Nazi Protest Meeting Held Last Evening

Five Resolutions Adopted
Veiling Protests Of Tech Men

FACULTY MEMBERS TALK
A resolution offering free tuition to M.T. for one refugee student was the highlight of the proceedings at the Nazi Protest meeting held yesterday evening from 4:00 to 5:00 P.M. in Room 2126.

Professor Karl T. Crompton, president of the Institute, presided over the gathering, and introduced the speakers, Professor Harry A. Hollister, Chairman of the Department of Engineering and Professor of Engineering, and Dr. Fay B. Ashburn, Chairman of the Department of Science and Mathematics.

Professor Hollister, who had gathered some 70 student and faculty members of Technology to protest against the persecution of Jews and Germans in Germany.

Professor Warren K. Lewis and Horace E. Cassels, head of the Department of Mechanical Engineering, Professor Robert E. Fairwil of the English Department, and Dr. Avery Ashburn, the Chairman of the Department of Science and Mathematics, were among those who addressed the meeting.

Four Resolutions Made
A resolution was adopted denouncing the Institute's continuing support of the Nazi regime in that land.

Boat Club Dance Held Last Friday

Display Of Colored Movies Of I.F.C. Crew Contests Was Featured

One of the main attractions of the Boat Club Dance, held Friday evening in the Main Lobby, was the display of colored movies of I.F.C. Crew Contests. The pictures were shown in the first style, table being brought around the edge of the hall. The display was a success with the students, who eagerly snapped pictures of the pictures. The pictures were arranged in a group to the accompaniment of the Institute's crew, which took place on an Institute-wide basis.

Ball Dance Will Receive Silver Disks

Silver and slacks have been made for the crown of the boat club dance, which will be awarded to the boat club of the year. The crown will be awarded at the closing of the dance, which will take place at 10:30 on Monday, November 23. The winners will be chosen by the judges among the guests of the ball.

(Continued on Page 3)

Institute Riots of the Past Involved Co-eds, Actresses, Police and Firemen

Back in the roaring twenties, when men and women were past, women were housed in the Institute. The women were a group that was unique in its time. They were not only beautiful, but also strong and independent.

New Information Office
Now In Rogers Building

The new information office, Room 1171, which has recently opened, is now the headquarters of the registrar, Mrs. Helen E. S. Romer.

The desk is located in a large, sunroom room, equipped with a telephone and a typewriter. A new office chair has been added to the room, and is kept in readiness for the use of the registrar.

MUSIC LOVERS
MEET THE CLEF
We notice that a large number of Tech- nological students are interested in classical and modern music. The victrola on the second floor of Walker Memorial is in general used only from nine in the morning until the same hour in the evening. As a matter of fact many of those who wish to reserve the use of the very complete record library than can be taken care of.

Order
The music lovers are members of The Clef, a society at Technology fostering music appreciation, but most of those who are interested in music know little or nothing about the existence of such an organization. It seems that the relative obscurity of The Clef is partly to blame for the lack of response which met a series of record concerts, open to all students last year.

This year The Clef is planning a series of record concerts for its members. It may also sponsor a subscription by an orchestra yet to be formed. The next record concert will take place on Wednesday, December 30, at 5 P.M. in room 2-178. All those interested will be cordially invited.

TEMPERANCE UNCALLED FOR
The present flare up of a temperance move- ment under the very guise that it appears to be not only ridiculous but uncalled for. As they plan to run a poll on the subject, we may soon know how much student opinion they have in their favor.

The attitude of the Institute in such mat- ters has always been influenced by the idea that our students are sufficiently mature to govern their private lives as they see fit, and there is little reason for legislation on the exist- ence of such an organization. It seems that the relative obscurity of The Clef is partly to blame for the lack of response which met a series of record concerts, open to all students last year.

ORDER
The Gridiron outing Saturday afternoon for the combined staffs of the publications is evidence of fresh attack on one of the major problems which beset best activities at the Insti- tute. This problem is that of working the various aspects of man into a more ac- quainted and harmonious unit. So much accord is a blessing indeed, but it is not always a guarantee that it cannot be now be inter- woven into a single larger unit. There is no doubt of the benefit which would accrue to such a venture if publication is be well acquainted with the problems and personal- ities of the other publications. It is hoped that the Gridiron outing Saturday is only a forerunner of more such combined meet- ings, meetings not only with a social aim but also a desire toward exchanging tech- nical and personal problems.

LET US GIVE
THANKS
In a material way, this coming Thursday is not a day for nations to look back on the past year, and raise thanks for what they have

Tech Skippers Lead Williams In Final Meet

Sailing Varsity Closes Unbeaten Season By 82-60 Score

FRESHMEN ALSO WIN

Winning by a close 82-60 margin, the Tech sailing team defeated the William and Mary College team by a score of 82 to 60, in a match which had been anticipated by the Tech fans as a very exciting one.

Colle is in High Saison

Yarrow Colles, Jr., Tech, took high honors for the varsity races on Sunday afternoon. The Tech varsity scored an 82-60 victory over the William and Mary College team.

Winter Sports Season Started To Begin Soon

With the fall sports clearing their seasons this week, winter sports begin to come into view. The snow, in a sporting manner of speaking, was a material factor.

Rover Basin Race Recognized

The race, which was the first to start, cleared the name of the Rover Basin. This race was open to a class of six, and it was in the Rover Basin that the race was held.

Basketball Team For New Season Shaping Up Well

First Team Will Average 6 Ft.

As the first game of the season approaches, the Tech basketball team will have a chance to prove themselves. The first team will average 6 ft. and the second team will average 5 ft. Eight out of the starting eleven will have the advantage of playing against a team of 10 ft. and five for victory and a few for disappointment.

Rover Basin Race

The Rover Basin race, which is to be held on Dec. 1, will have a total of 10 teams. The first race was held on Dec. 2, and the second race was held on Dec. 3.

Carlton Takes Revenge On Georgia

Carlton defeated Georgia on Saturday, 38-6, in a match which was played in the Rover Basin. The Tech varsity scored three touchdowns, one for 6, one for 3, and one for 1.

Skiing Honors For Varsity Races

Rover Basin last Saturday. The skiing honors for the varsity races were won by the Tech team, which scored a total of 27 points. Stanley Turner of the Tech varsity, with a score of 17, took over the leadership of the varsity races.

Winter Program

Proposed Equipment Has Ski Rummel Arena

With winter's knees upon us, with snow already seen on our shovel back, with hair already beginning to grow cold, with the fresh rains already before us of frozen coats, the time has come to consider the possibilities of the Winter Sports Program.

It is planned to equip the area of the P. H. office where there will be a jump to rotate the motion to the participants and to the diversified traffic. The actual structure will begin at the peak of the bloodhound trail with an overlook of the mass trail and where there can be described. The facilities will be housed in Walker.

Construction of these facilities is expected to begin in the near future. The work will be incorporated into the combined-commission work of the company. The concrete work will have rolls on their tốt sides in order that the concrete work will be able to be done on their tot sides, water can be poured and frozen. The finished work will have traffic lights.

The finished work will be combined with snow-making equipment as the work starts. It is expected that the concrete work will be completed in order to begin the new snow-making equipment.

Any regular member of the company, or any other member who may be interested, is asked to attend the meeting at the Graduate House Monday, November 28, at 7:30 p.m. to discuss the plans for the new facilities.
