

## Prof. Magoun Ends Series On Marriage

Outline Of Lectures Given To The Audience In Room 10-250

### REFERENCES PROVIDED

The eighth and last talk of the second marriage lecture series sponsored by the T.C.A., "So what", was presented by Professor F. Alexander Magoun of the Humanities department yesterday afternoon in Room 10-250 at 4 and 5 P.M.

Tonight in Room 6-120, at 5 P.M., the series will come to a close with the regular question and answer period in the charge of Professor Magoun. This discussion period will be open to questions and problems that come under any one of the eight headings of the individual lectures.

#### Outline Distributed

A twenty-two page outline of the lectures on "Preparation For Marriage" was distributed to the audience at both periods last evening. The outline contains all of the main points underlying each lecture, and is in general a resume of the series. In addition to the information taken from the lectures, references have been provided for more detailed readings on each

## Glee Club Record To Be Broadcast

Program Will Be Worldwide; To Be Sent By Station WIXAL

Sunday afternoon, April 23rd, over the short wave WIXAL, the Tech glee club will be heard all over the world in the first of the educational and good-will programmes planned by the short wave stations. These programs are expected to include the leading colleges in the United States, and they will form a medium to improve the understanding and good will among nations.

Because the programme is taking place during the Tech vacation, the glee club was forced to make a record for the broadcast instead of appearing personally. The words for one of the songs to be included on the programme were written by Professor F. A. Magoun of the Numantics Department. The music for the song was written many years ago by Professor Magoun's grandfather and it was not until recently that the song was disclosed.

#### Broadcast

## Freshman Formal Ticket Sales Exceed 100 Mark

With the date of the dance still a month away, present records for Freshman Formal ticket sales show that over one hundred have been sold already, although twelve members of the committee have not yet filed reports.

Those who have obtained tickets will find formal invitations for their dates available at the information desk. The dance, which is to be held at the Somerset Hotel on May 12, is featuring the music of Tommy Reynolds and his Orchestra, who recently completed an engagement at the Roseland State Ballroom.

## The Inside Story On The I. F. C.

Rumors as to whether or not Tommy Dorsey is going to play for the Fifth Annual I.F.C. Party which is to be held at the Hotel Statler on Friday evening, April 28, have been circulating around the Institute during the past week. Up to this point The Tech has been withholding information pending definite arrangements by the I.F.C. Dance Committee; but with the dance only two weeks away, we feel that it is our responsibility to acquaint the students with the situation as it existed last night when we went to press.

1. No contract exists at this time between the I.F.C. Dance Committee and Tommy Dorsey's agent. On Tuesday, March 28, when the story about Tommy Dorsey and the coming Party was released, the committee had signed the contract and forwarded it to the Music Corporation of America. Dorsey's agents. In the meantime the Boston Friar's Club, who are having a dance in the Boston Garden on the same evening, offered M.C.A. nine hundred dollars more for Dorsey and his orchestra. M.C.A. accepted this offer.

2. A contract for Dorsey from one thirty until four that morning has been signed and forwarded to M.C.A. It has not been returned as yet, so

we have no assurance that Dorsey will appear. This alternative was only resorted to by the committee after it found that no other name band could be obtained.

3. Police permission to hold the dance has only been secured until three fifteen o'clock in the morning. In case Dorsey is signed, the committee is liable to find itself in the uncomfortable situation of having a first-class name band and no place to hold a dance for the last hour.

4. The Andrews sisters were signed on a contract which permits them to cancel at any time prior to midnight tonight. The committee will not be certain of having these singers until tomorrow morning.

5. The Boston Musicians Protective Association, the Boston affiliate of the American Federation of Musicians, has taken a hand in the matter. When the committee discovered its plight and made an effort to secure a New York orchestra to play at the dance until one thirty, the union brought forth a ruling stating that no band from outside Boston may play two engagements on the same day in Boston. The committee compromised by offering to engage a local band to play during the earlier part of the evening.

6. At the present time the committee is negotiating with Jack Marshard to play for the earlier part of the dance. The committee feels that Marshard will be available.

7. The committee has not started redemptions as yet, because it wanted to wait until all the arrangements were definite and everyone knew just what he was paying for. Redemptions will probably be held the first few days after vacation in the Main Lobby. At that time men holding options will be given the opportunity either to redeem their options or to get their money back. Harold R. Seykota, '39, chairman of the committee, said in regard to this subject, "If a man wants to pay for a name band and we don't have one, he is entitled to get his money back. If he is paying for a good party, we're going to have one. That's certain!"

