

Inst. Comm. Starts Investigation Of Honorary Society

Walker Committee Announces Change in Activity Point System

\$250 Allotted Tech Forum To Get Important Speakers

Musical Clubs' Petition for Corporation Financing Approved

A committee to investigate the activities of Beaver Club, Junior Honorary society, was appointed at the meeting of the Institute Committee last night in Walker. Also announced were a revision in the activities point system and a new financial arrangement for Tech Open Forum, formerly Tech Union.

The chairman of the committees is William G. Gibson, '37; the others are Cornelius K. Coombs, '38, Willard Roper, '38, and Richard G. Vincens, '38.

Point System

Frank J. Kearny, '38, chairman of the Walker Memorial Committee, announced a revision of the points allotted to many of the activities positions, and awarded points for some new positions. The Senior class president was raised from 10 to 12 points; the establishment of an M. I. T. A. A. equipment manager with a sophomore and a freshman assistant carrying 6 points, Open House Chairman with 7 points and chairmen of subcommittees with 6, was announced all dorms. Dean Bush Discusses Benefits of Argument At Debating Banquet

Dean Burdell, Professor Smith Also Speak to Diners At Meeting

That Technology is more free from prejudice than any other "corner of this world of ours" was the opinion expressed by Doctor Vannevar Bush, Dean of Engineering, Tuesday evening at the final banquet of the Debating Society in the Silver Room of Walker Memorial. Professor Edwin S. Burdell, recently appointed Dean of Humanities, and Professor Theodore Smith, Faculty advisor for the club, also addressed the group after (Continued on Page 2)

Debate

Institute Committee Lists Elections And Appointments

The following elections and appointments were announced by the Institute Committee last night:

Stuart Paige, '39, manager of Field Day; John R. Cook, '38, chairman of Freshman Rules Committee; Fred P. Forman, '38, president, and Benjamin W. Badenoch, '39, vice-president of the Combined Professional Societies; John R. Cook, '38, Willard Roper, '39, George A. Morrell, Jr., '39, Francis A. Fisher, '38, Nicholas H. Wheelless, Jr., '38, Frederick Kalb, '38 to the All Tech Smoker Committee; Dale F. Morgan, '38, secretary-treasurer, Harry B. Hollander, '38, Fred P. Forman, '38, Benjamin W. Badenoch, '39, Elmer F. DeTiere, Jr., '39, subcommittee chairmen of the Open House Committee; Richard Muther, '38, Charles E. Olsen, Jr., '38, and Robert M. Atwater, '39, to the Executive Committee of the Nautical Association.

"Purdue Engineer" Given T.E.N. Cup

Indiana Magazine Judged Best In the First Awarding Of New Contest

The Tech Engineering Cup to be offered each year by the Tech Engineering News in a nationwide contest for the best undergraduate technical journal, has been awarded for the first time this year to "The Purdue Engineer" of Purdue University, according to an announcement yesterday by Harry O. Saunders, '38, General Manager of the T. E. N.

Honorable mention in the contest was given to the "Cooperative Engineer," published at the University of Cincinnati, and "The Michigan Technician," of the University of Michigan. Seventeen magazines competed for the cup.

The Tech Engineering News, three years the winner of the cup offered by the Yale Scientific Review, last year offered to withdraw from competition and to sponsor the contest, in which the cup is now awarded for the first time. The cup will be presented every year until one publication has won it three times in succession, thus retiring it from the competition.

Judges in the contest were J. Rhyne Killian, editor of the Technology Review; Professor Frederick G. Fassett (Continued on Page 2)

Junior Coed, Two Seniors Receive Stratton Prizes

Anne Person Wins Second Place With Paper on Glass Architecture

Wood is First, McLean Third

Miss Anne A. Person, junior coed in the school of architecture and two seniors were announced today as the winners of the Stratton Prize contest for the best papers by undergraduates on any technical subject.

Duane O. Wood VI-C, '37, of Denver, Colorado, won the \$50 first prize for a paper on "Television". The second prize \$30 was awarded to Miss Person IV, '39, El Paso, Texas. Miss Person, the first woman student to compete in the contest, presented a paper on "The Use of Glass in Architecture". James D. McLean VI-A, '37 of Framingham, Mass., won the \$20 third prize for a talk on "Circuits in Politics", a discussion of the use of radio and public address systems in political campaigns.

Finals of the contest, at which President Karl T. Compton presided were held in the form of a general convocation on May 14. Judges were William S. Forbes, '39, of the Forbes Lithograph Manufacturing Company; Reverend Henry M. B. Ogilby, Rector of the Church of Our Saviour, Brookline, Mass.; and Professor Philip Cabot of the Harvard Graduate School of Business Administration.

