## Gridiron Society To Make Annual Awards Thursday

Best Undergraduate Technical Magazine, Best Writing Receive Prizes

Prominent Editors Will Judge Awarding Of The T.E.N. Cup

Announcement Of Winners Will Be Made During Spring Formal Banquet

Winners of the Gridiron awards for good writing on the Institute's undergraduate publications and of the T. E. N. Cup for the best undergraduate college technical magazine of the year will be announced at the annual Gridiron spring formal banquet on The Parker House Roof, May 12, at 7:30.

### Judges of Awards

The decisions on the three Gridiron awards, which total fifty dollars, will be made by Professor Howard R. Bartlett, Professor Robert E. Rogers, Robert C. Casselman, '39, and Stanley G. H. Fitch, '00, former General Manager of The Tech.

### History of Cup

The T. E. N. Cup was awarded last year to the Purdue Engineer. This award was put up by the T.E.N. after winning the Yale Cup for the three consecutive years of 1934-36 and retiring from the field with it in its per-

(Continued on page 4)

## M.I.T.A.A. Executive Committee Will Dine At Farewell Banquet

Dr. Rockwell and Coach Hedlund To Be Main Speakers At Affair

A banquet in the nature of a testimonial dinner for the outgoing M. I. T. A. A. executive committee for the year '37-'38 will take place in the Grill Room of Walker Memorial next Thursday, May 12, at 6:30 P. M.

### Two Main Speakers

The two main speakers at the affair are to be Dr. John A. Rockwell, President of the Advisory Committee on Athletics, and Oscar Hedlund, popular track coach. The toastmaster will be the new president of the M. I. T. A. A., Stuart Paige, '39.

### Banquet is Get-together

The banquet is also in the nature of a get-together for the outgoing captains and managers of the '37-'38 season and the newcomers of the '38-'39 period, who were recently either elected or appointed.

## R.O.T.C. Engineers Blow Two Craters

Fifty pounds of T.N.T. were exploded by sixty sophomores in the Engineering Corps of the R. O. T. C. on their annual demolition demonstration at a farm near Lexington, Mass., on Saturday, May 7.

The purpose of the demonstration was to duly impress the students with the power of T.N.T. To this end two large craters were blown using 9 and 14 pounds of the explosive. The big disappointment of the afternoon came at the end of the day when these craters had to be refilled by manual labor before the roll was called. It seems the men were afraid their legs around there might break their legs.

### Tree and Iron Rails Blown

A tree of one foot diameter was felled with two pounds of T.N.T. and several iron rails and an I-beam were cut. One sample of simultaneous detonation and the destruction of two rocks completed the demonstration. Men from the different sections were chosen to take charge of the individual demonstrations.

## Golf Team Plays Wellesley In Scotch Mixed Foursome

Sorry, boys, it is too late to go out for the golf team now, but just to make you feel bad, The Tech will let you in on a little secret — the golf team plays at Wellesley next Thursday afternoon. Don't lose hope though. Because of a shortage of caddies, the six most handsome fellows applying to Charlie F. Hobson, Jr., will be given an opportunity to exhibit their prowess as caddies.

It will be a social rather than a competitive meet in which one boy and one girl will be paired off. The couples will play a Scotch mix foursome, with prizes awaiting the winners at the nineteenth green.

## Initiates Attend Classes Pantless

Beer Cans, Wing Collars Also Costume of Agenda Aspirants

Pants were lacking yesterday as nine freshmen attended classes clad mainly in their long winter underwear. These nine are initiates to Agenda, honorary Dormitory Sophomore society, and must wear this costume on Institute grounds for an entire week as part of their initiation. The rest of their costume consists of a girdle of empty beer cans, brightly colored socks and short pants, no shirt, and a wing collar with a freshman tie.

