CLOUDED ISSUES

MAJOR PARTY CANDIDATES

The vitality of attempting to discover the platforms of the candidates is lost unless we can find a political party in the present election by listening to speakers of those parties was admirably described by Dudley A. Levick in his campaign speech for the Tech Union and the Commuters' Club. Republican and Democratic candidates alike will do well to meet each other with discussion of the real issues of the election campaigns. Each speaker will have once upon one or several points which is to be his, and we are left to determine the other and harps upon those to the exclusion of all others.

Egg-Throwing

The mantle of Field Day has been virtually eliminated forever as the freshmen and Sophomores again, by a "gentlemen's agreement", have decided to have the customary egg fight. It is being realised that abolition of the feud will establish a precedent, server, he can sift out of the raw material the customary egg fight. It is being realized that Unionist speakers but if he is a careful ob-

It has been Said

It has been Said

Politics, like religion, hold up torches of martyrdom to the reformers of error...- Thomas Jefferson

There is a holy, mismatched zeal in politics, which can rouse others to convince ourselves.—Junius

There is no more perfect endowment in man than political virtue.—Plutarch

Politics is perhaps the only profession in which one can accomplish what one has to be a government official.—R. L. Stevenson

Magnanimity in politics is not seldom the truest wisdom; and a great empire and little wisdom go ill together.—Edmund Burke

In politics, what begins in fear usually ends in folly.—S. T. Coleridge

Politics is a Festive Profession, like some poisonous handcrafts.—Emerson

As it was in the beginning, is today official storming. And shall be for evermore.—Raskay Kiping

All political parties die at last of swallowing their own lies.—John Arbuthnot

Party divisions, whether on the whole creating for good or evil, are things inseparably bound up with the greatest degree of caution and intelligence. The present is not a time of party strife. The consequences of the failure of the party which is in power may be fatal, and the consequences of the failure of the party which is in the minority may be fatal also. In an election, what are the good and bad effects of the election? The good effects are the electors of the country who are not satisfied with the present government, and the bad effects are the electors of the country who are satisfied with the present government. It has been said that the only way to be sure of a majority in an election is to have a majority of the people who are not satisfied with the present government, and to have a minority of the people who are satisfied with the present government.
Harriers Meet Yale Tomorrow At New London
Freshman Team Faces Unspotted Enemies In Opening Game

Helland Thinks Choices Good
Determined to break their losing streak, the cross country team goes to New Haven to meet Yale in its third meet. He asserted that he had every confidence in its ability to put in top form.

The following list will start for the freshmen team:

John E. Parks, Donald P. Severance, Rafael A. F. Brudali, Andrei J. Duford, Thomas Wood, Joseph F. Wiggin, and Duane O. Ricks.

First Wrestling Tryouts Tonight
Prospects Good This Year With Binder, Burdock, and Webb Back

Preliminary wrestling among the varsity group will be held tonight in the gymnasium. Because of the importance of this meeting, a preliminary meeting will be held at 8 o'clock.

Wrestling prospects are excellent this year, with many of last year's members returning. The 165 pound class is almost complete squad of last year's freshman team. One of the outstanding freshmen will meet Captain H. B. Binder, who was winner in both the 165 and 175 pound classes of the All-Tech Tournament last year. Although unable to compete in intercollegiate wrestling because he was a freshman, Binder is now Tech's No. 1 shot putter. Competing against Binder tonight will be Dave Molina, last year's freshman team.

Honor Group Seniors And Juniors Chosen By E. E. Department

Students are Awarded For High Scholarship

The department of Electrical Engineering announced today the names of twelve members of the senior class and eleven members of the junior class who have been selected for the Honor Group.

Inaugurated in 1924, the Honor Group in this department gives to students of exceptional promise an increase in their scholarship by granting dark blue cords in both the 155 pound and 175 pound classes.

In the heavyweight division the battle was between Dave Anderson, who had met an 18 pound shift in the New England Intercollegiate Championship in his first year at Tech, and John K. Johnson, who had an 19 pound advantage.

SPORTS COMMENT

With Field Day drawing closer, the outstanding question in the minds of sophomores and freshmen is naturally, "Who is going to win Field Day?"

We will not attempt to answer this, but we can opine that the freshmen will take tug-of-war and the globe fight. The sophomores will probably win the football game and the crew race, leaving the relay to be decided by the do-or-die factor. This would seem to indicate a fifty-fifty chance, but the will and determination of any and all sophomores to take any and all events at least should make the freshmen beware.

The seniors of the Hampshire High Yankees have noticed a quiet, determined and powerful looking crew of about 25 men working out in preparation for this decisive event of the season, with the crew coach, the coach and the leader, the team bunched into one grand pair, pulling the rope all the way, and--the rope breaks.