The prizes were established six years ago by the late Dr. Samuel W. Stratton, then President of the Institute, to stimulate interest in the art of writing and of public speaking among Technology students. Any member of the combined Professional Societies is eligible to compete for one of the three prizes which are offered for the best fifteen minute speeches on a technical subject.

Dr. Samuel C. Prescott, Dean of Science, heads the committee in charge of the contest.

Senior Ball To Hear Mal Hallet and His Orchestra on June 8

Option Redemption Under Way As Tables At Statler Are Assigned

Mal Hallet's recording orchestra, which has till recently been engaged at the Hotel Commodore in New York City, will play at the Senior Ball in the Hotel Statler on the evening of Tuesday, June 8, according to an announcement made public by the Senior Week Committee yesterday.

The Senior Ball, which follows the President's reception and a tea dance in the afternoon, is expected to be the climax of the entire senior week. Bids to this dance will cost \$7.50 apiece unless a blanket ticket for Senior Week has been obtained for \$10.50 in advance. Any senior who has already bought an option for the blanket ticket should redeem his option immediately so as to be able to select an advantageous table at the Statler ballroom.

22 Plant Engineers Hear Talks At Dinner

A meeting of the Plant Engineering Society was held last night in the Faculty Dining Room of Walker. Mr. L. W. Sheehan of Bird and Company, roofing manufacturers was chairman of the program. Twenty two, mostly members of the faculty, were present. After dinner a program of speeches was held.

22 Schools Compete In N.E.I.C. 3-A Meet At Institute Field

George G. Morrill, '27, Dies Of Heart Attack Yesterday

George G. Morrill, '27, died of heart attack this afternoon at 5:50 P. M. at the Institute. Mr. Morrill, who had been suffering from the effects of infantile paralysis for many years, was accustomed to travel about the Institute in a wheel chair. He was leaving his office chair to transfer to his wheelchair when he was seized with a heart attack to which he succumbed within three minutes.

Mr. Morrill was a member of the staff of the alumni office, where he was in charge of the alumni register. At the Institute he majored in Biology, graduating in 1927 with an S. B. degree. He resided at 55 Fresh Pond Parkway, Cambridge.

M.I.T.A.A. Awards 20 Straight T's

Nine Medals Are Also Given At Banquet Wednesday In Walker

Twenty straight T's were awarded and nine medals commemorating new Institute records were presented Wednesday night when the M. I. T. A. A. held its annual banquet in Walker.

Fourteen varsity club awards were also made in addition to almost two hundred varsity letters. Among those receiving the straight T were all the members of the 150 pound crew which won the Intercollegiate championship last week. The crew consists of W. W. Preston, '38, S. V. Arnold, '39, R. B. Wooster, '39, L. W. MacMillan, Jr., '39, H. M. Woodward, '39, F. S. Atwater, '38, H. W. Withington, '39, E. V. Piel, '38, and J. Warburton, Jr., '37.

Others who received the straight T were W. M. Pierce, '37, captain of (Continued on Page 4)

Meeting Will Raise Money For Loyalists

Compton Sponsors Group Giving Medical Aid to Spain

A meeting to raise funds for Medical aid to the Spanish government will be held in Eastman Lecture Hall at five this afternoon. The speaker will be Joseph B. Levin, Publicity agent for the Boston Medical Bureau for Aid to Spanish Democracy. One of the sponsors of the Bureau is President Compton.

The meeting is being conducted by a student-faculty committee composed of Professors Norbert Wiener, Theodore Smith, Dirk J. Struik, Manuel S. Vallarta and Phillip M. Morse, with John J. Wallace, '38, Thomas G. Goldfrank, '40, and Joseph Shill, '40, as student members. Professor Wiener will act as chairman of the meeting. Funds will be turned over to the Boston Medical Bureau to purchase a generator for a hospital in Spain. Harvard University expects to donate an ambulance.

The T. C. A. Cabinet, at its meeting yesterday afternoon, refused to support the drive for funds, expressing the belief that participation in the drive would indicate support of the Spanish government. The T. C. A.'s sanction had been requested by Joseph Shill, representing the committee, as "a humanitarian gesture."

400 Athletes Compete In Track Events This Weekend

Technology Strong In Track But Weak In Field Contests

Guerke, Cooper, Sabi, Hamilton, Faatz, and Kites Lead Technology Men

Over four hundred athletes, representing twenty-two colleges, will compete today and tomorrow at Tech field in the 51st annual New England Intercollegiate Amateur Athletic Association track meet. Of the twenty three members in the Association only Norwich University will not be represented at the meet.

