technology Store"

An entirely new modern building, to take the place of the present "Coop," will be erected immediately. As a result of about $40,000, it was announced recently by President Karl T. Compton of the Cooperative Society. Deposition work is now almost completed for the new building, which is to be known as the "Technology Store," and will be located on Massachusetts Avenue, a few doors from the present structure.

The Tech Staff Breakfast To Be Held 8 A.M. Monday

The Tech staff will have a breakfast in The Grill Room of Walker Memorial, Monday morning at 8:00 A.M. All members of the staff are cordially invited to be present. Important announcements will be made.

Henry H. Guerke, '37, To Be Awarded Trophy Monday Night

Trophy Cup For Best Track Star To Be Presented At Smoker

Henry H. Guerke, '37, is the winner of the Technique Cup this year and will receive this award at the All-Tech Smoker Monday evening. The cup, given by Technique, is bestowed upon the most outstanding Technology track man during the past year. The winner is decided by the use of a mathematical test and scientifically designed point system.

"Technique Cup" will be awarded to the most consistent winners on the Technology team. He and Captain Stanley T. Johnson, (Continued on Page 3) Technique Cup

11:30 A.M. Historic and artistic events of the past few years, there can be no question of the need or the demand for the new store, which is expected to be completed by January 1, 1937.

The new store will be a complete line of shoes, not in the present store, will be added.

MONEY for the project has been obtained from the sinking fund of the "Coop," which consists of an accumulation of earnings over the 20 year period since the establishment has been in business. Officials assure stu-"Technology Store," and will be located on Massachusetts Avenue, a few doors from the present structure.

Among the prominent guests are President Karl T. Compton, President of the Institute, and R. C. Gray, Dean of Students, Thomas F. Pitre, Assistant Dean of Students, and Samuel C. Pres-cott, Dean of Scholarship.

A devoted service will be conducted in the camp by Rev. LeRoy C. Glenn, pastor of the Church of Christ, Cambridge.

A feature of the registration for Freshmen this year is the camp store, the sale of which will go to the aid of the Institute publications. It was at the registration desk that the Freshmen were asked to make the purchase of the publications. The Freshmen plan also to have a Combined Banquet of Gridiron and the four Institute publications.

It became a certainty last night that finding his one man broken out in the eastern wilds of Massachusetts at Lake Massapoag. The famous Freshmen and Sophomores are used mainly on the wildl...
TECHNOLOGY RECRUITS
WELCOME, CLASS OF 1940

FRESHMEN of Technology, you are about to leave for Freshman Camp for a stay of several weeks. The place is a wilderness and the ideas are new, but we welcome you again and again, by the classes of yesterday and today, and in the days to come. The President of the Institute and his associates, by the leaders of clubs, societies, and publications, and, in short, by the thousands of the Past and Present freshmen, you will receive the official welcome to Technology by either the President or the Vice-President; and let us first try to give you an unofficial welcome to the Technology and all that it has to offer in the way of scholastic, athletic, and social opportunities. And please do not take this last as merely a stock phrase, because there definitely are possibilities, and there will be situations similar to many that will arise in your stay here a prosperously, and a happy one.

There are several questions which the Technology freshman should frankly ask of himself before he enters this莫名其妙 field. In the first place, what kind of men live in the house? Have they the same characteristics as I and have they the interests and activities similar to mine? Four years is a long time to live in a house where one is not happy; it would be better to try it independently.

Second, can I afford it? Although there are many undeserved benefits to be derived from living in a fraternity, there are still work costs and a constant economic pressure.

Third, am I going for fear of not belonging? This is not the case, because a freshmen sought by one fraternity is likely also to be rushed by another if he does not pledge readily with the first. Furthermore, it is no shame on the head of a student if he invites any interested freshmen to visit the news rooms of the paper in the basement of the Tech building, and send back home. You will find to the advantage of your stay here a prosperous, and a happy one.

A man's education is far from complete if he does not know how to meet people and feel at home in their midst. A man's education is far from complete if he does not know how to meet people and feel at home in their midst. A man's education is far from complete if he does not know how to meet people and feel at home in their midst.

Harry R. Hollander, advertising manager.

Technology Dining Halls WALKER MEMORIAL

Hotel Commander

of Harvard Square, Cambridge

Offers to the Parents, Relatives and Friends of students of Massachusetts Institute of Technology the complete facilities and attentive service of a Metropolitan Hotel—all rooms have tub and shower from $2.50 a day—Colonial Dining Room, and Dining Grill Facilities for all Social Functions.

Hosta And Mylechreest Secure Appointments At Lehigh

The Railway Express Agency has been efficiently handling the heavy traffic created by students returning to schools and universities at this time each year. The revenue power of this national organization has been used to carry out this work.

The first days in June are also busy ones for the Express Agency. After these periods of peak loads, this company "settles down to the less strenuous job" of handling laundry cases.

This work is done efficiently and at a small cost.

First Issue of College Year On Sale Today in 4:00 Registration Day

Tech Engineering News, the scientific monthly, begins its second year with an issue to be placed on sale today, September 28. The News is published bi-weekly, except during the examinations period.

In an article by John H. Geppert, "The effect of pre-fabricated housing on the building of the future," a fully discussed, Professor Nicholas A. Milojicic, of the Chemistry Department

describes the research leading to the development of water-soluble starch derivatives. Purpose of these previously unknown materials is to replace such oil-soluble substances as varnishes and lacquers.

A miniature photography as a hobby- problem was discussed by Joseph P. Hedlund, in the fourth issue of the article. It is the intention of the device of equipment is followed by a discussion of the principal uses of equipment. Numerous illustrations, charts, and tables, accompany the article. Among the other developments mentioned in the Engineering Digest section of the magazine is the new Roger, a device for calculating spherical triangle problems in navigation.

Next Issue: An interesting feature of the next issue of the magazine will be the appearance of new and improved magazine issues, which will be available in the fall of the magazine's existence.

"Class of '29!" The Federal Theatre play showing at the Repertory Theatre in the coming week. It is being produced by a group of students from the class of '29, who plan to use the theatre for a weekly series of plays. The Tech theatre will open on the evening of October 8.

The Tech theatre is located in the basement of the South Building, which is the largest theatre in the city. The Tech theatre is equipped with the latest technical facilities, including a complete sound system, a projection booth, and a large stage with a proscenium arch.

The Tech theatre is open to the public, and admission is free. The Tech theatre is a unique theatrical experience, and it is a great opportunity for students to see professional-quality productions. The Tech theatre is a great way to get involved in the arts and to support the performing arts community.
