**A Long Last**

The Junior Prom Committee long ago said that the Prom will be on Friday, March 19. Just what happened to the junior class in this respect? The Prom Committee did not even announce that they had decided on the date, and so it is not surprising that some students in the middle group (the thesis, together with a brief expository paper) are holding an emergency meeting this afternoon at 5 p.m. in Room 46 to discuss plaus for the "Pil-"

done by the President, and this one group will present the laws, pass them on, and decide if its own laws are constitutional. The evils of politics have wrought enough havoc in the first two departments of the government. Why not maintain the other department in violate?

OPEN HOUSE
PLAN NOW FOR 1938

The game of turn-about seems to be complete. First the Combined Professional Societies and now the Institute Committee have reversed their position on Open House.

It is unfortunate that the decision was made in this manner. The C. P. S. apparently made an aversion to Open House by deciding that they were not required to manage Open House, but lacked enough backbone to say so. As a result both the C. P. S. and the Institute Committee partitioned the faculty to hold Open House, as they have in past years.

But before further action was taken some disagreement appeared. The manner in which Open House has been run in the last few years has been justified. Circus characteristic was beginning to predominate and the exhibits remained too much alike each year.

If the Supreme Court is brought under the management of the Executive Branch, the only question is which the court has already voted illegal?

Why doesn't Mr. Roosevelt be truthful and say that this argument is sound is beside the point.

But the moment the court, the Senate and the house is operating efficiently at the present time.

There are probably even few people than before more acquainted with the results of this battle of the departments of the government. They have a feeling of security for the country. They have a feeling that it was definitely annoying having to work out problems by themselves and now they don't even want to run their own experiments. That sort of thing can't be done at Technology.

While the President estimates who would favor such a move for the year 1938.

The Tec has maintained and still maintains that the student body feels the same way. In fact, the students apparently wanted Open House this year, although their ideas were hardly considered in the decision.

The Tec has maintained and still maintains that Open House should be approached from a fresh point of view. It would be useless to start in 1938 in the same muddled situation now existing. Open House should be planned in its entirety with the main purposes and objectives.

The Tec has maintained and still maintains that Open House should be approached from a fresh point of view. It would be useless to start in 1938 in the same muddled situation now existing. Open House should be planned in its entirety with the main purposes and objectives.

Dramashop Officials: These officers will serve under the terms set forth in a resolution of the Dramashop at McGill University, Montreal, Quebec, having the object of preserving "Canada and the Next War." The following article is a resumen of the recent meeting held by the Dramashop Officers, contributed by Canadian students experiencing a sense of national crisis.

A comprehensive survey of Canadian opinion on the question of war participation or agreement to the bugle-call if another war flames, conducted throughout the land, has revealed the following:

1. There is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements. Yet there is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements.

2. There is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements. Yet there is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements.

3. There is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements. Yet there is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements.

4. There is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements. Yet there is a sense of the necessity of another war...Canada would not be fully forthcoming if it were not for the urgent cries that it is a survival of the fittest war participations or agreements.

Conclusion:

Canada admits but one conclusion; Canada's defence. Emphasis should be firmly aware of this delicate point and, for this reason tread cautiously the tight-ropes of "Briar Point" and, for this reason tread cautiously the tight-ropes of "Briar Point" and, for this reason tread cautiously the tight-ropes of "Briar Point" and, for this reason tread cautiously the tight-ropes of "Briar Point."

(Colored motion pictures will be shown by the Nautical Association, Sunday, February 14, at three o'clock in Room E-330. The exhibition will be preceded by a luncheon at one o'clock in Walker Memorial.)

This will be the first New England showing of the movies which, taken by experts in the Eastman Kodak laboratories, embody a new technique in colored motion pictures. They were taken at the Star Championships held Fall last Fall at Rochester, New York, All Star Class; members and friends in Maine as well as the members of the Nautical Association and Massachusetts are invited.

A week later the Nautical Association lifted the Charles River Chal- lenge Cup from the Charles River Yacht Club by 138 to 102. Those who November 14, the Technology skip- pers sailed against a team of Navy men, whose unfamiliarity with the craft led to their taking the short end of the 75 to 10 count. Early in December the Tech skippers sailed to Providence, where they took second place in a five college regatta. Brown was first, with 52 points, while the Technology men had 57 points. The other colleges in the race were Williams, Dartmouth and Harvard.

Radio Society Elects New Set of Officers

Gemmill Named President; Hill Is Secretary-Treasurer

Officers for the coming year were elected by the M. I. T. Radio Society at a recent meeting. The officers are Frederick Q. Gemmill, G, president; Howard C. Lawrence, ’38, vice president and station manager; Robert E. Hall, ’40, secretary-treasurer; and Frank H. Jackson, ’38, and William A. Kliber, ’30, executive committee members.

Courses in Radio are now being operated by the Society's radio station, WTMX, with Mr. Gemmill and eighty senior members and, within the next week, a transmission team to operate on the twenty meter band will be completed.

The society will have great speakers at several of the coming meetings, and will also visit a few large commercial radio stations. Students wishing to join should see the secretary who lives in the dormitories.

John Pearson Speaks At Faculty Luncheon

Mr. John W. Pearson, New England Regional Director of the Student Security Board, was the speaker at a luncheon meeting of the Faculty Club yesterday, in North Hall, Walker. He gave a talk on the operation of the Student Security Act.

Mr. Pearson is a Dartmouth man and a former trustee of the University of New Hampshire. Before his present appointment, he was appointed by Governor Bridge to organize the New Hampshire State Unemployment Compensation Administration.

Catholic Clubs Plan Annual Snow Party

Newman Club Sponsors Trip Will Be Held Next Week

Plans for the annual "snow weekend" and carnival were described by the members of the Newman Club, of the Roman Catholic Students' Union, who met recently in the Newman Club's rooms. The annual snow event is held near February 13 and 14, at Plymouth, N. H.

Radio's Future Moves Of New Oakland Bridge And Hear Talk

With the officers of the United States Army Engineer Corps, studying at the Institute as guests, the three-company military engineers will hold their first meeting of the term next Monday, February 13, at 6:00 p. m., in the Grill Room of Walker. The members will be in full military dress with no fixed charges.

After the dinner, the group will adjourn to the New Alumni Club at Har- vard University, where talking never stops. At this meeting, Chief Engineer of the American Bridge Company will speak on the bridge in general and on specific problems that have been solved in the construction of this monumental engineering structure.

In anticipation of a large crowd, the A. M. E. is making arrangements to have a block of seats reserved for its members who will go down together. Tickets will be made on the Military Science and Engineering Board next to Mr. Heyde's office through the first part of next week.

THE TECH

Institute Library Lists Books On Spanish Affairs

For those who are interested in the present situation in Spain, the Institute Library announces that it has available the following list of books:

Ralphs, The Office Field, 1936

(Continued from Page 1)

It would seem that in this Institute, where time is at a premium and recreation decidedly favored, a form of the above sort for physical training might be adopted. Definitely intramural sports should find place where outside competition and this would be a step to that end. For quite a few years, the athletic organizations of this preference, and so do doctors, lecturers, scientists, etc. With the world today, Blossom is a very dear friend to me.

"My voice is my career. It has to be a steady smoker, and because my voice and voice are vital to my career. It has to be a light smoke plus the enjoyment of fine tobacco . . . and that's why Lucky Strikes have been my choice for 16 years."
