Class of '41 Given Field Day Victory Cup at Their Dance

By Day After Elections

Fresh Dance Proves Financial Success

Over 350 persons deemed the music of Alton Porter and his orchestra as the perfect background for making his affair, one of the finest freshmen dances, a tremendous success.

Field Day Cup Presented

During an intermission Stuart Marin, chairman of the '37 Field Day, presented the Field Day Cup to the Class of '41 in recognition of their victory over the Sophomores. Marvin L. Richardson, secretary of the Prominent Council and chairman of the Field Day committee, accepted the cup for his class.

Entertainment was provided by Alan Porter, the master of ceremonies who was presented by Barbara Adams.

Freshman Dan Knowlton Porter, who has appeared at the (Continued on page 2)

Tech's Debating Team Will Oppose Radcliffe

Defending the negative side of the motion, "Resolved, that the men who give a dollar are a detriment to the sanctity of marriage," which was presented by the Institute Women Debating Society, the Tech team will oppose a Radcliffe College argument at 10:30 a.m. tomorrow, in Schenectady. The debaters are in the main hotels.

Thirty Seven Percent Of Students Are Receiving Financial Assistance

Technology, which as of the end of the '25-26 term, had 3,712 students enrolled, is reported to have approximately 3,374 students receiving various forms of financial aid. Of those students are receiving financial aid, 37.04 percent are receiving scholarship aid. This is an increase of one percent over last year (Continued on page 1)

T.E.N. Sponsors Writing Contest

Prizes Offered For Articles On Science

Prices totaling $100 and three subscriptions to Tech. E. N. are being awarded by the Tech. Engineering News for the best articles of technical interest.

First prize is $25 or a subscription to the General Electric Company's laboratory magazine, the beginner. The second prize is $15, and the third prize subscription to Tech. E. N. will be awarded.

The contest, which closes on April 15, is sponsored by the engineering staff of T. E. N. in order that the possible technical writing of the students may be fostered.

T. E. N. president, Robert E. "Tubby" Rogers and Westfield, of the English department, and Dean Samuel C. Freeston will judge the contest.

Participants should notify editor of their intention to compete in the contest and are requested to notify the editor of their entries, in order that the number of entries may be approximately known and adequate arrangements made for judging them.

Voo Doo Succumbs To The Techmen

Necessary Proves Its Prowess By Score Of 41 To 31

Answering the challenge issued by the Institute basketball team, the Voo Doo's, a powerful, beer drinking team from the Tech, defeated the Vegetables by a score of 41 to 31, last Saturday evening at the Colonial Room, Town Hall Hotel,森特兰.

At a party which was sponsored jointly by the two publications for their staffs, teams of eight were chosen and men were picked off against representatives from the two publications. One point was awarded to publication when a man from that publication had bested his opponent.

Beer Party

Prof. Magoun Will Deliver Lecture Twice On Thursday

This Thursday, because of the seemingly endless weather, the address, Professor F. Alexander Magoun will deliver both his addresses, the first this week's arrangements of repeating his before on Thursday afternoon. The lecture will be at 4:30 p.m. and again at 8:00 p.m.

According to the weather, the frequency of church duties, and the lack of work on the four courses and again at 8:00 p.m. (Continued on page 3)

To Be On Board Four Months

Tech men will be given an opportunity to spend their summer cruising on a 2600 ton sailing vessel by the American Nautilian Academy for Merchant Marine.

The object of these trips is to acquaint the youth of America with the opportunities of a career as officers on the high seas.

Those who enroll may remain on board ship for any period, more than four months, and from July 1 to October 1.

There is no tuition charge for any of the courses offered, and no attendance fees are paid.

The only required expense is food for which a fee of $4.90 per week is charged.

While on board ship a regular routine will be followed. Practical instruction in seamanship, navigation, recapping, and manning the rolling, the work, and the work is done under the direction of the officers and on the theory and practice of the ship's routine course.

The object of the trip is to be able to apply their training in the regular course.

Due to the fact that the number of students is limited, those wishing to take advantage of this opportunity should write as soon as possible.

Tech Men Offered Vacation Training On Sailing Vessel

To Be Given Opportunity Of Free Instruction For Merchant Marine

Alpha Tau Omega Wins Tournament

Margin Of Half-Point Decides Victory Of Annual I. F. C. Bridge Tournament

The annual I. F. C. bridge tournament finals were played last Monday, resulting in a victory for the Alpha Tau Omeaus.

Critics of the Delta Kappa Epilson team by only a half-point superiority, victory was won over the eight highest teams.