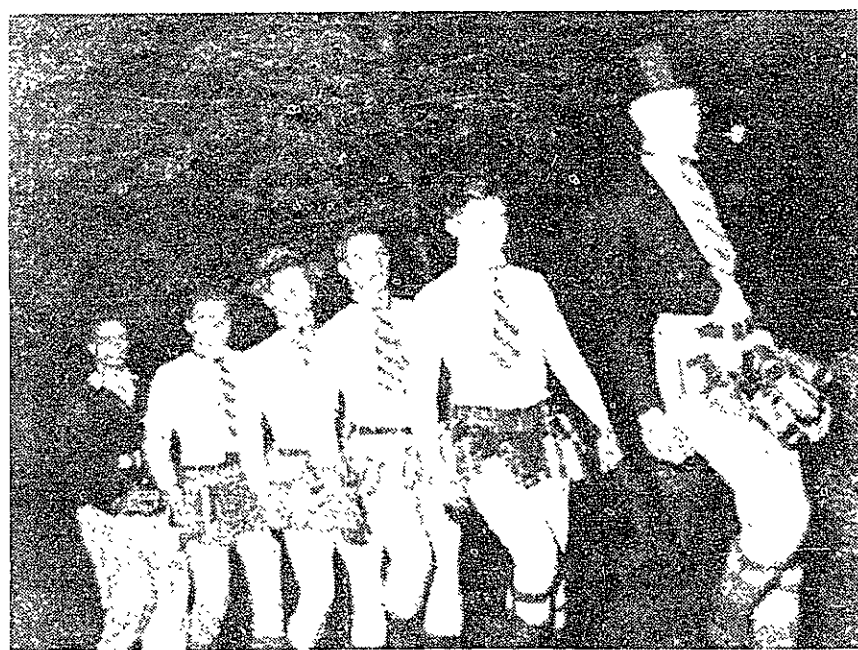

### New Initiates

The initiates, selected by the members of the present Agenda, are: Charley K. Atwater, Adolph Bertsch, John R. Fessenden, Jack J. Kriz, William G. Kussmaul, John W. Meier, Willard S. Mott, Carl W. Schwenzfeier, and William Staudenmeier, all class of '41. After dressing for an inspection by the Sophomores last

## Die Deutsche Sprachgruppe Versammelt Sich Mittwoch

Am Mittwoch den 11. Mai im Hoersaal 10-250 um 5 Uhr findet die vierte Versammlung der Gruppe zur Pflege der deutschen Sprache am M. I. T. statt.

Vortrag von Herrn Hans Otto, '40 ueber den Rhein und das Rheinisch — Westfaelische Industriegebiet.

Bilder vom Rheinland werden vorgefuehrt.

Anschliessend alte deutsche Volkslieder gesungen von Mitgliedern des Glee Clubs M. I. T. unter der Leitung von Herrn Alva L. Herman.

Studenten und Mitglieder der Fakultaeet herzlich willkommen.

## Institute Sailors Victorious In Two Varsity Regattas

Technology Leads Eight Crews As Brown Dedicates Its New Boathouse

Tech Men Also Win Pentagond

Led by the crack crews of the M. I. T. Nautical Association, two inter-collegiate dinghy races were held over the last weekend. The high-scoring men of the Institute were Runyon Colie, '40; Eric Olsen, '39; Herman Hanson, '39; and Robert Atwater, '39.

### Hard Sailing Weather

Facing some of the stiffest sailing weather of the season, eight colleges attended the invitation regatta at Brown, marking the dedication of the new boathouse on the Seekonk River. The Technology crews, led by Runyon Colie as individual high scorer, amassed a total score of 148 points. Trailing M. I. T. came Brown with 132 and Harvard with 129, followed by Williams, Princeton, Dartmouth, Yale and Rhode Island State.

### Calm for Next Day's Race

In direct contrast to Saturday's race, the Pentagond Intercollegiate Regatta held on Sunday was sailed in almost a dead calm. The race was held on the Charles with M. I. T., Harvard, Brown, Dartmouth, and Princeton competing. Even in Sunday's uncertain weather, the Institute sailors won a substantial victory with a total of 163 points. Second was Harvard with 121 points closely contested by Brown. High scorer for the Institute was Herman Hanson, who alone won 61 points.