Rhode Island, who joined in 1921, is the outstanding favorite to capture the meet as they have many scorers in both track and field events. Holy Cross, last year's winner, however, might upset predictions and win. Because of its weaknesses in the field events Technology probably will not be able to take better than fourth place.

Outstanding performances from Technology men in the meet are (Continued on Page 4)

Elections Announced As Sigma Xi Initiates Forty-six at Dinner

Hardy Heads Group Next Year; Bunker, Smith Address New Members

The fourth annual initiation of the Technology chapter of Sigma Xi, national honorary scientific society, was held in the Eastman Auditorium last evening.

Officers elected for the next year were, Professor Arthur C. Hardy, President; Professor Walter C. Voss, Vice-President; Professor Bernard E. Proctor, Treasurer; Professor John B. Wilbur, Secretary, and Professor Hoyt of Hottell, Elector.

The initiates elected to the Society last night included twenty-four members and twenty-two associates. The members were, Dean William Emerson; Professors John M. Lessels, Henry E. Rossell and Arthur R. von Hippel; Chaim L. Pekeris, William H. Radford, Geoffrey Broughton, William W. Buechner, Robert V. Lukes, Walter K. MacAdams, Joseph Morgan, Edward J. Schremp, Gerald L. Simard, Goug-Jen Su, Sidney Sussman, William I. Thompson, John M. Andreas, Newton W. Buerger, Clifford Frondel, Junior H. Howard, Joseph S. Lukesh, Bertram Wellman, Robert B. Woodward and Miss Margaret K. Seikel.

Associates elected were Lan Jen Ellsworth B. Downing, James F. (Continued on Page 4)

Dr. Bush to Talk at Faculty Club Lunch

"Current News concerning the Institute and its Problems" will be the subject of a talk by Dr. V. Bush, Vice-President of the Institute, at a lunch to be given today at twelve noon in the North Hall of Walker.

Dr. Bush will give the latest news about current events and plans for the future. Immediately following his talk, election of officers to the Faculty Club will take place.

Prof. Burdell New Dean Of Humanities Discusses Housing From Social Angle

Professor Edwin Burdell, recently appointed Dean of Humanities, who will discuss the social and economic aspects of the housing question at the Amherst Housing Conference at Massachusetts State College tomorrow, is considered an expert in his field. The new dean, a Technology alumnus and formerly associated with the Ohio State University faculty, is chairman of the National Committee on Instruction and Research in Housing.

Professor Burdell stresses the necessity of "education in the broadest adult education sense if the former slum dwellers are going to be improved by being moved up from basement tenements to decent quarters."

He says the answer to the coal-in-the-bathmenace is education, and that means to use a kitchen sink on a bathtub for their intended purposes may be the first step in acquiring the accepted American way of living.

Furthermore Professor Burdell contends that the government is not competing with private industry in these housing projects as the families who will be admitted are in the lower

Professor Burdell

economic groups and never have had enough money to build or rent decent enterprises built only 30 percent of all the new homes. However, in 1934 after the government had added more than a million low rental units, private

A SCIENTISTS CREED

AS EXPRESSED BY ONE OF THEM

AT last week's Sigma Xi meeting the retiring president, Professor John W. M. Bunker, in his charge to the initiates, stated so well the spirit that leads to real progress in science that we feel impelled to quote it here. Students in fields other than science would do well to remember these words, but in the field of research the attitude here expressed is almost essential. All the greatest leaders of scientific research must have had the same attitude we feel.

Professor Bunker's charge was:

"May our desires never be sated; may we be spurred by curiosity concerning the causes of all things; may there ever be before us a goal not yet attained. May we be prone to question but not to quarrel; to argue without acrimony until the power of proof shall prevail. May we learn to listen and to see; and to winnow the words that are written, discarding the chaff and conserving the kernels of truth, remembering the words of Pasteur, ' . . . it is always a mistake not to doubt when facts do not compel you to affirm.'"

DORMITORY RUSHING

A GOOD BEGINNING

THE plan to "rush" freshmen, announced by the Dormitory Committee a few days ago, is an excellent idea. The dormitories apparently have decided that there is no point in letting the fraternities take their pick of the freshmen, but that the dormitories should try to urge some of the outstanding men to remain.

At Technology there has been nothing very much like the "house" spirit at, for instance, Harvard. The new plan may be the beginning of something like it. In the past the entering man's introduction to the dormitories has not been too pleasant, in many cases, especially when compared with the attitude of fraternity rushing committees.

