

Walcott Reserved For Girl Friends Of Senior Class

56 Rooms Set Aside For Girls
In First Such Action
Of Institute

Option Redemptions Start
Wednesday In Main Lobby

Baccalaureate Services Held In
Huntington Hall Of
Rogers

For the first time in the history of
the Institute a dormitory has been
reserved for girls who are guests of
Seniors during Senior Week.

All floors except the first of Walcott, containing a total of 56 single rooms, will be available from Noon of June 4 until 6 P. M. on June 8. The Dormitory Committee Room will be equipped as a waiting room, since no visitors will be admitted to the reserved dormitory unit. The charge for the rooms will be one dollar per occupant per day.

Redemptions Start Wednesday
Redemptions of options for blanket Senior Week tickets will start Wednesday in the Main Lobby. All options must be redeemed at \$5 during the coming week. A few tickets will be sold at \$11, beside tickets for individual events.

The Class of 1938 will be the last to hold any official function in Rogers Building, when on Sunday, June 5, it

New Officers Chosen By Debating Society At Dinner On Friday

Hurley Bloom Is President And
Werby Manager For
1938-39

Hurley Bloom, '40, was elected president of the Debating Society at a dinner meeting Friday in the Faculty dining room of Walker.

The manager of next year's debating activities will be Russell T. Werby, '40. Martin L. Ernst, '41, was made secretary-treasurer, and George L. Newton, '41, was elected corresponding-secretary.

Representatives Chosen
Class representatives to the new executive committee include Nicholas Shoumatoff, '39, Divo Tonti, '40, and Stanley Backer, '41.

Speakers at the banquet were Professor Howard R. Bartlett, acting head of the department of English and History, and Professor Theodore Smith, faculty advisor of the Debating Society.

Reports will be Mailed June 6; Seniors May Order Photostats

Second term reports will be mailed on Wednesday, June 8, to the home address of students, the Registrar's Office has announced. For students living outside the United States or Canada, reports will be mailed to the term address.

Anyone wishing his report to be sent elsewhere must call at the Records Office, Room 3-107, not later than Friday, May 27.

Seniors desiring a photostat copy of their complete record at the Institute should leave an order at the Records Office. There is a charge of 50 cents for the first photostat and 25 cents for each additional copy. These will be ready for delivery about the 1st of July.

Former Professor Gets Cabinet Post

Dr. Paul A. Heymans Becomes
Economic Minister
In Belgium

Dr. Paul A. Heymans, former Technology student and faculty member, was appointed head of the department of economics and agriculture in the newly formed Belgian cabinet under Prime Minister Paul Henri Spaak Sunday.

Dr. Heymans, after studying at the University of Ghent, came here to receive his doctor's degree in physics in 1921. The next year he was made a research assistant, and in 1923 he became an assistant professor, retaining that position until 1926, when he returned to Belgium.

The portfolio of economics and agriculture is one of the two key positions in the Belgian cabinet. Heymans had been head of the government-controlled national society for industrial credits.

The other important post, that of finance minister, was assigned to Max Leo Gerard, who checked a serious money panic in 1936. The rest of the cabinet, which succeeds the ministry of Paul Emile Janson, contains, including Gerard and Dr. Heymans, four Socialists, four Catholics, two Liberals, and one non-party member.

Walker Books Are Available to Students During Vacation

Books may be borrowed from the Walker Library for the entire Summer vacation by men who expect to return to the Institute next Fall. After June 1st each student may borrow six books which must be returned on or before October 1, 1938. Overdue books will be subject to the special fine of five cents a day.

Report Shows Chemical Engineering To Be Most Popular Institute Course

"Cooperation with other Institute departments in providing courses, assistance to its students of chemistry, and contributions to the progress of science," form the nucleus of the activities of the Department of Chemistry, according to Professor Frederick J. Keyes, head of the department. This statement introduces the department's annual report to the president.

The report also contains statistics showing "that considerable progress in improving the conduct of its duties has been achieved." The total registration for the past year in Course V was 4,052; the sum of all student-lectures, student-recitations, and student-laboratory periods amounted to 311,881 hours.

