The Tech Will Hold Poll On Open House November Thirteenth

Questions Which Will Be Asked in Open House Poll

1. Are you in favor of Open House? YES NO

2. a. Every year?
   b. Every other year?
   c. Never?

3. If Open House is held this year, are you willing to work for two hours on Open House day? YES NO

4. Please add any pertinent remarks which you might have to offer.

Baton Plays Host To M.T. Musical Clubs At Informal Meeting

Opinion Of Students On Question To Be Taken

Institute Will Continue To Bear Open House Expenses

Professional Societies Would Take Over Open House Affair As In Past

A poll to determine whether Tech students want Open House to be run again this year will be conducted by the M.T. Club, Monday, November 30. The poll is belated run because the Combined Professional Societies failed to reach a decision on the question.

The questionnaire which is posted in the next column asks whether the students are in favor of Open House, and if so, whether they are willing to work two hours on Open House day. Questions 1 and 2 are inserted in the poll in order to see whether the students are in favor of Open House, and whether they are willing to work two hours on Open House day.

Questions 3 and 4 concern the youth of the Institute, as it has been an annual affair since then. At all departments of the Institute are open to the public. Laboratories are in full operation and many spectacular experiments are performed for the entertainment of the visitors.

Baton Plays Host To M.T. Musical Clubs At Informal Meeting

Professor Ashdown Speaks On Musical Interests

Members of the musical clubs were entertained by Baton, honorary society of the clubs, in an informal gathering in Room 17.000 on the 5:15 Club last Tuesday evening.

President Bateman, '37, president of Baton, welcomed the group. George Ashdown, master of ceremonies, intro-

duced Professor Arthur A. Ashdown, honorary member of the society and professor of music in the student body of the Institute.

"Tilly" Western, coach of the Ole Club, makes a few words on comptens-

ability in the clubs. The entertainment, the first of the year, was an su-

cessful effort, a recognition of the musical interest in the student body of the Institute.

Ghost Train Runs In Mystery Drama

Draper’s First Production This Term Presented Last Night

By HERBERT K. WEISS, ’37

Herman P. Draper, head of the Drama club, presented his first play of the term, "Voo Doo" last week. The play was written by 

Edward K. True, ’39, as the mystery number. Refreshments were served.

Lewis Defends Place Of Capitalism In U.S.

At Tech Union Meeting

Lewis Declares Capitalism Has Reached Peak Now Has No Future

By HERBERT K. WEISS, ’37

Capitalism is not saved, according to Prof. Donald S. Tucker, speaking before the Mining Club and its members, and under their control.

In a letter to the Advisory Board of the club, President Chandler pointed out the usefulness of such a statement of serving refreshments at the frequent dances in the room, thus diminishing the necessity of serving such large quantity of milk at the candy counter, will be built to replace the present counter from the Walker store-room, and we will expect into the club room. The service will be for the use of the 5:15 club and its members, and under their control.

Questions Which Will Be Asked In Open House Poll

Voo Doo Crawls Before Newsies As The Tech Approval Skyrockets Sales

Frederick Green, of Voo Doo, glanced through the drawer of the Tech offices, causing the damage shown above. Reasons for the attack were not very clear, even to Phosphorous.

Swallowing its pride for the sake of profits, Voo Doo yesterday tried to increase its sales by publishing The Tech's approval of its issue, after having first made abortive attempts to wreak vengeance on the nuisance which the disordered mind of Phosphorous misconstrued as an unfriendly act.

With hypoglycemic energy, Voo Doo yesterday evening attacked an office of The Tech, leaving behind a trail of wun-

The minions of the self-called "Technology's Human Magnetometer" were foxed, and such as the old coda of "The Tech. Then with danger centering their fears, the fe-

our athletes opponent as evidence of the sincerity of our welcome, and the essence of our sportsmanship. It is often the case the Beaver Key fills the feature in the remainder our visitors carry away with them.

Entertainment. The responsibility in the direction of Beaver Key is now under consideration, with the proposal to give the junior representatives of the executive committee - at present composed entirely of seniors. Since the Juniors comprise the active faculty of the campus, I seems that such a change would be very desirable in promoting the best interests of the society, and furthering their interest in making the Tech-Trip- the pleasantest in the schedules of our competitors. Beaver Key fills a definite place in the Institute, and its innomem function should be encouraged.

GAME OF CHESS
FUTURE OF EUROPE

By extending formal recognition to the government of the Spanish Fascist General Francisco Franco, and hinting that his action may alter the "right" of the contestants in the Spanish Civil War, Fascist Italy and Germany may well have laid the last section of the frame that links the Spanish confession with the European powder magazine. Let us consider for a moment the few of the possible consequences of this action.

