Voo Doo Announces R. C. Casselman As General Manager

Vol. XXI Staff Named At Banquet Held Saturday

Present Staff Cited Sisoes For Not Pepping Up Old Foul

Aiding Casselman Are Vogele, Wingord, Pulver, Griffin

As New Board

Robert C. Casselman, ’39, will be general manager of volume XXI of Voo Doo, theGrated humor magazine, according to an announcement made by the annual Voo Doo banquet, held Saturday evening, Jan. 15, at the Chamber of Commerce. Supporting Casselman are William P. Wingord, ’39, business manager; Arthur W. Vogele, ’39, managing editor; and William P. Purser, ’39, and Gae K. Griffin, ’39, as advertising managers.

An exhibition of the works of Rockport artists, featured in the Voo Doo exhibition, was held at 53 Church Street, taking to say the least. The paintings of the windward-leeward type, the scenes. This furnished some very thrilling things before exams. Everyone knows the best of advantage.

This furnished some very thrilling things before exams. Everyone knows the best of advantage.

Works of Rockport Artists Exhibited

As exhibition of the works of the resident Rockport artists of the Cambridge School of Architecture and Landscape Architecture will be held at the Chamber of Commerce, Cambridge, between January 17 and 28. The invitation has been extended to all students of the Institute who wish to attend. The exhibition will be hung by Samuel Hirsch and will include some of the works of the following artists: David P. Petrov, Allen T. Hibbert, Heric and Claire Twardzik and others.

Robert C. Casselman, ’39

Scientific Show Scheduled Today

"Previews of Progress" To Be Shown This Afternoon

In Room 16-205

A special performance of "Previews of Progress," arranged especially for Technology will be given this afternoon at 4 o'clock in Room 16-205. Realizing the difference between the ordinary audience and the one that is an Institute for Technology, the representatives of General Motors have made changes in the ordinary presentation of "Previews of Progress," according to "Boss" Kettering, Chief of the General Motors Laboratorium, the show will then have greater appeal to the Tech man.

Interesting Scientific demonstrations have been gathered together in "Previews of Progress," such as black light, static electricity, strobe-light effects, and the catalyzer. Most Tech men have probably seen at one time or another one of the (Continued on page 2) "Previews of Progress".

Ex-Governor Elly Cannot Appear At Tech Open Forum

Professor Meriam of Harvard Will Oppose Mr. Eliot On Government Regulation of Business Is Topic

Ex-Governor Joseph B. Elly notified the Open Forum leaders last night that unexpected circumstances would prevent his appearing at the meeting of the forum this afternoon at five in Eastman Lecture Hall. The Forum has secured Professor Ralph S. Meriam of the Harvard Business School, noted authority on business management and economics to take the place of the discussion which was to have been given by Mr. Eliot. Mr. Thomas H. Eliot, a member of the Literary School of Administration of the Harvard Graduate School and a former chairman of the National Social Security Board was told the opposite side of the discussion. The topic is "What are the Proper Limits of Federal Regulation of American Economic Activity?" Meriam will urge a moderate policy (Continued on page 3) Open Forum

The Tech ELECTS

Barlett To Head Managing Board

General Manager of The Tech Will be David A. Bartlett, ’39, who was announced last Friday evening at the annual banquet of The Tech, held at the Hotel Bellevue. Additional elections to the senior honor board include Edwin K. Smith, Jr., ’39, as managing editor; George Dadakis, ’39, business manager; A. Ladimir Fabens, ’39, editor; and Ida Rovno, ’39, associate editor.

Richard G. Vincent, Jr., ’38, acted as toastmaster and introduced Mr. J. J. H. Hoadley, secretary of the news service of the Institute, who explained how Tech publicity is handled. Featured speaker of the evening was Harry Crimmon, business manager of the Harvard Crimson and now working for the U.S. Navy. (Continued on page 2) The Tech Elects

Ernest Hauser Talks On Collodial State

Demonstrates Solidification of Collodial on Jarring

Ernest Hauser, Associate Professor of Chemical Engineering, gave a speech, accompanied by demonstrations, on "Physics and Chemistry of Matter in the Collodial State." at a Society of Arts Lecture Monday at 4:30 in Room 10-13.

