America's Future Tech Union Topic For Fiery Debate

Professor Tucker, Alfred Lewis Take Sides In Political Tilt

Meeting Comes On Wednesday

Alfred Baker Lewis, Socialist candidate for Governor in the recent state elections, and Alfred Tucker, chairman of the department of Science, will discuss the subject "War Against Socialism—Capitalism?" at a meeting of Tech Union, on Wednesday, November 18th in Room 3190.

The meeting will be open to members only and will commence at eight o'clock. Following the talk by Mr. Lewis and Professor Tucker, there will be an informal discussion of the subject from the floor.

Music By Hudson-Delange Will Be Featured

More than 260 of the three thousand members of the Student body of Tech Union, all members in good standing, will be present. The meeting will be followed by a feature performance by the Columbia Symphony Orchestra, conducted by Mr. Hudson, at 8:30 o'clock. Admission is free for Tech Union members; 50 cents for non-members.

Banking Union, the student branch of the American Federation of Labor, will be present.

Catholic Club Holds Dinner In 5:15 Room Saturday Eve

Girls From Five Colleges Will Provide Dates For Stag Affair

The Technology Catholic Club is sponsoring a Radio Vittoria stag dance to be held in the 5:15 Room of the Institute Saturday night, November 14th, at 5:15 o'clock. About 500 girls from the Catholic Colleges of Boston, Boston College, College of the Holy Cross, and the Catholic University of America are expected to attend. The dinner will be served at 6 o'clock, and dancing will begin immediately.

MIND AND BODY

PSYCHIATRY DEPARTMENT

In the wake of the depression, the troubles of the student are being widely noticed, but among the troubles of the Medical Department may be eventually be enlarged to include another department. In his report, Dr. George W. Morse, Medical Director, says, "As soon as conditions warrant, it is my hope that the Department may expand its scope by adding a Psychiatric Service and a Dental Department... This has been provisionally planned and is awaiting action. I believe that the physical well being of the men is well cared for, but the mental and psychiatric phase of work has not been developed as it should be."

FRESHMAN FOLLY

FINISHING TIES

NOW that Field Day is gone and all but forgotten, some of the holder freshmen appear to be discarding their prescribed red and gray ties. In the corridors and at the dinner table, the appearance of tie discussion, among the freshmen as, "I haven't worn my tie for three days now and no one has anything about it yet," or "Don't bother to buy a new one, half the guys have stopped wearing them already." It is apparent that a large proportion of the freshman class has little or no notion of the real function of the ties. The custom of wearing freshwater ties has been a beneficial practice for everyone concerned, especially, strangers as it may seem, for the freshmen the presence of the ties while entering Technology for the first time, they are practically total strangers. The regulation tip which they wear announces to other freshmen the presence of kindred souls.

To the upperclassmen the wearing of the official cravat, as well as introducing the new men of the Institute, serves as an assurance that the younger men possess the proper school spirit, as well as being in touch on the Technology campus, but which is, nevertheless a desirable factor in setting up social contacts and life-long friendships among the students. None of our upperclassmen is a fad freak. The wearing of the ties included, are intended to humiliate the freshmen.

For Digestion's Sake...Smoke CAMELS

Camels increase digestive activity—encourage a sense of well-being!

With healthy nerves and good digestion, you feel on top of the world. When you smoke Camels with your meals and after, Camels help in two special ways: Tension is lessened and Camels promote digestive well-being.

So enjoy your Camels between courses and after eating. Strain cases.

The flow of digestive fluids, so vital to proper nutrition, is speeded up. Alkalinity is increased. You get more good from what you eat.

For an invigorating "lift"—for matchesmen team—and "for digestion's sake"—the answer is the same: Camels. Camels set you right! And they don't get on your nerves.

ALL-AROUND ATHLETE FROM TEXAS
While Mary Camac says: "Smoking Camels at meals and after works out well in my case. Camels help my digestion. After a meal and Camels, I settle back and really enjoy life."

CONCENTRATION calls for nourishment; hence digestion; hence Camels: That's where Camels set you right! For digestion's sake...smoke Camels before meals and after. And whenever you want—when you get a craving for something refreshing. Camels. Camels set you right.

CHAMPION BOXER Johnny Murphy says: "Smoking Camels at meals and after works out well in my case. Camels help my digestion. After a meal and Camels, I settle back and really enjoy life."

HOLLYWOOD RADIO TREAT! Camels are used by the stars: "Golden Age" Radio Dramas come out of Hollywood. You'll learn more about Camels' effect on digestion.

COSTLIER TOBACCO!

Camels are made from four, MORE EXPENSIVE TOBACCOS! - Turkish and Domestic—a far better smoking blend than any other popular brand.