## Tutor Application Blanks Due Within Next Two Weeks

The Approved List of Student Tutors in the first and second year subjects is now being compiled for the next academic year, 1938-1939. Application forms should be filled out at the Office of the Dean of Students, Room 3-108, within the next two weeks.

## Mal Hallett Booked For Seniors Dance At Statler, June 6

Mal Hallett

Plays at Senior Ball

## Dance Ends School Activities Of '38 Men

Arrangements Will Include Dancing Nine To Two; Supper At Midnight

Mal Hallett and his orchestra will play at the annual Senior Ball on June 6, in the Main Dining Room of the Hotel Statler, it was announced by the Senior Week Committee yesterday.

Dancing will begin at nine o'clock, instead of at ten as was previously scheduled, and will last till two, according to John R. Cook, '38, chairman of the committee. Supper will be served at about midnight.

The Ball will culminate the school activities of the Class of '38; graduation exercises are on the following afternoon.

### Orchestra Well-known

Although Hallett and his orchestra (Continued on Page 2) Senior Week

## Mac Brayn Gives Safety Lecture

First In Series Of Three Talks Presented On Friday In 10-250

Relating the general safety drive against automobile accidents to the safety drive in industry, Mr. Mac Brayn, of the Massachusetts Safety Council, spoke Friday noon at the first of a series of lectures on "Safety in Industry" sponsored by the Faculty-Student Committee.

### First Aid Stressed

In cases where first aid was taught, Mac Brayn said, the accident rate decreased, adding that most industrial accidents occur after working hours, and that the only way to prevent them was to make the workers think safely.

The next two lectures will be presented (Continued on page 4) MacBrayn

## Fifty Dollar Prize Awarded Tech Man

Paper On Quenching Of Steel Wins A. S. M. E. Prize

Walter Kaufman, '38, was awarded the first prize of fifty dollars at the sixth annual meeting of the New England Student Conference of the American Society of Mechanical Engineers for his paper, "The Effect of Temperature and Cooling Rates on the Properties of Steel". Among the fourteen colleges that attended the meeting held on May 6 and 7 at the University of New Hampshire, ten papers were presented.

## Technology Students To Attend Conference In Maine Next Month

Gathering Is Held By Student Christian Movement At Summer Camp

Nine Technology students are planning to attend the summer conference of the Student Christian Movement during the week of June 13 at Camp O-At-Ka, Sebago Lake, Maine, the T. C. A. announced yesterday.

The purpose of the conference is to establish in those attending a sense of the values for which high religion stands. The topics to be discussed at the gathering include problems concerning religion, economics, and peace. Among the speakers will be Homer Martin, president of the United Automobile Workers of America, and Norman Thomas, Socialist Party presidential candidate in several elections, and Dr. Sidney Lovett, chaplain at Yale University, who has spoken at Technology.

### Total Expense is \$25

The entire cost of the week's conference is \$25, with the registration fee of \$6 refunded to foreign students. The T. C. A. will provide up to half the expense of any person wishing to attend who can not pay the entire amount. Any students interested in going to the conference are requested to see Raymond R. Richards, '41, or inquire in the T.C.A. office.

## All Undergraduate Clubs' Finances Are Regulated By Budget Committee

Financial supervision of all undergraduate activities is the function of the Budget Committee, subcommittee of the Institute Committee.

The activities which come under the jurisdiction of the budget committee are divided into two classifications: those which are self supporting and those which are financed by undergraduate dues. The former are controlled by means of monthly annual financial reports, whereas disbursements to the latter are made by the budget committee on the basis of tentative budgets submitted by the treasurers of the groups.

### Activities Supported by Dues

Activities supported by undergraduate dues this year, included the institute committee and its subcommit-

tees, the various classes, the M. I. T. A. A., the debating society, and the Tech Union.

The funds for these groups were derived from the \$7.00 appropriated from each student's tuition which was apportioned as follows:

Institute committee	\$ 50
Class dues	.44
Reserve and contingent	.26
Athletics	5.80

Total \$7.00

Appropriations for 1936-37 totalled \$19,001.50. Also received by the Institute committee were sums from the sale of freshman ties, senior week income, and almost \$2,000 left from 1935-36.

