Bloom to Head Debate League For Next Year

Tech Team Takes Eighth In Tournament After 3 Year Lead

COLGATE IS CHAMPION

L. Hurley Bloom, '40, president of the Technology Debating Society, was chosen president of the Eastern Inter-collegiate Debate League at its annual meeting last Saturday. The Institute team, however, lost the E.I.D.L. championship for the first time in four years.

By his election Bloom returned the managing position of the League to Technology for the second successive year, breaking an 8 year precedent. Peter M. Bernays, '39, is the retiring president.

Colgate is Champion

After winning the E.I.D.L. tournament for three successive seasons the Technology orators dropped to eighth place this year, relinquishing the championship to Colgate.

Both Colgate and Bates finished the season with five victories and one defeat. By a vote of 16 to 14 by the judges the management awarded the decision to Colgate.

The Institute team overcame only the opposition of Pembroke and Colgate, and was defeated by Bowdoin, Bates, Lafayette, and Wesleyan.

Under Technology leadership the league hopes to expand to double its present size next year, Bloom said. The Middle Atlantic division will be under the direction of Vice-President Raymond Underwood, of Bucknell.

M. I. T. Glee Club Sings With Lasell

Lasell Gives Formal Dance Following Concert On Saturday

The Technology Glee Club, led by Mr. Henry Jackson Warren, held a concert in conjunction with the Lasell Orphean Club at Auburndale, Mass. last Saturday night. A dance for the Institute men followed the concert.

About twenty five men joined the seventy-five regular members of the glee club. F. Lewis Orrell, '39, represented the Technology group by a solo rendition of a Finnish student song, "Student Evening." Both groups sang several songs together.

Dance Is Formal

The dance held for the Institute men was formal, and lasted from 10:00 P.M. until 12:00. During the intermission, John B. Murdock, '41, presented a xylophone solo.

The concert was a return engagement. The Lasell group had given a concert at the Institute last month, at which about 150 Lasell girls participated.

5:15 Celebrates Holiday At Room Dance Tonight

A victrola dance will be held by the 5:15 Club in the Clubroom tonight from eight to twelve. The room will be decorated in patriotic colors to celebrate Patriot's Day, and prizes will be awarded for a variety of contests.

Herbert R. Moody, '41, chairman of the room committee, stated that a door prize will also be offered and refreshments will be served at eleven o'clock. Admission will be twenty-five cents to members and sixty cents to non-members.

Five O'clock Deadline For Nomination Blanks

Nomination blanks for class officers are due in the Information Office at 5:00 tonight. Each class except the Senior Class will be voting for a president, secretary, treasurer, and two representatives to the Institute Committee.

The Senior Class is to elect a permanent president and secretary. The elections will be held April 26 in the Main Lobby.

Long Labor Fight Will Be Discussed At Tech Town Hall

Prof. Brown And Dr. Meyer To Speak On Rift In Labor Ranks

The Tech Town Hall will meet to discuss the strife between the A.F. of L. and the C.I.O. on Tuesday, April 25 at 5:00 in 10-250. Two main speakers will appear: Dr. A. Howard Meyer, the North Eastern Regional Director of the National Labor Relations Board, and Professor Douglass V. Brown, of the industrial relations section of the Institute's Economics department.

The men will devote their talks to the hopes for unity between the two organizations struggling to gain con-

(Continued on Page 4)

Town Hall

Appointments Are Announced

Many Faculty Members Advanced—Name Instructors

Faculty promotions and appointments for the next academic year were announced by Institute authorities last night.

Members of the faculty promoted to the rank of professor were Wyman P. Fiske, department of Business and Engineering Administration; Victor O. Homerberg, department of Metallurgy; Joseph H. Keenan, Otto C. Koppen, and Joseph S. Newell, all of the department of Mechanical Engineering; and Philip M. Morse, Manuel S. Vallarta, and Bertram E. Warren, all of the department of Physics.

Associate Professors Announced

Promoted to the grade of associate professor were Lawrence B. Anderson, Herbert L. Beckwith, and John L. Reid, all of the department of Architecture; and Francis W. Sears, department of Physics.