8. If Dorsey is not signed, the committee is going to provide additional entertainment and secure Jack Marshard for the entire evening. Seykota said, "If we don't get our name band, we're going to spend every cent we have on additional entertainment to prove that we can have a good time without a name band." At its last meeting the committee seriously considered the idea of serving a buffet supper at midnight.

## Limited Number Carnival Tickets Now Available

Public Sale Of Tickets For All - Tech Carnival Starts At Noon

Tickets for the All-Tech Carnival will go on sale in the Main Lobby during the noon hour today, Harold V. Wallace, '40, chairman of the dance committee announced last night. Ticket sale will also be held Monday and Tuesday of next week.

Leon Mayer's orchestra is to play for the dancing which will be held all during the evening. The committee has assembled a variety of contest games to test the skill of Tech men and their dates. Tickets are priced at seventy five cents per couple and no stags will be allowed.

#### Twelve in Contest

Twelve entries have been made by fraternity and dormitory groups in the exhibit contest for a fifteen gallon keg of beer. Any groups which intend to enter must do so by the end of the week. The exhibits will be judged by a committee of faculty members and representatives from a nearby girls' school. The Carnival, which is to be held on April 29, the Saturday of I.F.C. weekend, will last from 8:30 to 12 and will follow the All-Tech Sing in the Great Court.

## April 18 Is Deadline For Class Nomination Blanks

Candidates for class officers are reminded that nomination blanks are to be returned to the information desk by next Tuesday, April 18.

Twenty-five signatures are required for each nominee, and no one may sign blanks for more than one man for president and secretary-treasurer, or for more than two men for Institute Committee.

## Assemblies Plan Ball For Tonight

Over 350 couples are expected at the fifth annual Walker Assemblies Ball tonight in the Main Hall of Walker Memorial.

Sponsored annually by the members of the dining staff of Walker, dancing is scheduled to begin at 10 P.M., followed by the Grand March at 11:45 P.M. During the intermission at 12:30 refreshments will be served in the North Hall.

#### Bert Williams to Play

Besides Bert Williams and his orchestra who have been engaged to

## M.I.T. Glee Club To Hold Concert, Dance, Saturday

Lasell Orphean Club And Tech Singers Will Collaborate

A concert, followed by a formal dance, will be held by the M.I.T. Glee Club this Saturday at 8:15 P.M. in the Winslow Hall, Auburndale, Mass. The concert is being held in conjunction with the Orphean Club of Lasell Junior College for Girls.

This is a return engagement for the concert and dance which was held in Walker Memorial last month. At this Saturday's concert, Mrs. Henry Jackson Warren will conduct the Massachusetts Institute of Technology Glee Club, and Mr. George Sawyer Dunham will direct the young ladies from Lasell.

Each of the two clubs will render several individual numbers. The soloist representing Technology is F. Lewis Orrei Jr., '39. The two clubs will also give three numbers together. They are: "May No Rash Intruder", by Handel; "How Lovely Is Thy Dwelling Place", from the Brahms Requiem; and "Then Round About The Starry Throne", by Handel. Additional entertainment will be given by John B. Murdock, '41, who will play on his xylophone.

## Dramashop Goes Hollywood As Production Is Speeded On Movie, "The Dictator"; May Be Shown To Public

Dramashop has gone Hollywood. Big lights, cameras, and the strange parlance of movie land now fill the William Emerson Room where Technology's dramatic society is photographing its celluloid epic, "The Dictator".

This is the first attempt Dramashop has made in the realm of movies. The whole affair was conceived, planned, and is being carried out by several enthusiastic members of the organization.

#### May Be Shown Publicly

"The Dictator" has been in production for several weeks. "Rushes" of scenes already shot have been taken. The production was originally begun solely to provide amusement for Dramashop members. If it turns out

a hit, however, the group indicated that it may be shown to the public later in the spring.

The William Emerson Room is being used as a set, couches and chairs being shifted to portray different locations. A few outdoor shots are also planned.

#### Eddy Wrote Story

Burton S. Eddy, '42, and Edward J. Kingsbury, '40, are supervising the entire production. Eddy also wrote the original scenario which burlesques activities in actual totalitarian countries.

A dictator, Der Fooley (Albert C. Rugo, '39), has just announced an edict providing for eugenic marriages—and more of them—and has accordingly appointed a Secretary of Sex (Lisa Minevitch, '42) to see that only

couples 100 per cent Nordic get married.

#### Heroine Is Non-Nordic

Complications arise when the Hero (Raymond G. O'Connell, '41) falls in love with the Heroine (Janet Norris, '42), who, the Secretary's records show, is 1/72 Laplander. As soon as the Secretary discovers the illegal engagement she rushes the pair to Der Fooley's office.