(Continued on page 4)

### Budget

## Election Of Officers For C. P. S. Tonight

The election of officers for the Combined Professional Societies is to take place tonight.

The men already nominated for office by the elections committee are as follows: Walter N. Brown, Jr., '39; and Robert E. Pancake, '39, who are competing for the chairmanship; and Arthur T. Higgins, '39, and Frederick W. Hammesfahr, '40, vieing for the position of secretary-treasurer.

Each member of the society is entitled to a vote in the coming election.

## SECOND-HAND

### CHEMISTRY SUPPLY ROOM

SEVERAL months ago The Tech published in this column an editorial deploring the fact that several hundred chemistry students annually pay on an average of fifty dollars over tuition charges for chemicals, rentals and breakage, and that hundreds more deposit constantly increasing chemistry fees for freshman and occasional chemistry courses.

We pointed out in this editorial that appropriations for the chemistry department both for teaching, laboratory equipment, chemicals and miscellaneous expenses are very low per student, and that excessive fees were unjustified from this standpoint. We also pointed out that similar fees were unknown in other departments, even in those whose equipment represented several millions of dollars of investment. We did not relate at that time the story of a boy who did a physical chemistry thesis in the physics department in order to avoid the charges which he would have incurred had he accomplished the same research in the department of chemistry.

In this editorial on March 15, we recommended that "there should be no charges for chemicals or rentals, except that fines may be imposed for delayed return of apparatus." Secondly, we hoped, the Institute would establish "at least one supply room where non-returnable but yet serviceable apparatus may be kept and used."

We sought to accomplish these popular aims by committing the question to the Institute Committee which recently reported, unofficially, that Administration leaders saw too many disadvantages in our recommendation to eliminate rental and chemical charges to institute our system at the present time.

We disagree with this contention and hope that the Administration leaders will eventually recognize the obvious unfairness of the present arrangement. But if we cannot accomplish this aim at the present, now, we hope that our second recommendation will not be disregarded. Daily, students are checking out of laboratories. And daily, attendants at the store rooms refuse to accept slightly etched or scratched apparatus, leaving students straddled with weeks of rental and breakage charges as well.

Because much of this slightly damaged apparatus is still serviceable, we hope that the Institute will establish one supply room where these non-returnable but useful utensils may be borrowed and returned.

## THE KING IS DEAD

### LONG LIVE THE KING

THE school year is almost finished, and the student, when he dares project his thoughts beyond the immediate future of themes and finals, is beginning to think of his plans for the summer.

For the Institute Committee, too, the year is almost finished. At the next meeting, the final session for this season, the newly-elected Committee men take their seats and once more "the old order changeth, yielding place to new."

At this, their first meeting, no one expects the fledgling solons to do more than accomplish the routine matters which come before them. Hampered by the imposing presence of the old Committee and by the lateness of the season, the new body may hesitate to try its powers at this next Institute Committee meeting.

We sincerely hope, however, that this will not be the situation next year. We hope that the Institute Committee will accomplish its functions at that time in an orderly, fearless fashion, and that the representatives will remember that they were not elected to the body solely to increase their list of activities. We hope, thus, that the new Committee will accomplish some needed reforms, especially in the student-faculty relations sphere.

In parting, we must say to the old Institute Committee that we appreciated the attitude with which it accepted criticisms, from this column and from other sources. We must congratulate the Executive Committee for endeavoring to increase the accomplishments of its bi-weekly meetings by publishing official statements and by preparing a written summary of business to be discussed at these meetings. Our profoundest compliments, however, are for Mr. Wallace and those other members of the legislative body whose influence directed the establishment of a new custom of naming frequent committees to present reports on pertinent issues. The intelligent report presented by Fred Grant and his associates on the question of undergraduate representation on the Institute Committee has illustrated how useful this custom can be.

