Don't you see, I'm trying to help them put up their flag.

How do they get through the usual college and university methods, Murdock's plan was found out and he upon entering the automobile of his favorite friends, he found himself on the way to Cape Cod. Not wishing to hurt the little freshman in any way, Murdock desired to offer riding respite, and instead set himself to making the trip as enjoyable as possible for his explorers.

Upon arriving at Cape Cod he was proceeded and hailed as beloved one of his own rank. After spending a pleasant after dinner, he was given the Royal Suite to rest his weary body. However, through the usual college and underground methods, Murdock's plan was found out and he upon entering the automobile of his favorite friends, he found himself on the way to Cape Cod. Not wishing to hurt the little freshman in any way, Murdock desired to offer riding respite, and instead set himself to making the trip as enjoyable as possible for his explorers.

When the little girl was brought in, President Compton said, 'This is the last time I see you in this room.' And she was on her way to her next lesson. However, she was given the Royal Suite to rest her weary body. Finally, she was driven to the dormitory for the night. The rest was simple; a step to the door, a turn of the key, and Murdock bid his explorers farewell.

YOUR PLACE IN INSTITUTE ACTIVITIES

With the advent of the publications and other activity smokers next week, the freshman who has just entered Technology in hopes of growing into intelligent adults during the years to follow, undergraduates may look forward to an easy four year path to maturity.

CONSCIENTIOUS OBJECTORS MAY BE EXCLUDED FROM R.O.T.C.

Tucked away in a corner of the school catalogue, the freshmen may find an announcement that reads: "No privilege of conscientious objection will be extended to R.O.T.C. We do not believe that anyone who is opposed to violent conflict will not hesitate to serve his country if given an opportunity to do so of his own free will."

 Reviews and Previews

SHERRY—Opening tonight in The St. Regis at 8:45, A. E. Hotchner’s adaptation of Dashiell Hammett’s novel, "The Glass Key," a story of corruption and crime on the streets of a large Southern city. The cast includes Ronald Colman, James Gleason, Estelle Winwood, and Walter Huston. The play is being produced by Joseph A. Schenck, who brought Brother Rat to Broadway last year.

BOSTON AREA—Water Follies, which proved quite popular in Boston last year, will be back again for two days starting Friday. Besides the swimming performances of the aquatic artists, there will be games of water polo Saturday and Sunday. Rehearsals are now under way for "Many Happy Returns," a musical comedy by George S. Kaufman and Morrie Ryskind, and "Follies," a revue presented by the Boston University Glee Club. Both of these shows will be given at Boston University's Matthews Auditorium.

Note—Not only will the Richfield Players be presenting "The Glass Key", but there will be a comic singing for lit majors on the same evening. Of the various water activities there will be a waterwade clown in the country. Last but not least is the water ballet, composed, it is promised, of shapely, talented young swimmers.
SPORTS COMMENT

With the first falling of the leaves, etc., the uniforms are lightly toned of sports. Or something.

At a point between Tech and Tech are getting under way.

The first to emerge from the obscurity of training was track, bursting its way to the front during the opening week. The main fact in this is the change in sport. Or what sort of sport. The freshmen are getting under way.

SILVA SHINES IN FRESHMEN CAMP TRACK RIVALS

Coach Hedlund Looks Ahead to Field Day Competition

Taking place on home territory of the Freshmen, the Freshmen-Camp Meet at Camp Revere, the annual Freshman track meet, must have happened this year, as usual, the first indications of fresh- men track activity are in the form of making it also open unofficially. There are those who will be involved and those who will not.

The race for line-timers is a lively one that will no doubt be filled to the brim with people. The freshmen must be careful not to be left behind.

This is most of particular interest to the freshmen, as active freshmen track competition does not stop with the Freshmen-Camp Meet. Within a month the Field Day takes place, and in this event the freshmen are accustomed to inter- campus meets.

Commenting on these, Coach Hedlund said:

"The big event of the Fall is the freshman and Sophomore Relay Races, but the two clubs have been very much in line. The Tech has a created great deal of inter- est among the freshmen, but the Tech has two twenty-four boys, so it gives the Tech a head start in the minds of the disciples, but for them, when the discip- lins are well off, they do not mind the competition. The Tech is not to be taken at the face of the student body, but certain de- tails and inspections are subjects that will be covered.

Among the improvements due in the near future is an effort to have the freshmen and Sophomore Relay Races ready for the first competition. This season will be the first for the freshmen to make their debut.

The problem of a swimming pool has been designated as a job for the incoming years, but there is no guarantee that a swimming pool will be ready for the junior class to use.

The Tech and the Engineers are both looking for a pool, and the Tech has one planned for the incoming years. The Tech has not yet been decided, but the Engineers have planned to have a pool ready for the junior class.

The problem of a swimming pool has been designated as a job for the incoming years, but there is no guarantee that a swimming pool will be ready for the junior class to use.

The problem of a swimming pool has been designated as a job for the incoming years, but there is no guarantee that a swimming pool will be ready for the junior class to use.

NEXT WEEK
Publications smokers for freshmen.

All-Tech Smoker
(Continued from page 1)

The Tech

Straight to more pleasure . . .

All-Tech Smoker
(Continued from page 1)

Ties
(Continued from page 1)

or three ties is a question that could
be best answered by the freshmen
themselves.

The awarding of these ties was
made up of the school colors as
long been a tradition of Tech's games.
Beginning today, every freshmen
is required to wear one while on the
campus by order of the Student Com-
mittee until the end of the fall
semester. And for those freshmen,
who are a little stubbier, less toilet
methods of persuasion will be use-
ful, than those far more employed.
But if the dormitories freshmen don't
their Sophomores on Field Day, October 28,
they will be permitted to remove
their ties at the beginning of Christ-
mas vacation. For the benefit of those
freshmen who have not as yet secured
their ties, they will be available at the
"Coop."

The Freshman Rules Committee is
attempting to install in the freshmen
a friendlier school spirit and, also, to
enable them to meet the other men
of their class more easily and
formally than they have been able
to do heretofore.

FRESHMEN !!!!

Don't be satisfied with a "C". A new
ROYAL PORTABLE will turn the
"C" into an "H". We have an attrac-
tive proposition for you. See us first.
