T. C. A. Plans New Budget After Failure

Revision Methods Subject Of Cabinet Meeting Last Week

DIVISIONS CUT EXPENSES

Methods of budget revision were discussed at the meeting of the T.C.A. cabinet Wednesday, November 22. Revision was necessitated by the failure of the recent drive to reach the \$4,250 goal.

It was decided that each division manager would meet with the T.C.A. treasurer and plan how the expenses of his department could be curtailed. A cut in the allotment of each department must be made before the end of the fiscal year, March 15. It was decided that the Christmas tree would be put up in the main lobby this year although this service costs over \$20.

Marriage Lecture Cancellation Discussed

Cancellation of the marriage lectures next spring was discussed as a possible means of decreasing the expenditures. Although the fall lectures are given by Technology professors free of charge, the spring lectures are given by outside authorities who must be paid. Final action will be decided upon at the next cabinet meeting.

Robert Crosby, '42, director of the T.C.A. ticket service, announced that \$1,167.10 worth of football tickets have been sold this season. The number of tickets sold and the total value for each Harvard game is as follows: Yale, 67, \$257.95; New Hampshire, 15, \$21.45; Army, 122, \$402.60; Dartmouth, 118, \$382.15; Pennsylvania, 109, \$193.05; and Bates, 6, \$9.90.

Sorority Hostess To Catholic Club

Wellesley Girls Invite Group To Join Dance At Phi Sigma House

The Technology Catholic Club has been invited to hold a joint dance with the Wellesley Catholic Club next week, Joseph J. Casey, '40, president of the Institute club announced last night.

The dance will be held on Saturday evening, December ninth, from eight to twelve in the Phi Sigma sorority house at Wellesley.

Second Event of Its Kind

This event is the second of the club's meetings with girls' school groups this year; dinner dances have also been planned with Simmons, Radcliffe, and Boston University. Because of the distance to Wellesley and the absence of dining facilities there, this will be a regular dance without a dinner being served.

Recordings will be provided for the dancing; both boys and girls will attend the dance stag, as this is planned as a continuation of the acquaintance dance program started earlier in the

(Continued on Page 4)

Italian Student Society Will Be Organized Soon

Il Circolo Italiano, a social club for Italian students, is being organized by D. A. Grieco, '31. The first meeting will be held in the West Lounge on Monday, December 4, from 5:15 to 7:15 P.M.

Invitations have already been sent out to the 57 Italian students on register at the Institute. All interested Italian students are cordially invited to attend.

Ice-bus Falls Down; Raspberry Boomerangs On Armour Tech

Faces at Armour Tech are a bit on the crimson side of late. A sadder but wiser certain group of students at that midwestern engineering school today are forced to admit the truth of that epic statement, "Explore America First"

It all happened last month when, after weeks of drawing-board planning, Armour Tech's "engineers" triumphantly produced the snow cruiser now on its way to the Antarctica with the Byrd expedition. Everything looked fine on paper. The cruiser was ready for anything.

Institute Razed

In fact, at the departure of mechanical marvel from Soldiers' Field, Chicago, a number of Armour Tech's self-styled scientists gave a lusty raspberry for Dr. Compton's institu-

tion on the banks of the Charles. They even suggested that the cold weather bus be driven along Memorial Drive to show the boys from Cambridge what Armour Tech can do.

Then came the eventful trip East. Today the fate of the pride of Armour Tech's plumbers is well known. News reels, magazines, and newspapers all have carried stories of the difficulties encountered in the cruiser's journey to Boston. It broke down innumerable times. It weaved from side to side along its course, even once careening through a fence and landing in a farmer's field. According to accounts in Boston papers, it held up 70,000 automobiles and trucks for hours on end, along the Worcester turnpike. Finally, it had to be cut in two before

(Continued on Page 2)

5:15 Club Dance Will Be Climaxed By Duck Classic

Lucky Couples To Receive Six Real Live Ducks For Door Prizes

As the climaxing event of their Thanksgiving Dance tomorrow night, the commuters will hold a duck race on the main floor of Walker Memorial to determine who among the guests will carry home a live meal. Six ducks are entered in this classic, and it is expected that six couples will each leave with one of Walt Disney's proteges.

Mickey Gerard and his "Twelve Men and a Girl" orchestra are to provide both music for dancing and other entertainment. Gerard will present demonstrations of the latest dance steps, a few comic skits, and imitations of well-known bands.