If the Institute Committee this year did not wholly succeed in casting off the veil of apathy with which it was shrouded, it made several strides in this direction. If the Committee next year fails to carry on this work, we shall be much disappointed.

## Reviews and Previews

STATE AND ORPHEUM — The Adventures of Marco Polo, Samuel Goldwyn's latest masterpiece, still plays on, starring Gary Cooper and Sigrid Gurie. Gaiety Girls completes the program.

METROPOLITAN — The sparkling new musical, Doctor Rhythm, featuring Bing Crosby and Beatrice Lillie with Women Are Like That play here until Thursday.

PARAMOUNT AND FENWAY — In Old Chicago, America's great motion picture, co-featured now with Sailing Along gives way to Beloved Brat and Four Men and a Prayer on Thursday.

MEMORIAL — Shep Field's Rippling Rhythm remains here until Thursday with Merle Oberon in The Divorce of Lady X.

BOSTON — Chick Webb's famous swing band is still ringing out hot tunes on the stage while Joe Penner stars in Go Chase Yourself on the screen.

SCOLLAY AND MODERN — The Adventures of Tom Sawyer in Technicolor with Tom Kelly and Prison Nurse finish up the week at this house.

UNIVERSITY — Jezebel starring Bette Davis is featured here with Start Cheering as an added attraction.

EXETER — The Adventures of Tom Sawyer and Love on a Budget are replaced by The First Hundred Years and Walking Down Broadway on Thursday.

## Senior Week

(Continued from Page 1)

are famous as one of the outstanding swing bands in the country, his entertaining unit is also among the best. High bidder for vocal honors of the troupe is Jerry Perkins. His rendition of "Little Gypsy Tea Room" in combination with the entire Hallett aggregation as a glee club, has become well-known as a remarkable arrangement of vocal and instrumental effects.

### Other Events

Other Senior Week events precede the Ball. The annual banquet will take place on the previous Friday evening, and a Pops Symphony Concert is scheduled for Saturday evening. Baccalaureate services will be held on Sunday afternoon.

Monday, June 5, is Class Day. At the special exercises planned for the occasion, the members of the Class of 1938 will be initiated into the alumni. A tea dance and the President's reception on Tuesday afternoon will form fitting prelude to the ball in the evening.

### Blanket Options on Sale

Blanket tickets for all Senior Week affairs have been on sale for \$10.50 in the Main Lobby for the past week. This price will continue until tomorrow after which they will be put on sale for \$11.00. If tickets are bought for each of the affairs separately, the total price is \$13.50.

## What are the odds for Spring? Tweed Coats and Flannel Slacks!

Campus auspices point to the continuing, deserved popularity of that practically deathless combination: tweed jacket and slacks. So be assured that Macy's will be crammed to the eaves with the type of tweed jackets and flannel slacks you'll want to wear... at very Macy-esque, low-for-cash prices. See the wide wale herringbone jacket (27.50) and imported British gray flannels (7.94) at

## Collegians

### Dine & Dance

The Shelton has been New York Headquarters for college men and women for years... and there's a reason. The Shelton provides club facilities, without dues. You can relax in the solarium or the library, work-out in the gym, use the game room, and take a dip in the famous Shelton pool, all these features without any charge other than that for your pleasant room. The Shelton's unique location—on the edge of the Grand Central Zone—makes it a convenient point for all of New York's most interesting places. A well known orchestra plays nightly in the Shelton Corner for dinner and supper dancing.

Daily Rate for Single Room with Private Bath—from \$3 a Day.

LEXINGTON AVENUE at 49th STREET, NEW YORK

### Tech Beats Bates 88 To 47; Keeps Its Slate Clean

#### Kites And Thomson Set Records In Vault And Hi-jump For Institute

#### Stiffer Meet Expected Here This Saturday With Brown U.

#### Spring Interclass Meet Held Today And Tomorrow On Tech Field

Winning ten firsts out of fifteen starts and setting two records, the Institute track team kept its slate clean in a one-sided victory over Bates last Saturday at Bates. The final score was 88-47 in favor of Tech.