Those members of the staff who have been elevated to the rank of assistant professor are George Akin, Director of the Institute's School of Chemical Engineering Practice at Buffalo, N. Y., James E. Seebold, Director of the School of Chemical Engineering Practice at Brunswick, N. J., and Roy P. Whitney, Director of the

Promotions

Dorm Elections Run Off For The 6 Hall Chairmen

Six men were elected Hall Chairmen for next year's Dormitory Committee, as announced last Sunday night. Those chosen were Charles A. Wales, Jr., Willard S. Mott, Herman E. Gabel, Jr., Joseph E. Dietzgen, John B. Murdock, and Rudolf W. Hensel, all members of the Class of 1941.

These men, as well as others who are to be chosen from special positions, will take office at the last Dormitory Committee meeting of this year.

Building Of Fair Will Be Feature Of T. E. N. Issue

Preview Of England's Newest Liner, "Queen Elizabeth", Also Appears

Details of the construction of the San Francisco World's Fair will be featured in the April issue of the Tech Engineering News when it appears on sale next Tuesday and Wednesday.

This leading article about the California Fair is entitled "East Meets West". It was written by Walter E. Morton, Jr., '41.

Coal Article to Appear

"Coaling New England," by R. L. Van Dyke, also is to appear in the forthcoming issue. It will be a detailed discussion about the problems of marketing coal in tidewater New England. Mr. Van Dyke is a member of the Market Committee of the Smokeless Coal Corporation.

The third feature is "552," written by Theodore G. Lindsay, '43. It is a preview of England's new liner, the "Queen Elizabeth."

The compiled results of T.E.N.'s cigarette poll will also be presented in this issue. The poll was held in the Main Lobby where each man was allowed to try three cigarettes with the names removed and letters substituted. He then wrote the brand after the letter of the cigarette.

Hagenbuch Gives Up Refugee Post

William H. Hagenbuch, '40, has resigned as chairman of the Technology Refugee Committee, it was announced last night. Norman R. Klivans, '40, is the new chairman, Hagenbuch still remaining on the committee.

The former chairman explained that his work as president of the T.C.A. did not allow him to devote enough time to the Refugee work.

The committee also announced that \$212 in pledges remain to be paid, and that the total cash on hand, over expenses, is now \$724.05. Arrangements are being made to secure contributions from outsiders.

Refugee Student Interviewed

A Harvard refugee student, Kurt Herzfeld, was interviewed by the committee last night in an effort to get information about a typical refugee student.

Herzfeld, who had spent one year as a medical student in Vienna, Austria, declared that an allowance of \$10 per month for necessities would be sufficient. This plan would require, however, that the student live at a house where he could earn part of his board and lodging by performing small duties.

The committee is now looking for suitable residences for future Technology refugee students.

I. F. C. Dance Signs Dorsey From 1:30-4

Andrews Sisters To Head Entertainers In Two Shows

MARSHARD PLAYS TOO

Tommy Dorsey and his orchestra have definitely been signed to play the second half of the I.F.C. party April 28 at the Imperial Ballroom of the Hotel Statler. Music for the first part of the evening will be furnished by Harry Marshard. The Andrews Sisters will do two shows, one at 10 and the other at 1.

The committee, which had some difficulties with its pending contracts, announced last night that all contracts had definitely been signed and that redemptions will be started on Monday, April 24.

Dorsey to Warm Up at Garden

Dorsey, oft-termed the Sentimental Gentleman of Swing, will warm his band up at the Boston Garden for the Friars' Ball during the early part of the night. Edythe Wright and Jack Leonard will appear with the band to do the vocals.

Harry Marshard has long been a society favorite, and has played in many of the nation's best hotels.