Leaving Hero and Heroine in an anteroom, she enters Der Fooley's private sanctum where she and the dictator promptly get drunk. The Hero and Heroine discover them in a compromising situation, and, to pre-

## Tech in Turkey Discontinued By The T.C.A.

Action Is Taken As Result Of The Tech, T.C.A. Surveys

### DROPPED WEDNESDAY

Tech in Turkey was indefinitely dropped from the activities of the T.C.A. at a Cabinet meeting held last Wednesday afternoon. This T.C.A. project has been the object of much discussion in the past year.

The action taken to discontinue the Tech in Turkey project which took almost one-third of the T.C.A. budget, was a result of a survey taken by the T.C.A. and The Tech which showed that the student body was not in favor of its continuation. A committee was appointed at the meeting to investigate some other altruistic plan to replace Tech in Turkey on which the T.C.A. can give both its time and financial aid. The committee is headed by James Fifield, '40, vice-president of the T.C.A.

#### Tech in Turkey Began in 1928

The Tech in Turkey project was first conceived in 1927 shortly after Dr. Gates, former president of Robert College in Turkey visited Technology and voiced a need for such a social

## President Favors Peace Principles

Dr. Compton Endorses A.S.U. Program For Freedom And Peace

President Karl T. Compton stated at an interview yesterday that he was in favor with the principles behind the mass meeting called by the Boston Council of the American Student Union for Thursday, April 20, which is to take place on the Mall of the Boston Common, just off Charles Street at 12:00 Noon.

"I heartily endorse the efforts of the A.S.U. to bring about a better basis for peace and freedom along such lines as those outlined for the program of April 20", stated Dr. Compton.

#### Havens Endorses Meeting

Joseph D. Havens, '40, President of the Technology Peace Federation has also personally endorsed the A.S.U. meeting.

April 20 is the date set aside by the United Student Peace Committee for this year's peace meetings. At the meeting of the Boston Council, which the M.I.T. chapter of the A.S.U. will officially attend, there will be a number of speakers from various peace

## Freshmen And Sophomores Are Quadrangle Guests

The Quadrangle Club, an honorary society whose purpose is to promote better feelings between the Sophomore and Freshman classes, held a smoker last night in the Hotel Brunswick.

Fifty-seven Freshmen were invited to this get-together by the present Sophomore members. From this group twenty men are being selected for membership into this honorary Sophomore-freshman organization.

### HOW TUESDAY CAME TO BE NO-FISH DAY

"Tell us a story, Gran'pappy. We want to hear a story."

"All right, kiddies, what would you like to hear?"

"Tell us about Tuesday, Gran'pappy. Tell us why it's a sin to eat fish on Tuesday."

"Well, kiddies, it's a long story."

"Tell us, Gran'pappy, please. Tell us why we won't go to heaven if we eat fish on Tuesday."

"Well, kiddies, back when I was a child—that was 'way back in 1939—it used to be all right to eat fish on Tuesday."

"But, Gran'pappy, wasn't it always a sin to eat fish on Tuesday?"

"No kiddies. It all began, like I say, back in 1939 when a college student swallowed a live goldfish. Pretty soon someone else swallowed two live goldfish and then the race was on. Another college student swallowed 20 fish and then someone swallowed 80 fish."

"But, Gran'pappy, did they like live goldfish?"

"No, kiddies, they didn't."

"Why did they do it, Gran'pappy?"

"Well, kiddies, it was a lot like Hitler or headlines or whiskey. The publicity went to their heads. The goldfish part wasn't so bad although it got so people had to keep their goldfish in safety deposit vaults. But finally some college student in New York decided goldfish were sissies so he swallowed a live bass, oh, about two pounds."

"So a Chicago student swallowed a live trout, considerably bigger. A Minnesota student swallowed a live pickerel and a Washington student gulped down a live salmon. A California student committed suicide on a swordfish and Hollywood did a show called 'Bibliography' in which Noah swallowed a whale."

"The dry land universities, lacking suitable fish for competition, began a march on Washington demanding bigger fish or a bonus and railroads had to build special tracks and extra huge engines to haul fish to the American institutions of higher learning."

"Pretty soon it got so they gave you a B.A. when you could swallow a sucker, an M.A. when you could stomach a jellyfish and a Ph.D. if you could make a pike swallow a mackerel and then down them both."

"Fish-swallowing replaced football as the national college sport and radio announcers got all excited over 'Minnivich just made a beautiful six-trout gain for Oregon in this Fishbowl classic!'"