Pres. Compton Reports
That chemistry together with its sister subject, chemical engineering, is the most popular field at the Institute, as indicated by the above figures and by the fact that, according to President Compton in his last report to the Corporation, great concern was

felt over the success of the Chemical Engineering Department as shown by "its reputation and rapid growth." Moreover, the report goes on, this concern was prompted by the evident dangers arising in the overcrowding of laboratories and conference room facilities, and especially from the extremely heavy schedules of teaching which are carried by the members of the department.

The relation between the number of students taking chemistry courses and the combined teaching and service costs is striking. More than six hundred students or about one-quarter of the undergraduate student enrollment are registered in either Course V or Course X, not including the five hundred more enrolled in other departments who take occasional chemistry courses. Teaching and service costs, on the other hand, total only \$280,000 out of \$1,700,000—or about 17 per cent. Furthermore, departmental appropriations are about \$25,000 additional out of a total of \$125,000, or only 20 per cent.

Varsity Track Edges Brown To Finish Unbeaten Season; Frosh Whip Brown Freshmen

Hamilton Elected New Captain Of Track

Many Awards Given to
Outstanding Men
At Banquet

John Hamilton, '39, was elected captain of the track team for the 1938-1939 season at the Track Banquet held Saturday in Slagel's Restaurant. Each senior of this year's team gave a two-minute farewell address, after which various cups and medals were awarded.

Scalangi Gets Varsity Club Award
Recipient of the Varsity Club award was ex-captain Ciro Scalangi, who received it for his performance in Cross Country. Luther Kites, '38, was awarded a medal for his setting of a new pole vault record of 12 ft. 6 in. last Fall. Cups and medals for the interclass meet were awarded and Freshmen P. T. medals were also given out.

Paul Des Jardins, captain of the

Boat Club To Induct New Men At Banquet On Saturday, May 21

Captain Of Next Year's Crew
Will Be Chosen At
Same Dinner

Initiation of new members of the Technology Boat Club, Honorary Crew Society, is to be held next Saturday, May 21. The induction will precede the crew banquet, an annual affair.

The ceremonies for initiation are scheduled for 6:15 P. M. and the banquet is planned to follow at 7. Big event of the evening is the election of next year's captain of the crew and will take place during the dinner.

New Members
The newly elected members are: Paul L. E. Alberti, '40; James L. Baird, '40; Robert T. Church, '39; Richard E. Herr, '40; Fred L. Lamb, '38; David N. Lindberg, '39; Fred P. Lobban, '40; John F. Martin, '40; Robert W. McKinley, '40; John McMullen, III, '40; Franklin E. Penn, '40; Adolph L. Sebell, '40; Wesley J. Van Sciver, '40, and Frederic W. Watriss, '40.

Badenoch Elected To Presidency of C. P. S.

Benjamin W. Badenoch, '39, was elected to the position of presidency for the coming year by the Combined Professional Societies at their last meeting of the term last Tuesday, May 10. At the same time Walter N. Brown, Jr., '39, was given the combined office of secretary-treasurer.

Future Plans
At this meeting plans were discussed for selling memberships to the professional society on Registration Day next Fall. Also on the table was a discussion of methods of obtaining office accommodations in the new Architecture Building, now nearing completion. John J. Wallace, '38, put forward the suggestion that the C. P. S. draw up a definite program of activity for the coming year, and with this as a basis, that they petition the Institute Committee for adequate funds with which to put the program into effect.

Uncollected Copies Of Year Book May be Picked Up Now

Technique announces that those who have ordered, but not collected their yearbooks, may call for them at the office in Room 308, Walker Memorial. Those who are unable to go and get them in person should send a letter, enclosing 50 cents, so that their copies may be mailed. Technique wishes these copies to be taken as soon as possible.

Twenty-three copies of the yearbook are still available at \$5 a copy.