#### Team Meets Brown Next Saturday

Opposition is expected to be much stiffer next Saturday when the team meets Brown here. The Providence men usually trot around a powerful array of spikemen, and Tech will probably have to throw in all of its reserves against them to preserve its unblemished record.

#### Clarke Wins 100, 220 and Quarter

The highlight of the meet against Bates was the one-two placing of Clarke and Oettinger in both the hundred and the 220. Taylor repeated in winning both the hurdle events. Clarke, not satisfied with carrying off both sprints, took also the 440 in his stride in the time of 52.6. Campbell bettered his time of a week ago when he broke the half-mile tape in 2:02. Marshall, who a week ago, won the broad jump, repeated again Saturday with a winning leap of 21 ft. 4 1/2 in., and Hadley and Kites made it a clean sweep for Tech by taking second and third.

#### Pole vault and High jump are Records

The two records were Kites vault of 11 ft. 9 1/2 in. which although a foot below his best effort was still a field record for the meet; and Thomson's high jump of 6 ft. 3-4 in., also a field record. In that event, Hadley and Hamilton tied for second, giving Tech another clean sweep.

Today and tomorrow afternoons are time of the annual spring interclass meet, which was won last year by the sophomore class. Any member of any of the Institute classes is eligible to compete. The meet will be held at 5:00 on each of the days.

Tomorrow the Technique pictures of the varsity and freshman track teams will be taken at 5:00 on the track field.

#### The summaries:

Sot. put—Distance, 42ft. 1-2in. 1st, Russell (B); 2d, Thompson (T); 3d, Schneider (T).  
High jump—Height, 6ft. 3-in. 1st, Thompson (T); 2d, Hadley (T); 3d, Hamilton (T).  
Hammer—Distance, 138ft. 4in. 1st, Andrews (B); 2d, Treat (T); 3d, Briggs (B).  
Shot put—Distance, 21ft. 4-1-2in. 1st, Marshall, 2d, Hadley (T); 3d, Kites (T).  
Discus—Distance, 125ft. 8in. 1st, Thompson (T); 2d, Andrews (B); 3d, Hibbard (B).  
Pole vault—Height, 11ft. 9-1-2in. 1st, Kites (T); 2d, Muzes (B); 3d, Gilbert (T).  
Javelin—Distance, 171ft. 5in. 1st, Ross (T); 2d, Brewer (T); 3d, Connon (B).  
120 yd.—Time, 16.2. 1st, Taylor (T); 2d, Lauko (B); 3d, Walker (T).  
100 yd.—Time, 10.6. 1st, Clark (T); 2d, Oettinger (T); 3d, Woodbury (B).  
Mile—Time, 4:33.8. 1st, Wallace (B); 2d, Foster (B); 3d, Crosby (T).  
1/2 mile—Time, 22.8. 1st, Clark (T); 2d, Lauko (B); 3d, Pierce (B).  
Two mile—Time, 10:13.8. 1st, Bridges (B); 2d, Rollins (B); 3d, Gratton (B).  
500 yd.—Time, 2:02. 1st, Campbell (T); 2d, Shepard (B); 3d, Deering (T).  
200 yd.—Time, 23.2. 1st, Taylor (T); 2d, Lauko (B); 3d, Walker (T).

### Oscar Hedlund, Tech Track Coach Has Hobby Of Collecting Statistics

If there is any one man about the Institute whom the student body as a whole knows most intimately and with whom it has the most friendly relations, it is Oscar Hedlund, the Institute track coach. A large percentage of each freshman class pass under his sparkling tongue, and many of those freshmen continue with him in their following years.

In the spring and summer, he and his red, white, and nondescript sweat-shirted cohorts are just about the most familiar sights on the Institute grounds.

His history is no less remarkable than his personality and pep. When a kid, he was skinny and weak, and so took up running to build himself up—setting a precedent which Cunningham and Bonthron both, either consciously or unconsciously later followed.