Dance to Be Informal

The dance, which is to be informal, will last from 9 P.M. to 2 A.M.

Chaperones invited to the affair are Professor and Mrs. Leicester F. Hamilton, Major and Mrs. Kirke B. Lawton, Professor and Mrs. F. Alexander Magoun, and Professor and Mrs. George P. Wadsworth.

Glee Club Gives Second Concert

Eighty selected members of the M.I.T. Glee Club presented, in conjunction with the Musical Clubs of Pembroke College, their second concert of the year last Saturday evening, November 25, in the auditorium at Pembroke.

Technology's part of the performance included seven individual selections as well as two rendered jointly with the Pembroke singers. Arthur Lowell, '41, was the soloist in the Glee Club's rendition of Shenandoah, traditional American sea chantey.

Dance Follows Concert

Following the concert, Pembroke College, the women's division of Brown University, entertained the Technology group at a dance. During the intermission Northrop Brown, G. accompanist-composer of the Glee Club, played some of his satirical compositions, among which was "Variations on a Well-known Theme" (Chopsticks.)

Also entertaining the dancers during intermission was the Technology Octet, eight picked voices from the Glee Club, in their first appearance of this season.

Dean Caldwell To Speak To Students Of Spanish

Dean Robert G. Caldwell, ex-Ministro de los Estados Unidos en Bolivia y en Portugal, hablara al Grupo de Habla Espanola de M.I.T. sobre "El Tema Central de la historia Latinoamericana" en una conferencia el proximo martes, 5 de Diciembre en la Sala 6-120 a las 5 de la tarde.

El Profesor Manuel S. Vallarta detallara algunos de los aspectos del discurso del Dean en un subsecuente discurso en Espanol.

Debaters Incur Weekend Losses

Orators Lose To Radcliffe, And Vermont; No-decision With Middlebury

Three debates, two of which were decided against them, marked the activities of the Technology debating team over the weekend.

In the first, held with Middlebury College in Middlebury, Vermont, on Friday evening, on the topic, "Resolved: that under no possible circumstances should the United States send armed forces to Europe," no decision was given. Samuel I. Omansky, '40, Ward J. Haas, '43, and Paul M. Eriandson, '41, formed the Technology team, which took the affirmative.

Omansky and Werby Debate

Saturday night, Omansky and Russell T. Werby, '40, took the negative of the resolution that the United States should adopt a policy of complete isolation towards all nations outside of this hemisphere engaged in war in a debate with the University of Vermont. This debate, won by Vermont, was not broadcast over the radio as was originally announced.

The debate with Radcliffe this afternoon on the same subject as the one with Middlebury was decided in favor of the Radcliffe girls, although the judges admitted that the Technology team, composed of Edward W. Warsaw, '43, and Franklin G. Klock, '42, was almost equal.

Cosmopolitan Club Gives Talk On Crime Detection

"Scientific Crime Detection" was the subject of a talk given to the Cosmopolitan Student Club of Boston, by Mr. West, of the Federal Bureau of Investigation, Sunday night at the International Institute House, 190 Beacon Street.

The club, it was announced by Andrew Kopschiansky, '40, president, will continue its program of promoting acquaintance among foreign students in Boston and vicinity by means of a hike to Spot Pond this Saturday. All interested were asked to meet at the information booth inside the Park Street subway station at 2:00 P.M.

Governor's Proclamation Stops Issue Of The Tech

Although President Roosevelt says it isn't. President Compton and Governor Saltonstall say it is. The Tech says it is.

It is generally conceded that there are no higher authorities around the Institute than the last three named. Therefore, Thursday, November 30 is officially a holiday and as a result there will be no issue of The Tech on Friday.

Stratton Prize Deadline Made

December 21 Final Date To Register Entries For Contest

December 21 has been set as the deadline for entries to the annual Stratton Prize Contest by the Faculty committee in charge of the competition. The prizes for the contest, which is open to any Institute undergraduate, are the usual sums of \$50, \$30, and \$20.

Each person intending to enter the public speaking contest must register with the Faculty adviser of his department or the president of his course's professional society. At the time of registration the entrant should indicate the subject of his talk and the relative scope covered by his material.