His engagements include the Ritz Roof, the Balinese Room of the Hotel

Duck Novel Prize At Tech Carnival

Committee Of Eighty Named To Help With Contests And Exhibits

The lucky winner of a door prize at the All Tech Carnival will be presented with a live duck, Harold V. Wallace, '40, chairman of the dance committee, announced last night. The duck will probably be equipped with a leash and will serve as a pet if the fair winner lives in a dormitory, or as a Sunday dinner if she lives in a sorority house or at home.

More than forty couples will act as barkers at the contest games and concessions in the Main Hall of Walker and in the 5:15 Room. Peanuts and popcorn will be sold as well as pink lemonade at a soft drink bar.

Exhibit Contest Spirited

Final directions will be mailed this week to the twelve exhibitors in the keenly contested Rube Goldberg machine contest. Three dormitory, eight fraternity, and a rumored coed entry have been received.

The Carnival will be held in Walker Memorial on Saturday, April 29. It is to start at eight-thirty, following the All-Tech Sing in the Great Court and will last until twelve. Tickets are on sale through next week in the Main Lobby at seventy-five cents per couple.

Sigma Chi Places First In Bridge Tournament

Sigma Chi's bridge players emerged victorious Sunday afternoon in the final round of the inter-fraternity tournament.

Second place was taken by Chi Phi, while Delta Psi followed in third position. The Delta Kappa Epsilon fraternity was fourth.

The winning team came out ahead of a field of sixteen. An intermediate match, held the week before the finals, eliminated all but eight teams.

Annual Walker Assemblies Ball Attended By 300 Couples Last Friday Evening

More than 300 couples attended the fifth annual Walker Assemblies Ball, held in Walker Memorial last Friday night from 10:00 P.M. to 3:00 A.M., and danced to the music of Bert Williams' orchestra.

The receiving line was formed at 10:00 and included Mr. and Mrs. Horace S. Ford, Professor and Mrs. Leicester F. Hamilton, Mrs. James R. Jack, Mr. and Mrs. Delbert L. Rhind, Professor Avery A. Ashdown, Mr. and Mrs. Albert W. Bridges, Mr. and Mrs. George W. Ives, Mr. Frederick G. Hartwell, Mr. William E. Smith, Mr. Henry P. McCarthy, and Mr. Walter C. Wood.

Grand March Held

At 11:45, the staff began the colorful march known as the Assemblies Promenade.

Shortly after midnight intermission was called during which the guests were entertained by the singing of Willard S. Mott, '41, accompanied on the piano by Marshall P. Bearce, '40. Miss Anne Schultz also sang, and was accompanied on the guitar by Richard H. Braunlich, '40.

Guests Cooperate With Staff

A buffet supper was served in the North Hall during the intermission by guests of the staff members. The sponsors were served in the Silver Room.

Several guests of the staff men worked on registration of the guests as they entered the hall. They were: Miss Barbara Smith, Miss Virginia Kelcher, Miss Marguerite C. Fuller, Miss Eleanor Say, Miss Marjorie Ernst, and Miss Eleanor McNulty.

HERE AND THERE

To borrow a phrase from that needle-tongued mistress of wit, Dorothy Parker, VooDoo has again run the gamut of humor from A. to B. And now we apologize for having mentioned the name of a clever writer and VooDoo in the same breath.

The lads managing the All-Tech Carnival have been struggling with the problem of just how many balloons are necessary to decorate the vast acreage of Walker's ceiling. Apropos of dances in Walker, it has been suggested that the immense and gloomy spaces of that echoing vault be disguised with canvas scenery along the walls. It is difficult to conceive of Walker's dining hall converted to a small and intimate cabaret, but it might be done.

Lewd snickers among the students makes us think that VooDoo has once more spawned. As usual, its effect has been to revive the high school smut session spirit.

Here is some more poetry that has come in through the mail:

The art of soft-soap spreading
 Is a thing that palls and stales.
 But the guy who wields the hammer
 Is the one who drives the nails.

—Cleveland Plain Dealer.

You tell 'em kid—
 You're peaceful and not too hard to please,
 But the dog that's always scratching
 Is the one that has the fleas.

