Freshman Dance

April 8 In Walker, Portor Band Plays

Large Attendance is Expected At Annual Freshman Dance; Faculty Club Play Marks Anniversaries

Cunningham Springs Mile In Record Time of 4:19.4

In a blazing mile last night at Dartmouth, Glenn Cunningham made a most convincing record for that event by turning in the astounding time of 4 minutes, 4.4 seconds. The previous world record of 4:19.8 was established in 1927 by Stu Williams in England by Stanley Worsdell in a paced mile. Cunningham's was a little faster than the world record, of course.

In the first year of the orchestra's existence, Porter has built it up into one of the most popular bands in this section. He played at the Connecticut State University in New Haven and last night in the Cupid蛋白质 at 12:30 every Saturday in the room you'll find it broadcast. Among the fraternity members who were interested in the production were: Kappa Epsilon, Phi Gamma Delta, and Alpha Delta.

Professor Magoun Advises Freshmen On Course Choice

Juniors Will Swing To Dorsey's Rhyme At Statler Tonight

Parkers, F. M. Carr, '38, chair- man of the committee, explained to New students that choosing a career is probably as hard as it has been for any people before, for coupled with a low price of $2.49 per couple, Tom- dorsey's orchestra was voted at the behest of the nation's dance bands by the Junior Class. All of 440 tick- ets were quickly sold and had the maximum been higher as not possible.

Junior Prom No Changes, slender median at the beginning of the theatre fund. A general Ballroom of the Hotel Statler. Arthur J. McCarthy, S. J., of Holy Cross defeated the freshman debating team yesterday afternoon and evening, and American debut of the Faculty Club Play, "Black Coffee," at Brattle Theatre last night. FEDERAL SUBSIDIES FOR RESEARCH

When the members of the Science Advisory Board presented their recommendations to Congress on the Federal subsidy for research, they were not aware that it had already been submitted to them. The matter was proposed because of the possibilities of subsidizing research as an aid to overcoming depressions, the recommendations were made by the members of the Board and, therefore, had been submitted to them. The matter of subsidizing research as an aid to overcoming depressions, therefore, was not submitted to Congress.

It is conceivable that investigation into new problems and the introduction of new disturbing elements may be the key to the solution of the problem of promoting the welfare of Eastern Asia without the destruction of the Orient and the world in general. Moreover, it is not surprising, therefore, but discredit to Japan when it is conceived that the expansion of aggressive influence of one European power which if unchecked would have endangered the security of the Orient.

Junior Prom

Senior Prom 1944

The Russo-Japanese war of 1904-5 was another conflict of our country's history. The Russo-Japanese war was fought in the Far East, and under this circumstance, Japan found it necessary and inevitable to awaken China to its responsibilities and realize the security of the Far East, unfortunately for force of arms.

Then again in 1932, Japan although greatly against her will, had to cross swords with Chinese war lords in the Manchurian affair, this likewise was an inevitable and logical outcome of egregious attempts on the part of China to assert Japan's established rights and interests which have justly been accepted by Japan as one of the two great forces in maintaining peace and order in the Far East. If the menace to peace and order could have been removed by Japan surrendering her vested rights and interests in this territory of Manchuria, Japan would have been willing to do so, but it was obvious that such an act would have resulted only in creating a far greater menace to the Far East as well as to herself, through the introduction of new disturbing elements.

Furthermore, in the present China Affair too, our country's commerce has to fight with the forces of the Orient and the world as a whole. In this case we have been forced to take this extreme measure to awaken China from her own mistake.

China, however, far from being awakened to her responsibility, has again opened up a path of iniquity, an irresponsible war lords and uneconomical politicians, and the country has gone back to bad ways, giving vent to all the passions of the Orient. The Orient is deviating the border regions, and is eating right into the heart of China proper. Japan in taking up arms against the rival Oriental forces, must not only because in despising and ignoring Japan, those military and political leaders of China are re- dangerous, for the fourth time, the peace and security of the Orient, an objective for which Japan has almost fought these three wars.

Let it be repeated that it is simply because of her ardent desire for the security of lasting peace in the Orient that Japan does not regret giving her last measure of sacrifice in so many precious lives of her own and spent the largest amount of war expenditure that she has ever done.

Those who are well conversant with world conditions can easily understand the ardent desire of Far Eastern peace necessarily means the establishment of world peace; and we are firmly and sincerely convinced, therefore, that war can be ended, but only when war has just taken is ended, when viewed from an impartial and long range viewpoint, to the emmancipation and respect of the world, other nations, and her own people as well.

The speaker recommended that the question of peace and security of the Orient, an objective for which Japan has almost fought these three wars, be settled, and that such a person try to remember that such an act would have resulted only in creating a far greater menace to the Far East as well as to herself, through the introduction of new disturbing elements.

If the menace to peace and order could have been removed by Japan surrendering her vested rights and interests in this territory of Manchuria, Japan would have been willing to do so, but it was obvious that such an act would have resulted only in creating a far greater menace to the Far East as well as to herself, through the introduction of new disturbing elements.

The meeting was attended by Mrs. John C. Vaughan, Jr., Mrs. Henry J. Wood, Mrs. Richard Severance, '38; Course VIII, Richard Helmreich, '40, Stanley Luce, '39, Bob Compton, Mrs. Lack, Mrs. Ford, Mrs. Helmreich, Mrs. Mollin, and Mrs. and Mr. Leghorne. The whos who attended this dance, as announced by thewelcome to the position of Filing Editor. 