"It got so bad there was a great fish short-

age and people were starving for live fish (eating cooked fish, of course, simply wasn't done in the best circles). Carrie Nation rose from her grave to swing her axe against the vice and the government passed a law that Tuesday should be No-Fish day.

"But time heals everything and eventually the menace was curbed and people only knew that the books said it was wrong. And that is why, kiddies, it is a sin to eat fish on Tuesday."

From *The Montana Kaimin*

### GLORIOUS BARD

In the course of ramblings here and yonder, we have come across certain outpourings of the muse, which struck us as acute and penetrating. Several of these little gems of metrical philosophy we reprint below.

Exams are just like women

This statement is quite right

They ask you foolish questions

And keep you up all night.

—*The Daily Tar Heel*

He brought to class an apple red

And a towel to polish it with, he said.

But when he saw the quiz he'd dread

He threw the towel in, instead.

—*The Daily Tar Heel*

"I hate to be a kicker"

Means nothing in a show.

The kicker in the chorus

Is the one that gets the dough.

—*Youngstown Telegram*

And here are a few items dealing with the European Situation.

I hate to be a kicker,

I always long for peace.

But the wheel that does the squeaking

Is the one that gets the grease.

—*Sanford Herald*

Sweet appeasement is a pansy

But the recent records tell,

That the guy who gets the gravy

Is the rat who raises hell.

—*The Oregon Barometer*

## SCIENCE IN BRIEF

by ARTHUR M. YORK, '38

### AN APPLE A LOAF

Bakers who appear to be so anxious about people's health now seem determined that we get our apple-a-day, or as near to it as possible. The latest fad is to put an apple into every loaf of a certain brand of bread. Winesap apples are dehydrated in a vacuum process and then ground into a flour which is used to replace about one third of the wheat flour content of the bread. The claim is that the apple adds minerals, vitamins, and tastefulness; incidentally, the practice on a wide scale would also help to use up the surplus of apples of growers in the Northwest.

### ENERGY'S COST

To get back again to the splitting of the uranium atom and the speculations about "free energy" which it caused, let us consider a few costs. Authorities on the subject at Carnegie Institution in Washington point out that, to compete with coal at the present time on the basis of cost per energy available, uranium would have to sell for about \$2.50 per gram. Actually it costs (not sells for) 10,000 times that or \$25,000 per gram.

### PNEUMONIA'S LAST STAND

Medicine appears at last to have pneumonia under its thumb, considering the recent announcement of a Johns Hopkins doctor that almost all deaths from that disease could now be prevented if patients were given proper treatment on the first day after they became ill. The use of sulfapyridine, derivative of sulfanilimide, at Johns Hopkins Hospital since last July has been chiefly responsible for a reduction of two thirds in the pneumonia death rate at that institution. During that period there were only eight deaths among a total of 107 pneumonia patients.

## THE READER SPEAKS

Dear Sir:

The question has arisen as to the payment of any honorarium to the speakers who delivered the Marriage Lectures this year.

An honorarium was paid to the three outside speakers. Professors Magoun and Schaefer gave their services free of charge. The Meetings Department of the T.C.A. wishes to take this opportunity to express its gratitude to these professors for these services which they so kindly rendered.

Sincerely yours,

WILLIAM A. DAVIS

Director, Meetings Department T.C.A.

## Reviews and Previews

PARAMOUNT AND FENWAY—Basil Rathbone is Sherlock Holmes, and Nigel Bruce is Dr. Watson in 20th Century Fox's presentation of Sir Arthur Conan Doyle's famous story, *The Hound of the Baskervilles*. The cast includes Richard Greene as Sir Henry Baskerville, Wendy Barrie as Beryl Stapleton, and Lionel Atwill as Dr. Mortimer. Secret Service of the Air, with Ronald Reagan, shares the bill with the above picture.

EXETER—Now playing are Constance Bennett and Roland Young in *Topper Takes a Trip*, the latest picture in the amusing "Topper" series, and George Saunders and Wendy Barrie in *The Saint Strikes Back*.

UNIVERSITY—Norma Shearer and Clark Gable in *Idiot's Delight*, also Constance Bennett in *Topper Takes a Trip*.

CAPITOL—Starting to-day is Charles Laughton's latest production, *The Beachcomber*. Also on the same program is *Cafe Society*.

### Frustration

This is a tale of frustration. To do with a member of the Club who is in the habit of m intensive use of all the student ities in the basement of Walker have yet to see him on the first and would lay odds against his appearing above that except for purpose of sitting out a dance we aren't supposed to see that. A ently he does nothing but wait a for something to happen: like a or a 280 string in the bowling r or the posting of the day's funn the T.C.A. bulletin board, or a r The Tech's dark room.