The number of teams competing in the finals was limited by the preliminary matches of the week before. Of the 16 primary entrants eight played in the finals. Those seated in the following order: Alpha Tau Omega, Delta Kappa Epsilon, Sigma Chi, Delta Upsilon, Phi Beta Delta, Mu, and Delta Psi, tied, Sigma Delta Upsilon and Phi Delta Delta, tied, and last, Bill Roper's Theta Chi team.

Sigma Chi's Are Hosts

The tournament was held at the Sigma Chi house, where supper was served both nights. The I. F. C. is in charge of Mr. George Leghorn, father of one of the Sigma Chi's. Mr. Leghorn donated the duplicates board and cards necessary in the conclusion of the tournament. He also acted as referee, administerting orders, and in truth ran the entire tournament.

An outstanding feature of this tournament was the fact that there were four entrants in the finals. A. T. O. is the only team that can count on a possible twenty-one. The Theta Chi score was eight points below the twenty-one point normal occurrence to have the teams eliminated as soon as possible.

Previous winners of the cup and Sigma Chi, Kappa Sigma, Delta Upsilon, and Phi Beta Delta.

Outing Club Plans For Rock Climbs In Spring

Authority On Sport Introduces Idea With Movies And Lecture

Illustrating his talk with motion pictures, Mr. Kenneth Henderson, of the outstanding mountaineers of the country, introduced rock climbing to the I. T. O. Outing Club yesterday afternoon in the Tech Chapel.

Professor Dean Pabody of the Civil Engineering Department, who has had several years of experience mountain climbing, gave an introductory talk followed by the actual technique of rock climbing and then demonstrated Mr. Henderson's distinctive methods.

The talks represent the beginning of the club's active participation in this strange sport, which according to Mr. Henderson is an excellent method of keeping fit.

Shown Personal Movies

The movies were shown on the big screen projector and were presented by Mr. Henderson himself last Thursday.

Frank McGinley Band To Feature I.F.C. Tea Dance

Well Known Collegiate Band To Play At Hotel Vendome

On April 30th

All Options Will Be Redeemed By Friday Evening, April 15

Band Well Known By Colleges For Its Hot Trumpet Section

All options for the I. F. C. weekend must be redeemed by Friday evening or it will be assumed that the option was not redeemed by the Committee last night.

At this time every option in option music decided which of the events he wishes to attend and rede- em the option accordingly. The music is lightly and well played, highlights of their fraternities on Wednesday evening, will be presented after the Minstrel Show.

Further information may be obtained from Frank McGinley's well-known college orchestra, which has performed at the Interfraternity tea, according to willard Roger, '38, chairman of the Committee for the I. F. C. weekend. The dance will be held at the Vendome beginning at 8:00 o'clock in the Engine Room of the Hotel Vendome.

Transcript Section Outstanding For Its "Hot" Trumpet Section

A large number of the members are the leaders of American colleges and universities, a large number of the trombones are the leaders of American colleges and universities.

The orchestra has played for a number of events, and has been declared the number one orchestra on the country. The orchestra is the leader of the American orchestras.

In spite of the fact that many of the fraternity men are interested in a house (Continued on page 2)

Voo Doo April Issue, Going On Sale Today

"Hitler, Mussolini and Roosevelt Portrayed With Local Politicians"

Editions of the Voo Doo, on sale today, with Hitler, Mussolini, and President Roosevelt portrayed in local politicians, according to Willard Roger, '38, local political editor, although local politicians are not recognized.

Several cartoons of the international leaders are said to have been made on politics. Der Fuehrer and Il Duce have been the ingredients of the cartoons for the illustration of the political leaders each is dedicated to their respective followers.

Tech Candidates On Cover

The cover represents three Tech candidates Soliciting votes, a certified account of an old-time election is also included in the election.

Among the other features are a Tom Swift story, and Exodus and the Uranium.

M.I.T.A. A. To Donate Cup For Competition

The advisory board of the M. I. T. A. A. at a recent meeting voted to donate a silver cup for a national competition proposed by the Bayer Engineering Student Association (Continued on page 2)

M. I. T., A. T. O. Hold Annual Outing Cup For Competition

The advisory board of the M. I. T. A. A. at a recent meeting voted to donate a silver cup for a national competition proposed by the Bayer Engineering Student Association, which will be taken on competition in tennis, baseball, and track.