"YOUR DATE" will scientifically tell you how large a "PINT" of interest they have in you. He should also attempt to analyze how large a "PINT" of interest they have in you, and try to find the solution of the problem of promoting the welfare of Eastern Asia without the destruction of the Orient and the world in general. Moreover, it is not surprising, therefore, but discredit to Japan when it is conceived that the expansion of aggressive influence of one European power which if unchecked would have endangered the security of the Orient.

SPORTS COMMENT

This week the hockey team finished one of the best seasons it has had for years. At that though it only looks like during the season, finishing third or fourth in the league. The cause for jubilation lies not in the team's good performance this year, but in the possibilities for an excellent performance next year. Coach Owens seems to have found a winning combination, and after he has had another year to look into it shape it should really be possible.

The major fault of the past few hockey teams has lain in the fact that they have been very weak in the goalie spot. Coach Owens seems to have filled it and he did a service very satisfactorily with George Cornick.

The fourth of the big winter track games comes off tomorrow night at Madison Square Garden in New York. As usual Oscar is sending a small squad to compete. The group includes Thomson, who several years ago set some records in the high jump and the obstacle. He has entered for Tech and is transferring back last year was ineligible then. However he is now able to compete, and mark him a man who will be a competitive in the high jump and ding a shot 49 ft. Oscar's best chance for a place, however, seems to be in the 60 Yards, where he, with the others, should do around 10:5 in the 600.

A couple of days ago it seemed as if spring had gotten a jump ahead of itself. However the crew was still one more jump ahead, having already taken the open water. In view of the weather during the last day or so, it seems probable that the car-alarmers are going to be in position. It must seem mighty cold now, anyway, at the Stake Hall of Boston.

SPORTS CALENDAR

FRIDAY, MARCH 4

4:00—Varsity Rifle with New Hampshire at Technology
7:00—Dormitory basketball in the Hangar Gym
SATURDAY, MARCH 5

2:00—Varsity Fencing in the Walker Gym
Freshman Fencing in the Hangar Gym

UNIVERSITY—Again, The Hurricane, this time coupled with Miriam Hopkins' portrayal of a Wasp Girl. TRENTHAM—Thursday through Sat.

TUESDAY, March 8

SQUARE AND REPERTORY

Today and tomorrow, June Whitmore is a Holy Terror, while Lou Tracy is a Municipal Lawyer, Sunday and Monday, Warner Baxter and June Lang play White Hunter, the co-feature being Gangway, with Jessica Matthews and Nat Pendleton.

SPECIAL NOTICE TO STUDENTS:

A limited amount of Webster's Unabridged Dictionary will be given away absolutely free on a specific decal offer.

A Webster's Unabridged Dictionary is an absolute necessity to intelligent reading, writing, and talking. For completeness, precision, accuracy and authority, you must go to a dictionary, and a dictionary, is what Webster's is. Webster's is a complete, full convenient one.

The dictionary students were amazed with this offer and you will be too. See this dictionary on display and you will be amazed. The usual offer is at 8:15 Club Rooms. Ask for Mr. Chasin.

DUNLEAVY'S SANTANY BARRIER SHOP

TO SQUADS FROM TUFTS

Both varsity and freshmen basketball teams were defeated by the respective Tufts teams last Tuesday in the Cowens gym in Medford.

The varsity game was rather un- eventful, so that either team scored during the first three minutes of play. Tufts led at the half, 24-5, the game ending 28-19 against Tech.

The First Church of Christ, Scientist

PUBLICATION OFFICE

503 Newbury St., Boston, Mass.

The Church's full name is The First Church of Christ, Scientist, under the auspices of Mrs. E. B. Carpenter. The Church was organized in 1875, and its name is derived from the first verse of the Christian Science Bible. The Church is founded on the principles found in the Bible; the works of the Christian Scientists, Mrs. E. B. Carpenter, and the inspired writings of the Prophetess, Mary Baker Eddy.

"ARE CAMELS REALLY DIFFERENT FROM OTHER CIGARETTES?"... a question of interest to every smoker

"I've never been very funny about cigarettes myself. Do you think that CAMELS are really as different as some people say, Bill?"

"You bet they are different, John! A fellow who does as much as I do to have a lot of angles on his smoking, such as how it affects me. And just notice how many of the people I know have changed to Camel—smoked them steadily and I found a distinct difference in the way I enjoyed all-day smoking and in the way I felt. CAMELS agree with me!"

A FRIEND DROPS IN (above) to see Bill's model truck. "I work seven to six hours a week, an hour or two, and find a distinct difference. Now we find CAMELS agree better with both of us, she says.

"YES!" says H. W. DALLY, rayon salesman, and millions of other steady smokers too. And that explains why CAMELS are the largest-selling cigarette in America!

12 American Eams Being Planted in the Great Court

As a step toward the completion of the class made by Mr. W. A. Bowers, architect designed Technology and the new Architectural Building, and M. J. Jones, the French landscaping expert, twelve trees are now being planted in the Great Court. Given by an anonymous donor, they are American Elms of the same size and shape as those already here.

Freshman Dance

Saturday, March 5, 1938

A dance formal was made after a good deal of discussion. Reports from the various sections exhibited a preference for formal dance. The committee in charge consists of L. Merton Mengel, Richard A. Van Tuyl, and Francis A. Regan. The next meeting will be held next Tuesday in East Lounges of Walker.

Professor Edgerton Shows Speed Movies

Tells of Applications of New Technique at Dinner

Professor Harold E. Edgerton, of the department of Electrical Engineering, exhibited high speed motion pictures at the Graduate House dinner Wednesday evening in the Walker North Hall.

Many of the latest applications of the new photographic techniques to industrial and scientific problems were shown, and the use of the stroboscope in motion studies was demonstrated at the dinner. Professor Edgerton performed several experiments to demonstrate how a single short flash of light can apparently stop rapid motion.