In the course of his subterr wanderings he had one day acc a large number of the calendar Student Employment Bureau r on cards 2 1/4 inches by 3 1/2 inches

# Pistol Team Places Fourth In Local Meet

## Three Tech Teams Engage In 5th League Meet Of Season

### HENRY SETS RECORD

Three M.I.T. pistol teams engaged in the season's fifth league match last night on the Tech range, which was won by the Boston Rifle and Revolver Club.

The varsity team placed fourth in the meet, with a score of 785, while the Tech Faculty took third place. The Boston Rifle and Revolver Club proved to be the best team that the varsity has faced this season, and they continued their record of three years without a defeat in last night's match. Though the freshman team placed ninth, they had the consolation of beating the Harvard team which finished last with a 688.

### Maj. Lawton Loses Dollar

The high spot of the evening occurred when Ed Winn of the Arlington team turned in a 96 with seven bulls eyes, thus winning a standing dollar bet which Major K. B. Lawton had put up two years ago. To emphasize his wager Major Lawton had framed the bill which he placed in the firing room.

### Dick Henry Sets Record

In a recent pistol match Dick Henry, of the M.I.T. varsity set a new Institute record with a 284. His separate scores were: slow fire, 92; timed fire, 96; rapid fire, 96. He thus broke the previous record of 275 which he also held.

# Miller Is Elected At Squash Banquet

## Squash Varsity Award Is Presented To Babcock '39

Robert Millar, '40, was elected 1939-40 squash captain and Willard F. Babcock, '39, present captain, was elected to receive the squash varsity award at the annual Squash banquet held last Tuesday in the Silver Room.

Mr. Charles Emerson, '04, presented cups to Stuart G. Stearns, '39 and Captain-elect Robert Millar, winner and runner-up respectively in the all school championship tournament.

Carl G. Lenk, '39, who defeated Norris F. Dow, '39, in the finals of the junior varsity tournament, was awarded a silver statuette, and John W. Sheetz, '42, winner of the freshman competition received a bronze statuette.

### Varsity Letters Awarded

Varsity letters were awarded to Willard Babcock, '39, Robert Millar, '40, Arthur Arguedas, '41, Alfred P. Barton, '40, Norris Dow, '39, and Irving Peskoe, '39.

The following received numerals: John Sheetz, Theodore J. Badger, John D. Iams, Louis E. Stouse, and James S. Engel of the Class of 1942.

Carl A. Trexel, Jr., Chester A. Corney, Jr., Philip B. Freeman, and Jacob Berezow of the Class of 1941.

## Assemblies Ball

## Skeet Shooters To Plan Technology Tournament

Plans are under way to organize a skeet shooting team among the students of the Institute to enter a skeet tournament in Connecticut on May 20. No definite action has been taken as yet, but all men who are interested are asked to leave their names with the secretary of the M.I.T.A.A. in the A.A. office before vacation starts.

## D.U. Basketeers Bow To Phi Gams By Score 34-18

### Crush Powerful D.U. Attack In Second Quarter To Hold Lead

The Delta Upsilon quintet was nosed out of the final Round Robin of the Beaver Key Basketball Tournament by a powerful Phi Gamma Delta five in the Hangar Gym Wednesday night with a score of 34-18. This makes the Phi Gamma Delta team qualified to compete with the three other finalists in a Round Robin wind-up.

The Phi Gams led off to a good start and held the lead with a score of 14-4 at the end of the first quarter, thanks being mainly due to the star performances turned in by Byron Nelson, '40; William E. Haible, '39; and Fred French, '39.

Forging ahead through the second quarter and the beginning of the third, the Delta Upsilon men narrowed the lead of the Phi Gams to 19-13, but finally went down to defeat at the hands of their fast foes. John C. Artz, '40, and Charles O. Dodson, '42, were high scorers for Delta Upsilon.

## Sailing Meet Takes Place Saturday With B.C., B.U.

A triangular sailing meet, with Technology fighting to hold its perfect record against powerful crews from Boston College and Boston University will take place next Sunday morning at 10 o'clock on the Charles. Commodore Hanson Adams, Chairman of the race committee, and Coe, "the freshman flash" will sail craft for Technology.

Technology has not lost a race in two seasons, and the race Sunday will be an attempt to preserve this record.

# Eta Kappa Nu Holds Initiation

## First Initiation Of Beta Theta Chapter To Be On Saturday

The first initiation of the newly formed Beta Theta chapter of Eta Kappa Nu, honorary society for electrical engineers, will take place on Saturday, April 15, at 5 P.M. in the Dutch Room of the Graduate House. The initiation will be followed by an installation banquet at 7 P.M.