—The Way Bill

VOX POPULI

Commendation is due the T.C.A. Cabinet for their prompt action in suspending the Tech-in-Turkey plan, during the time being at least. This prompt recognition of student opinion should serve to line the students more firmly in favor of the other services which the T.C.A. performs.

The Tech-in-Turkey plan itself is commendable, but the time is not suitable to put it in effect. The Tech has pointed out that the student body at the present time does not favor the expenditure of money for maintaining this service. Since it is their contributions which help the T.C.A. to operate, there was no reasonable alternative than to suspend operations for a while. If outside means of support can be found to carry on Tech-in-Turkey, we heartily hope that it will be repeated; it would be particularly

suitable if some liberal organization could support this truly peace-promoting aid to democracy.

If the T.C.A. wonders as to what use to put some of the funds released from Tech-in-Turkey, we can think of no better field than the boys' work they are conducting among the underprivileged children in Greater Boston. Tech-in-settlement houses is a missionary work which will pay immediate dividends in the gratitude of the community.

THE SILVER LINING

The I.F.C. Dance Committee has emerged from a tough jam at last with its colors flying. Tommy Dorsey will play, even though for the last part of the evening only. The Andrews Sisters are definitely to exercise their combined vocal chords, and a good orchestra has been secured for the first portion of the dance.

But this is the second year running that the committee has gotten itself into a tight corner. Something is wrong somewhere. The fault this year cannot be put primarily at the doorstep of the dance committee. They were royally double-crossed, to put it mildly. But experience should teach the I.F.C. to take precautions against such behavior of the agents with whom they deal. It might be wise for them next year to add a good lawyer to the committee.

Contrasts have been drawn between the uneventful legal success of the Junior Prom, and the not-so-uneventful attempts of the I.F.C., but it must be remembered that orchestras are not so much in demand during the time of the year when the Junior Prom is held. This is the season when many girls schools are giving dances in addition to the innumerable spring festivals of other colleges.

A good deal could be said about the murky behavior of the Music Corporation of America, through which this school gets most of its contracts for name orchestras; but that would not help. If that agency considers such behavior as it has just shown to be business ethics, then we should be prepared to deal with them on that basis, giving them no advantages.

However, in spite of clouds, the sun of the I.F.C. dance has broken forth to spread a not-inappreciable warmth over the scene. It should be a good dance, well worth going to.

HOW TO START A WAR

In last Friday's issue of this publication, there was a news article concerning projected activities of the United Student Peace Committee, activities endorsed by the Technology Peace Federation and the M.I.T. branch of the A.S.U.

These activities include condemnation of the actions of the fascist nations, efforts to stop the sending of war materials to aggressor nations, and support of an adequate defense program for this country.

Such activities are in direct conflict with the name and assumed intent of such organizations for peace.

They encourage conflict, and possibly war, rather than discourage it. Taking sides has never stopped any battle, and groups which take sides so violently and unequivocally as do the organizations referred to above will never keep us out of war, nor the rest of the world. If anything they are probably doing more to plunge us into the next conflict than many confessed war propaganda agencies. These organizations are certainly not aiding the cause of peace by stirring up hatred, and working for material opposition to any nation, however much harm that nation has done. That is how war is created.

The prime requisite for peace is the establishment of a peace-loving frame of mind in people, not the agitation of their bile. The duty of a group working for peace is not to decide what nation is right and what nation is wrong, but to try and find the best way to keep the people of any and all nations out of war. Such efforts are not exercises in tub-thumping and chest-beating, but exercises in applied diplomacy and clear, calm thinking.

School of Chemical Engineering Practice at Bangor, Maine.

Others Named

Others are Gordon S. Brown, department of Electrical Engineering; Francis M. Currier, department of Modern Languages; Cecil G. Dunn, department of Biology and Public Health; Harold A. Freeman, department of Economics; Albert R. Kaufmann, department of Metallurgy; Norman Levinson, department of Mathematics; M. Stanley Livingston, department of Physics; Dwight L. Palmer, department of Economics; Carl M. F. Peterson, department of Mechanical Engineering and Assistant Superintendent of Building & Power; Irwin W. Sizer, department of Biology and Public Health; Howard R. Staley, department of Civil Engineering and Henry G. Houghton, Jr., department of Mechanical Engineering.

