M.I.T. Grades Are Rated Second In Chem. Who's Who

Columbia Has Largest Number Of Prominent Chemists; Yale Is Third

By Earnest, Editor Of Who's Who Pays Compliment To Institute

Both Lists Men Who Stand Out In Fields Of American Chemistry

Technology graduates are the second in number among those from all universities to the annual edition of the "Chemical Who's Who" published here today. In this standard reference work are the biographies of 650 chemical company executives, prominent chemists, and chemical engineers and professors of chemistry of the teaching universities and colleges of the country, and of these, are 310 men belonging to M.I.T. graduates. "National.

Columbia is first with 544; Yale third with 478; following these are Illinois, 420; Cornell, 247; Harvard, 283; Wisconsin, 219; Johns Hopkins, 215; Massachusetts Institute of Technology, 203. Seven other universities have more graduates than M.I.T., and the 150 in attendance at the Institute set today away from 12 colleges represented by a single graduate each in the "Chemical Who's Who." His story was delightfully told in the chemical field," said William Bayley. "It will be a matter of great pride not only to the faculty of the Chemistry Depart-

1100 At Technology Petition Bids "White to Play and Win"

Elevated hundred signatures speeded on their way to Technology Institute Headquarters yesterday afternoon in support of a petition for a return to its home water faucets. The "petition" was signed by a sister ship of the famous "Old Gold" that sank in her maiden voyage.

The move to renovate the ancient man-o-war and return it to its home water faucets was initiated by school children in the past history of the "White to Play and Win." It was erroneously reported by students that only members of the 1954 football team would be eligible to participate in the "White to Play and Win" game.

New R.0. R. Commander

Yale, J. V. And C.C.N.Y., Defeat Tech In Close Bouts; 15-12 and 14-1/2 Defeats Now Equal Losses, 4-4

By dropping two closely-contested, heartbreaking matches last Friday afternoon to Yale, J. V. by the point of 15-12, and to City College of New York by the score of 14-1/2 respectively the folding team's record fell to four wins against the same number of losses.

The awardees did mass at the strong end of the court but the scores by no means tell the true story. As C. C. N. Y. the foilsman J. F. Thomas, who was expected as foil is the Beaver's
career at Harvard to hear the speeches.

Other Staff Changes Revealed By Student Smith's Resign Post

Appointment of John T. Rule as Associate Professor of Dramatics is included among recent changes in the staff of the Institute. A native of St. Louis, Mo., Professor Rule was gradu-

J. T. Rule Promoted To Professorship

ated in 1916. Since that time he has been engaged in teaching at Harvard University and the Baltimore College.

Other recent staff changes include the following appointments:

- George A. Morrell, Jr., '38, was elected president of the 5:15 Club at Boston last night to petition the Massachusetts Institute of Technology won the intercollegiate championship in 1943, 1944, 1945, and 1946.

Colonel Stahl Shows Trophies

Colonel Stahl, who is receiving Colonel Verity as head of the B. O. T. C. at the Institute, has part returned from the Philippines, bringing with him a collection of interesting native articles, many of which form the main part of the spins of the spiked bears.

Faculty Club Names

List Of Patrons And Patronesses For Play

Compliments To Institute

Names of patrons and patronesses of the Drama Club's fourth annual production were announced today. Sponsoring the M.I.T. Faculty Club, Mr. and Mrs. C. C. R. F. Smith, "Green," a comedy by J. B. Priestley, was chosen as the play for the season. The play was presented in Straits Hall, Cambridge.

Instituting the faculty club was Milton Jones, chairman of the Drama Club's committee-at-large, and Col. Stahl's wife, Mrs. E. M. Jones, "Scabbard and Blade," a play by Arthur T. N. of the Philippines, with part returned from the Philippines, bringing with him a collection of interesting native items, many of which form the main part of the spins of the spiked bears.

Pi Tau Pi Sigma Has Election Of Officers

The Theta Chapter of Pi Tau Pi Sigma, national honorary signal corps fraternity, elected a new board of officers at a meeting last night in Room 3-305.

Chambers F. Bell, '38, is the new president; John A. Hilenek, '38, vice president; Jay F. Aswood, "38, secretary treasurer. The retiring officers are Eli-

Openings Available For 2 Tech Men In Expedition To Arizona And Utah

Openings for two Technology men are available in the expedition now camp of the expedition which, according to plans, will be equipped by the state government.

Oddly enough, the demand for these in other parts of the country is at an all-time low, but it is not expected that the expedition will return to the United States within the next few months. The expedition is expected to leave the United States at the end of the season.

The expedition is expected to leave the United States at the end of the season.
CHOOSING COURSES
SECOND YEAR IS TIME ENOUGH

The eagerness with which the freshmen have flock to Course Counselling dinners shows that there is a real and urgent need for this information. Large crowds are present. There are numbers of students who, toward the end of their training here, feel that they should have been in other courses. Quite a large number of students who have changed courses after their first, second, or third year. There is no real reason why freshmen should sign up after their first, second, or third year. There is a large number of students who change courses to most of the student body. I refer to the M. I. T. Chemical Department on the American Chemical Society, and the number of M. I. T. graduates who have won outstanding positions is indeed impressive.

Spanish Tragedy
OR, WINNER TAKE NOTHING

It was a very wise man who said that the loser of a war is he who wins. Especially true will this be true of the present war in Spain. This is a war that neither of the factions can win, in the sense that victory will bring material or moral gain to the conqueror.