May has been set as the tentative date for the M. I. T. A. A. T. O. Cup, and the local tennis and track competition will be held at the Harvard Stadium at the request of the M. I. T. A. A., that the Harvard Stadium be used for the tennis. The Harvard Stadium will be closed off for the purposes of the tennis, and the Tech track will be closed for the purposes of the track.

A large number of the Tech boys have volunteered to help with the necessary preparations, and are greatly appreciated by the Tech boys have volunteered to help with the necessary preparations, and are greatly appreciated by the Tech.
BANK BOOKS

INSTEAD OF DEPOSIT SLIPS

No one of the many conveniences which the Institute of Technology brings the student is the banking service in the Student's office. Of inestimable value to the man who keeps no checking account and whose funds come in haphazard form rather than in small amounts, the service represents a real desire on the part of the college administration to cater to the welfare of the student body.

We cannot understand, however, why the system of banking in vogue here employs in conventional bank slips, easily lost and afforded no protection for the depositor. If indeed, by some minor inconvenience, the destruction of life are allowed to control, all hope in the world will be lost. But those who strive to save life win, we have everything to hope for, less death, healthier and happier humankind, a world worth living in, and one worth all the sacrifices and prayers for their ultimate success.

There are more people—by a large majority—who are for peace and a decent, happy life upon this earth, than those who are for a torn and devastated earth, with its aftermath of tears and despair. One Steinbeck, one Roosevelt, one Franklin Delano Roosevelt! One scientist is working long and late to discover new means of destroying life; the one over his stage production. Joe E. Brown's new film, Wide Open Faces, completes the trio.

MEMORIES—Deanna Durbin's latest musical continues here, while the stage show headed by songwriter Jack Fresher is also held over. In Mad About Music, Deanna sings classical numbers such as "Ave Maria" as well as modern songs.

BOSTON—Daily Eileen and Louis Hayward have the principal roles in Confessions of a Woman, a story of an innocent in the world under the title of "Two Natures" by M. Metropolis. Her Jungle Love, starring Dorothy Lamour and Ray Milard, is a technicolor story of romance in the South Seas Islands in the Sky, with Gloria Stuart and Michael Whalen, shaves the screen.

GLAY AND MODERN—The Golden Follies features Charlie McCarthy and Edgar Bergen, the Ritz Brothers, Adolph Menjou, Ken Murray, and the One Nighters. The co-features are Arlene Luehn Borden, with Matyas Duglas, Virginia Bruce, and Warren William.

Letters to the Editor

Truth And The Bible

To the Editor:

Your recent editorial on religion led me to think you might find space to offer your readers the following comments on Religious Opinion.

It has been rightly said, "God has the right to an opinion about anything which may be determined on the laws of faith."

One of the definitions of FACT is, "any statement strictly true." God cannot lie or be sham and has had his statement written in a book, translations of which we have at hand. The statements of this book are important and so undeniable that Jesus Christ said, "Heaven and earth shall pass away but my words shall not pass away."

It is possible therefore to know on the basis of fact what God thinks of man and what our attitude should be toward Him. Read the first few chapters of Paul's letter to the Romans. The discussion of religious opinion from or independent of this revolution leads to inextricable speculation. When the facts are available it is certain that God has the right to an opinion of intelligent men to determine or follow any philosophy which disagrees in any detail or particular with the revealed facts.

J. J. Emerson

Editor's Note: We want to thank Professor Emerson for his letter, and hope that others will offer opinions, positive opinions of their beliefs.

Two Naturess

in the Metropolitan Museum of New York you will see one of the finest pieces of sculptured marble in the world under the title of "Two Natures" by George Segal. You can stand before it for hours and meditate—and leave with a silent, serene thought to the man, forever testing for supremacy, the one over the other.

Every day of the year in all parts of the world—and far into the night—scientists are giving of their life-blood—for two things: to build up life, and prolong it, and to destroy. Both are able, but one for money—the other for the satisfaction of having contributed to life and happiness upon this earth.

One scientist...is working long and late to discover new means of destroying life and the age-long efforts of man. He has discovered a new poison gas, new chemical for the destruction of town, either great works of art, hospitals, educational institutions—anything, as long as it is wiped out. Peacefully, ever the air, will drop his discoveries and inventions in the form of bombs and gas that will swell terror and despair to the innocent and save great cities and areas, will remain as memories of the past efforts and sacrifices of men and women.

Another scientist...talks of life in terms of health and happiness. He wants to see the world with less tears. He wants to see civilization preserved, and happy people upon the earth. And so he, too, works long and late. Compensation is a trivial consideration with him. He is the love of mankind—a better and safer world in which to live.