Newly appointed as an assistant professor in metallurgy is Dr. Carl F. Floe, who comes to the Institute's Staff in the department of Metallurgy from the University of Notre Dame.

Instructors Announced

Promotions to the grade of instructor included Douglas P. Adams, and Gerald Putnam, both of the division of Drawing; Richard U. Bryant, Clarence W. Christiansen, Albrecht E. Reinhardt, and Lucien R. Vianey, all of the department of Mechanical Engineering; Seibert Q. Duntley, department of Physics; Albert C. Hall, and Lewis P. Reitz, Jr., both of the department of Electrical Engineering; Joseph A. Bergantz, department of Chemical Engineering; Thomas R. P. Gibb, Jr., Albert J. Klemka, and Walter H. Stockmayer, all of the department of Chemistry; and Francis B. Hildebrand and Erik Reissner, both of the department of Mathematics.

Ralph Eberlin of New York was appointed a lecturer in Architecture.

Announcement was also made of the retirement of Professor Alpheus G. Woodman of the Department of Chemistry, who has been a member of the Institute's teaching staff for 42 years. He was graduated from

TECH

Tech Wins Dinghy Race On Charles

F. Walker Takes Series As B. U. Captures Second Place

COE STARS FOR TECH

Although handicapped by unpredictable breezes, the Tech sailing team once again emerged victorious in a match with Boston College and Boston University on the Charles last Sunday morning. Skippers Coe, Hanson, and Adams represented M.I.T., while A. Andon, J. Sherwood and F. Walker captained the second placing B. U. boats. Unfortunately only two boats were sailed by B. C.

Walker Brothers Star

The Walker brothers, representing B. U., were the high scorers for the morning with a total of 41 out of a possible 48 points. The tricky wind, which emanated from a general north westerly quarter, made the tacking a gamble, with first one and then another boat in the lead. Nonetheless the three Tech men navigated with their usual skill, and all were well above 68%.

Jerry Coe, proving again that sailing a lake scow on Madison's muddy waters is excellent training for the real test in a Tech dinghy, was the high man for Tech with 38 points, winning the amazing total of three of

the six races. Commodore Herman Hanson followed closely on Coe's transome with 35 points, pulling away for a first place in the third race. The third place skipper for Tech was the chairman of the race committee, Ed Adams, who won the last race of the morning.

To Sail Navy

The Tech sailors easily carried the match with 106 points, while B. U. followed with 76. Since there were only two entries from B. C., they were out of the running from the start.

The match was a good warm-up for the big race with the midshipmen at Annapolis this Saturday. With an impressive array of victories behind them the Tech triumvirate of Coe, Hanson, and Adams is the favored team in the Navy race even though handicapped by sailing unfamiliar International Fourteen Footers.

Oarsmen To Meet Harvard Saturday

Technology's crew will open its season this Saturday with a quadrangular regatta against Harvard, Rutgers, and Boston University. The oarsmen will row The Henley distance, 1 5/16 miles.

At 3:30 P.M. the freshman race will start, with the Jay-Vee, 150 pound varsity, and varsity following at half-hour intervals.

Varsity Must Sprint

This year's varsity, averaging 6 feet, 1 inch, are 1 1/4 inch taller and 10 pounds heavier than last year. Their ability to sprint, however, should be the deciding factor in Saturday's race.

Howard Robbins, well known rowing figure, will be starter and referee, while Stuart Paige, '39, will be Technology's timer. The Rutgers and Boston University crews will not row in the 150 pound and freshman classes.

Vose Trophy Series Raced

Hanson Is Leading Field As Weekend Races Continue

Commodore Herman Hanson starred in the third of the Vose Cup races, held last Sunday afternoon, with 82%. The consolation competition was divided into two divisions with Larry Kelbley and Windy Gibson the winners with 80.4% and 94% respectively.

