Eminent Speakers Debate Peace At Tech Open Forum

F. J. Libby Favors Isolation; C. R. Pulver Takes Opposite View

Student Discussion To Follow

Will isolation keep United States out of war? Institute students will get the facts from an American of the United States' most eminent authorities on the subject, if the open forum views at the Tech Open Forum, Tuesday in the Memorial Hall at seven-thirty o'clock. The speaker will be Charles Eichelberger, Director of League of Nations Association, and Frederick J. Libby, Director of the National Council for Prevention of War.

Both of these men come to Tech with entirely different solutions to the perennial international problem of peace. Mr. Eichelberger believes that the United States should join the League of Nations and take an active part in the machinery of international peace, while Mr. Libby takes an exactly opposite view, that of isolation.

It is believed that this subject will be especially interesting at this time when the problem of peace is so acute. Students will be given an opportunity of discussing the speeches to offer comments from floor and to ask questions of the speakers.

Boat Club's Dance Held On Nov. 8

Ticket Sales Commence Monday; Joe Haymes Orchestra To Entertain

Tickets for the annual Boat Club Dance will go on sale in the Main Lobby Monday, Nov. 8. Distribution of tickets to members of the Boat Club began Monday, Nov. 1, and has resulted in a large advance sale. Tickets may also be secured from Franklin B. Atwater, in the dormitories.

Joe Haymes, who will play at the Boat Club Dance in Walker Memorial on November 8, is an American composer-lyricist. His principal song is "Over There," which was used in the movie "The Spirit of '45." He is also the author of "OK."

The committee in charge of the dance has been spreading rumors about something new and novel to be expected in the lines of decorations.

Institute Plays Host To Teutonic Guests

Thirty-six German tourists, invited by an American German company agent and a Secret Service agent, toured the buildings and grounds of the Institute on Wednesday. Prof. Ernst, chairman of the department of the German language and literature, accompanied the tourists as their guide and explained the workings of the German language to them.

Students To Aid Relief In China

Dr. Compton Heads Committee For Aid Of Refugees In War Zone

An initiation from the Technology student chapter of the New England Committee for Relief in China to all Institute students will be given at an open meeting in the East Lecture Hall. The meeting will be the first official act of the chapter in its present form for all to know, and the meeting plans will be discussed for an all-institute meeting to be held at the last year's peace meeting, which will be held on Thursday, November 12, in the Main Building.

The students are made up of individual students of the Institute who are interested in trying to relieve the sufferings of the civilians in China. Miss Mabel E. Atwater, Assistant Counselor, will preside at these meetings.

Twelve New Members Pledged By Gridiron At Meeting In Walker

Pledging twelve new members, Gridiron, Masonic journalism fraternity, held its initiation banquet Tuesday at 5:45 p.m. in the Walker Memorial Formal Dining Room. The principal speaker was John E. Burdick, 39, associate editor of "Tech Review," and vice-president of Dentsil Industries, Inc., who spoke on "Scientific Writing." Dean William K. Worthington, 39, his father, and John E. Burdick, 39, his father, also spoke at the Gridiron meeting.

The twelve men pledged, all of whom have good public speaking, are: Frederick R. Grant, 39; George A. Brown, 39; Louis M. Farnsworth, 39; John J. P. Hall, 39; Fred C. March, 39; George O. Mair, 39; George B. McKee, 39; John B. Noss, 39; George E. Osborn, 39; John C. Quist, 39; Jack F. Quinlan, 39; and Robert B. Martin, 39.

No one knows better than the Gridiron employee what Gridiron is, for he expects to be asked to do his part and do it well. He is frank, independent, and, as far as his social relations are concerned, self-satisfied.

Many ways he is critical of her behavior, forbids her to bear or to take a step. In the process of this kind of company, likes her to wear sensible, comfortable clothes. And, in general, by a slim margin, he does not believe in premarital sexual relations with her.

Not So Particular About Dates

For his date the Technology man does not set many standards. Unlike his future wife, she may smoke, drink, or go out with him on the approval. Also, she may listen to dirty stories and dirty jokes without becoming upset. The character of her family is not often considered. In fact, he looks at her only as a possible wife, and no more.

In addition, his date, like his wife, must have an intelligence equal to or better than his own, and he is fond of good literature. But he is not interested in art except, possibly, etchings. When she asks for a drink, he will argue against it. Unlike his wife, she likes a good argument, but he is not interested in the subject of religion. Like the future "souvenir", (Continued on Page 3)
UNITED ACTION

SHOULD UNITED STATES PARTICIPATE?

The nine-power pact conference that has just opened in Brussels has posed an important question for Americans. Just how much support should the United States lend to any concerted action on the part of other powers?

There is no question that the majority of United States citizens are opposed to our getting into any sort of action that would lead to war. There is also a real fear that most of us have very similar feelings to those expressed by President Roosevelt in his Chicago speech concerning aggressor nations. Since any action to curb aggressors would expose us to some danger to war, it is also true that most of us have important question for Americans. Just how important is the United States. Probably the other nations, Italy, and Japan would be dependent on relief. No living man has seen a catastrophe unprepared.

There is no question concerning the humanity of the Chinese. Any attempts at united action must adopt some sort of attitude toward it. There is no question concerning the humanitie

letters to the editor

Have Commuters Fallen Down?

Dear Editor: 

Not very long ago a certain Institute professor asked the members of his class whether they thought that the United States would ever become a traffic police power. By this he meant that they were simply browbeaters who did not care anything about what they did for M. I. T. They were interested only in what they could get out of being there, and in giving nothing in return.

