But Technology students who were in Walker Memorial Wednesday evening did not need newspapers to tell them there was a rainstorm outside. Evidence of the storm was several inches deep on the basement floor.

If this were an uncommon occurrence there would be little cause for complaint. But every fairly heavy rain floods the basement—usually worse on than Wednesday. Frequently water even backs up in the sewers—a consequence of our low elevation above sea level.

There is no excuse for the basement floods. It shouldn’t be too difficult or expensive to prevent water from backing up in the sewers, and it would be even simpler to install a pump to carry out what was done in the basement are hardly in keeping with the usual atmosphere of Walker Memorial.

POINr T SYSTEM
STORE SERVICE NO PURPOSE
The recommendation of the Walker Memorial Committee that the point system be dropped as ineffective brings to a head a condition that has needed remedying for many years. The purpose of the point system was to prevent students from taking on more activities than they had time to handle. The object is admirable, but there are several false assumptions underlying the idea.

In the first place, it is impossible to evaluate all the undergraduate offices and give them the correct relative number of points. In the second place, it is impossible to fix any definite number of points as a reasonable maximum, because the number which students can safely carry varies with the student.

And finally, the practical difficulty which the Walker Memorial Committee always ran up against, and which led to the recommendation to abolish the point system, was that whenever a man was overpointed, and therefore could not take any more activities, the Institute Committee always voted to permit him to continue overpointed. With the Institute Committee unwilling to force anyone to drop an activity, it is just as well to drop the point system.

COEDS ARE STUDENTS TOO
The election of two coeds as freshman section leaders, and the beginning of fencing as a sport for women, mark a milestone in the history of coeducation at Technology, for the girls are the first coeds to be elected to any student body office and fencing is the first sport to be opened to coeds.

Naturally, it cannot be known with any certainty whether the new feminine representatives were elected from the standpoint of good government, or because of their personality. One suspects the latter; freshmen are not usually well acquainted with the leadership qualities of their first year associates. Two wonders, as he remembers the loud cries of “Are We Men or Mice?” which arose when Alice Huntingdon, Institute of Technology’s first female, graduated in 1902, has what changed the attitude of Tech-
Crimson Swamped By Institute Men In Football Game

Freshmen Engines Beaten By Harvard Team In Scrimmage

Beating a Harvard freshman team last night at 9 o'clock, the Institute Sophomores gave a superb performance in a practice game for class Institute football. After a four quarter scrimmage at Tech field with Dorchester High School Wednesday, the freshmen tackled Kirkland High School. This game was decided by the score of six to nothing, the Harvard and grey men putting the other in a tailspin. The blacks will hold another practice scrimmage with Dorchester this afternoon.

In the first quarter of the Sophomore game, still with the score 0-0, running back W. E. Foster on the Hocky ball, was within two yards of the end zone, but the block was stopped short. As soon as the whistle blew, the line of scrimmage was moved back to the 50 yard line. W. E. Foster, then, bulled for a touchdown...

Tech Meets Yale In Cross Country

Handicap Races At Tech Field, Quincy Meet For Fresh At Same Time

Travelling dawn to Yale for its third consecutive meeting, the Tech cross- country team will face another handicap meet. Tech runners kick their second win tomorrow, after beating Connecticut State last week, a thing being to Massachusetts last week.

The varsity cross-country team, which will meet the Eli aggregation is composed of; Captain G. C. Harding, 3rd; George Conrich, 135 lbs., winner of the two hammer throws; a javelin throw; the Quincy Cross-country team at Tech, headed by the Rev. J. L. Hagerty, Vice Commodore of the Tech club. The meet will be held on the same basis as the Richards Harvard line to tackle a Harvard runner....