The racing conditions were perfect, though cold, and the wind was easterly. Frank Seeley won the first and

third races, while Herman Hanson finished first in the other three. Ed Adams finished second for the afternoon while Charley MacArthur tied with Frank Seeley for third place.

Convenient to Fraternity Men

B. S. East Indian and Lake Orms of the Ford Fleet

Down to the sea in Ford ships go millions of tons of shipping. The Ford docks berth one of the largest industrial fleets in the world.

There are 29 Ford ships in all, including seven seagoing craft, the two largest motorships on the Great Lakes, barges, tugs and canal boats. They are kept busy bringing raw materials to Ford plants, or carrying parts or assembled cars outward-bound.

Ford production methods eliminate all extra handling or storage of material and parts. Waste motion is waste money. Useless storage takes time, space, and ties up capital.

So, parts and materials flow in a steady, unstoping stream to and from the great Ford plant on the River Rouge. Iron ore—much of it dug from Ford mines—and coal from Ford mines—come to the Rouge in Ford ships.

Ore that reaches the plant Monday morning may emerge about 28 hours later—or Tuesday noon—as part of a finished car. In its progress from earth to automobile it has been constantly under way and under control. There is no guesswork.

Ford efficiency begins at the beginning. In the end, the sum of these savings is passed along to buyers of Ford cars and trucks—in the form of lower price and higher value.

control of labor power. They are to discuss President Roosevelt's recent appeal to the leaders of the two groups to reach some agreement at once.

President Wished Consolidation

The President wished an effort to be made to consolidate the interests by having Green and Lewis appoint committees from their respective organizations to meet and attempt to solve their difficulties by arbitration.

The committees met last Monday and have as yet failed to find a common basis for cooperation. Their main

point of disagreement is over the Wagner Act. The C.I.O. wants no change in the Act but the A.F. of L. has proposed eight amendments to it. Before these are approved, the A.F. of L. will offer no support to the President's plan of consolidation.

The speakers will attempt to portray a clear picture of this complex labor situation, at the same time expressing their own views on the subject.

Somerset, and the Towne Club, all in Boston, the Persian Room of the Hotel Plaza in New York, the Florentine Room of Detroit's Hotel Statler, and the Hotel William Penn in Pittsburgh. In addition to these engagements he has played numerous society parties. Harry Marshard's orchestra was co-featured with Benny Goodman and Rudy Vallee at the Boston Garden Jitterbug Contest last January.

Andrews Sisters on Air

The Andrews Sisters are appearing every Saturday night on a nationwide hook-up with Phil Baker and Eddie DeLange's orchestra. These pretty sisters are well-known for their recordings of "Hold Tight", "Rock-a-Bye Baby", and "London Bridge Is Falling Down".

The committee is planning some ad-

ditional attraction for the evening but no plans have been revealed yet. It was learned, however, that no buffet supper would be served.

Permit Goes Only to 3:15

Negotiations to extend the time of the police permit from 3:15 to 4:00 have not been completed as yet.

Among the patrons will be President and Mrs. Karl T. Compton, Mr. Nathaniel McL. Sage, Professor and Mrs. Leicester F. Hamilton, Professor

and Mrs. Albert A. Schaefer, Professor Avery A. Ashdown.

"Best Party"—Seykota

When asked for a statement dance, Harold F. Seykota, 33 man, said: "Now that we have not only the attractions that finally promised the men, but added one more and are considering still more innovations, there is no doubt in my mind that this party will be the best in all-school history."

WORLD'S PLEASURE

Chesterfield

... the RIGHT COMBINATION of the world's best cigarette tobaccos

... they're MILD and TASTE BETTER

At the New York World's Fair

... Captain NANCY LOWRY and her Guides will show millions their way around.

And at the Fair... or wherever you go... Chesterfield's right combination of the world's best cigarette tobaccos is showing millions the way to more smoking pleasure.

When you try them you'll know why Chesterfields give smokers just what they want in a cigarette... more refreshing mildness... better taste... more pleasing aroma. THEY SATISFY