Eta Kappa Nu was founded at the University of Illinois in 1904 and has grown to 31 chapters since then. The M.I.T. chapter was organized last October.

### To Reward Scholarship

The purpose of the society is to stimulate and reward high scholarship in the electrical engineering department. The M.I.T. chapter is aiming primarily to establish a closer relationship between the different options within the department and between faculty and students.

### Members of Society

The following members of the Electrical Engineering department will be initiated on Saturday: Professor Harold L. Hazen, '38; Russel C. Coile, '38; John H. Craig, '38; Johannes J. Jansen, '38; Vernon G. Lippitt, '38; Harry O. Saunders, '38; Ralph J. Slutz, '38; David S. Frankel, '39; Walter K. Halstead, '39; Leonard Mautner, '39; Maurie A. Meyer, '39; Humbert P. Pacini, '39; Joseph J. Riley, '39; Samuel Sensiper, '39; Herbert F. Stewart, '39; Norman H. Taylor, '39; Charles M. Edwards, '40; Louis W. Helmreich, '40; John L. Joseph, '40; Ralph J. Kochenburger, '40; Norman L. Laschever, '40; Richard B. Lawrence, '40; John H. McGuigan, '40; Henry T. Marcy, '40; Henry E. Singleton, '40; Marion L. Wood, '40.

## Broadcast

(Continued from Page 1)

Of course, the "Stein Song" will be included on the record.

### "Pops" Concert Is Planned

Another important development in the affairs of the glee club was the announcement that they will be the guest artists at the Pops Concert to be held June 3rd. This will be one of the outstanding events of Senior Week and most of the seats for the concert will be held by Technology. Last year an affair such as this drew a great number of people to the concert. The Pops Concerts are the outstanding and popular concerts given by members of the Boston Symphony Orchestra under the direction of Arthur Fiedler. The direction of the glee club for this event will fall under Henry Jackson Warren who is conductor of the Glee Club.

# Student Movement Will Hold Meeting

"The Place of Labor in a Democracy" will be the topic of discussion at a conference for students to be held in Walker Memorial on Saturday, April 15 from 2 to 9:30 P.M. under the auspices of the Student Christian Movement. Supper will be served on the West Balcony of Walker Memorial at 6:30 P.M.

Speakers will include Alfred Baker Lewis, a prominent Boston attorney, who will discuss proposed legislation relating to the subject under consideration: Professor Dirk J. Stuart, who will discuss the problem of labor-saving machinery; and Frank Crosswath of the Harlem Labor Center.

### All Students Invited

The opening address will be delivered by the Rev. Mr. F. H. Smith of Cambridge. There will be a registration fee of 25 cents to cover expenses. The T.C.A., sponsors of the conference have invited all students to attend.

## Military Engineers View Arsenal War Equipment

A trip to the Watertown Arsenal by the Society of American Military Engineers' Technology Chapter was attended by about 40 members yesterday.

The group, conducted by Lt. Col. Elory S. Irvine, and Lt. Stanley T. Wray, inspected the new guns and gun mounts now under construction.

The trip, which is the second this year, was open to all members of the R.O.T.C. Corps of Engineers who are citizens of the United States.

## A.S.U. Meeting

(Continued from Page 1)

groups and labor unions, talking on the topic of "The Student and Peace".

### Supports Defense Program

The Boston Council has set forth a program of action which it recommends for student adoption. They condemn the actions of fascist nations, and support efforts to help victims of persecution at the hands of such countries. They support the Good Neighbor policy, are against sending materials of war to aggressor nations, and support an adequate defense program for the United States.

# Rapoport Voted To Head M.I.T. Chemical Society

Henry Rapoport, '40, was elected president of the M.I.T. Chemical Society at a meeting last Monday in Room 2-390.

Other new officers of the society are Marjorie G. Quinlan, '41, vice-president; Milton Green, '40, treasurer; Arnold Arch, '40, secretary; Frederick H. Thompson, '40, trip manager; Mason L. Downing, '41, publicity manager; Henry Lemaire, '42, assistant publicity manager; Margaret Nehls, '41, chairman of the membership committee.

### Professor Norris Speaks

After the elections Professor Norris talked about the organic chemistry research going on at the Institute. He also called on Professors Davis, Huntress, and Ashdown who explained in a few words the research going on under their direction.

At the close of his address Professor Norris expressed the hope that the M.I.T. branch of the Chemical Society would soon have the number of members required for affiliation with the American Chemical Society. After the meeting refreshments were served in the Moore room.

