**WHICH TECHNOLOGY STRAW VOTE**

How many supporters of Roosevelt are there? How many supporters of Landon are there? How many Socialists are there? How many Communists are there? These are questions which will be answered by the All Technology straw vote sponsored by The Tech.

A similar poll was held four years ago just previous to the Hoover-Roosevelt election. At that time Technology students and Faculty favored Hoover by a large margin even though, as we know, the election itself was won by Roosevelt. The results indicated that straw vote indicated that those who were polled in the poll favored Roosevelt. It also indicated the choice of the educated voter and, more specifically, the scientifically educated voter.

In the Tech's poll of four years ago nearly two thousand votes were cast or about 65 percent of the student body and a large number of the Faculty members. In this year's poll, to a limited extent, when the local vote is not indicated to be much closer than before and at a time when national issues are being more acutely argued by Mr. Average Citizen, the educators and students of the Institute are suffering from the apathy of the public's mind about this "red" herring which threatens to overthrow the government. It is also indicated the choice of the educated person and, more specifically, the scientifically educated person. This year's poll will indicate exactly the same thing.

It is not unexpected, but the upset could not have been avoided. For many reasons there is a time immediately after manufacture and before delivery when the voice transmission is clearer—interruptions and repetitions have been reduced to a minimum.

If you have already entered as Second Class Matter at the Boston Post Office, you are entitled to receive under First Class mail at the rates authorized and approved by the Post Office Department, except that a minimum charge of fifteen cents per year is required.

**CALIFORNIA**

**WHEN the class of 1917 was at college, a long distance telephone call took (on the average) more than ten minutes to be put through. This time has been whittled down gradually, so that now the connection is made in an average of 1.4 minutes—nine out of ten of them while you hold the line.

But this is only one phase of the relentless effort to improve. Your service is better today because voice transmission is clearer—interferences and errors less frequent than ever before.

America demands fast service—telephone service—and it gets it.

Whitefield Flinmegs Printing History

There is being published this month one volume of a four-volume set entitled Whitefield Flinmegs Printing History, by D. C. McMurtrie, member of the Tech staff for many years and an extensive researcher in this field is also the author of books already published on the history of early press in individual states and cities. In the present work will be given a compendium of the work of the pioneer printers in every state of the United States. It happens that the first volume to be completed is Volume II, covering the Middle and South Atlantic States, in other words, the evolution from New York to Georgia. This volume is complete in books on almost every subject except that in section of the country.

For Digestion's sake...smoke Camels

Science Confirms the Truth of the Popular Phrase
"For Digestion's Sake...Smoke Camels"

Whether your meal is a banquet or a sandwich, a Camel gives it more zest. Scientists have found that Camels gently stimulate the flow of the digestive fluids... alkaline digestive juices... for the benefit of any freshmen who have not yet become acquainted with the freshman rules, they are given below:

1. All freshmen should wear regulation ties, four-in-hand, with slender and grey stripes. They must be worn on the Institute grounds until the end of the rules period.

2. The freshmen are expected to speak to all members of the faculty, and to tip their hats to the President of the Institute and to the Dean.

The Tech Invites Frosh To Smoker Thursday

All freshmen interested in news writing, advertising, or in working on the business staff of The Tech are invited to a smoker which will be held by Tech in Walker Memorial Thursday, October 8 at 5:00 P.M. An opportunity will be given for all those attending to obtain an idea of the organisation of The Tech and to join any of the various departments. Co-eds are invited to attend as the office of The Tech welcomes the addition of members of the "weaker sex" to its personnel.