Two scientists, two men, two natures! Which of these scientists is going to live in history and in the affections of millions? If the ideas and plans of the destroyers of life are allowed to control, all hope in the world will be lost. But those who strive to save life win, we have everything to hope for, less disease, healthier and happier humankind, a world worth living in, and one worth all the sacrifices and prayers for their ultimate success.

There are more people—by a large majority—who are for peace and a decent, happy life upon this earth, than those who are for a torn and devastated earth, with its aftermath of tears and despair. One Steinbeck, one Roosevelt, one Franklin Delano Roosevelt! One scientist is working long and late to discover new means of destroying life; the one over his stage production. Joe E. Brown's new film, Wide Open Faces, completes the trio.

The Good Samaritan

It sounds unbelievable, but there are Good Samaritans wandering about the barren and pluralistic dubious truths. We have proof. We know a freshman (he was fonned in us) who, after the many days of freshmen, the world over, took time out of the library and lost it. Somebody found it in a phone and wrote him the book was found for him and—guess what?—he lost it. Again the book was found for him!—you guessed it—and the third time nobody returned it to him. After a due interval of mourning he went to the library to report it lost and had, only to find that—now they're true, dad-gummit!—that someone had not only returned the book, but he had paid the fine he had covered it out for two weeks.

THE TECH

Lacrosse Team Loses Close Game To R. P. I.

Season Opener Is Lost, 4-1 Amidst Bad Weather and Deep Mud

The 1938 edition of the Technology lacrosse team, coached by Yusef, New York on Saturday and a hurdle-free game to the victories of Stanford Polytechnic Institute. The game was played under adverse weather conditions, the field being ankle-deep in mud. The final score was 4 to 1, Tech's lone counter coming from a fine play by Tom Creamer in the second period.

The team has a seven game schedule to play; ending the season May 14.

Page Three

Fraternities Near End Of Squash Tournament

Passed by Delta Upsilon and Beta Theta PI, who have two of their three players, the semi-final bracket, the annual interfraternity squash tournament moved into the play for the championship.

In the lower bracket Phi Beta Epsilon and Phi Mu Delta will need to decide the semifinal which will meet Sigma Chi, who has already been in the tournament. In the Delta Upsilon-Beta Theta Pi-Bill Allen, 41, playing No. 1, beat Tom Lank, '39, 3-1, while the other match played produced a win for Bill Rafter, '40, No. 2, over Jack Phillips, '41.

The deciding match to be played, will be, will be with Arch Campbell, '36, competing against Dick Leach, '37.

Outing Club

Announcement in New England, and showed a group clinic spanning some of the more famous mountains in the vicinity. Mr. Henderson emphasized his interest in presenting to the subject to the Outing Club, for he is a member of the council of American Alpine Club.

GMs On High Danger

The meeting was to be successful clinching Mr. Henderson emphasized that it was a type of sport, being a steep rock, for that tended to push one's feet from the prevention. This was that about the most "dangerous thing one can do," according to Mr. Henderson, the main thing being to have contact with the rock only with the hands and feet, keeping one's body otherwise off free from injury to the climbers. The last official match which the team won a round in the New England division, and a score of 511 out of a total of 550. The second match took the Engineers to the semi-final of the first conference.

Mr. Henderson further emphasized that the type of sport is not a dangerous one if the proper precautions are taken, the only fatalities occurring when amateurs have attempted to negotiate dangerous cliffs and without the proper equipment.

Fresh Dance

Chateau at Northcut, at several other places, and this with a total of 150 guests, played from the until two.

The program were Dean and Mrs. Thomas F. F. Garst, and Professor and Mrs. E. C. Garst.

In addition to Richardson, the committee in charge of the affair included James G. Johnson, Robert A. Van Vliet, and Norman H. Nashford.

The next meeting of the Freshman Council will be held today at 5 P.M. in the East Lounge of Walter Memorial.

Beer Party (Continued from page 1)

Special feature of the evening was the competition between the general student body and the members of the Co-Ed Glee Club, which was the only one gay score counted double. Here are the winners: Robert C. Caseleman, '39, to take the wine parties and clinch the victory for his journalism.

Spring Vacation Baggage Tip:

PHONE RAILWAY EXPRESS
AND SAVE MONEY, TIME AND TROUBLE

We'll call for your trunks and bags without extra charge in all cities and principal towns, and charge you only for the carload, and you can expect delivery, you know, since your fare is low. Can't you imagine saving per carload, and you can save your time and from baggage bother.

