Seniors May Secure Themes
From First Years in 2-285

Seniors now may secure their
English themes of their first two
years at Technology. Professor
Frederick G. pancreti, head of
the English department, has
announced that all seniors who wish
to get back their themes may do
so by going to Room 2-285.

“IT” GIRL
(Continued from Page 1)

Swanssuck, Tech men voted for
Mondays in the poll and they wanted
them with long curlly hair like Jane's.
Alan said she has blue eyes after the Tech
style.

For all the men who are the right
height, Jane is also the right height.
In the poll results, the ideal height
date is 5'6" before shorter than her
current. Everyone who is 5'6" inches
tall voted unanimously for Jane's
height, as she is 5'6" inches tall.

She arts stands between the Jack-
son and Tech men as a whole.
For she is interested in art while
the interests of those interested in
Janes are interesting, it isn't art that
appeals, but good and interesting lit-
erature. And date, rather than dance
which appeals to both her and Tech,
but the status rather than the date
which appeals to her but not to Tech.