Eliminations After Christmas

The entry date has been scheduled to enable aspirants to begin preparation for the talks during the Christmas vacation. Eliminations will be held by each professional society for the entries from the course that it represents during January and February. Three members from each course will be selected to enter the semi-finals.

Sound facts on a technical subject
(Continued on Page 4)

Faculty To Serve On Jury In Drama

Several of the faculty will serve as jurors in the case of the State vs. Karen Andre, a murder trial to be enacted in Dramashop's annual fall production, "The Night of January 16" presented Friday and Saturday evenings, December 8 and 9.

The practice of having notables serve on the jury for this play originated a few years ago during a successful run on Broadway. Over a period of seven months such famous personalities as Jack Dempsey, James Roosevelt, George Herman (Babe) Ruth, Helen Keller and Roland Young, served as jurors. On one occasion four United States Congressmen were among the twelve.

Two Endings Prepared

This play is run exactly like a court trial. Witnesses offer conflicting evidence, and the jury must retire, weigh this testimony, and return a verdict. Two different endings have been arranged to take care of either a guilty or not guilty verdict.

In the event that a young lady's escort is selected to serve on the jury, arrangements have been made to include both the gentleman and his date among the twelve jurors.

Production Staff Selected

The production staff for the play has been announced as follows: The director is Marion Beard; Production manager, Edward J. Kingsbury, Jr., '40; scene design, Burton

Photo Contest Award Given To Graduate

Faculty Members Take Second And Third Prize Honors

PRINTS ON EXHIBIT

Two members of the Faculty and a graduate student were awarded the first three prizes in the photography contest sponsored by the Combined Professional Societies and the Faculty Photographic Committee.

John W. Greiner, G., was selected as the first prize winner and will be given the \$3.00 grand prize. Professor John Chipman of the department of Metallurgy won the second prize, and Mr. Greer Ellis of the Mechanical Engineering department garnered third place.

"Steel" Wins First Prize

The first prize winner entitled "Steel" was an abstract composition of complex girder construction with cloud formation providing the background. It is print number 26. "Ivory Soap", print number 41, which is an action shot of two gulls, won second prize. Third prize winner, print number
(Continued on Page 4)

Sophomore Dance Financial Success

Helen O'Connell Interviewed J. Dorsey's Orchestra Attracts 600

With the ten dollar bond which each member of the committee posted, the Sophomore Dance was able to cover the expenses for the affair. Setting a precedent for a large Sophomore Dance with a big name band, the class of '42 discovered that Jimmy Dorsey's popularity was sufficient to keep the dance from going in the red.

359 couples attended the dance held in the Copley Plaza ballroom last Friday night. Dorsey's featured vocalists, Helen O'Connell and Bob Eberle, sang many popular numbers, including a few which they did together.

Helen O'Connell Proves Hit

Miss O'Connell enthralled the couples to such an extent that dancing ceased during most of her numbers, and maestro Dorsey proved his right to the title "World's Greatest Saxophonist" as he rendered innumerable improvisations on his famous instrument.

Inspired by an especially oomphful rendition of "All of Me" by Helen O'Connell, the Tech reporter cast cau
(Continued on Page 4)

Dr. Liebman Will Speak On Dictatorship Sunday

A distinguished group of guests including President Comstock of Radcliffe and Dean Higgins of Emerson, have been invited to hear Dr. Joshua L. Liebman of Temple Israel, Boston, speak at a joint meeting of the Intercollegiate Menorah Society on the subject "Dictatorship or Democracy, the Jewish Viewpoint" in Room 6-120 on Sunday, December 3, at 4 P.M. The meeting will be open to all who are interested.

Following Dr. Liebman's address, there will be a tea in the North Hall of Walker Memorial at which all interested will have a chance to meet Dr. Liebman and the invited guests. There will be a charge of 10 cents for members and 25 cents for others at the tea, but the lecture will be free.

THANKSGIVING

This Thursday is very nearly the three hundredth Thanksgiving which New England will have celebrated. It would be trite, but true, to remark that there are many millions in the world who have little this year for which to offer thanks.

They have little material cause to offer thanks. The feeling of thanksgiving, however, lies not in the conditions which surround us but in our response to those conditions, in our ability to meet them and to rise above them if necessary.

The day of Thanksgiving has its origin not in a time of plenty but in a grim land offering little more than sudden death and starvation. The early settlers offered thanks, not because they had been bountifully blessed by nature, but because they had been able to surmount danger and wrest a living from the teeth of death, because they had lost neither their courage nor their faith in the ideals which had brought them into a hostile country.