Too often the freshman's first introduction to dormitory "life" comes when his room is "stacked," or when he is subject to some other type of hazing. We realize that a stacking performed in a good-natured way will not often influence a man to leave the dormitories. But frequently groups of irresponsible men go too far, especially when they are not personally as well acquainted with the freshmen as would be the case in a fraternity. The new men see none of the advantages of dormitory life and are unfavorably impressed by the upperclassmen's antics. If the dormitories want to compete with the fraternities they must use similar methods.

But the dormitory men should follow the example of the fraternities not only in rushing, but in other respects. They should make a serious attempt to get their residents out for

activities. Part of the reason for the frequently-made charge that fraternities run activities has been the lack of dormitory men and commuters trying out for those activities. Furthermore, there should be more opportunity for social relationships between the men living together. In addition to the not-too-well-attended dormitory teas and the all-inclusive dormitory dances, there is little to bring the men together. Hall dances and dinners, or similar events, at which an effort is made to get out all the men in each hall, would be one excellent plan. The floor chairmen just elected under a new plan are just the ones to make an effort in this direction. The dormitories have been too long little more than a place to room for those many of its residents. It is time to make a change.

\$400 GIFT

FROM STUDENT'S POCKETS

THE refusal of the T. C. A. Cabinet to accept an offer of \$400 a year for the partial support of the Tech-in-Turkey project is the oddest piece of financial maneuvering seen in some time. The offer of Robert College to pay part of the expense was turned down in order to uphold the "pride of the T. C. A." This action is justified by the claim that the additional money which the T. C. A. will have to raise next year for the project will be less than five hundred dollars. Granted that this can be accomplished by higher pressure in their drive there is no assurance that there will be any such reserves in future years and that the budget can be kept within reasonable bounds.

This pseudo-pride is the flimsiest excuse yet conceived for turning down an annual income of several hundred dollars, particularly when the student body, is supposed to supply it. A group subsisting on voluntary financial contributions has little right to refuse a gift on a fantastic pretext. Student opinion on this project cannot be expected to be favorable if the T. C. A. persists in its refusal to relieve the students of this additional expense.

OPEN FORUM

Elections

Editor, The Tech:

I have just received through the Dean's Office a criticism of the method by which the recent Class Elections were carried out. The writer, who signs himself as a "Conscientious Objector, feels that the counting is done by a non-representative group, that the election of certain individuals will be detrimental to the spirit and the unity of certain classes, and finally requests that a new election be held.

It is indeed unfortunate that the writer has not become acquainted with the Undergraduate Constitution by which each activity maintains its existence. I would like to refer the writer to Art. 8, Sect. 15 of the Elections Committee Constitution which states that all complaints concerning a recent election must be referred to the Executive Committee of the Institute Committee before the meeting of the Institute Committee immediately following the elections. Further, the time to complain about the particular nominees for an office is not after they have been put in office but previous to the election. There is no reason why anyone can not campaign for one candidate or another as long as there is no support from a recognized activity and as long as no electioneering is carried out in the vicinity of the polls. Concerning the remarks about the counting of the votes, I again refer the writer to the Undergraduate Constitution of the Elections Committee, Art. 3 and Art. 4, Sect. 12 to be specific.

A new election has been held only when there has been evidence of illegal electioneering, as in the Junior Prom elections in 1935. It is needless for me to say that a new election would not be held on the mere say so of one man. Again let me refer you to the Undergraduate Constitution Art. 4, Sect. 2, concerning the actions taken by the Institute Committee, states that in the event that a group of students disagree with the action taken that on the submittal to the Institute Committee, not more than ten days after the action took effect, of a petition signed by 50 students that the particular action must be referred to the student body by a popular referendum.

I trust that this will clear up any questions in the mind of the "Conscientious Objector" concerning the management of the undergraduate elections.

David S. McLellan,

Pres. Inst. Com. 1937

Reviews and Previews

METROPOLITAN — Benny Goodman, "The King of Swing", and his band which made the last I. F. C. Dance is on the stage. On the screen is **The Go-Getter** with George Brent and Anita Louise.

SCOLLAY AND MODERN — Attractions for the current week include **Mountain Justice** with Josephine Hutchinson and George Brent and **King of Gamblers** with Claire Trevor and Lloyd Nolan.

UPTOWN — History Is Made at Night starring Jean Arthur and Charles Boyer in co-featured with **Internes Can't Take Money** with Barbara Stanwyk and Joel McCrea.

