Tech Union To Hear Senator Thomas On Supreme Court Plan

Meeting Will Consider The President's Court Plans

Thomas Favours Court Change; Open Forum Discussion Follows Talks

Senator Albert Thomas of Utah will be present at the Tech Union meeting Thursday night to speak on "The Constitutional Crisis: Roosevelt and American Democracy." Senator Thomas will speak in favor of President Roosevelt's plan for reform of the Supreme Court. The opposition speaker is to be an active local authority whose name will be announced later.

Tech Union's president, John J. Wallace, '38, announced that because of the widespread interest in this subject, the meeting will be open to the entire student body and staff of the Institute.

Each speaker is to present his views on the subject, and after a discussion the meeting will continue as an open forum. Members of the audience will have the opportunity to put questions and state their views. The speakers, in successive order, will be invited to re-examine their arguments.

Senator Albert Thomas will be the first speaker. Mr. Wallace will then be followed by Lieutenant Ben Kelsey, '38, noted. "Aye" said Wallace, beginning to preside over the meeting when the subject of the plan was raised. "All those in favor?" A tall, dark figure stepped in. "Aye," he said, and the members filed in the back of the room.

At the stroke of midnight the meeting will be adjourned.

Special Course Will Train Men For High Posts

Fifteen To Receive Fellowship For Study Abroad As Executives

To prepare a select group of young executives for high positions in American industry, the Massachusetts Institute of Technology announced a special course for Harvard and Boston University graduates who have been recommended by the Massachusetts Institute of Technology.

The program will be made possible by the gift of $25,000 from an anonymous donor. The expenses for the course, which last twelve months, will be paid by the Massachusetts Institute of Technology.

Twenty Fraternities Join T. C. A. Embassy To Discuss Religion

Lincoln, Author of Best Seller, Will Preside At Talks

With the permission of Mr. Douglas W. McMurtrie, director of the Massachusetts Institute of Technology, Lincoln Home, sponsored the meeting. The subject of the meeting this week is "The Embassies: Tomorrow's Congressmen." The Institute will be repeated tomorrow evening.

A musical program with violins, piano, and organ was given by Professor George Owen, Mrs. Edwin R. Stimson, and Mrs. Osmund Bardow.

Freshmen Elected to Institute Committee

Trent Preceds Frederick L. Atkinson, Freshmen Get Togther

Institute committees members were elected by the Freshman Council at its first meeting of the semester held last Wednesday and presided over by Frederick L. Atkinson, president of the Junior Class. Reymond C. Foster, Thomas E. Desmond, and Hulbert Liddle were elected as representatives.

After the elections Diva Tonti outlined a film, which was adopted unanimously, to meet the needs of the freshmen to know more about their classmates.

Aeronautical Group Shows Army Movie

Sound pictures on "The Operation of Radio Bausman" and "Aviating Pilots in China" were shown at an open meeting of the Aeronautical Engineering Society held Tuesday, March 6, in Room 10-200. The film was attended by army officers and students who were accompanied by Lieutenant Col. Kelsey.

Americal Kelsey is a United States army engineer and navigator. An army aerial corps chaplain, Colonel Kelsey, said:

"The third session of the course, conditioning project will be held a week from next Tuesday in the faculty dining hall. This meeting will accommo-date all freshmen who have not been taken care of in the first two affairs.

Prof. Keenan Speaks at Grad. House Dinner

"Problems in the Flow of Condensed Fluids" were discussed by Professor Joseph H. Keenan of the Depart-ment of Mechanical Engineering in a talk at the Graduate House Dinner in Wadsworth Memorial Wednesday evening.

Professor Keenan is widely known for his study of the thermodynamic properties of steam. In the talk of his favorite "steam talkers," he presented conclusions as to the correlation of the flow of fluids flowing through a pipe in the same sequence, and the effect of bending the pipe, as well as of sound in the same medium.