If each one of us is able to look back on the past year and perceive some manner in which he has grown a little stronger, or learned a little more, he has the right and should have the desire to give thanks.

That he has more money or has been able to buy a car is not the cause for thanksgiving, except that such increase of wealth signifies the overcoming of some obstacle.

We are brought into the world weak, and the passage of years brings us strength, mental as well as physical. The continuing increase of our strength throughout the years of our life is the thing for which we should wish to be able to give thanks each November. Not so much our increase in prosperity as the increase in our superiority over circumstances, in our ability to meet and overcome them, in our own belief in that ability.

We sincerely hope that all in this school, and without it, have reason to give thanks this Thursday.

CONGRATS

In spite of sundry comments which we have found cause to make concerning Voo Doo, we would not have it said of us that we do not give credit when credit is due.

And credit is due Phos for its recent Sophomore Dance Issue. The theme of the magazine is not exceptionally fresh or new, but that is more than made up for by the excellence of the execution.

It contains more real humor in spite of the absence of the stock bunch of cartoons

and gags than any other issue in our memory. Congratulations, Phos.

LET'S SQUARE THE FUN

The fact that their last year at the Institute is getting along right smartly will probably be brought home shockingly to most Seniors by the announcement that options for Senior Week will go on sale next Tuesday.

It is certainly not the obligation of each and every Senior to get an option, but the fun of Senior Week increases as the square of the attendance. That week is the last get together as undergraduates of the Class of '40. It cannot succeed unless the Class of '40 attends in a body. Weeping into your Scotch and soda is a lot more fun if everyone else you know is doing the same thing.

Furthermore, the whole program of Senior Week is designed to build up to the climax of commencement, an event, coming but once in the average lifetime as it does, well worth building up to. A whole week of celebration is a lot more memory than one day.

Senior Week is the one social event during your four years at the Institute for which you will be well advised to skimp a little, if that is necessary for attendance. The options will cost three and one half dollars, which puts the cost of Senior Week on an installment plan which every Senior should make himself afford.

POOR TASTE

We have been creditably informed, by our eyes, that an advertisement for the Sophomore Dance, held last Friday at the Hotel Statler, appeared in a recent issue of the Harvard Crimson.

The advertisement was obviously designed to attract couples who were in town to attend the Harvard-Yale football game.

We are most certainly in accord with the policy of promoting good feeling and fellowship between the various New England colleges, but we doubt whether this policy is promoted by selling tickets of a school dance indiscriminately to outsiders.

We cannot see the wisdom or good taste in making Institute dances competition for the public dance halls.

We would like to see Harvard and Yale men at our dances, but only on express invitation. The Sophomore Dance Committee would have done far better if it had arranged specifically with Yale and Harvard for the exchange of a certain number of tickets to be obtained only by Yale or Harvard men.

IN THE MAIL

Nov. 19, 1939

Editor of The Tech:

The Boys Work program of the T.C.A. is unquestionably a very worthy project, and as one unfamiliar in many respects with its work, I am hardly in a position to criticize; but by my own observations and from the experience of others it is obvious to me that there is considerable hard feeling between the youngsters of Cambridge and the residents of the Dorms. It would seem to me to be in line with the policy of the T.C.A. to sponsor closer association between these two groups. It would undoubtedly be possible for a project such as this one to use the facilities of the Institute under proper supervision. I have no doubt that if groups were formed the group leader could arrange to use the gym for basketball, wrestling, gymnastics and many other sports, while in clement weather there are the facilities of the Coop Field and the Nautical Association to claim their attention. Do you think that if these children had a sort of proprietary interest in the property of M.I.T. and a more intimate acquaintanceship with its students there would be less of the current vandalism? I have no doubt that the Cambridge Police Department and the Cambridge Y.M.C.A. would be glad to cooperate in such an attempt to keep the kids off the street.

FORMER DORM RESIDENT.

Considering the worth while activities that the T.C.A. supports it is too bad that it resorts to sneaky means to get its money. I refer to the soliciting of funds from parents who are not informed that the students have previously been asked to contribute. Neither are the students informed that their parents will be asked to contribute.

The spending money of most of the students is given to them by their parents. Therefore the T.C.A. in an underhanded manner asks the parents to donate money twice to its coffers.