We are glad to see that Jim Thomson is back this year. Thomson holds the present freshman high jump record of 6' 0" which he made in 1934. Originally of the class of 1937, he dropped out of school last year to attend Cornell. This year, a member of the class of 1938, he is in full form because he is a trampster. However, we may expect much from him in his senior year.

Hedlund Will Choose Relay Teams Tuesday

Final selection of the freshman and sophomore runners for the Field Day relay-squads will be made next Tuesday. These will be chosen from students of the class of 1939 who have been selected for the Honor Group.

In the 126 pound division is still open, but with the 175 pound class pretty much to himself, but possibly he may emerge a sophomore, Phil Lucas. The 126 pound division is still open, being the only weight spot in the team. Last year's record was held by Louis Trax, who at the end of the season brought glory upon the Engineer. The Ex-Engineer, the New England Intercollegiate champion in this division, is back, but with his weight he will have to prove himself in the 118 pound division.

Varsity to meet Crimson

Manager Nick Willemsen has already selected six men on the all-squad of the meeting. They will meet Harvard on Saturday.

As open discussion of the question was conducted, and finally Harold H. Hystek, President of the Freshman Class, was called upon to give his ideas on how the class of 1939 felt about the annual per-

No record team by an 18-12 score. Harvard scored again in the third quarter, but was repulsed when a Tech interceptive. This would seem to indicate a fifty-fifty chance, but the will and determination of any and all sophomores to take any and all events at least should make the freshmen beware.

Dancing Facilities In Walker Surpassed By Hotels, Declares Kolb

Criticism and comment upon the major points of the expansion program proposed by another Frosh, and recently made public, is still being made throughout the Institute, the comment centers principally on just what the program should contain.

According to D. J. Wemple, the authors have promised not to disturb the rooms of those freshmen attending the next dinner, Tuesday, October 27. Their efforts will be devoted solely to the first-year men who fail to put in an appearance. A freshman may feel safe on that one night at prison, provided they attend the dinner.

Speakers at the dinner will be Dean Youngberry, vice president of the Institute, Treasurer Horace S. Ford.

Ball Test

Chemical Society Hears Healy Talk

Describes Municipal Advances In Treatment Of Water And Sewage

"The chemistry and engineering of water and sewage," was the subject of a talk by John J. Healy, Director of Developments of the Merrimac Chemical Society of the disposal of the resultant treatment of water for household use, at the meeting of the M. I. T. Chemical Society last Thursday.

Mr. Healy spoke on the municipal treatment of water for household use, and of the disposal of the resultant sewage, stating that in recent years, there has been a great increase in chemical over physical and mechanical means in the treatment of water and sewage.

The fact that, due to increasing political interest and activity in municipal water supply and sewage disposal, there is a constantly increasing field for chemists and engineers in the field of sanitation was stressed by Mr. Healy.

After the meeting, a book raffle was held, and refreshments were served.

The officers of the society are: President, Francis D. Houghton, ’37; Vice-President, Ruth G. Raftery, ’38; Secretary-Treasurer, Tasie H. Roughton, ’37; Advertising Manager, Abraham R. Levine, ’38.

Bulb Test (Continued from Page 6)

only 2c and the average cost of burning it is 1/3 cent per hour. Adding lamp bulb costs to electric current costs gives us an hourly operating cost of about 3c/1000 costs, or equal altogether to about 6c/1000 cents per candlepower per hour, based on an average life of 1000 hours for a Mazda lamp.

Electrically, 1 hour buys 167 candlepower of light. With wax candles it takes 16 hours just to use one candlepower. Hence the attempt to reproduce the electrical illumination on a library table or a newspaper by substituting candles for the Mazda lamps would cost 167 times more.

"A 200 watt Mazda lamp can be had for about the same price as a single candle", Mr. Hibben says. "Think of it; Abraham Lincoln, were he a poor youth today, could afford to burn a bright electric lamp, but not afford the expense of candles! For decoration, candles are charming and I like them, but for real lighting purposes, I must deny myself that luxury!"

Technology Scene Of Dinghy Meet Nov. 1

Eight Colleges Participate In Official Regatta

Technology plays host to the Intercollegiate Yacht Racing Association on Sunday, November 1, for an official dinghy regatta on the Charles. The Intercollegiate Yacht Racing Association has eight members at present, with several applications for membership pending. The present members are Brown University, Cornell University, Dartmouth College, Harvard University, Technology, Princeton University, Williams College, and Yale University.

Brown, Dartmouth, Harvard and Technology hold a race meeting of their own at 3 o'clock Sunday morning, October 26.

At the meeting of the boatswains Wednesday evening meetings at 7.30.