Resolution Is Passed Asking Charges Be Stopped

Music Club Representative Is Readmitted To Council

$250 Voted for Music Clubs To Pay Spring Season Expenses

A step towards making the Institute tennis courts free for Technol-ogy students was taken today when the Institute Committee unanimously passed a resolution that the expenses be paid.

In addition, the committee voted to readmit the Musical Clubs' repre sentatives in the Institute Committee and to present $250 to the Clubs for their spring season.

Photograph Exhibit Planned by Faculty

The spring exhibit of the Faculty Club will be held starting Friday, April 15, and will continue for three weeks. The show includes special competitions in the fields of portraiture, pictures of scientific interest, and pictures of scientific interest. Prizes will be awarded in each category. The last day on which entries may be submitted is March 21, 1937.

Compton Will Speak At T. C. A. Inaugural

New Cabinet to Be Installed at Lamonts Tomorrow

Dr. Compton will speak at a banquet at which the newly elected T.C.A. cabinet will be installed tomorrow evening. The banquet, which will be held in Walker Memorial, will be presided over by Percy E. Zehlen, '26.

The new department heads and social coordinators will be installed at a banquet this evening. The Student Technical Association of the Massachusetts Institute of Technology, and therefore, could be readmitted to the Corporation of the Massachusetts Institute of Technology that the existing charges to the students of the Massachusetts Institute of Technology for use of said tennis courts be eliminated."

Inst Comm Calls For Tennis Free To All Students

For Year's Preparation Preparations Are Underway

Six Technology Men Represent Ethiopia In Harvard Meeting

Six students from the Institute represent Ethiopia in the New England National League. The students were selected to attend a three day session last night at M. I. T. Bollingfield. The students are expected to represent the presentation of Ethiopia before the National League.

The six undergraduate students are: Alexander Brier, '38; Paul A. Vogel, '38; Harold James, '39, Ernest Bragdon, '39; and Robert S. Clements, '40. Each man will be a member of one of the six committees of the League.

President Ada L. Comstock of Rad-cliffe College will address the students this morning after the credentials from the different groups have been accepted.

According to Professor Theodore Smith, coach of the T.C.A. group, there will be considerable difficulty in seating the delegations representing Spain and Ethiopia, the blocs represented by the Institute Committee.

MISREPRESENTATION
ON CHILD LABOR AMENDMENT

With the passage of the Child Labor Amendment by New York and several other states, ratification of the amendment seems more likely. The amendment which has been misrepresented is the case sufficiently well to prove passage of a really desirable measure.

It is easy to show high-sounding arguments about "invasion of freedom" and "growth control," especially when the shooter is one who holds or has held a position of respect in the church or in the state, to get the argument just as fallacious regardless of who present them. For all of all, most opponents have acted as though the amendment already contained all the most drastic provisions which Congress could possibly pass. Yet the amendment itself would not affect child labor in the least; it would merely permit Congress to pass laws concerning child labor, laws like those passed under the guise of the N.R.A. and like the earlier laws which the Supreme Court declared unconstitutional.

The other fallacy used by proponents of the amendment is that Congress should not be given power over children in the home and on the farm, power which rightfully belongs to their parents, according to the Editor. The Editor, The Tech, is also the sponsor of the movement which Congress would have under the amendment, those opponents ignore the fact that which Congress has had, and which Congress already has under the guise of the N.R.A. are already possessed by the states. If Congress, as a political body, is trusted with those "limited" rights, how much less so should state legislatures be trusted. Giving this power to the state governments is the only way to keep the federation of labor which our country needs. Congress would have under the amendment a sufficient power to carry out the constitution.

The other fallacy used by opponents of the amendment is that Congress should not be given power over children in the home and on the farm, power which rightfully belongs to their parents, according to the Editor. The Editor, The Tech, is also the sponsor of the movement which Congress would have under the amendment, those opponents ignore the fact that which Congress has had, and which Congress already has under the guise of the N.R.A. are already possessed by the states. If Congress, as a political body, is trusted with those "limited" rights, how much less so should state legislatures be trusted. Giving this power to the state governments is the only way to keep the federation of labor which our country needs. Congress would have under the amendment a sufficient power to carry out the constitution.

