## Plan Graduation In Symphony Hall On June Eighth

Gus Dunn, Prominent Engineer Will Deliver Address To Graduates

Macomber Chief Marshall Again

Plan for the graduation exercises of the Class of 1938, Technology's seventy-third class, have been announced by Professors Ralph C. Holton, chairman of the committee on graduation exercises, and William D. Walls, executive secretary of the Class of 1937.

The exercises are to be held in Symphony Hall, Boston, on Tuesday morning, June 8.

The commencement address this year will be delivered by Mr. Gus Dunn, President of the J. G. White Engineering Corporation, and one of the outstanding industrial leaders of the country. After graduating from a leading eastern university, Mr. Dunn has been engaged in the designing and supervision of plants for the Merrimac Chemical Company in Everett to observe the Goettingen Celebration this year was "not intended to be limited in its scope, or restricted in its coverage, to the controversies placed upon German universities in recent years," was issued this week by the Institute.

The statement, clarifying Technology's stand, came after some four hundred students had signed a petition protesting the Institute's acceptance of "Almanach," a German national government's invitation to Technology to name a German scientific society's two hundredth anniversary. The official statement of the Institute is as follows: "Although the Massachusetts Institute of Technology will not send an official delegation from Cambridge to attend the celebration of the two hundredth anniversary of the founding of Goettingen University, the rector of the university has not been notified that such an event is to take place at the University which during the past two centuries has produced through distinguished scholar- ship and notable contributions to the advancement of scientific knowledge. This action is not intended to contain any changes in its restrictions upon German students in recent years."

In connection with this official pronouncement, the committee (Continued on Page 4)

**Four Tickets To Graduation Reserved For Each Senior**

Four tickets for the commencement exercises are available for each member of the graduating class. These tickets may be obtained by calling at the offices of the Old Rooms 10-100, on and after May 18. The graduation exercises announcement will also be mailed to May 18 and may be gotten in the Information Office. The announcement envelopes are stamped and the students will be charged for the stamps.

The notices, regarding recommenda- tions for degrees will be mailed in the turn address of the candidates, unless the Secretary of the Faculty is notified otherwise before May 30, it was announced.

## Stand Is Clarified

On Nazi Invitation

Bid Acceptance No Approval Of German Education Says Institute

A statement to the effect that its action in having "Berlin Attraction Days" at the Goettingen Celebration this year was "not intended to be limited in scope, or restricted in its coverage, to the controversies placed upon German universities in recent years," was issued this week by the Institute.

The statement, clarifying Technology's stand, came after some four hundred students had signed a petition protesting the Institute's acceptance of "Almanach," a German national government's invitation to Technology to name a German scientific society's two hundredth anniversary. NAZI EDUCATION

NOT SUPPORTED BY TECHNOLOGY

The Institute's statement on the Gest- ingen affair was certainly clear enough in announcing that Technology did not in any way condone the racial discrimination going on in Germany. It is unfortunate that the administration of the Institute did not realize how serious this statement was before anyone was appointed as a representative rather than as a committee. There could be no question about the manner of the last few paragraphs. With the announcement that we are in all accord: "This action is not intended to condone changes in or restrictions placed upon German universities in recent years."...
Winners Who Run Again Tomorrow

Vigorous trackmen who will again be seeking victory in tomorrow’s meet are: (Left to right) John G. Seymour, ‘39, 100-yard dash winner; John J. Smith, ‘39, 100-yard dash and 200-yard dash winner; Robert W. Neff, ‘39, 440-yard dash winner; John L. Rittenhouse, ‘39, 880-yard dash and two miles winner; Frederick W. Kies, ‘39, 110-yard hurdles winner; and William C. Fenton, ‘39, broad jump winner.

Beaver Tennis Squad Takes On Team After Drubbing Tufts

Engineers Also Go To Williams

Where They Will Play

The varsity tennis team will hit the court this weekend when it journeys to Schenectady, New York, to meet Union College in a regularly scheduled varsity tournament on Saturday afternoon.

The Institute men last Tuesday showed great ability when they defeated a strong Jumbo outfit by the score of 5-2. In a match held in the enemy territory at Medford, Mass., the Engineers overcame an inferior team and emerged the victors once more.

Upper left: Luther Kites makes a winning broad jump in the meet with Bates.
Upper right: Henry Guerke breezes home in the two miles Saturday.
Lower right: George Corssen wins the 220 low hurdles in the freshman meet with Tufts.

Tech Independents Triumph On Diamond

Coming from behind three times, the Tech Independent varsity baseball nine defeated the University A. A. of Cambridge on Coppl Field last Saturday, 5-7, in a hard-fought uphill battle. Playing together for the first time, the team displayed excellent spirit and fight, fielded well, and hit in the pinch.