He made his debut by winning a Fourth of July invitation race—that was his first competitive effort. From there he went on to establish many records, outstanding among which are

the mile and half-mile ones, and the two mile indoor mark which still stands. In addition, he was anchor man on the four mile relay team which set a world record in 1913. His last competitive effort was in 1915 when he set his New England two mile standard. After this race he hung his spikes up, and since then has devoted his time to coaching.

Oscar's coaching career started at Boston University in 1921, from where he came to the Institute in 1923.

Not content with an active business life, and a vigorous amount of coaching, he has maintained a lively interest in track as a whole. That interest has taken the form of track statistics, on which he is a national authority. At the moment, he is engaged in writing a book about them—claims they are the most fascinating thing in the world.

His office in the track house is lined with pictures of world famous trackmen in action—many of them autographed—and of record setting Institute teams and men.

### Bates Hands Netters Season's First Defeat

#### Team Loses 6-3; Freshmen Drop Third Straight At Brown

Losing to Bates College by a score of 6-3, the varsity tennis team suffered its first defeat of the season Saturday when it engaged the Bates netters on their home courts.

#### Tech Weakened by Loss of Wholey and Keitel

Undaunted by a defeat earlier in the season at the hands of the Tech aggregation, Bates took advantage of a team weakened by the loss of Wholey and Keitel and gave the Beavers a taste of their own medicine.

All three of Tech's wins were in the singles, where Bush, playing no. 1 for the Beavers, Shen, no. 3, and Millar, no. 5 posted victories. The closeness of the match was evidenced however, by the no. 1 and 3 doubles matches in which Tech extended the Bates teams to three sets before losing. Victories in both of these matches would have given the meet to the Beavers.

#### Frosh Lose to Brown

Traveling to Brown Saturday, the freshmen team had no better luck than has previously followed them in their other two matches, for the Brown team trounced them to the tune of 8-1.

In spite of the lopsided score, the match was relatively close, for most of the matches went to three sets.

### Mac Brayn

(Continued from page 1)

sented on next Friday and the following Friday from 12 to 1, not on Tuesdays, as was reported previously in The Tech.

#### Dalton, Cameron Speak Next

Speaking at the next lecture will be Marshall B. Dalton, president of the Boston Manufacturers Mutual Fire Insurance Co., and Donald Cameron, assistant manager of the safety engineering department of the same company. Their topic will be "What the Safety Engineer Engineers."

The no. 1 doubles team of Allen and Freeman registered the only win for the Institute when they defeated Brown's team by the score of 6-4, 6-8, 6-3.

The results of the varsity match follow:

Singles:  
Bush (T) defeated Nixon (B) 6-4, 2-6, 6-3.  
Read (B) defeated Babcock (T) 8-8, 6-2.  
Shen (T) defeated Kenney (B) 6-2, 3-6, 9-7.  
Casterline (B) defeated Braunlich (T) 6-0, 6-2.  
Doubles:  
Millar (T) defeated Walsh (B) 6-2, 6-1.  
Holmes (B) defeated Rustad (T) 6-4, 6-1.  
Nixon and Read (B) defeated Bush and Babcock (T) 4-5, 10-8, 6-2.  
Kenney and Casterline (B) defeated Shen and Braunlich (T) 6-4, 9-7.  
Canavan and Sutherland (B) defeated Millard and Rustad (T) 2-6, 6-3, 6-4.

### Harvard Oarsmen Win Compton Cup For Second Time

#### Crimson Crew Sets Record As It Defeats Four Other Schools

#### Freshmen Get Only Win Of Day

The varsity crew of Harvard University won its second Compton Cup and broke the course record in defeating Princeton, Technology, and Syracuse on Lake Carnegie, Saturday. The Syracuse eight, ineligible to receive the Compton trophy, finished second, a length and a quarter behind the Crimson shell; Princeton was third and Technology fourth.

#### Tech Finishes in Rear

Syracuse took an early lead but the strong Harvard crew packed too much power for the Orange and went to the front in the last quarter-mile of the mile and three-quarters course. Princeton was a close third all the way, while Technology was all by itself in the rear.

