Invitations Will Announce Senior Midwinter Dance
Admission Fee To All Seniors; Entrance Fee From Class Treasury
Entertainment and Floor Show Scheduled as Special Feature
Only Members of Class of 1938 Admitted; Committee Outlaws Stage
Personal invitations to all members of the Class of 1938 will announce the annual Senior Dance, to be held Friday, January 7, in Walker Memorial from 9 to 2 o'clock. There is no admission charge, since the dance is sponsored by the seniors and the first and fourth year students will be admitted to this function, which is the only one proposed during Senior Week. The dance is formal, and there will be no steps. All Club members will usher, as has been the custom in the past.

Entertainment and a floor show will be furnished by the various organizations, arranged by the committee. As yet the orchestra list is not complete. The program will be announced this week. The dance will take place in the central portion of Senior activities, chairman of this committee on Senior Week, has always proved one of the most popular dances of the year.

Last year’s dance, also held in Wal-
ker, had an attendance of over four hundred.

Funds are available for this function, and the Committee on Senior Week will be pleased to receive any donations.

Technology Debaters Meet Pembroke Girls On Labor Relations
Freshman Orators Will Debate Holy Cross, R. C., B. U.

This week finds the debating clubs preparing for their meet with Pembroke Girls in the basement of Old Hall, December 16, at 8:00 p.m. in Eastman Hall.

Technology, who is to take the negative position, and who is to argue that the National Labor Relations Board shall not certify labor organizations arbitra-
tion over all industrial disputes, is to be represented by Powell, '38, and Robert R. Caves, '39.

This discussion will take place in the New England Inter-collegiate Leagues in which M. I. T. is to take part.

Meanwhile the Freshman Debating team has postponed its meet with Boston College, which was to take place the week before Christmas, until February, because the readings are still in progress for the next quarter.

This evening the club meets at dinner at five p. m. in the Wes-
leyan Lounge of Walker Memorial. There will be a general discussion of the horti-
ticultural and extracurricular societies.

Propellor Club Hears R. H. Rodney Tomorrow

Guest speaker at the Propellor Club luncheon tomorrow will be R. H. Rodney of the Boston Standard Oil Company. The meeting will be held in Old Hall, Room 618, at 12:00 o'clock.

The Propellor Club, which includes Mr. Elsey several weeks ago at the luncheon club, has been closely associated with Mr. R. H. Rodney, President of the American Institute of Electrical Engineers, and with Mr. W. P. Chapman of the Naval Archi-
tecture Library. According to David A. Wright, '38, President of the Propellor Club and XIII and XII alumnus, members may sign up in the Naval Archi-
tecture Library for the dinner.

T.C.A.'s Yearly Xmas Tree

On Display in Main Lobby

As usual, the various depart-
ments of the University have been
operating in furnishing the in-
tricate Christmas tree in the Main 
Lobby.

The Tree, donated and de-
corated by the T.C.A., is the tallest of its kind; according to Wally Rose, General Manager, T.C.A., it requires twelve inches, the tree is entirely by members of the "Chemistry Department." The other elements include lights, a crewing top piece, timbale, and oaten "morn."

A.S. U. Condemns Foreign Nations

Boycott and Sanctions Urged
At Student Meeting

Last Friday evening, students in Chinese and Italy in Chinese and Italian and German intervention in the Spanish Civil War, were asked to support boycott and sanctions against these Fascist na-
tions as a means of aiding the de-
egovernment.

Proceeding the action on the resolu-
tion and a talk on "Peace in China," by Mr. Francis H. Russell, Boston attorney, who advocated American entry into the League of Nations as a means of furthering world peace.

Dr. E. T. Russell, the em-
phasis of the League to promote and enforce peace became the main theme of the meeting of the Technology Chapter of the American Student Union last Friday evening.

There were several other areas of discussion: the future of the League, the question of German rearmament, the rights of the workers, and the question of the League’s effectiveness.

Sigma Xi To Hear Dr. Compton Talk

Plans for Expansion Program Will Furnish Subject For Address

Because of the special interest in President K. T. Compton’s address, "For Research and the League of Na-
tions," the Technology chapter of Sigma Xi has invited all the members of the staff and students to attend the open meeting at which Dr. Compton will speak at this afternoon, from 4 to 6 o'clock.