WASHINGTON ST. OLYMPIA — Beginning tomorrow and continuing through Tuesday, the presentations are **Marked Woman** co-starring Bette Davis and Humphrey Bogart and **The King and the Chorus Girl** featuring Fernand Gravet and Joan Blondell.

TREMONT — Returning for a second engagement is **Mutiny on the Bounty** with Charles Laughton, Clark Gable and Franchot Tone. In the second feature, Anne Shirley is showing in **Chatterbox**. As an added attraction, actual and complete pictures of the recent English coronation will be shown.

BEACON — Today and tomorrow, the features are **The Great O'Malley** with Pat O'Brien and Sybil Jason and **Career Woman** with Claire Trevor and Michael Whalen. Sunday through Tuesday, the double feature includes **Fred MacMurray** in **Swing High, Swing Low** and **Jack Holt** in **North of Nome**.

EXETER — Current attractions include **Mama Steps Out** with Guy Kibbee.

Debate

(Continued from Page 1)

the speeches officers for 1937-38 were elected.

Following Dean Burdell's talk, which lauded debating as an activity that teaches undergraduates to see both sides of a given question, Dean Bush amplified this idea at length to show that, among other advantages derived from debating, it is effective in freeing the participant's mind from prejudice. An account of the successful year the club has enjoyed was given after the main speeches.

Officers elected for 1937-38 were as follows: Nicholas Shoumatouff, '39, president; Peter Bernays, '39, manager; Lee H. Bloom, '40, secretary-treasurer; Divo L. Tonti, '40, recording secretary; Howard I. Schlansker, '38, Russell T. Werby, '40, members of the executive committee. No member of the executive committee was chosen from the class of 1939.

FIRST AID

FOR FLOODED AREAS

DURING the January floods, Western Electric—Service Of Supply to the Bell System—once again set in motion its machinery for meeting disasters.

From its three factories and many distributing points, it rushed telephone materials of every kind into the flood stricken areas. Day and night, telephone men and women worked to maintain and restore communication.

Dramatic as is this emergency Service Of Supply, it is really no more important than Western Electric's everyday work. For 55 years, it has backed up the Bell System with an endless flow of quality equipment. A major factor in making your telephone so far reaching, so dependable!

Why not give the family a ring tonight? Rates to most points are lowest after 7 P. M. and all day Sunday.

BELL TELEPHONE SYSTEM

Predictions Made By Oscar Hedlund For N.E.I.C. 3-A

Rhode Island State Favored With Holy Cross Next In 51st Mee.

Meet Records Slated to Fall

by Oscar Hedlund

In making up a dope sheet of results we have to consider many things, such as: will a boy run in one or more events, or has he any injury to prevent him from doing his best; so it is more or less a guess as to what the real result will be. Several of the best men have had such conditions, so they may not show so well as we doped, and then some who have been laid up are now ready to score points for their college.

Scanlon, Holy Cross, Looks Good for Sprints

The 100-220 should go to Larry Scanlon of Holy Cross, but the battle in the final heat should have the judges taking plenty of time to pick the scorers. The best race of the meet should be on Saturday when Gill of Boston College and Cook of Williams come up the home stretch in the 440, as they are great racers and a new record is due. The 880 is wide open, but Quinn of New Hampshire and Raymond of B. U. have reeled off very fast halves recently. The mile has a classy field, including O'Conner, runner up to Capt. Guerke last year at Brown, when Henry created a new Institute record of 4:23.4. O'Conner of Holy Cross, Porter of Bowdoin, and Holt of Rhode Island have all done 4:25.0, so we can expect a very fast four laps around the Tech track. Gene Cooper is running better than ever, and will be in the fight for points. The two milers should break Peaslee's 8:29.0 mark made in 1926, if they do not wait to let someone set a slow pace. Guerke is the favored runner in this eight lap race, as he has reeled off very fast times in dual competition, and also because of his very fast two miles at the I. C. 4 A. Indoor Meet, when Smith of Rutgers nipped him at the tape. The high and low hurdles have class this year, but Conley of Rhode Island stands out as leader in these two events. Maine will miss Gorrell as he would be a sure point getter.

Northeastern Star in High Jump

The high jump has Miles of Northeastern, who already has cleared 6 ft. 2 3/4 ins. this season and this is nearly two inches higher than anyone else has done this spring. There should be a split in points when McCarthy of Maine, Turner of Springfield, and John Hamilton, '39, of Tech, take their turns. "Ham" has cleared six feet this year, a fine piece of work, considering the newness of the jumping circle.