Wright Cup Races See M.I.T. Third

Other Crews Can Do No Better
Than Third Place In
Regatta Saturday

Providing the only bright spot in a day of crew races, the Varsity 150 pound crew finished third in the class field of eight which competed for the Joseph Wright Challenge Cup on Lake Carnegie last Saturday. The Yale crew took top honors in this race, with Harvard second, and M. I. T. third.

During the qualifying round, which took place in the morning, Tech shared honors with six other crews for having eclipsed the course record in their division. A tail wind and placid waters made conditions ideal for the morning round, and Princeton had all it could do to beat Tech by a quarter length.

Sun Gives Way to Rain In Afternoon
The favorable conditions which had prevailed in the morning, however, gave way to rain and generally nasty
(Continued on page 3)

Propeller Club Elects Dual Set Of Officers

Sea Trip Of Course XIII-C Men
Necessitates Action

Two sets of officers, one for 1938-39, and one for the following year, were elected by the Propeller Club at a dinner meeting in Walker Memorial on Wednesday.

The dual governing bodies were made necessary by the fact that Course XIII-C, Marine Transportation, from which the Propeller Club draws its members, is a five-year course, one year being spent at sea. For that reason there will be no Senior members of the club at the Institute next year, and Sophomores were elected as next year's officers.

List of Officers
Those elected for next year were: Richard S. Levy, president; Frank M. Sexton, vice-president, and William N. Richardson, secretary-treasurer; all of the class of 1940. For 1939-40 the following officers were chosen: Howard M. Woodward, president; C. Richard Andrews, vice-president, and John T. Kirk, Jr., secretary-treasurer, all of the class of 1939.

The officers for 1939-40 were chosen subject to approval by the Institute Committee of the amendment in the Propeller Club's constitution providing for the dual election.

Capt. Lord Speaks
The speaker at the dinner meeting at which the officers were selected was Captain George Lord, marine supervisor for the Boston Port Authority.

Last Event Decides Close Contest By Point

Freshmen, Undeclared,
Win Third Meet
On Saturday

Climaxing Technology's first undefeated track season in 20 years, the Varsity track team vanquished a strong Brown aggregation on Tech Field Saturday by a single point, 68 to 67. The freshmen, also participating in a dual meet with Brown at the same time, emerged victorious 79½ to 46½.

With a breath-taking win in the high hurdles, Jim Taylor started the Institute squad on the road to victory. After a close race over the last hurdle, in the opening event, he beat out Singesen of Brown in the home stretch to win in the fastest time of his life, 15.8 seconds.

Thomson and Clapp Star
Perhaps the most outstanding individual performance was that of Jim
(Continued on page 3)

Scabbard And Blade Elects New Officers For The Coming Year

Herasimchuk Named Captain;
Moore, Ryder, Griffin
Also Chosen

Michael V. Herasimchuk, '39, was elected Captain of Scabbard and Blade for next year at a meeting held Friday at 5 P. M. in Room 3-310A.

Other officers named were First Lieutenant, George A. Moore, '39; Second Lieutenant, Charles T. Ryder, Jr., '39, and First Sergeant, Gus M. Griffin, '39.

Outgoing Officers
The outgoing officers are Captain, Matthew L. Rockwell, '38; Lieutenant, John A. Hilcken, '38; Second Lieutenant, Kenneth M. Gunkel, '38, and First Sergeant, Gordon L. Foote, '38.

Scabbard and Blade is an honorary military society at Technology. Members are chosen from men taking advanced R. O. T. C. courses at the Institute.

Beaver Key Sponsors Soft Ball And Track

Battling their way into the final round-robin of the Beaver Key Society's soft ball tournament, the teams of Wood Dormitory, D. U. House, and the Dekes marked time while Wolcott, S. A. E., and Phi Kappa Sigma play for the fourth position in the finals. When the winner is decided, the four teams will meet each other once to pick the aggregation that will be awarded the Beaver Key Society's cup, won last year by the Dekes.

Intra-mural Track Today
Today competition on the track supervised by Oscar Hedlund will get under way. Events including the 220 and 440 yard dashes, high jump and shot put will be held this afternoon and the 100 yard dash, 880 yard relay, the broad jump, and potato race will be held on Thursday.