Among his demonstrations was a colloidal solution of clay. In this, when impurities would form and when sediment would form, Professor Hauser explained that this principle is used with the u-drin drills. When the drill is not in use, the solution will gel about it, protecting it from rocks. As the solution is put in use, the gel will turn to liquid and run off.

Another exhibition showed the comparative strength of stretched and unstretched rubber. A sample of stretched rubber was four times as strong as the unstretched rubber and the unstretched rubber broke into thin threads.

Aeronautical Thesis Can Win Means Prize

Of 100 Dollar Cash

Any Application to Aeronautics Is Permissible in James Means Contest

One hundred dollars in cash will be awarded to the student who submits an aeronautical subject by May 28 in the James Means prize competition. This is in the hands of the Institute, who explained how Tech publicity is handled. Featured speaker of the evening was Harry Crimmon, business manager of the Harvard Crimson and now working for the U.S. Navy. (Continued on page 2) The Tech Elects

STUDY FOR EXAMS INTELLIGENTLY

HALF of the fight to pass the examinations is already past; what remains can be rated mostly as review, getting ready to put down what has been learned during the term. It is true that many students think of studying by being entirely on this job during the last few weeks. Studying can not be neglected, but one of the most important factors in writing examinations is good health.

The week of examinations should be approached much as a football trainer approaches a big game, both from a physical and from a mental point of view. The main object should be to walk into the room in top condition, mentally cool and psychologically at ease. That is the only way one can do his best. If you know the subject cold or not, your mind will be able to coordinate better and to understand the data given in the questions if you are in good shape physically. If you are jittery, or sleepless you can not hope to do your best.

Three important factors govern one's health; food, exercise, and sleep. All of them must be considered by anyone who hopes to get the breaks in his examinations. Simple wholesome food such as served at the canteen and from a parental point of view. The main object should be to walk into the room in top condition, mentally cool and psychologically at ease. That is the only way one can do his best. If you know the subject cold or not, your mind will be able to coordinate better and to understand the data given in the questions if you are in good shape physically. If you are jittery, or sleepless you can not hope to do your best.

Tech Swimmers Beaten By Wesleyan Natators

Despite wins in the four hundred yard relay, the dive and the one hundred yard dash, the Beaver natators were defeated Friday evening by Wesleyan by the score of 46 to 29 in the University Chool pool. The relay team, composed of Guider, Whelan, Hunt, O'Brien, and Schnur, scored in four minutes, four seconds flat, equaling the Institute record. Schuler won the hundred yard event in 52.8 seconds.

assist. A while later Adair scored on his own. Hilliker tallied next for the Engineers, while a goal by Edly brought the count up to 6-2 for the Engineers, Arnold having assisted the disc and Carrieless for Bowdoin.

In the Colby game the fighting spirit of the Engineers as shown by the fact that they came up from behind the victorious on three occasions, was not quite enough to make it fair straight for the Institute. After a scoreless first period, Walker of Colby started the scoring for the victors. Hilliker soon tied it up, assisted by Drury. With a Colby score early in the third period, followed by two Tech tallies by Gresw on Drury's pass, an overtime period was in order.

Colby took an early lead in the overtime only to be tied by Tech on a tally by Minott, assisted by Acker. Walker of Colby, spearhead of the visitors' attack throughout the game, scored to give Colby a 4-3 win.

under 18 to 17. This leaves the fresh with a sparsely record to date.

The record shows all the more in view of the fact that the Bridgton team has four sixteen men in the lineup. The Taber game was won in the last minute of play, by two foul shots sunk by Bissell.

The varsity men put up a game fight against Colby, Saturday; but were sent to the showers by a second period onslaught which ended the game 44 to 3 in favor of Colby. The score at the half was 18 to 12 in favor of Colby. Three of the Tech men handled.

of government influence while Mr. Eliot will state his desire for strict regulation.

This topic is of great interest to all the country at present and has been discussed several times by the President and members of the Cabinet. With the present business recession, the policy of the government is being watched with anxiety by industrial and business leaders. The Open Forum has selected this question at this time for these reasons.