The broad jump is one event where anything can happen, as so often jumpers do not get the distance in this class of competition as in dual meets. Three men have already cleared 23 feet during the spring meets. The pole vault is another event where there will be a split in points. Singesen of Rhode Island had a poor leg, and may not go so well as a week ago, when he cleared 13 feet, three inches above the association record. Kites, '38, of Tech and McShane Brown have both cleared twelve feet six inches.

B. C. Will Take Shot Put

The shot put is all settled now, because Zaitz of Boston College has gone beyond the New England record twice this year. No one can come near him, as the nearest man, Horowitz, of Brown, put it only 48 feet 7 inches. In the discus, Rowe will try to maintain the championship again this year. He threw the discus last year 143 ft. 5 in., to collect the gold medal, but his 156 ft. 1 1/4 in. last Saturday makes it look as if he can create a new record today. In the hammer throw, Fowartshny of Rhode Island, like his team mate Rowe, has exceeded the association record this year. Black of Maine, the record-holder in 1929, threw the hammer 171 ft. 1 in. on Tech field, and already the Rhode Island boy has a mark of 176 ft. 11 in., so it is certain a new mark is due. The javelin has Bell of Maine, 1936 winner, and he too has bettered his mark of last year.

Out For Record in Two Mile Tomorrow

—Boston Globe.

Henry Guerke, track captain, as he won the one mile championship at Providence, R. I. last year in the Intercollegiate, setting a new Tech record.

Everything points to Tootel's Rhode Island boys to win with ease, as they are well protected in both running and field events, a well balanced team, but things can happen so that Holy Cross, the defending champions, might upset the dope sheet. Tech has a well-rounded team entered, but not enough strength to be in the first four. G. Carlton, in the sprints, N. Sabi, in the 440, G. Cooper, in the mile; H. Guerke,

in the two miles; A. Faatz, in the low hurdles; Kinraide in the hammer; J. Hamilton, in the high jump, and L. Kites, in the pole vault, are Tech's leaders; and all should be in the scoring.

The games this year should be the best and the classiest competitions ever seen on Tech field. Friday the games start at 3.45 p.m., and on Saturday at 1, with the pole vault.

Varsity Tennis Team Drops Match To Brown

Yearlings Defeat Bruins Cubs In Last Meet

Under threatening skies, the varsity tennis team dropped their last match of the season to the powerful Brown University team last Monday at Providence by a 5-1 count. The doubles were called because of rain. The team has had a very successful year, concluding with a record of four wins against two defeats.

Bill Babcock provided the Beavers with their only win when he swamped J. Exton, 6-0, 6-4. Captain Lytle and Walt Wojtezak carried their opponents to long three set matches but were overcome by the tune of 6-2, 2-6, 6-2, and 6-0, 4-6, 8-6 respectively. Cy Stearns, Welcome Bender and John Wholey lost straight set matches.

The promising yearling team concluded its season by vanquishing the Brown freshman team, 4-2. Bob Millar and Paul Keitel took their matches in straight sets, while Jim Rumsey and Olaf Rustad were drawn out to three sets before winning. Will Schnorr and Dick Braunlich lost their matches.

Golfers End Season In Match With W.P.I.

A strong M. I. T. golf outfit drubbed Boston College to the tune of 4-2 Tuesday afternoon in a match held at the Oakley Country club.

Captain Paul Sullivan started the little white balls rolling by tying, giving Tech a half point. Charlie Wetterer dropped his one ball match and the team of Sullivan and Wetterer tied their four ball contest. Stewart and Manager Ewing each won their individual matches. They followed up these wins by coming out on top in their four ball match.

The Beaver golfers will meet Worcester Polytechnic Institute Saturday morning at Oakley in the last match of the season. So far they have split even, winning three and losing three matches. They are expected to make a good showing in the Saturday attempt.

Three Dinghie Races Coming Over Weekend

The dinghies face a busy weekend, with three series of races scheduled for Saturday and Sunday, over and beyond regular sailing. On Saturday, there will be a Muffin Race, for racing skippers only, in which the crew carried must be female and sail the boat for half of the race. According to an official announcement, the "skippers will be held responsible for the boats!"

Sunday morning at 10.30, there will be a contest for racing skippers only; followed in the afternoon by a team race against Harvard. The Tech team for the latter is composed of Adams, Atwater, Calkins, Hanson and Olsen, all racing skippers.

UNDERGRADUATE NOTICE

The T. C. A. announced last night that it has tickets admitting persons to the Douglas Flagship display at the Boston Municipal Airport. These tickets are available without charge to all students who desire them.

Delta Kappa Epsilon Wins Interfraternity Soft-Ball

Led by the deceptive pitching of Texan Bob Park, Delta Kappa Epsilon defeated the soft-ball team of Sigma Nu by the score of 8 to 1 in the finals of the Interfraternity Conference soft-ball tournament yesterday afternoon.

