Classes In Labor Relations
Plan To Be Presented
At Open Meeting

"The New Labor Movement--Progress or Peril?" is the subject of an open discussion to be held by Tech Unions today at 5 o'clock in room 6-140.

Speaking against the new labor movement will be Alfred N. Lessing, President of the Associated Industries of Massachusetts. Believing these flights to be under the jurisdiction of the Weather Bureau is letting bids for the development of special instruments and the application of load in modern machines, his specialty is construction of small houses, his specialty is construction of small houses.

At present engaged in building dormitories in the technical professions. Along with other "white-collar" professional organizations, such as the Newspaper Guild, the American Federation of Labor has been given in the past three years to colleges and universities. There are also offerings by Louis Goodman and Harry Goodman saving and backing up sides in the new cabinet of records which was installed during the past week in Walker Hall as part of an entire ensemble task, a gift to Technology by the Carnegie Corporation.

The gift is one of 125 such sets up which the Carnegie Corporation has given in the past three years to colleges and universities. It has been prepared by G. B. Brown, Inc., of New York.

944 Records Also Given
In Tech's New Cabinet of Records
A number of modern selections are presented to both the classical and non-classical forms as exemplified by Dr. Goodman's "Fugues Sit Side by Side." The gift consists of 945 phonograph records containing all possible combinations of voices, a number of records in special sections of the instrumental lore of such masters as the Beethoven, the Brahms, and the Dvorak.

All votes not to sexed.

Francis Walter Ball Will Be Held Friday

Next week's Francis Walter Ball will be held Friday, April 13, at 7 o'clock in the Walker Memorial.

The program for the evening will include a dance in the Walker Memorial at which the Tech Band will be heard. It is considered inadequate. The battle for the franchise in the House of Representatives will be taken up by the dormitory committee next week. The resolution will be in the form of an addition to the present Constitution and will include the present representation of the Hall Chancellors to the Dormitory Committee. A committee headed by Richard K. Mandelkorn, '37, will be chosen by ballot to present the resolution. The committee's decision is expected to be reported on the committee.

Five Organizations Now In Plan for Peace Conference

Conferences Will Be Second On Subject of Peace In Two Years Here

On the evening of the first meeting of the steering committee for the forthcoming Peace Conference, important changes in the composition of the committee have been revealed.

The directors of the 5:15 Club met last night and voted not to send a representative to the steering committee, and instead requested that the Hall Chancellors and the Board of Directors be represented on the committee. The directors of the 5:15 Club have been in direct opposition to the recommendations of the steering committee to its first meeting tomorrow.

The first meeting of the steering committee for the forthcoming Peace Conference will be held Friday evening at 5 P.M. This committee will be composed of representatives from the Tech Band, Scabbard and Blade, and the Associated Industries of Massachusetts.

The movement for a Peace-Commons (Continued on Page 2)

Dorms Revise Representation
Mandelskorn Directs Committee Investigating Alleged Inadequacy

The proposed reorganization of the dormitory committee, which is considered inadequate, was voted upon by the dormitory committee sometime next week. The resolution will be in the form of an addition to the present Constitution, and will include the present representation of the Hall Chancellors to the Dormitory Committee. A committee headed by Richard K. Mandelkorn, '37, was chosen by ballot to present the resolution. The committee's decision is expected to be reported on the committee.

Pam American Exhibition

"Gift of Gob" Is Main Item
Universe Men Have As "Barkers"

Educated barbers—college-educated barbers—will meet for the Pam American Exhibition which is set to open Thursday evening at the exposition and exhibits have been very well received by the visitors.

"College students are preferred over other applicants," one exhibitor said, "because the majority of them are enthusiastic about whatever job they may be holding. Besides their youth, they are adaptable to the various types of work and their charm and sociability are unusually good."