When I contributed to the T.C.A. drive this year I did so upon the assurance of the solicitor that my parents would not be asked to contribute. The fact that they were asked to contribute I take as a dishonorable act on the part of the T.C.A.

A misled contributor to the T.C.A.

Reviews and Previews

SYMPHONY HALL — Igor Stravinsky, distinguished composer, will be guest conductor here next Friday afternoon and next Saturday evening. Mr. Stravinsky will open his program with the music from his new ballet, "Card Game, in Three Deals." The suite from the ballet "Pctrouchka" will also be played. The program will end with the "Symphony of Psalms", composed by the musician for the fiftieth anniversary of the Boston Symphony Orchestra. Simon Barer, eminent concert pianist, will appear as soloist at the second pair of the Monday-Tuesday series on December 4 and 5.

COPLEY — Goodbye Again, by Alan Scott and George Haight, stars Erford Gage, supported by Vola Blakely, Helen Walker, Alice Wiley, Wendell Corey, and Casey Walters. Gage, who plays the male lead in the play, also directs the Alan Holmes players in this production.

SHUBERT — Three After Three, lively new musical, brings the combined charms of Simon Simone, Mitzl Green, and Mary Brian to the boards of this house. The theme is that of three ambitious young ladies in search of husbands of position. Boy meets girl very musically.

LOEW'S STATE AND ORPHEUM — Held over here is Mr. Smith Goes to Washington, story of the congressional local boy who overcomes capital intrigue to make good. Hero Jimmy Stewart is convincing and heroine Jean Arthur sufficiently pretty to make this an adequate entertainment. Also Five Little Peppers and How They Grew.

METROPOLITAN — Plua Muni in We are Not Alone continues here. Feminine interest is centered in Jane Bryan, who is now in Boston for a Thanksgiving visit. Also The Honey-moon's Over, one of the Hollywood attempts that is not in any danger of winning the Academy Award. But Muni is at his usual, competent best.

Armour Tech

(Continued from Page 1)

it could be fitted onto the Antarctic-bound ship.

Difficult Design

The youngsters at Armour Tech must have made a try, anyway. The construction of the Frankenstein Ford was no ordinary task. It entailed a number of problems in applied mechanics, electricity, heat, stresses, and insulation. Construction had to be designed among other factors to cope with a temperature of seventy-two degrees F inside and minus seventy-two degrees outside. There were many special gears, compartments and a unique wheel assembly to design.

But from the glorified ice-wagon's record in this country, comes the bitter truth. The one corollary which

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of THE TECH published Semi-weekly at Cambridge, Massachusetts, for October 1, 1939.

State of Massachusetts, County of Middlesex, ss.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared William S. Kather, who, having been duly sworn according to law, deposes and says that he is the General Manager of THE TECH, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:—

Publisher—William S. Kather, 526 Beacon Street, Boston.
 Editor—John G. Burr, Jr., Graduate House, M.I.T., Cambridge.
 Managing Editor—Phelps A. Walker, 526 Beacon Street, Boston.
 Business Manager—John W. Blattenberger, 37 Bay State Road, Boston.

2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.)

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: (if there are none, so state, NONE.)

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the six months preceding the date shown above is

Opening Basketball Game With Harvard Next Tuesday Night

Quintet's Showing Up To Now Has Been Poor

Many Questions Arise From Watching Team Work Out In Gym

With the Harvard game only a week away, the Tech varsity basketball team had their first encouraging practice in two weeks yesterday.

The team has been somewhat of a disappointment so far this year, as the practices have shown up many weaknesses. Each of the men who will probably make up the starting five hold questionable keys to the success of the team. The starting lineup will include Creamer, Glick, Wilson, Farrell, and Samuels.

Wilson Is Biggest Question

Probably the biggest question in the lineup this year is Wilson. Standing six-foot-five he holds the formidable weapon of height which will make him feared by every Tech opponent. The question is: Will he be able to utilize his height against experienced opponents? In practice he often looks very promising; however there is no experienced tall man on the varsity squad to guard him.

Sanford Glick, '41, who is the only new entry to the starting lineup from last year, is one of the best shots that Tech has had in years. With Glick there is doubt whether or not he will tighten up in the game and lose his shooting ability.