According to Howard E. Milius, '38, vice president of Beaver Key and chairman of the committee on intramural baseball, the Dekes will meet a team composed of the outstanding commuters of the 5:15 Club this afternoon on the Coop Field. The winners of this game will play the graduate team, Grads A, which won the dormitory tournament, on either Saturday or Sunday of this week-end.

Frosh Crew Captures Richards Cup Race

Leading by a comfortable four lengths, the second freshman 150's rowed home ahead of a sophomore crew in the annual Richards Trophy memorial race on the Charles Tuesday. Time of the victors was 5.42, against the 6.02 of the sophomores.

The freshman crew consisted of Walter E. Carron, Jr., bow; Michael Witunsky, 2; Ralph T. Millet, 3; John J. Piotti, 4; Frederic R. Innes, 5; Paul L. E. Alberti, 6; Joseph B. Wiley, 7; Howard E. Schwiebert, stroke; and Samuel Rabinowitz, cox.

All the members of the winning crew will receive gold medals and their class numerals; and the numerals of their class will be engraved on the Richards cup.

Reviews and Previews

(Continued from Page 2)

bee and Alice Brady and Under Cover of Night with Edmund Lowe and Florence Rice. On Sunday and continuing for the first half of the week, Jeanette MacDonald and Nelson Eddy will be seen and heard in Maytime.

UNIVERSITY — Triple features for the first half of the week are The King and the Chorus Girl with Fernand Gravet and Joan Blondell, Breezing Home with William Gargan and The March of Time.

UNDERGRADUATE NOTICE

Seniors who desire a photostat copy of their complete record at the Institute should leave an order at the Records Office, Room 3-107. There is a charge of \$0.50 for the first photostat and \$0.25 for each additional copy ordered at the same time. These will be ready for delivery about the first of July.

Track

(Continued from Page 1)
 looked for from Granville E. Carleton, '39, in the sprints; Nestor Sabi, '37, in the 440 yard run; Eugene P. Cooper, '37, in the mile; Captain Henry H. Guerke, '37, and holder of the one mile championship, in the two mile run; Albert C. Faatz, Jr., '37, in the low hurdles; Thomas R. Kinraide, '37, in the hammer throw; John S. Hamilton, '39, in the high jump, and Luther W. Kites, '38, in the pole vault.

In their last meet of the year on Wednesday the freshman track team defeated Governor Dummer Academy by a score of 69 to 39. This was the second win for the frosh in the three dual meets this year.

Housing

(Continued from Page 1)
 vate industry was contributing 85 percent of all home building.

The important point that one cannot measure the cost of slum clearance entirely in monetary values is clearly brought out by Professor Burdell. On a strict basis of accounting it may not be possible to amortize the original cost and the upkeep if rents are kept down to a level within the reach of the lower income groups, which number sixteen million families whose income is less than \$2000. He further points out that if one takes into account the social values gained by the improvement of the general health level and of delinquency, the

federal housing program will prove justifiable. In fact, a recent survey by Howard Whipple Green, '14, of a 300 acre tract in the heart of the city of Cleveland revealed that this 0.7 percent area of the city and 2.5 percent of its population produced 21 percent of the murders, 26 percent of the prostitution, 10 percent of the illegitimate births, and 12 percent of the deaths from tuberculosis.

Professor Burdell concedes that, while decent housing for the 60 percent of the American families whose incomes are less than \$2000, will not entirely eliminate these problems, at least this step will produce an adequate physical framework for the shelter of the family and permit a degree of privacy, convenience and recreation space indispensable to the American standard of living.

Institute Committee

(Continued from Page 1)
 mitory positions except the dormitory committee and the dance committee were dropped from point requirements and many other offices had their points decreased.

Tech Open Forum

the twenty-two cents per student allotted from the tuition, was given to the Tech Open Forum on which to operate next year.

Dues will be abolished and the meetings open to the entire student body.

The contingency fund, which has been accumulated and invested over a period of years, was this year used to finance the Musical Clubs. So it approved a petition by the Musical Club that it receive corporation financing. This, if passed, will enable them to secure adequate coaching and a larger program next year.

 the varsity crew, C. R. Gidley, '37, captain of lacrosse, G. R. Weppler, '37, R. Y. Jordan, '37, H. H. Guerke, '37 (track captain), Leo R. Dantona, '37, captain of fencing, P. H. Dreissigacker, '37, captain of gym, E. A. Brittenham, Jr., '37, captain of soccer, J. M. Gillis, '38, and C. C. Dodge, '37, captain of swimming.