The Junior Varsity crew fared no better in the J. V.'s race, finishing well behind Harvard, Syracuse, and Princeton.

#### Frosh Win Over Princeton Frosh

The freshmen returned to their winning ways capturing the race for first-year men. The cubs, in producing Technology's only winning performance of the day, came from be-

### Harvard's Lacrosse Men Overcome Tech

Harvard's stick-wielders overthrew the Technology lacrosse men last Saturday on the Coop Field by a score of 5 to 2. The Technology men, though they were beaten, showed their best in this their last game of this season and high hopes are being held for next year with many of the varsity men remaining.

The outstanding players for M. I. T. were Richard E. MacPhaul, the goalie, and Thomas Creamer, who made the two goals. Hunsaker and Willard made the goals for Harvard.

hind to beat the Princeton Frosh by three quarters of a length.

The 150's put up a hard fight while losing to Princeton in a gruelling race. Though Princeton led all the way they were forced to maintain a stroke between 40 and 42 to keep the lead.

#### The Technology seatings:

Varsity: Bow, Van Seiver; No. 2, Glacken; No. 3, Herr; No. 4, Chapin; No. 5, Hammell; No. 6, Cella; No. 7, Lamb; stroke, Coombs, cox, Baird.  
Freshman: Bow, Morse; No. 2, Gavin; No. 3, Shepard; No. 4, Mueller; No. 5, Affel; No. 6, Howard; No. 7, Guething; stroke, Folberth; cox, Ketchledge.  
Junior Varsity: Bow, Lindberg; No. 2, McKinley; No. 3, Sebell; No. 4, Martin; No. 5, Holbrook; No. 6, Watriss; No. 7, McMullen; stroke, Lobban; cox, Vuyterberg.  
150's: Bow, Withington; No. 2, Atwater; No. 3, Renn; No. 4, Albert; No. 5, MacMillan; No. 6, Woodward; No. 7, Preston; stroke, Piel; cox, French.

manent possession. The T. E. N., naturally, is not eligible for its own award. The judges for the T. E. N. Cup are Donald G. Fink, managing editor of Electronics Magazine, Beverly Dudley of McGraw Hill Publishing Company, S. Paul Johnston, editor of Aviation, and Vinton Ulrich, assistant editor of Radiocraft.

Speaks at Banquet

The speaker will be Walter Harrington, '17, National Advertising

Manager of the New York Times, and the 91 invited guests include President Karl T. Compton, Dean Edwin S. Bunnell, Dean Samuel C. Prescott, Bursar Delbert L. Rhind, and J. Rhyme Killian, Jr.

## Agenda

(Continued from page 1)

night, they staged a spontaneous parade, which was intercepted by a reporter and a photographer of a Boston paper.

Aside from the masquerade, the future Agenda members are each assigned to a Sophomore member, for whom they must perform at least one "errand" during the week. Also, they must present at the banquet Saturday evening, when the formal initiation takes place, a "clean white" sheet of paper bearing the signatures of all the present active members. As a proof of the impossibility of this, most of last year's "clean white" sheets are an illegible collection of vari-colored inks.

### Purposes of Agenda

The Agenda is a society for the promotion of better feeling between the two lower classes in the dorms. Included in this definition is the "task" of making sure that the freshmen do their errands, that they behave properly, and that they take all hazing in the proper spirit. It is the Agenda that prepares and oversees the pre-field day hazing and such activities.

### HIGH GRADE TYPEWRITING

Wide experience in scientific work of all kinds. Statistics. Long carriage machine. Facilities for handling any quantity of work at short notice.

*I double dare you  
 ...show me a cigarette  
 that gives MORE PLEASURE*

*Why—*  
 ... because Chesterfield ingredients are the best a cigarette can have ... mild ripe home-grown tobaccos ... aromatic Turkish tobaccos ... aged for 2½ years ... pure tasteless cigarette paper ... and  
*a blend that can't be copied*

*... they'll give you MORE PLEASURE than any cigarette you ever smoked*