Farrell, Creamer Not Up to Par

Neither "Hap" Farrell or Tom Craemer have been up to their best standards in practice so far. Creamer whose speed usually enables him to dribble around his opponent, has been caught repeatedly attempting to break away during the practices held so far. Although Farrell has improved his under-the-basket game, he still lacks the finesse needed in offensive play. A great deal will depend upon the ability of these two guards (Creamer and Farrell) to hold down their opponents.

Samuels Disappointing

Howie Samuels, Tech's high scoring forward has played disappointing basketball thus far in practices. In spots he has shown some of the basketball ability that made him New England's high scoring freshman in his first year at Tech, however as a whole he has lacked most of his old qualities.

The team undoubtedly has some of the best material seen in years at Tech, but the success of the season depends on a great many intangibles.

Reserves Playing Fine

Probably the most heartening thing seen in practices last week was the strong opposition given by the second varsity team. Such men as Coe, Artz, Cavanaugh, Reihl, Stephanaou, and Stein should offer the first five a fight for their positions.

Harvard On Tuesday

All Tech will have a chance to see their team in action next week when both the freshmen and varsity teams open against Harvard at the Harvard Gym. Although the Tech five will enter the game the underdog, there is always a chance for an upset, especially with the team lined up as it is at present. A great number of Tech followers have already gathered up rooters for the game, and a large cheering section is expected for our team.

Phi Mus' Handed First Beaver Key Football Defeat

Chi Phi Succeeds In Giving Them First Football Loss In 3 Years

Handing the Phi Mu Delta team its first defeat in the history of Beaver Key football by a score of 6-0 on Sunday, Chi Phi rose to the top of the Round Robin league.

The other winner of the two games played this past weekend, was Sigma Chi, which overwhelmed Phi Gamma Delta by a score of 25-0. This game put Phi Gamma Delta at the bottom of the league with no wins to their credit, and at the same time brought Chi Phi, undefeated, to the top.

Team Standing

The present standing of the various teams in the round robin is as follows:

Team	Played	Won	Lost
Chi Phi	1	1	0
Phi Mu Delta	1	1	1
Sigma Chi	1	1	1
Phi Gamma Delta	1	0	1

Three more matches are to be played as follows:

Before December 4th:	Phi Gamma Delta	vs.	Chi Phi
Before December 11th:	Phi Gamma Delta	vs.	Phi Mu Delta
	Sigma Chi	vs.	Chi Phi

Tryout Dates Set For Dec. 8 and 9

The dates for tryouts and finals for the six events scheduled in this year's all-Tech swimming meet have been set for December 4th and 8th respectively.

Anyone who has not won a varsity letter for swimming is eligible for the competition, and may try out for an unlimited number of events. He may compete, however, in only three final events, if one of these is the relay, and in two if he is not on a relay team.

Fresh-Sophomore Relay

The relay will be the highlight of the meet. It will take the form of a race between Sophomores and freshman teams of four men each. The winning team is to be presented with a cup, on which will be engraved the names of the members. The winners of all other events will get individual awards.

Signups for this meet are to be held in the Main Lobby of Building 10, on December 1st, the only day on which those interested may enter.

Scheduled Events

- The events are scheduled as follows:
- 50 yd. free-style.
- 100 yd. free-style.
- 200 yd. free-style.
- 100 yd. back-stroke.
- 100 yd. breast-stroke.
- 200 yd. free-style relay.

A diving competition including a front dive, a back jackknife, a plain back dive, and three optional dives.

Squash Team Drops Match

Dartmouth Downs Varsity As Faculty Team Defeats J. V.

The Varsity squash team was overwhelmed by a strongly favored Dartmouth team in the first meet of the season held at Hanover last Saturday. Dartmouth won five straight matches without losing a single game to the hardworking Institute team.

After the varsity matches Coach Jack Summers of the Institute proved his prowess in an exhibition match against Red Hoehn, Dartmouth coach. Summers allowed the match to go to 5 games but had complete control of the situation at all times, though his younger opponent often pressed him because of his agility. The score for Summers was: 15-13; 14-17; 15-19; 10-15; 15-6.

Scores Are Listed

The scores were:
Hoebel (D) defeated Millar (MIT) 3-0
Turkevich (D) defeated Barton (MIT) 3-0
Crandell (D) defeated Freeman (MIT) 3-0
Raclin (D) defeated Trexel (MIT) 3-0
Remsen (D) defeated Meier (MIT) 3-0
Hills (D) defeated Corney (MIT) 4-1
The Faculty team defeated the Junior Varsity by a score of 4-1 in a hard fought match yesterday at 5:30.