 7:30 P.M. Refugee Committee Meeting—East Lounge.

### Address Is Given By Rev. C. Kopf States Need Of Individualism In Determining Religious Conduct

"You must build your own philosophy of life to successfully navigate the river of life", declared Rev. Carl Heath Kopf at the general meeting of the T.C.A. Embassy in Room 6-120 last Tuesday evening. Rev. Kopf, discussing the subject of "Life and Religion", stressed the need of individualism in determining religious conduct. "Your philosophy of life comes from your own experience", he further asserted.

Dean Samuel C. Prescott, while introducing Mr. Kopf, stated that when a person is younger he considers that the subjects of life and religion are separate topics, but as he gets older he comes to realize that the two are inseparable. Rev. Kopf reiterated the well known fact that life is essentially a battle between selfishness and unselfishness, where religion deals with the question of selfishness.

#### Boat Parable Used

In developing his topic, Mr. Kopf used the parable of the man who successfully navigated the treacherous lengths of the Colorado River alone in a craft of his own design.

He said that one must build his own boat and prepare himself adequately for his big chance in life. "It is also necessary to be able to determine when to go with and when to go against the current of Public Opinion," he asserted.

#### Perspective Necessary

"Last but most important is the necessity of being able to get away from life and look at it—that is what religion must give you," Rev. Kopf concluded.

After the general meeting, individual dinner meetings were held at the various fraternities, dormitories, and the 5:15 Club as part of the Embassy, which was sponsored by the T.C.A.

### Tech in Turkey

(Continued from Page 1)

mission. The plan was for the T.C.A. and Roberts College to divide the expense in sending some Tech graduate to Roberts College to teach in the engineering department. The T.C.A. paid for the student's salary and his traveling expenses. Roberts College gave him room, board and laundry. The project continued from 1928, when it was first initiated, until 1932 when financial difficulties caused its temporary discontinuation. The project during this time was very suc-

cessful and both the faculty and the students gave strong support to the plan.

#### Numerous Virtues of Plan

The virtues of the scheme were several times printed in The Tech in order that the students might see how and where their funds were being used. To Technology and its students it meant its sphere of influence was spread to foreign countries. It did its part in promoting good feeling between the students from all over the world who were studying at Roberts College and the United States. It aided Roberts College as there was always a shortage of engineering teachers. The plan had from the beginning the utmost support of President Karl Compton.

#### Plan Started Again in 1937

In 1937, there was a strong appeal from Roberts College to begin the project again after five years. The plan was again approved by the T.C.A. and in 1937 and 1938, representatives were sent to Turkey. However there seemed to be a change of view in regard to the worth of such a project by the students. This change of view which might have been a result of the conditions in Europe, came to the front during the T.C.A. campaign this year when The Tech showed by poll that the students no longer desired to support the project. This poll together with the survey made by the T.C.A. itself led to the action taken this week.

### Marriage Lecture

(Continued from Page 1)

topic. The outlines will be available to those who were unable to attend the lectures in the T.C.A. office anytime after Monday, April 17.

#### Firm Philosophy Needed

Professor Magoun opened his talk with the statement that one of the basic reasons for the unhappiness and unrest in the world today is largely the result of the fact that technology and science has gotten ahead of our philosophy, and that the marriage course had as one of its aims, the formation of a philosophy of life. He stated that common responsibility with a minimum of self-assertion would be a firm foundation for the growth of such a philosophy.

In emphasizing the main points of the speech, the lecturer drew analogies with fundamental laws learned at the Institute. One of the most important of these, the speaker urged, is that every action has an equal and opposite reaction. Professor Magoun gave several pertinent examples of this law applied to life in the home.

Emphatic in his statement that ignorance which doesn't want to learn is invincible, Professor Magoun warned that happiness can not be achieved if

### 15 Institute Men To Visit Boston Harbor Tomorrow

Through the annual invitation from the Navy Department to the Institute, fifteen men will see three models besides the historic Constitution in Boston Harbor tomorrow.

The men selected will have lunch with members of the Department at the Navy Yard where they will see the Constitution and a new cruiser stationed there temporarily. From the Navy Yard they are to go to East Boston to see the Laconia at the Cunard White Star docks and the S.S. Berkshire at Pier 2 in South Boston.

a person does not attempt to take a mature stand on the problems faced in life. He pointed out that it is of extreme importance for a husband to know what he is learning in his daily activity, and to know what his wife and children are doing, to become better acquainted with things surrounding them.