Spain is a land practically devoid of natural resources. The destruction of war can be offset only by outside aid. The Spanish colonies will of course help, but they will need capital for development, and the end of the war will see Spain bankrupt. In fact bankruptcy is the thing that is most likely to end the war. If Spain is set on her feet, outside aid will be needed, and it is not likely that this will come. If the above plans materialize I would be very willing to assist in the necessary preparation.

OPEN FORUM

Editor, The Tech: There is an undergraduate activity here at Technology which is seemingly unknown to most of the students here. I refer to the M. I. T. Orchestra or the "Little Symphony," as it was once known. During my five years at the Institute, I have encountered many students who were absolutely unaware that such an organization existed. The result is that many students with musical training have missed an excellent opportunity to keep up their musical contact with good music.

This year, with the much appreciated help of the Institute Committee, the Orchestra was fortunate enough to secure as maestro Mr. Jacques Hoffmann, a noted violin pedagogue and soloist. Mr. Hoffmann was for many years professor of music of the first violinists of the Boston Symphony Orchestra and has appeared many times as soloist with that organization. He was also composer and general secretary of the "Page" orchestra. At Wellesley and Boston University Mr. Hoffmann has conducted student ensembles and he is now leader of the Lincoln Symphony Orchestra, one of the finest organizations of its kind in and around Boston.

Mr. Hoffmann has selected our orchestra of thirty pieces for the first term with excellent results. The members have been afforded a real chance to play some of our best music as it should be played under the baton of a thorough and accomplished maestro.

There are still vacancies in all sections of the orchestra which should easily be filled. All students and members of the faculty with any orchestral or chamber musical experience are invited to a Tuesday evening rehearsal at seven o'clock in Room 201 so that they may talk to Mr. Hoffmann and perhaps take part in the rehearsal. No auditions are being held in the rehearsal so that all interested students can take part in the rehearsals. I refer to the M. I. T. Orchestra if and how they may enjoy the work that is being done.

GEORGE R. ROBINSON, G.

COURSE-COUNSELLING

Editor, The Tech: At last year's efforts of the students to "course-counsel" the freshmen have been again the subject of discussion among students. On the last Tuesday night were enthusiastic at having been given all this week at 12:00 P.M.

EXETER—Following the first half of the "Thick of a Pocket" Act and Scene IV, "Man of Affairs" will share the bill with Meredith and Marquis "Windless," beginning Elizabeth Bergner and Laurence Olivier in "You Laugh" and Charles Cagney and Max Classics in "Out on a Limb." (Continued from Page 1)

WASHINGTON ST. OLYMPIA—M. I. T. DRAMA CLUB—An excellent opportunity will be available for the members of that club to play in the "Chemical Who's Who," he conducted student ensembles and he is now leader of the Lincoln Symphony Orchestra, one of the finest organizations of its kind in and around Boston.

Mr. Hoffmann has caused our orchestra of thirty pieces for the first term with excellent results. The members have been afforded a real chance to play some of our best music as it should be played under the baton of a thorough and accomplished maestro.

Sports Comment

We saw the fade-out of boxing Saturday night . . . two hundred people attended the finale . . . the largest turnout this year . . . The Coast Guard handed a bad beating to the Tech boys, scoring four knock-outs out of the eight bouts. Anyone who had his doubts about what may have seemed to be a "nasty" decision by the A. A. would have been definitely convinced of the wisdom of the action had he seen the bouts. The minimum just could not escape with the superior condition of the tough Coast Guard men—as has been the case in most of their bouts with other colleges. 

Varsity Rifle Team

The basketball team ended its season Friday night . . . the hoop squad had a men too good record but the other side of the story was their consistently determined and dogged play . . . In their game against Lowell Tech on Friday, the hoopsters were trailing 13-2 at the end of the first quarter . . . the game looked like it was going to be a walk-away for textile but the never-say-die spirit of the boys rose up to bring the game in an exciting close, Tech losing by a three-point margin . . . The swimming team and the squash team completed their scheduled Saturday events against R. E. F. and Trinity . . . Coach James's charges didn't do too well this year while the Hammer's men had a fair season.

Varsity Rifle Team Beats Rhode Island

Showing on the Technology range, the Varsity Rifle team defeated Rhode Island, Saturday afternoon, January 30, 1925, Vermont, which was scheduled to make the third member of a triangular match, was unable to attend, with the result that the team will shoot a postal with them this week.

Lowell Defeats Tech Basketeers

Institute Men Faille After Leading At Half

The Institute basketball team wound up its season in a subdued blaze of glory when it lost to Lowell Institute in the last of three games, each of which was decided by a small margin of three points. The final count was 38 to 30. In the contest the team did not show up well for the M. T. men as they were behind 10-3 in the first minute. Things picked up rapidly though, and the Institute quintet was leading by three points at the half, they increased that lead to nine points in the third quarter, but after that the Lowell team readily found itself and began to forge ahead and the game ended with them on top. In the opener, the Lowell squad overcame a quintet from Dean Academy. The lineup for the varsity game was as follows: Herzenaukhoff and Egan as forwards, Schueler at center, and Root, Kates, and French at guard positions.

Muscle Maulers Lose To Springfield Team

The Varsity wrestling team closed its insatiable season last Saturday afternoon with a loss to a powerful Springfield aggregation by a 38 to 8 score. Capt. Wells displayed an excellent brand of wrestling and work that is expected of him in the coming tournaments has been appreciated.

The freemans fared a little better than their Tech mates by losing the Springfield Fresh, 20 to 26, in a hard fought bout which was not decided until the final match. The team was in the second and third match and Coach RichA thinks the boys have a chance to cop several of the individual championships in the intercollegiate meet next week.

Helen Jepson tells why she chooses Luckies for her voice

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Jepson verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