Woodruff (F) defeated Corney (JV) 3-1
Bowles (F) defeated Mar (JV) 3-0
Oldfield (F) defeated VanTuyll (JV) 3-1
Dupont (F) defeated Thornton (JV) 3-0
Stouse (JV) defeated Brown (F) 3-2

Varsity to Play Harvard Club

The Varsity plays the Harvard Club team Wednesday afternoon at 5 in the Institute's courts.

Graduates' Team Wins Tournament

Undefeated B Squad Crushes Wood Footballers By 4 Touchdowns

Beating the powerful Wood combination in the final of the Dormitory Eight-man Touch Football Tournament by the huge score of 24 to 0, the Graduate B team proved its superiority in winning the Dorm Championship.

This means that the Graduate House team, coached by Blake Mills, G., has come through the season undefeated despite powerful opposition.

Grads Score Early

The Graduates started in piling up the score right at the beginning of the game and at the half were three touchdowns up. After the half the Wood team woke up and the Grads were able to add only six points in this half.

The game was refereed by Bill Schnorr, athletic chairman of the Dormitories, and was played on a 100 yd. long field, under the ruling that twenty yards composed a first down.

Peter P. Sloss, '43, and Kendall H. Spencer, '43; lighting, Martin B. Levene, '42, Scott Brodie, '40, Donald W. Fork, '42, Bernard A. Greenes, '42, Raymond E. Hahn, '43, and Samuel A. Scharff, '43; properties and costumes, Irving Stein, '41, and Sampson Grunes, '42; publicity, Louis Rosenblum, '42, and Norman T. Thomas, Jr., '40; tickets, Bonner Hoffman, '40, and Barbara F. Laven, '40; programs, Fred J. Johnson, Jr., '40; make-up, J. Gladys Thompson, '41, manager; floors and doors, Bernard A. Greenes, '42, manager.

Hockey Team Holds Boston College Even In Pre-season Clash

T. E. N. Topples Tough Technique

Failing in its search for eleven staff members to organize a football team, Technique was compelled to settle its synthetic feud with the T.E.N. last Friday by means of a bowling match, from which the T.E.N. emerged victorious.

Although Technique could not manage to get enough men together for a football team, it did field a twelve man bowling team. It has also challenged T.E.N. to a return match at another sport, either drop the handkerchief or dodge-ball, in hope of gaining revenge.

T.E.N. Looks for More Opponents

Still suffering from the giddy illusions of victory, T.E.N. is now looking for new worlds to conquer and claims to have issued a challenge to the undefeated The Tech bowlers; however, this statement is as unsubstantial as the Voo Doo budget.

High scorer of the match was George M. Watters, '42, of the T.E.N. who rolled a sensational 95 on the Walker alleys. Ed. Note:—The national women's record is 156.)

The lineups follow:

T.E.N.	Technique
Speas	Ross
Schaum	Judd
Watters	Arend
Mengel	Gray
Helmer	Markey
Johnson	Wood
Scarff	Lacy
Meyers	Loomis
Taylor	Demartini
Payson	Fraser
Cack	Card
Wilson	Bottner

Tennis Tourney Reaches Finals With Four Teams

Three teams have fought their way into the final round of the beaver key tennis tournament that has been under way since the beginning of this school year.

The fourth position in the round robin will be filled by the winner of the match between Phi Mu Delta and Beta Theta Pi which is now practically completed, with the Betas in the lead. The three teams that have already won their way into the round-robin are Kappa Sigma, Sigma Chi, and Theta Chi.

Playoffs in the Spring

Because of the probability that the playoffs would encounter bad weather, the committee has postponed them until spring. It is expected that there will be a great deal more interest in the tournament at that time.

Squad Opens Season Against B. U. Saturday

Practice Injuries Will Bench Pickard For The First Game

Tech's hockey team has been holding its own in three practice scrimmages with Boston College, it was revealed by the squad's manager last night.

With the opening game of the season with Boston University scheduled for next Saturday night, the team appears to be on the brink of one of its most successful seasons. Eight men of last year's team have returned.

