Dramashop Give Their First Play Nov. 19, 20, 21
Presentation Will Be Ridley's Mystery, 'Ghost Train'
To Be Held In Common Room Of Rogers; 8:15 In Evening

Scenic And Lighting Effects Constructed, Designed

As its first production of the sea
son, the 1904-45, Dramashop presents on Thursday, Friday, and Saturday of this week at 8:15 in the Common Room of Rogers, Arthur Ridley’s mystery, “The Ghost Train.”

The scenario, written by Hesba Stretton, was produced in London bySlides.

The role of the professor was created by R. E. Clive, and recently the part of the school原理, played by Richard Young, was added by four hundred dollars, and to the result of the crime, and to the death of the professor, the audience has much to thank.

The production of “The Ghost Train” this week will be the first of a number of plays offered by Dramashop, the Technology under-mfine arts organization to be seen during the school year. The play will be presented in the early evening.

Dramashop productions are managed so as to give a student board which grades and designs, and constructs scenic and lighting effects, and the players are coached by Professor Dean M. Fuller of the Institute Department of Fine Arts.

School Murrows Deaths of Dr. Frank A. Laws, Institute Professor

Active In Teaching, Research And Scientific Activities

Frank A. Laws, ’89, professor emeritus of Electrical Engineering for forty years was prominently ac-

ceived with the Institute at 32 Brookline home last Thursday. Services were held Saturday, conducted by Rev. Ashley D. Leavitt of the Harvard Congregational Church.

Born in Bridgeport, Mass., in 1867, Professor Laws attended Technology where he graduated in 1889. He was a member of the faculty for over forty years, and during this period was associated with the depar- tum of Electrical Engineering in 1913 and professor emeritus in 1933. Professor Laws was particu-
larly for his work in the electrical measurements and theoretical electrical measurements, and in the production of his own lifetime.

Graduates of Technology remember him for the positive and encouraging influence of the man with whom he came in contact. Among his students, he was the source of many suggestions with which the professor was associated.

Alfred B. Lewis and Professor T. W. Hooton, Jr., of Mt. Holyoke College, argued for the negative.

The debate was held before the judges, and was judged by the faculty.

The debate was held at the school by a 3-0 vote, Technology, represented by Professor T. W. Hooton, Jr., of Mt. Holyoke College, and Dr. F. W. Hooton of Mt. Holyoke College, argued for the affirmative.

The debate was held at the school by a 3-0 vote, Technology, represented by Professor T. W. Hooton, Jr., of Mt. Holyoke College, and Dr. F. W. Hooton of Mt. Holyoke College, argued for the affirmative.

proves relating to the instruction offered by the Institute, and present suggestions for improvement; and yet its existence is nearly unknown to the majority of students.

Creditable performance of its duties no doubt that this committee be in intimate touch with all the branches of Institute courses—a condition that may only be met if the entire Student body can become cognizant of the existence of a Student-Faculty Committee. All problems relating to instruction and content of subjects are in order for its consideration.

"Open for Business" is a difficult condition to advertise, and it is best done by a printed announcement but by word of mouth. It requires that a general consciousness of the activities of the Student-Faculty Committee be acquired by the students, and that they indicate a willingness to co-operate with this essentially mutual undertaking. The mechanism for improvement has available to all who complain; it requires only the willingness to construct as well as the inclination to destroy for a satisfactory solution.

ELECTIONS

Volume LXI of The Tech takes pleasure in announcing the election of Frederick J. Kolb to the Editorial Board.

OPEN FORUM

Editor, The Tech
Dear Sir:

I note that in your last issue of The Tech the President of the Chinese Students' Club takes issue with the M. I. T. Debating Society because it recently debated the question: "Resolved, that China is no longer capable of continuing her existence as an independent nation."

I should like to point out the fact that our society debates for the sake of debating and not for the purpose of arousing hard feelings. We must necessarily oppose some groups or institutions whenever the spirit of mutual co-operation is not present.

Sincerely yours,

Interclass Meet Won

Narrowly By Frosh; Kites Is High Score

The Beaver hurdlers showed up well at the I. C. 4-A. Track plans

behind the leaders he grinded only thirty yards behind a prominent upper-

but he stuck grimly to his grind. He was in danger of being lapped a sec-

lap he fell behind rapidly. In fact he was lapped by the rest of the field,

Guerke successfully made his bid in twenty yards after he had been led

however, he finished, placing third.

The best event in our mind, in the interclass meet, was the two

miles run. Captain Guerke knew he had to pace himself, or rather he let Cooper pace him and then he passed Cooper easily in the backstretch.

A bit of fresh were disappointed by not winning their cameras last Sat-

day, but at the last moment several experienced upperclassmen decided to

Stoddard, P. A.; Daudelin, R., vice-captain: Currie, T. J.; Dadakeis, G.;

To be awarded 1939 for the freshman class: Arnold, S. V.; Gray, B. P.;

Macylan, L.; Withington, H. W.; McRooster, R.N.; Pancake, I. %. E.;

Seykota, P. H.; Wainburn, C. P.; Stabile, S. J.; Hobson, C. F., Jr.

To be awarded 1938 for the junior class: Allred, R. C.; Gregorius, E.

To be awarded 1938 for the sophomore class: Devoe, X. A.; Keefe, J.

To be awarded 1939 for the senior class: Braun, S. H.; Rugoff, A.

The rifle team opens up Friday with the V-D team of the American

Legion. This should be an easy one for the shooters.

We wish we could say the same for the soccer team which meets Army

next Saturday. However our news report that the soldiers have won the
twenty-five men varsity team and will not be easily defeated. We think the odds are on--玳etre--

One thought for the week--Maybe more female scholars will be

attracted to the Institute next year. It seems that the M. I. T. A. is giving

something for nothing to any co-ed with school

agents.

Varsity Booters Win From Freshmen 1 to 0

Playing a loose and fast game, the Varsity soccer team beat the fresh-

men 1 to 0 Saturday at Coop Field.

During the first three periods the play was fairly close, but in the last period the regulars opened up, and the ball sailors left freshmen terr-i-

ory. Credit for the fact that only one point was scored against the freshmen, according to Captain British, who often played a

lining of Lawrence D. Phillips, freshmen right halfback, who scored practically a one-man defense.

Half & Half is a safe combination for any pipe.

Cool as a bank teller scanning your ten-spot. Sweet

as his look that means it's okay. Fragrant, full-

bodied tobacco that won't bite the tongue—in a tin that won't bite the fingers. Made by our exclusive modern process including patent No. 1,770,920.

Smells good. Makes your pipe welcome anywhere. Tastes good. Your password to pleasure!

Not a bit of bite in the tobacco or the Telescope Tin, which gets smaller and smaller as you use-up the tobacco. No bitten fingers as you reach for a load, even the last one.