Entries have been received from the Dorm, Fraternity, and Commuter groups and keen competition is expected.

KEEP OFF THE GRASS

THE collective entity that goes by the name of "Tech man" is known far and wide for his relentless search for new paths to knowledge, new paths to science. What's more, he is known not merely for his searches but for his findings of such new ways.

Why is it, then, that in the minor details of his everyday comings and goings the same "Tech man" demonstrates the sterling quality of his individuality by following the old, beaten-in pathways in the lawns?

GOOD IDEA DORMITORY FOR GIRL GUESTS

THE announcement from the Senior Week Committee that living quarters will be available for girl guests during the commencement period comes as a pleasant surprise.

In former years, Seniors have housed their guests at considerable expense in hotels around Boston. Besides reducing the price of a room to one dollar per night, the new plan is advantageous for two reasons. First, the Senior is assured that his guest is adequately housed and at a minimum of trouble on his part, and second, even if he resides in the fraternities, the girl will not be unreasonably distant from his own quarters. Obviously too, the plan will afford the girls, who usually know few people at Technology an opportunity to become acquainted with one another.

If the experiment this year is successful, it is logical to assume that it will be continued succeeding years. But before it can be extended to other important social affairs such as the Junior Prom and the I. F. C., at least one difficulty must be surmounted. Senior Week occurs at a period when most of the students have gone home for the Summer, leaving many dormitory rooms vacant. It is a relatively easy matter thus to evacuate one entire wing for the benefit of feminine guests. But it will be much more difficult to accomplish such an evacuation during the I. F. C. weekend when most of the men are on campus. Since many of the residents of the selected wing will have little interest in a particular affair, they will be reluctant to suffer any discomfort in order to accommodate other men's guests.

This question undoubtedly will arise next year and perhaps discussions pro and con should be left until that time. For the present we wish all success to this commendable experiment.

Letters to the Editor

To the Editor:

In the Friday issue of The Tech, there appeared an editorial to the effect that the new Technology peace federation had put over "a fast one" on some of the organizations who sent representatives to its first meeting. The editorial stated that, since it sent a representative to a Boston meeting which had been called for discussion on the Japanese boycott, the federation had already determined its "method of preserving peace."

Actually, the delegate was sent only for the purpose of obtaining information, and, as a representative of the peace organization, had absolutely no power either to favor or oppose any action against Japan. There has never been any attempt, officially, or unofficially so far as I know, to set forth a policy of the federation with regard to methods of furthering the cause of peace. In fact, it has not been determined as yet whether or not the federation is justified in taking any action whatever. The spreading of information on the problem of peace is obviously one of the functions of the organization, but definite action has not yet been considered.

We are looking to The Tech for support and encouragement of the new organization. The editorial on Friday was, we hope, only a misunderstanding.

Joseph Havens, President
 Technology Peace Federation.

Editor's Note: We, and we hope many others, are pleased with the spirit in which the accusation of taking sides has been refuted. In actual practice, the delegate was reminded by the executive committee that he had no authority to represent opinions of the group, and evidently did not overstep his liberties.

In this Peace Federation is the makings of a popular organization to foster interesting discussions. As long as they continue on the course they have obviously chosen, they will surely succeed. They are surrounded by prejudices as well as by skeptical remarks, such as those in last week's edit, but with careful steering by their executive committee, they will have a surprisingly hopeful future in coming years.

With Other Editors

WAR FOR ALL

In order to induce the other three-quarters of the world to participate in war, the "I Will League" was recently formed on the campus of a college.

Riding a mule and waving a red lantern, the propagandists went around their campus advocating that all students join the movement to see that the entire world participates in a really Great War. Such movements, which resemble our own Profiteers of Future Wars of two years ago, have a place in the world of today, despite the fact that some people take them seriously and therefore overlook the good which may spring from them. Bringing to the world a satire of any of its faults seems praiseworthy in our estimation.