Although Studebaker’s M. J. T. gave up but three hits in the first three innings, he was replaced by Bob Grossington in the fourth; the latter twirled a four-hitter for the remainder of the game, fanning six, and giving up but 1 hit.

It was enough for the Independents when the University A. A. took the lead in the first inning. But the Cambridge team again went out in front in the ninth, and finally pulled the game out of the fire. It remained that way for the third time when both teams were scored in the same inning, the nine, his third hit of the game.

Oarsmen Compete Against Crimson, Columbia Crews

Three Boat Race On Charles Over 1½ Course

Varsity, J. V.’s, 150 Lb. Race

Technological crews go into action for the third time when they meet Columbia and Harvard tomorrow on the Charles river over a mile and three-quarters course. Tech will enter three boats in the Lent, the varsity and the 150-pounders.

Harvard still remains the favorite for tomorrow’s varsity race on the strength of their two previous victories, but coach Hanses expressed confidence that Tech will give them a tough battle all the way. The light-weight crew which lost to the Crimson by a length last week will have a chance to atone for itself by gaining a victory over the longer course.

The line-ups of all the crews will remain the same as the previous races. The men have been working too...

Inquirers

This column endeavors to solicit student opinions on questions of timely interest. Persons are chosen at random and unselected by a reporter. Questions for this column may be submitted by readers and recognized will be given. Open Forum comments on any question or the answers thereto will be welcomed.

Question: Do you think Tech men should engage in riots such as occurred last Tuesday night?

Thomas A. Bjorkman, '38, XV, M. I. T. Dormitories:

Yes, such riots result in no damage and provide a lot of fun for both the spectators and the student—at least until the Cambridge police arrive. After studying during the winter, everyone has some excess energy to expend and let off some healthy steam. In the spring a Tech man's fancy turns to riots to loosen up the pent up energy which has been storing up all winter. However, let's confine them to institutes.

William G. Peck, '40, VIII, M. I. T. Dormitories:

I think the victims at whose expense the riots at Tech were engaged in last Tuesday night will be welcomed. It is a logical method of venting his emotions. Although a riot seems to be a rather drastic method of doing this, it is a logical method of doing so. Therefore, providing the action occurred on Institute grounds, an occasional outbreak should prove to be serious, unless they occur often—more than once a year.

Charles W. Dodge, '37, XVI, M. I. T. Dormitories:

When under such continuous concentrated strain as Tech men must endure, a person must somehow give way to his emotions. Although a riot seems to be a rather drastic method of doing this, it is a logical method of doing so. Therefore, providing the action occurred on Institute grounds, an occasional outbreak should prove to be serious, unless they occur often—more than once a year.

Edward D. Crosby, '46, X, M. I. T. Dormitories:

I think not. Such riots show something is wrong somewhere. Other ways of expending energy which has been storing up all winter. However, let's confine them to institutes.

Riot

(Continued from Page 1)

malicious destruction and disturbing the peace.

After the departure of the police the students staged a sit-down strike in the middle of the drive, again stopping traffic. An old car was over- turned further up the drive and two trolley cars were stopped by displacing the poles.

A crowd formed on the corner kid-

ning the police. A tear gas bomb was thrown by accident but no damage was done. The police attempted to disperse several students from crossing the street by pulling them back. At midnight the police lost their patience and began swinging clubs. Roy Daniel Haworth, Jr., '39, was arrested and held for Prince, Jr., '38, was arrested and held for Wilson and was taken to police headquarters. Andrew P. Roberts, '38, was arrested on charges of loitering and disturbing the peace.

This crowd was pushed down toward entrance 60 where most of it dis- persed in general by other students present.

About this time Donald M. Cole, Jr., '38, was arrested on charges of assault and battery on an officer, attempting to rescue a prisoner, disturbing the peace, and malicious de-

struction of private property—an of-

ficer's coat valued at $100. He claims, and is asking for witnesses to prove, that he could not possibly have de-

stroyed the officer's coat as he was not near him.

During this part of the riot Andrew P. Roberts, '38, was arrested on charges of loitering and disturbing the peace.

Clubbing of Lamphere
While attempting to see what could be done for Prince, Lamphere was arrested. Other students attempted to rescue him and was near him. His statement is that while he was help-

ing police started to hit him in the face. This statement is con-

firmed by the acompañiment of men lighting with the police.

Professor Lebrunter W. Hamilton, Chairman of the dormitory board, would not make a statement, but a statement appeared in one of the Boston papers, purporting to come from Don Hardie R. Lefkole, and that the institute would wait until the civil authorities were through and then take such action as seemed necessary.

Undergraduate Notice
A meeting of the DeMolay Club will be held in the Department of Mathematics Conference Room, opposite Professor Douglass' office, at five o'clock, Wednesday afternoon at five o'clock. All Tech DeMolays are requested to attend.
