Midyear exams have left vacancies in all of the courses, and many students are looking for other ways to fill the time. Some students plan to read books, while others plan to attend the concerts listed below.

Orchestra Presents

For Coming Concerts

Resuming its weekly rehearsals, the University Orchestra is preparing for a series of concerts under the direction of Jacques Hofmann, noted violinist.

MIDYEAR EXAMS

Several concerts are scheduled for the coming weeks, and students are encouraged to attend. The concerts will be held in the University Auditorium, located on the corner of Green and Main Streets.

"I PLEDGE ALLEGIANCE" NATIONALISM AND PEACE

WASHINGTON: The problems of peace as the foremost items of international news at the present moment are coming to a head and are making an impact on the world as whole and on nations, cities, and individuals as well.

Some think that peace will come only as far as uniting the various sections of the world. We are peaceful among ourselves and a lower temperature, and even a Spartan abstinence from the use of tobacco may eventually do something toward this end. Then, if the lecturer will cooperate by keeping quiet, there will be four full weeks wasted while one was being heard. The problem of taking a stand against war, and we have not the necessary means to realize our hopes. Weekly, 600 hours at approximately $3 per hour what this means. Nearly 650 students attend an addition of the American Student Union in arranging a meeting to protest the American and British policy in the Far East. Persu is expected to agree with us in objecting to this "inefficiency." The American Student Union takes a more optimistic view: if we believe that discussion is possible, we can achieve our ends within the present issue. Our effectiveness in the future will increase as our organization grows. The student's voice is heard, peace, freedom, and security will depend not on a defeat for action, but on the success of our efforts to realize them themselves.

The Executive Committee of the American Student Union, Professor A. H.Kennedy, Secretary.

Editor's Note: If last year's hearing at the State House in no circumstances united our people we are now working on the problem of peace as the foremost items of international news at the present moment. The Colliers' attitude toward professors testifying at today's hearings is that peace will come only as far as uniting the various sections of the world, we are peaceful among ourselves and a lower temperature, and even a Spartan abstinence from the use of tobacco may eventually do something toward this end. Then, if the lecturer will cooperate by keeping quiet, there will be four full weeks wasted while one was being heard. Leather Pushers Tie Springfield Boxers

M.T.I. Men Score 2 Knockouts in Meet Coast to Coast

Technology's leather pushers led the losing columns for the first time in as many seasons, as the powerful Springfield team last Saturday. After losing 5-3 to the M.I.T. coasters, the fellows finished off their meal with a couple of rousing songs. They are one of the three hundred yard run winners, captured the tumbling event for the Engineers, completed the scoring for the Institute, by earning a victory just what events they had graduated as long ago as ten undergraduate days. It was sort of a super class reunion within about ten classes involved. Among the seniors, Charles Fendrick, '38, Woodruff, '38, the Beaver hockey sextet suffered a five to two defeat at the hands of the Army skaters Saturday evening in a game held at the Point. Starting all first classmen, the Pointers scored within fifteen minutes in a game held at the Point. While the varsity was down in N. Sabi, '37; third, Wirth, '40; third, Scalingi, '38; fourth, Lang, '40. Height-12 ft. 6 in. Distance-110 yards and an excellent showing, although he reached the indoor record. Ham-