—The Rensselaer Polytechnic

Reviews and Previews

METROPOLITAN—Webb's mountain boys of cartoon fame come to life on the Metropolitan screen this week as the Ritz Brothers perform their insane capers in *Kentucky Moonshine*, their latest feature picture. Tony Martin and Marjorie Weaver, attractive new-comer, contribute the love interest. *Stolen Heaven*, starring Gene Raymond, Olympe Bradna, Glenda Farrell, and Lewis Stone completes the bill.

STATE AND ORPHEUM—Merrily We Live, M. G. M.'s successor to *Topper*, heads the bill at the State through Thursday. Constance Bennett, Brian Aherne, Billie Burke and Alan Mowbray romp through the tale of the doings of a madcap family. The companion film is *Judge Hardy's Children* with Lewis Stone, Mickey Rooney and Cecilia Parker.

MEMORIAL—Al Pearce and his entire radio "gang," featuring Tizzie Lish, frolic in their madcap manner upon the stage, while *Sinners in Paradise* with John Boles and Madge Evans, floods the silver screen.

RKO BOSTON—The struggles of science in the deep of a disease-ridden jungle forms the plot for *The Crime of Dr. Hallett*, featuring Ralph Bellamy, currently on the screen. The stage is held by N. T. G. and his pulchritudinous assemblage of feminine architecture.

PARAMOUNT AND FENWAY—*Four Men and a Prayer*, with Loretta Young, and *Beloved Brat*, with Bonita Granville share the honors this week.

SCOLLAY AND MODERN—In *Old Chicago* and *Tip-Off Girls* are double-featured.

UNIVERSITY—*Mad About Music*, with Deanna Durbin and Herbert Marshall, shares the screen with the *First Hundred Years*, starring Robert Montgomery and Virginia Bruce.

EXETER—Robert Taylor and Maureen O'Sullivan share the honors in a *Yank at Oxford*. The companion film is *Island in the Sky*, a mystery with Gloria Stuart and Michael Whalen.

Senior Week

(Continued from page 1)
 meets in Huntington Hall for the Baccalaureate services. President Karl T. Compton will be the speaker.

Paper To Reveal Details
 A second issue of the Senior Super-adapter will appear Wednesday. This will contain complete details about every Senior Week function, the Ball at which Mal Hallett will play, the menu of the dinner served during the dance, the details of Baccalaureate, Class Day, the Senior Banquet at the Hotel Continental in Cambridge and the President's reception.

People unable to attend all Senior Week events can obtain tickets for single events. Prices are: Ball, \$8; Dance, \$1.50; Banquet, \$2.50; Tea Dance, \$1.50. The other events are free to Seniors.

Editors' Note

"We were exceedingly sorry not to print any Lounger last week. The Lounger was much disgruntled when he looked in our last issue and found that no space had been allowed for the expression of his invaluable discourses and words of wisdom. As a matter of fact so much happened at the Institute last week that all the available space was required for its tabulation."

—Courtesy of Corsa & Gilmer

(From the editorial column of The Tech, Volume XX, Number 23, April 4, 1901. The Lounger does not want people to think he is boasting, or something, but is just pointing out that it is a great and hallowed tradition to which he is heir, in the task of carrying on this column. The Lounger first appeared in October, 1888, and has been the bane of the editors ever since. The blob of ink which decorates the top of this column today is the same as the one that appeared about a year after the Lounger first got into the paper, except that this one is a little smaller (it is in a smaller column) and much muddier. As one of the Lounger's illustrious predecessors has put it: "Loungeurs come and Loungeurs go, but the Lounger goes on forever.")

The Touch

It was in the 5:15 Room. One of the scrimers was bewailing the fact that had left him with thirty-five cents only an hour before he had a date with one of the girls (he knows them all—we asked him). Could somebody lend him a buck? What nobody?

One of his companion scrimers pulled a quarter and a few nickels out of his pocket, indicating that that was the limit of his wealth, the bounty on which he would have to subsist "till prosperity came back around the corner." (Copyright 1938.)

"Say," said the desperate one, "do you really need that quarter?"

Track Banquet

(Continued from Page 1)

varsity track team, was elected to receive the track club award.