SPORTS COMMENT

Anyone who wants to get a thrill should drop over to the Hangar Gym tomorrow night when Coach McCarthy is running his annual basketball tournament of eastern Massachusetts high school teams... The 1960 roused Door attended last night's exhibition in which four teams participated... the class of basketball played by these high school teams is of high caliber—especially since they are chosen teams. Eight teams in all are entered in the tournament... Coach McCarthy has been running these tournaments for over ten years and he deserves a hand for the interest he has shown in them.

The tennis court proposal initiated by The Tech has finally materialized. It is only up to the Institute now... with free tennis courts we might see an increased interest in tennis at Tech... The tennis team travels up the river to Harvard tomorrow... with one of the best teams Tech has had in a long while... the match will be worthwhile to witness... Another interesting event will be the London to shoot in a triangular match of the best teams Tech has had in a long while... the match will be worthwhile to witness... Another interesting event will be the match tomorrow in Winter with Temple. Temple is bringing along its former Olympian who does tricks on the high bar, parallel bar, and in trampling.

Rifle Team to Meet Coast Guard, Yale

Leaving early tomorrow morning, the Vanity rifle team travels to New London to shoot in a triangular match against the Coast Guard and Yale teams. The team going to New London will consist of captains David D. Whitney, '37, manager Francis T. Cough, '38, Thomas R. Hazleton, '37, Charles Nasel, '38, Edward G. Peterson, '37, Robert W. Forst, '38, Elmer Mosley, '38, and Gordon L. Foye, '38. Because the range will not be open.

Evelyn Chandler—Daring—Lovely—Wing-fooled—Skating Marvel

Evelyn Chandler, America's Queen of Figure Skating! She's the only one in the world who can do a complete somersault without touching the ice. She's called—

THE ARABIAN CART-INTO A SPIRAL

Camel's always light up Camels when a meal comes. "Camel's always light up Camels at meal times and Evelyn in good stead. "Camels never interfere with my personal condition. They're mild!"

ACROMATIC SKATING at breakneck speed is glamorous and exciting... sometimes Evelyn, "It takes a digestion to figure that... I always light up Camel at meal times in front of the mirror. They help you enjoy your food and give me a sense of well-being."

Five Trackmen Go To I.C.-A.-A. Games

Guerke, Sah, Cooper, Kites and Hamilton Picked; Games Tomorrow

In fine condition and with high hopes, Technology's five track stars leave for New York today to compete against the country's best in the I. C. A. A. A. games which take place in the Fudal Meadow Square Garden tomorrow afternoon and evening. The men making the trip are Captains Henry Guerke, outstanding Tech trackstare,融untor Sad, Joey Cohon, Gene Cooper, John Hamilton, and Luther Stone. Guerke, who is the New England mile champion and who has sufficiently broken the Tech 1000 yard record several times in the last few months will compete in the two-mile event. He will meet tough competition in Baby of Fyndon and Woodland of Yale, winner of the event last year. Sah and Cooper, both members of the one mile relay team, one of the strongest teams in the history of Tech, will run in the 400 yards and one mile races respectively.
Noted Metropolitan Opera Star finds Luckies easy on her precious throat—

Marjorie Lawrence says:—

"You must have a big voice to sing Wagner. My favorite role of 'Brunnhilde' in Wagner's 'Gotterdammerung' is a very exacting one. Yet—when I am back in my dressing room after I have finished singing, there is nothing wrong with a little Luckies light smoke to refresh me. Luckies is a smart smoke—so gentle—so smooth—that it does not irritate my throat at all. I agree with the others at the Metropolitan that a light smoke is a wise choice."

The plan for the dance call for a cabaret style with on-the-stage music. In addition, the dance will be run on cabaret style with music and costume changes. However, no reservations are necessary, and the members expect to throw the entire ball open to the dancers.

The feature of the entire dance will be a medley relay team consisting of members of the Olympic squad whose performances for the Spring season.

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Lawrence verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