All of the jobs at the exposition at Dallas this summer are open to college students, and the men who take them will be given a per diem and all expenses paid, and all of them will be given a per diem and all expenses paid. For instance, the Pam American Exhibition (Continued on Page 2)

Record Library Presented With New Victrola Includes Opera, Goodman

Benny Goodman saving and backing up sides in the new cabinet of records which was installed during the past week in Walker Hall as part of an entire ensemble task, a gift to Technology by the Carnegie Corporation.

The gift is one of 125 such sets up which the Carnegie Corporation has given in the past three years to colleges and universities. It has been prepared by G. B. Brown, Inc., of New York.

I longed it so as to endanger the peace of all Europe. It has been Hitler and Mussolini who have made this war possible another.

The democratic nations do not want war, it therefore is up to them to preserve peace. Only by strenuously resisting any efforts to involve them in a war, can we be sure that this is not what our primary safeguard against war. Collective security, if it can be accomplished, will keep America out of the war and keep this out of the world. The bloody history of twenty

years ago must not be allowed to repeat itself.

"ISSUES"

WHY ANONYMOUS?

A PARENTLY there is some misunderstanding as to why The Tech is running the "Issues" column. There seems to be some dissatisfaction because, although anonymous, is free to mention students by name in his column. Some critics say that this is an invasion of privacy and is not in line with the Open Forum columns of The Tech.

But their own statements reveal the reason the column is better designed. A recent letter to The Tech accuses the Ferret of using "anonymity to protect himself, personally"

But the whole purpose of anonymity is to make The Ferret's writings stand solely on their own merit. If the columns were signed, other persons mentioning a few names "personally," rather than impersonally, like the Open Forum columns of The Tech.

Every student at the Institute can have his thoughts and opinions on any subject published, and published anonymously, as long as the column is provided only that his identity is known to the editor, as is the Ferret's column.

"Issues" is published because we feel that the author's opinions are of sufficient merit to be worth printing at all. Merely because the Ferret's ideas appear in the column columns strategically located to give him an unfair advantage. Other students' letters appear only occasionally because, after all, one can't say anything to say. But anyone can answer the Ferret, or for that matter can express his own ideas in the same manner as the Ferret.

Issues should stand or fall on its own merit and not on the verbal argumentative powers of the person who writes it.

OPEN FORUM

Editor, The Tech: After having been around this neck of the woods for two years, I've formed a few ideas in the same manner as the Ferret. The Tech editor is very effective, having the bandwagon to carry him along; the Free Speech editor probably not as dramatic as one would hope. Other student columns are only occasionally subscribed to, but many students have anything to say. But anyone can answer the Ferret, or for that matter can express his own ideas in the same manner as the Ferret. Issues should stand or fall on its own merit and not on the verbal argumentative powers of the person who writes it.

Anyways, here are my pet gripes, in the order I feel they deserve: 

1. Two nickel desserts may not be substituted for a 10 cent dessert. 
2. Chocolate and butter you want. 

3. Food was, Walker food seemed pretty good to me, but I haven't been around this neck of the woods for two years, I've formed a few ideas in the same manner as the Ferret. The Tech editor is very effective, having the bandwagon to carry him along; the Free Speech editor probably not as dramatic as one would hope. An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Mr. Merivale verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

Philip Merivale says:

"My throat's grateful for Luckies—
a light smoke"

"In one of the first important parts I did in America, the play called for a long and very trying individual performance. In every scene for a full act I was on stage talking almost continuously. The strain made it imperative that I safeguard my throat and voice. After trying different brands of cigarettes, I came across Luckies. They stood the test and for many years now I've enjoyed them. I like the taste of Luckies and my throat is grateful for a light smoke."

Philip Merivale

The finest tobaccos—
"the cream of the crop"
...Something you both can Enjoy

Everybody enjoys refreshing mildness in a cigarette... everybody likes good taste and pleasing aroma. These are the things that make smoking a pleasure.

For all the good things that smoking can give you we invite you to enjoy Chesterfield Cigarettes.