Dr. Arthur C. Hardy of the Physics De-
partment, president of the chapter, will preside.

President Compton will discuss in some detail many of the outstanding research projects, including de-
velopments in biological engineering and researches in the design and maintenance of the atomic bombs and the development of the atomic bomb.

The speaker will end the talk with a brief summary of the recent developments in the field in general.

Over half of the tickets to the an-
dance was the seating of the women students.

The Bafley’s orchestra has been en-
revised, and according to Mrs. Lorraine 
Merritt, chairman of the dance, the orchestra will be favorably received.

RELIGION AND SCIENCE

THERE IS A CONFLICT

SEVERAL readers have taken issue with the statement made in our editorial of February 16th by Dr. A. Merritt, which read, "we recognize that there is a conflict between science and religion." In order to avoid futile arguments, we must lay down the lines of our argument and the terms of our debate clearly. Therefore, we recognize that there is a conflict between science and religion.

The first two parts of the nature of science, of science and of religion. Science we define as a scientific method which results in the explanation of the phenomena of the universe by mathematical precision. Religion, on the other hand, is an inherent conflict between religion and science. In order to avoid futile arguments, we must lay down the lines of our argument and the terms of our debate clearly. Therefore, we recognize that there is a conflict between science and religion.

Beaver Riflemen Defeat R. I. State

Intercollegiate League Victory In Opening Game For Engineers

Continuing its string of victories, the Technology rifle team took its fourth straight shoulder-to-shoulder match last Saturday afternoon by defeating Rhode Island State College at the Tech Rifle Range. This was the first of the New England Intercollegiate League matches in which the Beaver teams have participated. Because of the rules of the tournament, the next score can not be given yet, for the targets have not been scored by the National Rifle Association. In the previous games, the scores were 1885 for Tech and 1848 for Rhode Island. High man for the Institute was P. R. Littlefield, with 245 out of a possible score of 300. He was closely followed by John L. Gibson, who scored a 260.

Next best is to do the homework for you, put on the coat, and go to bed early, which your disposition of the moment didn’t let you do last night. There are many, many more of you, including the author, so you are not alone. And to those who are not, here is some advice: do your homework, you don’t have to be a genius. While you are here,

they must be assured of an income of about $3,600. This is almost a thousand dollars more than the sum declared a minimum by the men.

At the time they marry the girls will have been engaged 11 months and their selected spouses would have reached the age of 23.5 years. And, approximately, they will have been

1. Physical Appearance
A-Hair B-Eyebrows C-Nose D-Arm B-Hand S-Hand K-Hand 1. If so, can he hold his liquor 2. Does he get 3. Is he a virgin 4. Are you his first love 5. Is he a career type or a society playboy? 6. Is he a good dancer 7. Has he a degree in arts or sciences 8. Is he masterful 9. He看上去, whether you have a career, if so, will you help him 10. Does he want the same social standing as you 11. Does he have the same religion as you 12. Has he the same name as you 13. Is he a dreamer

III. Social Characteristics
A-Does he use anything-alcohol, cigarettes or cigars 1. If so, can he hold his liquor
B-Does he get
C-Is he a virgin
D-Are you his first love
E-Is he a career type or a society playboy?
F-Is he a good dancer
G-Does he have a degree in arts or sciences
H-Is he masterful
I-Does he want the same social standing as you
J-Does he have the same religion as you
K-Does he have the same name as you
L-Is he a dreamer

IV. What do you think of Tech Men? [Classified elsewhere]

V. Marriage (Assuming you have found the man you would like to marry) would you "pursue" the question?
A-What minimum salary do you think is necessary
B-Do you expect to get your degree in 11 months
C-Do you believe in pre-marital sexual relations
D-Do you want your proposed marriage to be a complete examination before marrying, for yourself, for him, or for both
E-Will you want an engagement ring
F-Should there be a complete examination before marriage, for yourself, for him, or for both
G-If of a different religion, how should the children be
cared for
H-Do you want any of your children to go to Tech
I-Should you go out with other men after you are married
J-Shall you go out with other women after you are married
K-Does he smoke to live in a cottage, apartment, penthouse
L-Do you want to be married in a church
M-Do you want to have servants (how many)