SPORTS COMMENT

Tech is playing host to Navy tomorrow when the midshipmen come down for the annual interclass meet. It is heartening to note that the Institute is given a good chance to win. It is logical to expect that the sailors should win such a spot but the advantage that our team holds by being familiar with this type of heat may prove too much for the boys from Annapolis.

The interclass meet went to Harvard last week as par schedule and did very well in the informal entertainment according to Coach Tucker. More than a full team reported, and in the light of last year's small attendance it holds well for the team this year.

The cross country team has a chance to make up for its poor record of last year, it goes to New York, Monday. The Beaver hill and dale runners have done a decided business in that they have had a lively course ready, over which to practice. That pulled one surprise when they placed seventh in the New England run and maybe they will do something more in New York.

It has always been a cause of surprise with us as to what the Canadians do during off season. Whether he exercises his lungs and spends his time inventing choice expletives to what the coxswains do during off season. Certainly he cannot get away with resting and keeping his weight down while the oarsmen work and sweat on the coasts every morning.

It has come to our attention that several of the fraternities are working up a powerful sweat because other fraternities have broken into print recently. It only reply to them is that if they have articles of sufficient news value we will be only too happy to consider them.

Undergrad News The T. C. A. office has a few tickets left in sections 40 and 42 for the Navy game on Saturday. These tickets will be on sale until 1 o'clock on Saturday.

Clif Rustad on the Froshmen Sports Tournament last Wednesday afternoon by a score of 6-5, 7-8. The winner-up was Richard H. Brainich. As Brainich led 5-1 in the seventh game of the second set, it looked as though the match would go three sets. At this critical point Rustad, a Norwegian, recovered his speed and swept through the next five games. Brainich played his opponents hands to reason it was not bringing enough to make use of any advantage so gained.
Ford Hall Forum To Hold Open Meeting

The Ford Hall youth forum will open its second season on Wednesday, November 16th, at 8:15 P.M., with a discussion on "Youth Asks the New Administration—Peace, Security, Freedom." This meeting, which is open to all, will be held at the Ford Hall, corner ofAu- burn Place and Bowdoin St., just in the rear of the State House.

Among the speakers who will participate in the discussion are Lewis G. Gore, Jr., who last year organized the Veterans of Future Wars, and West Lawrence, Walker, an expert on races.

This is the Advisory Board. There will be no meetings of the Ford Hall Forum in the 0:15 Room during the afternoon and in the 1:15 Room during the evening. The 0:15 Room is not representative of your organization as a whole and their actions are not kept by your general population.

It is necessary for the Advisory Board, therefore, that the Executive Committee. The 0:15 Room must be used at scheduled evening meetings at the discretion of your organization. I feel that a sign be placed in this room calling attention to this regulation.

I am sending a copy of this letter to Mr. Pung and also to Mr. Haskell asking that every effort be made in enforcing this regulation during the hours when the Ford Hall Forum is in control of your committee, although the regulations are not considered as a rule by your hands, and due notice should be served members as to this action, that no regulation is not considered as the best interest of the group, or for the individuals concerned, to participate in card playing during the morning or afternoon hours when the Institute is meeting.

Very truly yours,

L. P. Hamilton

State Toxicologist Speaks At Meeting

Dr. William H. Rose, State Toxicologist, will be the guest speaker at the second meeting of the Chemistry Club. He will be on the subject of the drinking water and will be in a position to do so. Rose has had experience in the laboratory, the lecture, the Society is now holding its annual membership drive. There will be seven more meetings, for which speakers will be obtained, and a budget will be held.

Cross Country

In the same meet Cooper placed 8th and 50th in 37th. Coach Hurdon re- marked that the season "is the coach's floor, showing this year's team to be not doubtful of the weathermen's forecast which would offer the bill game necessary in this proper training of a team in good condition.

Although the meet will also include freshman runners, there will be but one representative from Technology.

Outing Club Starts Membership Drive

The M. L. T. Oouting Club is hold- ing a membership drive today in the Main Lobby, and all members of the Institute are invited to join. In addition to holding entertaining meet- ings, the club is trying to give meaningful opportunities to so many people who have no opportunity in future years to maintain a cabin in suitable skiing country in New Hampshire. After the mid-year exams there will be time for each week-end to some good skiing locality.

ACROBATICS SUBJECI

Of A. E. S. Lecturer

Professor Charles S. Draper of the Aeronautical Engineering Society was the chief speaker at the Aeronautical Engineering Society banquet held in the North Hall of Walker Memorial. He spoke on "Aeronautical Ac- crobatics" before an audience of nearly 70, illustrating his talk with serv- ies on the subject.

At the banquet were Prof. Richard H. Smith, Professor Whitlow Ober, and Professor John L. McHand. Professor Smith spoke on his experiences with lighter-than- air gliders. The meeting was well attended, and the meeting adjourned.