It is not likely that Socialist-Republican France, troubled as she is with internal woes, will look with enthusiasm upon the spread of direct Fascist intervention in Spain and the consequent Republicanization of the Spanish state on her borders. And as for Communist Russia, we can expect her to cry out to high heavens that Fascist Italy and Germany is against all the rules of neutrality, and she would not be long in openly rushing to the aid of the Spanish Republic. Consequently we would not be al surpried to see the Spanish revolution turn into a concerted attack on Russia by Germany and Italy. It is not clear how much this war may very much enjoy having a slice of Russian territory.

The only reservation of the possibilities, of course, and we most sincerely hope that it is altogether wrong, but it seems to the Junior Historian that only Heaven, and possibly Great Britain, can do anything about it. And both are apt to be entirely too slow in an emergency as urgent as the present one.

OPEN FORUM

NOVEMBER 17, 1936

Editor, The Tech

Dr. Compton, in his address to the students, completely justifying them as to the purposes of this juvenile activity.

The Voo Doo hornbeam occurred when the news was arrived, approving their gallant attempts to retain the title of the humor magazine. We cannot quite understand that name, not perhaps, is the best name for such a group, but a name that "grows on em." Dr. Bash, the president remarked, who coded the humor magazine, and said it is in no way at fault. But when the Tech came also several examples of what he described as Blestee.

As there are approximately twenty-five undergraduates of the Walker Memorial Committee, it is entirely possible and desirable to assign to this duty the fetching of the humor magazine. We cannot quite understand why the Voo Doo activity has failed completely to realize that The Tech's action was a magnificent demonstration of the potency of this group.

As for the Junior Historian, he is justly proud of the success which has resulted from the Voo Doo affair. He feels that concealing The Tech's action failed completely to realize that The Tech's action was a magnificent demonstration of the potency of this group.

The Junior Historian has recently been appointed the chairman of the special committee on the program of the Walker Memorial Committee in pointing our improper notices of the placing of the Greyhound poster, and the Committee Room tomorrow at noon. The Committee Room will hold a meeting in the Institute.

First Varsity Rifle Match Comes Tonight
Season Opens As YD's Meet Tech Sharpshooters

The Varsity rifle team holds its first shoot of the year this evening, when it meets the team of the Yankes in a prune shoulder-to-shoulder match at the Technology range.

The M. I. T. T is that given a slight edge on the match because of the fact that they are familiar with the range while the T. E. T. is not.

The Varsity men who will compete in the match are: John A. Kielby, '38, captain; Francis P. Coughlin, '37, manager; Robert E. Pearson, '38, 2nd alternate; John E. Baker, '35, 3rd alternate; and Fred W. Williams, '36, 4th alternate.

The team match under Coach Forsell has been made photographic progress. When he arrived at Technology, the Varsity team lacked spirit, and the first team was there mainly to escape P. T. Under his coaching, however, the team began to make a name for itself. As for the freshman team, they were called and rallied into a really top-notch outfit.

This year, gymnastics has grown suddenly popular. Many of the varsity competitors are men who had never had any previous experience. Seniors and juniors who did not have to take any sport at all. Eight graduate students are also working out with the teams, mainly because of the interest they place in the work. For some time the freshmen have also caught this spirit, and now, according to the coach, is at a point last season.

George B. Wemple were late. Edwin R. Seykota, in a preliminary report, gave this station, the Winthrops, etc.

To prevent the use of these bulletin boards to be 11 x 17 inches and in a report on the Freshman Committee, presented, on behalf of the various groups. The full name reads of the Walkers Memorial Committee (Continued From Page 1)

There is no need to announce the opening of the Walker Memorial Committee annual banquet in a few days in advance. In the case of the Institute Committee, meetings are announced the day the article will read.

There are no discussions of these bulletin boards, which are not connected with the Institute. The Institute Committee, excluding Board of Managers, will be played immediately after the conclusion of this article.

One of the required sections states that prospective candidates for the Walker Memorial Committee are:

- Frederick R. Cliffe, '37 and a member of the National Olympic Committee as well as the Walker Memorial Committee (Continued From Page 1)

The teams are competing for a second year, the purpose of which is to build a top-notch outfit. The program for the evening will consist of the upper and lower class matches, and the program for the evening will consist of the upper and lower class matches, and the program will be devoted entirely to the evening's entertainment.

The teams will be divided into two groups, each consisting of the upper and lower class matches, and the program will be devoted entirely to the evening's entertainment.
5.15 Additions

The curtain is needed because of the overcrowding of the lunchroom. At the present time, according to a survey of the conditions, 60 members oppose the fresh- men and the Juniors. Anybody next year, 250 members. At the present time, according to a survey of the conditions, 60 members oppose the fresh- men and the Juniors. Anybody next year, 250 members.