Graduating from Brockton High School, John Hamilton established an impressive record in the one year he entered into school track meets. He remained undefeated in his specialties of the stambling broad jump during that period. His record was 5 ft. 2 in.

Hamilton Star As Freshman
 In his Freshman year at Tech Hamilton high jumped 5 ft. 9 in. and won this event in every Freshman meet he entered. In the I. C. A. A. A. March he was one of the two Tech men reaching the finals of the high jump, for which accomplishment he was awarded a straight T. In a recent meet this Spring he tied with Thompson at 6 ft. 1 in., which is his peak so far.

THE COOP

Varsity And Frosh Defeat Brown In Track

(Continued from page 1)

Thomson, who tied for first in the high jump, was second in the shot put, and third in the discus throw for a total of 13 points. Honors also go to Clapp of Brown for his stellar work in getting three first places; the hundred yard dash, the 220 yard dash and the 200 low-hurdles.

Teamwork Wins The Meet

Despite these and other individual records, however, the victory was distinctly a team win. Second and third places, as expected, decided the outcome. When the meet came to the last event, the javelin throw, Tech was barely ahead 64-62 and needed either first or second and third in the final in order to win. Fortunately, Ross and Brewer captured the latter two places to cinch victory.

Teamwork was particularly apparent in the long distance races where Crosby and Des Jardins tied for first in the mile, Campbell and Deering crossed the tape in one-two order in the 880, and Scalingi and Crosby finished the two mile run holding each others hands.

Tech Good In Field Events

Luther Kites, who is recognized as one of the finest pole vaulters in New England, won his event with a vault of 12 feet, 6 inches, besting Leonard of Brown and Gilbert, his team-mate.

Tech's unusual collegiate strength in the high jump was shown by the triple tie for first place among Thompson, Hamilton and Howe at 5 ft., 10 1/2 inches. Last year at the I. C. 4A Meet in New York we were the only school to place two men in the finals of the high jump.

In the 220 yard dash Clark of Tech, although nosed out by two Brown speedsters, turned in his best performance of the year—22.2 seconds. Clapp's time of 9.8 with a slight favoring breeze in the hundred is a remarkable time in any meet in any part of the country.

First Clear Record Since 1917

The victory climaxes Tech's first undefeated track season since 1917 when only one dual meet was held because of the war. Brown happened to be the loser in that meet by a 78-48 score. This year the varsity have also defeated Tufts, Boston University, and Bates by one-sided scores. Tufts and Boston University fell in a triangular meet on Open House Day while Bates was downed in a dual scrap at Lewiston a week ago Saturday.

Brown Is Strong This Year

This latest win looms even larger in view of the fact that Brown this year has one of its strongest teams in years and, until Saturday, was being seriously considered for the title next week in the New England Intercollegiate.

Freshmen Win Easily

The Freshman contest was more of a rout for Tech's from the start. Jesse, promising hurdler for next year, captured the 220 low-hurdles in 26.2 seconds and took second in the 120 high event.

Mengel Stars In Dashes

Colonel star freshman flash, won two events and was second in a third to become high scorer for the meet with thirteen points. Not content to turn in a 10.3 victory in the hundred and a close second place in a 51.4 quarter-mile, he raced down the 220 yard stretch in 22.2 seconds, besting the freshman record of 22.4 made by

Rain Causes Postponement Of Wellesley Golf Match

Old Jupe Pluvius caused the postponement of the scheduled golf match between the coeds of Wellesley and the gentlemen of the Massachusetts Institute of Technology golf team. Manager Charles Hobson of the Technology squad announced, however, that arrangements have been made to play the match on Thursday, May 19.

The manager expressed his appreciation of the cooperation of The Tech in procuring an inexhaustible supply of caddies for the event. He reported that as a result of The Tech's notice in the last issue, he was swamped by applications from men of wide experience, courteous demeanor, possessing an outstanding will to be of service.