Write for your booklet, the same economical, and your baggage will be delivered promptly. The booklet, "How to Save Time and Money," is free for the asking.

9 Boulevard Street Cambridge, Mass.

...AND HOW ABOUT YOUR LAUNDRY?

Railway Express men take care of your belongings...at economy and careful service that you need only tell us about them. It's done just for you.

Baseball Squad Gets Game For Open House

Sophia And Juniors To Meet This Afternoon

With interscholastic baseball in full swing, things are now beginning to pick up for the Independent team. A game has been scheduled for Open House Day with a team from Assumption College of Worcester. It will be held at Tech, and is expected to be a good game, well attended.

In addition to the game with Assumption, games have also been tentatively arranged between the Tech team and the United States Naval Engineering School on April 22, and with a team from the Harvard Graduate School on April 23.

If the weather holds today, an intercollegiate battle between the Sophomores and Juniors team will take place on Coop Field. Squads are asked to turn out in full strength for the game.

DON'T WASTE...PRECIOUS VACATION TIME!

Fly AMERICAN...and spend ALL your time where you're going!

Spring vacation time is now valuable to be
cut down by needless hours and days spent
travelling to and from your destination. By fly-
ning American, you will spend less time getting
there and back—and more time being there!

A trip to America's Central Air Line is
in travel comfort and convenience, as well as
speed. American's giant Flagship Club Planes
provide comfortable lounge chairs, with
everything you could desire in any home, in
pleasure of your journey. On overnight trips to the
West, American's Skyliner Flagship Bedrooms
provide soft, roomy berths, as wide as a twin
bed. Delicious, hot meals are served without
charge by a charming and efficient stewardess.

This spring vacation make your trip by
American—air line that carries more pas-
sengers than any other in the world. Attractive
low rates.

COMPARSE THESE TIME SAVINGS!...
From Boston, American arrives 31 hours earlier than
your own line! From New York, American arriving in
45 minutes earlier. From Chicago it's 34 hours shorter.
From Pittsburgh's brothers city, the trip is 36 hours
shorter. From St. Louis, it's 2 1/2 hours earlier. From
Minneapolis, it's 10 hours from Dakota. From London,
American saves you more time than any other
vacation trip as precision at it, to fly on AMERICAN
AIRCRAFT.
## Banquet Will Feature Prof. Simpson's Magic

Holding its annual banquet in the Faculty Dining Room of Walker Memorial on Wednesday, April 13, at 6:30 P.M., the American Society of Mechanical Engineers is to feature Professor Stephen G. Simpson of the Chemistry Department, who will tell his magic tricks.

Moreover there is to be an announcement of the society's Open House exhibit.

## Debating Team

jump, the high jump, the shotput, a half mile relay, and a potato race. The music is designed to give falling with little training an opportunity to compete with some possibility of success.

Sports managers will be appointed in the fraternities, in the dorms and in the commuter groups to make the entire in the context before the occasion.

A point system has been adopted to give all groups an equal opportunity to win the cup offered by the M. I. T. A.

### Issues

(Continued from page 1)

nity slate, which appeared in a recent issue of The Tech, the dorm members of the Class of 1940 proposed four men at a meeting held a week ago Sunday. Farrell is the candidate for president. Morehouse is up for secretary-treasurer, and Van Tuyl for Institute Committee. As yet the second candidate for president, Morehouse is the choice for the Institute Committee. They will be battling a fraternity of president, Richardson for vice-president, Ellis for secretary-treasurer, and Van Tuyl for Institute Committee. As yet the second candidate for Institute Committee has not been chosen although van Tuyl has it that Morehouse will be the man.

It will be interesting to see what effect the new method of selecting the vice-president will have. According to all forecasts the innovation should make it more difficult for any group to monopolize both the positions of president and vice-president.

### James Reddig To Talk

**At A. E. S. Smoker**

"Design Problems in the Construction of Sea Planes and Amphibians" will be the subject of Mr. James Reddig’s talk at the smoker to be given by the Aeronautical Engineering Society tonight at 7:00 in Room 2-190. Mr. Reddig is an alumnus of Technology.

Also on the evening’s program will be Mr. Franklin T. Kurt, whose topic will concern the advancement and construction of small air-craft. Mr. Kurt is a prominent contributor to the "Sportsman Pilot."

It was announced that two airplanes will be exhibited near Building 32 during Open House at the end of April. Paul E. Sandell, '39, is in charge of the A. E. S. committee for Open House.