#### Mature Approach Necessary

Professor Magoun brought out as one of the basic requirements to successful marriage the need for a mature approach to the many complex problems that will inevitably arise. He defined a mature approach as one which was carried out with intelligence and an immature one as one which is governed by a person's emotions. Professor Magoun outlined the methods for intelligent approach, listing self-control, concentration, and recognition of pertinent material essential to obtain the whole truth of the situation. He added that the majority of the people let their emotions dominate them, which forces them to concentrate their attention on what they are feeling rather than on the true aspects of the problem. Because of this they have a tendency to accept half truths, eliminating any essential facts that do not fit their side of the case. Professor Magoun stated that the process of acquiring a mature approach to a problem is long and difficult, but is worth all the effort that is expended in happiness that will result.

#### Unselfishness Stressed

Another factor that the lecturer pointed out which was responsible for a major part of the world troubles was selfishness. He made the statement that happiness and selfishness can not exist at the same time, and that this fact has been known for 4000 years but human nature will not admit it. In marriage similar backgrounds are not enough to insure a successful home, but both must be unselfish, willing to suffer for each other rather than from each other.

After quoting statistics to the effect that 10 per cent of the audience would not marry, Professor Magoun claimed that while infatuation is blind in one eye in that it sees only the good side and not the bad in the loved person, an unmarried person is blind in both eyes since he does not see even the good. He went on to add that professional success and recognition are empty shells without a happy home.

#### Series Finished

Professor Magoun stated that the lecture series had dealt mainly with preventative methods, but that in many of the large cities there are organizations which give marriage counsel to those who have become involved in unhappy marriages. He said that unhappy married couples should consult these authorities in order to get to the bottom of the situation.

The lecture series was brought to a close by Professor Magoun's thanks to the T.C.A. for sponsoring the series and to his mother and wife for their conviction in his work.

### A. P. O. Features Institute Service

#### New Guide Service Begun, Plans Made For Scout Day At Tech

Alpha Chi of Alpha Phi Omega, the Institute's chapter of the honorary Scouting fraternity made final plans at its meeting Wednesday night in Walker Memorial for a new system of guide service to be conducted by the fraternity in conjunction with the information office guide service.

The plan, which went into effect yesterday, provides for one A.P.O. member to report to Mr. William Jackson of the information desk each hour every day with the exception of lunch hours and Sunday, and if there are any visitors waiting, to guide them around the Institute. All members have signed up for one or two hours a week in which they have no classes.

#### Boy Scout Day Planned

The plan, which was received enthusiastically at the information office is part of the service policy of the Fraternity. Besides other Institute services, plans were also discussed for the "Boy Scout Day at Tech" to be held on May 6 at which a large group of Star, Life and Eagle scouts residing in the vicinity, particularly those interested in engineering, will be guests of the fraternity for the day. The plans include a tour of the Institute, and the showing of Professor Edgerton's high-speed movies.

The group will also take in the Compton Cup Crew races and the Bates Track Meet, which takes place on the same day.

### Lounger

(Continued from Page 1)

just measured one) and distributes by the simple process of leaving them lying around on the table in the T.C.A. outer office. It should be remarked that these calendars have nicely printed backs, which is what may have given him the idea in the first place, or maybe his mind just naturally ran to that sort of thing. Playing cards, we mean.

As we said, he had a large number of these cards, and he sat himself down, not in the T.C.A. office, but in another of Walker Basement's dens of iniquity, to make himself a pinochle

### Bridge Tournament End Sunday At Sigma C

The final round of the interternity bridge tournament will be played next Sunday at 2:30 P.M. at the Sigma Chi house.

Sixteen teams of which 8 were eliminated entered the first qualifying round last Sunday at the Sigma Chi house. The remaining teams at Sigma Chi, Delta Psi, Chi Phi, Delta Delta, Theta Xi, Delta Kappa Epsilon, Theta Delta Chi, and Sigma Alpha Epsilon.

He found, however, that the surfaces of the cards were varnished with something or other (was varnish?) so that they would not take ink. Pencil markings were also suitable.

A freshman who had been watching the proceedings with great interest and approval (it was the inhibition coming out of him) offered, in the interests of science, to test his delishable pencil on the cards. After liberal wetting on the freshman's tongue, the indelible pencil was applied to the card, and great was the elder's joy to see a beautiful purple mark left on the face of the card. When the elder, in high fettle, proposed to continue this marking of cards the freshman demurred. Not that he cared about his tongue, but that young as he was he had some appreciation of the virtues of indelible pencils, and the feeling that they were not to be abused. And thus was the elder frustrated.

The elder sat for a time as in a daze, and his sadness grew upon him. And he sighed, as if his sorrow were too much for one man to bear, and he spoke, saying, "Well, I guess I'll have to put these cards back where I got them."