Williams Defeats Tech Netters Over Weekend

Weakened Team Without Three Of Its Regular Men

Weakened by the loss of three of its regular players, the Institute tennis team met defeat for the second time this season by the score of 8-1 when it traveled to Williamstown Saturday to take on an aggregation from Williams College.

Babcock Only Winner

Because of a sore ankle acquired at the Intercollegiate tournament last week, Babcock was shifted to the No. 4 position for Tech, which caused Williams to change Stanton, who normally played in the No. 2 position, to No. 4. Babcock, however, trounced him to the tune of 6-2, 6-2, registering the only win for Technology.

Parker, Wholey, and Keitel, playing No. 2, 3, and 6, respectively for the Beavers, all fought gamely for their matches, extending their opponents to deuce sets before bowing to defeat. In the case of the No. 3 doubles team, Braunlich and Keitel won a set before the Williams team finally pulled out a victory of 6-3, 6-4, 6-1.

Three Wins—Two Defeats

Out of five matches played so far, the Varsity shows a record of three wins and two defeats—the wins being at the expense of Colby, Bates, and Worcester Tech, and the losses being to Bates and Williams. Only two matches remain this season, both of which will be played away, the first of which is with Brown, and the last with Tufts.

Bell in 1931. This new mark was disregarded because of a slight breeze. Barbey did break a freshman record, however, by pole vaulting 11 ft., 5 3/4 inches.

Wallace Takes Close 880

After falling back throughout the entire race, Wallace furnished one of the most exciting events of the day when his last minute kick tipped Manter of Brown at the wire in the 880. The time, 2:04.7, his best, was only 1.3 seconds behind the Varsity time. Nagle featured in the field events again, winning first places in the shot put and high jump. Booth captured the broad jump while Sexton, holder of the Freshman javelin

Crews Race With Three Colleges On Charles

(Continued from Page 1)

weather in the afternoon, making it impossible for the crews to do their best. The close race of the morning had been too much for the Princeton contingent, and they were unable to finish better than a fourth in the finals.

Faring even worse than on their previous encounters, the other Institute crews were unable to place any better than third in any of the races on the Charles last Saturday.

Varsity Finish Fourth

The Varsity crew, rowing their last race of the season, and some of the boys rowing their last race at Tech, gave their all, but their all just wasn't enough, and they trailed Harvard, Cornell, and Syracuse to the finish line in that order.

The undefeated Harvard crew took command of the situation from the very beginning, and needed only to step up their stroke at the very end of the race to win by a length and a half from the fast-moving Cornell crew. The Syracuse boat finished third, two and one-half lengths behind Cornell, and Tech pulled up in the rear just thirty seconds after the winners.

Jayvees End Up Last

The Jayvees too tasted defeat in a race which saw a smooth-working Syracuse crew score an upset victory over the previously undefeated Harvard octet. They also finished fourth in the field of four, finishing behind the crews of Syracuse, Harvard, and Cornell.

Frosh Beat Cornell

It turned out to be a poor day all around when the Freshman crew, which has heretofore been making a very good showing, felt the backwash of both the Harvard and Syracuse crews, and was able to beat only Cornell. However, the excellent performances they have already turned in this year mark them as potential champions, and it is cheerful to look forward to what they will be able to add to the Varsity next year.

With the exception of last Saturday, the times turned in by the yearlings have invariably been better than the Varsity times.

Freshmen Downed By Harvard In Lacrosse

Banquet For Varsity and Frosh Will Mark Season's Close

Harvard's freshman lacrosse team defeated the Technology Freshmen 12 to 1 last Saturday on the Coop Field. With only four substitutes against Harvard's three whole teams the M. I. T. freshmen lost their closing game of the season.

Banquet Next Tuesday

With this game the seasons of both the Varsity and the freshman teams are closed. A banquet will be given for both teams this coming Tuesday in the North Hall of Walker Memorial.

The lineups were: Harvard freshmen—G, Hanford; p, Edmunds; cp, O'Connor; 1d, Chessman; 2d, Gilbert and Lyford; c, Matthews; 2a, Bendix; 1a, Anderson; ch, Murnaghan and Davis; ih, Zouck.