I think the description fits them pretty well. The recent gendarme trip is an excellent example of this. The percentages of commuters who pledged anything at all for the gendarme week was below that of the freshmen and the veterans. And the freshmen live at home, do not have to write home, which may make considerable time, as in the case of many dorms.

One man got the position of first alternate with the Juniors in his dormitory. His best man was John S. H. Strauss, Jr.

I. Physical Appearance:

A- Hair
- [ ] Black
- [ ] Brown
- [ ] Blonde
- [ ] Red
- [ ] Other

B- Eye Color
- [ ] Blue
- [ ] Brown
- [ ] Green
- [ ] Hazel
- [ ] Other

C- Height
- [ ] Under 5'0"
- [ ] 5'0" - 5'5"
- [ ] 5'6" - 5'10"
- [ ] 5'11" - 6'2"
- [ ] Over 6'0"

D- Build
- [ ] Slim
- [ ] Normal or average
- [ ] Heavy

E- Figure
- [ ] Slender
- [ ] Hourglass
- [ ] Square
- [ ] Triangle

II. Mental and psychological characteristics:

A- Less intelligent, as intelligent, more intelligent than you
- [ ] Less educated, as educated, more educated than you
- [ ] Less from heaven, as from heaven, more from heaven than you
- [ ] Less attractive, as attractive, more attractive than you

B- Does she like Dutch dates
- [ ] Yes
- [ ] No

C- Do you believe in pre-marital sexual relations
- [ ] Yes
- [ ] No

D- Does she neck (milder than petting)
- [ ] Yes
- [ ] No

E- Is she a good cook
- [ ] Yes
- [ ] No

F- Is she independent or clingling - vine type
- [ ] Independent
- [ ] Clinging

G- Is she the same social standing as you
- [ ] Yes
- [ ] No

H- Does she have the same background as you
- [ ] Yes
- [ ] No

I- Is she a good dancer
- [ ] Yes
- [ ] No

J- Is she silent or talkative
- [ ] Silent
- [ ] Talkative

K- Is she diplomatic or frank
- [ ] Diplomatic
- [ ] Frank

L- Is she subject to prejudices
- [ ] Yes
- [ ] No

M- Does she tell dirty stories in mixed company
- [ ] Yes
- [ ] No

N- Does she have the same interests as you
- [ ] Yes
- [ ] No

O- Is she subject to prejudices
- [ ] Yes
- [ ] No

III. Physical Appearance:

A- Hair
- [ ] Black
- [ ] Brown
- [ ] Blonde
- [ ] Red
- [ ] Other

B- Eye Color
- [ ] Blue
- [ ] Brown
- [ ] Green
- [ ] Hazel
- [ ] Other

C- Height
- [ ] Under 5'0"
- [ ] 5'0" - 5'5"
- [ ] 5'6" - 5'10"
- [ ] 5'11" - 6'2"
- [ ] Over 6'0"

D- Build
- [ ] Slim
- [ ] Normal or average
- [ ] Heavy

E- Figure
- [ ] Slender
- [ ] Hourglass
- [ ] Square
- [ ] Triangle

IV. Marriage (Assuming you have found the girl you would like to marry:

A- What minimum salary do you think is necessary
- [ ] $500
- [ ] $1000
- [ ] $1500

B- Do you believe in long engagements
- [ ] Yes
- [ ] No

C- Do you believe in monogamy
- [ ] Yes
- [ ] No

D- How many children do you think you will have during your marriage
- [ ] 0
- [ ] 1
- [ ] 2
- [ ] 3
- [ ] 4 or more

E- If of a different religion, how should the children be brought up
- [ ] According to his religion
- [ ] According to her religion
- [ ] According to a third religion

F- Is she the same in looks as you
- [ ] Yes
- [ ] No

G- Will she marry you
- [ ] Yes
- [ ] No

H- Before he marries, will both of you have a thorough physical examination
- [ ] Yes
- [ ] No

I- And do you think of Tech as a good school
- [ ] Yes
- [ ] No

J- What does she think of Tech
- [ ] Very good
- [ ] Good
- [ ] Fair
- [ ] Poor
- [ ] Very poor

K- Will you enjoy the atmosphere of the

THE STATLER
In memory of Prof. Kirtley F. Mather of the geology department, showed the urgent need for a synthesis of our knowledge concerning the physical world and its relationship to mankind. Present-day estimates of the world's resources indicate that man may have, as well as biological, security, but not until the organization of this world allows for their proper distribution, according to the speaker. He expressed the belief that the responsibilities of the future lie with the scientists and engineers who should apply their training to the problems of man's social adjustment.

**Graduates Hear Talk By Harvard Professor**

"Looking Ahead For 1937" is the subject of discussion.

Professor Kirtley F. Mather of Harvard addressed the members of the Graduate House at a dinner meeting in the North Hall of William Morison on Wednesday evening, November 3. His subject was "Looking ahead for 1937."

He expressed the belief that the responsibilities of the future lie with the scientists and engineers who should apply their training to the problems of man's social adjustment.

**Issues**

(Continued from Page 2)

Drive. All they needed was a little more encouragement.

A UPHOLD was not a financial success, the dormitories crashed through with a dance that kept its own with any of the successful dances given during the past few years by other organizations.

The reputation that this dance has given the dormitories should go far in helping them make a real return of future dances. We hope that they will not feel discouraged, but instead continue the institution that they have begun by making it an annual affair.