Captain Dodge, of the swim team, was also the recipient of five medals in recognition of Institute records he has made this year in the 150-yard backstroke and in the 100 and 220-yard freestyle. Similar awards were made to the four members of the Beaver relay team; E. Cooper, Nestor Sabi, A. C. Faatz, and A. A. Fogliano, all seniors.

— AND WHEN THEY
 FEEL TIRED THEY

get a **LIFT** with a *Camel*

MARGARET HUTTON
 —free-style and back-stroke champion and famous for her record-breaking performances as a plunger—has smoked Camels since 1935.

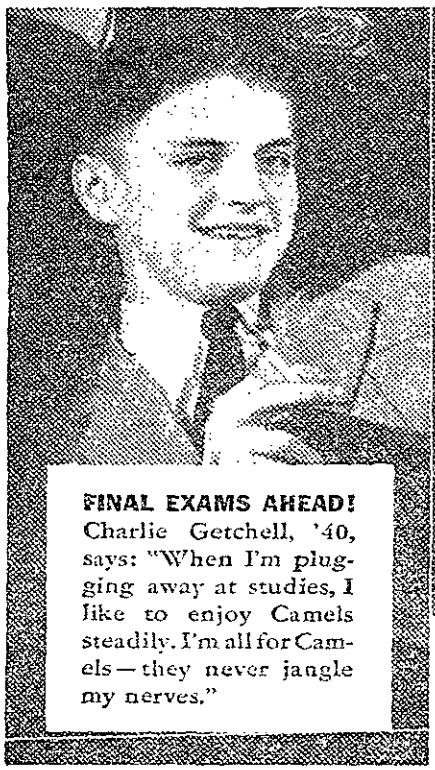

JANE FAUNTZ MANSKI
 started smoking Camels 2 years ago. This Chicago girl's superb diving form won her National and Olympic honors.

JOSEPHINE MCKIM
 —holds records in both sprint and distance free-style events. Camels have been her favorite cigarette for 3 years now.

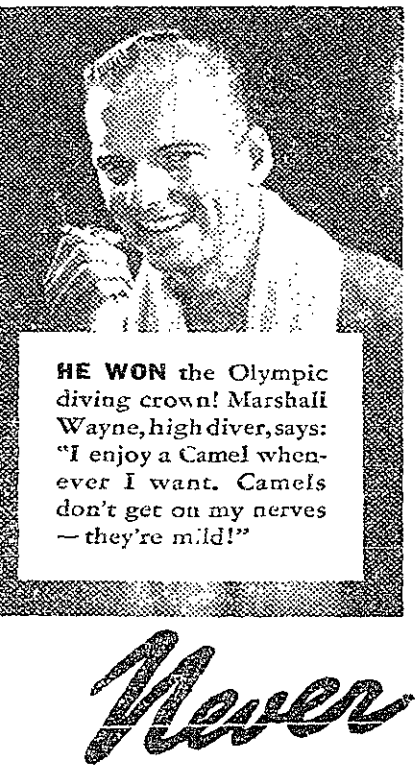

GEORGIA COLEMAN
 —made Olympic history in her spectacular spring-board diving victory in 1932. She became a Camel smoker that same year.

LENORE KIGHT WINGARD
 —the foremost woman free-style swimmer—holds 7 world's records, 16 national ones. Camels have been her cigarette for 4 years.

DOROTHY POYNTON HILL
 —perite, blonde Los Angeles beauty—the incomparable Queen of the 33-foot platform dive—became a Camel fan over a year ago.

FINAL EXAMS AHEAD!
 Charlie Getchell, '40, says: "When I'm plugging away at studies, I like to enjoy Camels steadily. I'm all for Camels—they never jangle my nerves."

HE WON the Olympic diving crown! Marshall Wayne, high diver, says: "I enjoy a Camel whenever I want. Camels don't get on my nerves—they're mild!"

WHAT THESE ACE MERMAIDS SAY—
 Dorothy Poynton Hill speaking: "I'm always in training. I prefer Camels for their mildness. They never jangle my nerves. I can enjoy smoking as often as I wish. Another advantage of smoking Camels is the invigorating 'lift' they give me when I'm tired."

Lenore Kight Wingard—one of the greatest woman athletes of our times—adds this: "I really get fun out of swimming. Hard work is part of the game. For four years I've been a Camel fan. Camels help me enjoy my food no matter how tired or strained I may be. I've found Camels do not irritate my throat."

Camels
Costlier Tobaccos
Never get on your nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.