Defense Has Been Tightened

According to Coach George Owen, the defense has been tightened considerably and the forwards have speeded up and developed some scoring punch so that the team can look forward to a good season.

Owen has been experimenting with several combinations and will not announce the starting lineup. An untimely injury in the last scrimmage with Boston College will probably keep Nick Picard, regular defense man, from playing in the opening game.

1939 Schedule Listed

The 1939-40 schedule follows:
Dec. 2 Boston University
Dec. 16 Dartmouth
Dec. 20 Boston College

SUNDAY, DECEMBER 3

4:00 P.M. Intercollegiate Menorah Society Meeting—Room 6-120.

Stratton Prize

(Continued from Page 1)

presented in a non-technical manner are the only requirements for entrance to the contest. The competition was founded to help train Institute students to present ideas logically and clearly. The late Dr. Stratton, then president of Technology, originated the contest when he realized the importance to young engineers of the ability of expressing their ideas before boards of directors and other groups.

The subject matter for the talks does not have to be original work, but may be any topic about which the student is interested. The talks will be judged on the clarity and logic of presentation rather than on a flourishing style of oration. The talks may be supplemented by slides, blackboard diagrams, or experiments. In the case of slides or experiments, the department is to supply the materials.

Those entering will be aided on points of grammatical construction and organization by members of the English department. A list of the various departmental advisers will be placed on the Institute bulletin boards this week.

Professor Rule To Speak At Camera Club Meeting

The newly-formed Camera Club will hold a meeting today, Tuesday, at 5 P.M. in room 4-270 in order to hold elections and to adopt a constitution. All students interested in photography are invited to attend.

Demonstration Featured

After the business of this meeting is over, Professor John T. Rule of the Drawing Department will speak on stereoscopic photography giving demonstrations with some of his interesting pictures and slides.

Photo Contest

ber 11, shows a fleet of sailboats "Out of Marblehead."

The judges for the contest were Arthur Hammond, a Fellow of the Royal Photographic Society and a member of the Boston Camera Club's Salon Exhibit Committee, Dean Harold E. Lobdell, who is an amateur photographer, and Professor Frederick G. Fassett, Jr., editor of the Technology Review.

Prints To Be In Technology Review

The winning prints will appear in a future issue of the Technology Review. At present, all the pictures submitted in the contest, which is the first that has been open to both the Faculty and the student body, are on exhibit in the galleries of the Technology Photo Shop.

Soph Dance

tion aside and approached this cynosure of male attention. In spite of the inclinations of this reporter, Miss O'Connell spoke only of issues less personal.

"Singing Is Fun", Helen O'Connell

"Singing is fun," she stated, "but I wish that it would leave me time for dancing. I do like to dance, but you can't dance and sing at the same time." When asked how she liked Dorsey, she replied with, "Oh, that's unanimous," and was equally brief with the war, uttering only an "Ugh".

Surprisingly, both O'Connell and Eberle want Roosevelt for a third term, and they both agree that one night stands are awfully hard, there being no chance for enough sleep.

Technique Senior Blanks Due At Office Tomorrow

Many Seniors have not as yet turned in their biography blanks to Technique. Any Senior who has not returned his must do so before Wednesday night at the Technique Office in Room 308 in Walker in order to make the printer's deadline, according to Marion L. Wood, '40, editor-in-chief of Technique. No biographies can be accepted by Technique after this date.

Walker Memorial Staff Sponsors Informal Hop

About forty couples attended the Walker Students Staff dance last Saturday night in the North Hall of Walker Memorial. Dancing was from 8:30 P.M. to midnight to recorded music supplied by Richard H. Braunlich, '40.

Catholic Club

Chesterfield holds the Record

for
REAL MILDNESS

and Better Taste

because of its Right Combination of the world's best cigarette tobaccos

The real reason more and more smokers are asking for Chesterfield is because CHESTERFIELD'S RIGHT COMBINATION of the world's best cigarette tobaccos gives them a better smoke...definitely milder, cooler and better-tasting. For real smoking pleasure . . . you can't buy a better cigarette.

FRANK FULLER, winner of the 1939 Bendix Race, holds the Bendix transcontinental race record. His right combination of efficiency and flying ability has made him a record holder in aviation, just as CHESTERFIELD'S Right Combination of tobaccos has made it a record holder for More Smoking Pleasure with its real mildness and better taste.