Tech freshmen — G, Williams; p, Gabel; cp, Riehl; 1d, Markey; 2d, Waller and Shannon; c, Gordon and Beer; 2a, Turansky and Wiener; 1a, Frink; ch, Totten; ih, Blanchard.

Score — Harvard freshmen, 12; Tech freshmen, 1.

Goals—Hanford, Gilbert, Lyford, Matthews, Benedix, Anderson, Murnaghan, Davis 2, Zouch 3, Gordon.

Linksmen Beat Tufts Lose 5 To 4 At Brown

Friday, the thirteenth, proved unlucky for the Tufts College golf team as they fell before the Technology divot diggers by a 5 1/2 to 3 1/2 score at the Oakley Country Club. It was the Technology teams third win in five starts.

The Technology outfit bowed to Brown on Monday, however, by the close score of 5 to 4. Sessler and Sullivan scored 3 points and Jeffers and Venable one.

This gives the linksmen a record of three wins, one tie and two losses for the season. Technology will finish up by entering a six man team in the N. E. I. G. A.'s championships next Friday and Saturday.

Tech To Be Present At AIEE Convention

The Northeastern District of the American Institute of Electrical Engineers is holding its annual convention in Lenox, Massachusetts, May 18-20. There will be a technical session Friday, at which papers are to be presented by three Institute students, to be followed by a dinner and dance in the evening.

Students wishing to go to the convention are to be excused from all Course VI classes on Friday. All interested should sign up immediately at Electrical Engineering Headquarters.

Chemical Fraternity Holds Party, Banquet

Initiation Held At Beer Party; Hardy Talks At Banquet

New members of Alpha Chi Sigma, honorary chemical fraternity, were informally initiated at a beer party held last Thursday in a room at the Parker House. The initiation was made official at the society's formal banquet, held last Saturday at the Hotel Commander in Cambridge.

At the banquet Professor Molstad of the Yale Department of Chemical Engineering delivered a few remarks on engineering as a profession. Professor Hardy of the Institute's Physics Department spoke on color photography.

Annual Banquet Held By Physical Society

Technology's Physical Society held their annual banquet last Saturday night in the Hotel Commander, Cambridge. Professors and forty student-members of Course VIII were present.

After the banquet Joseph A. Neundorffer, '39, president of the society, and Professors Slater, Harrison, Hardy, and Sears participated in the evening's entertainment with the cooperation of several students. The most interesting and amusing event of the entertainment was Professor Sears' acting as Professor Quiz.

Track Meet

(Continued from page 3)

record, took that event. Brown's chief strength lay in the mile, hammer throw and discus.

Frosh Also Undefeated

The freshman record is also unblurred this year, Moses Brown, Milton Academy and the Spring Interclass Meet having been won by them with large scores. In the last meet of the season they will meet the strong Tufts Frosh on Tech Field tomorrow. A Tech victory in that means a perfect record for both Varsity and freshmen.

Next Year Looks Good

Despite losses by graduation Coach Oscar Hedlund should have plenty of good material out when the Fall term opens, and chances for an equally successful year in 1938-39 are high.

Varsity Meet

120-yard high hurdles—Won by Taylor (T); second, Singen (B); third, Walker (T). Time—15.8s.
100-yard dash—Won by Clapp (B); second, Chaffee (B); third, Clark (T). Time—9.8s.
One-mile run—Tie for first between Crosby (T) and Desjardin (T); third, Winterrowd (B). Time—4m 48.8s.
440-yard dash—Won by Klie (B); second, Constable (B); third, Artz (T). Time—51.2s.
Two-mile run—Won by Scaling (T); second, Crosby (T); third, Ohlin (B). Time—10m 47.8s.
220-yard low hurdles—Won by Clapp (B); second, Taylor (T); third, Fogliano (T). Time—24.2s.
880-yard run—Won by Campbell (T); second, Deering (T); third, Klie (B). Time—2m 3.4s.
220-yard dash—Won by Clapp (B); second, Chaffee (B); third, Clark (T). Time—22s.
