## Ten Receive A. P. Sloane Fellowships

Business Administration Is  
To Be Studied By  
Recipients

COME FROM INDUSTRY

The ten men chosen to receive the Alfred P. Sloan Foundation Fellowships at the Massachusetts Institute of Technology were announced Saturday by President Karl T. Compton. These men will receive administrative training with special emphasis on the relations of business to society.

A group of 184 junior executives were nominated by more than 125 varied industries throughout the country on a basis of outstanding merit and ability in their respective companies. From these, the ten men were selected.

Grant Doubled

The Sloan grant of \$32,000 represents twice the amount available for the work last year, when only five men could take advantage of the plan. Supervising the fellowship course is Professor Wyman P. Fiske, of the Department of Business and Engineering Administration, who was appointed to the position Saturday.

The special course will begin early in June and will continue for twelve

Fellowships

## Glee Club Sings At Pops Concert

Concert Will Close Fullest  
Season In History Of  
Singing Society

The M.I.T. Glee Club will take part in the regular Senior Week festivities with a concert to be given at the Symphony Hall Pops on June 3rd. Seventy-five Glee Club members, who will try to take part in the Senior Week engagement, will sing a large number of songs as part of the regular program.

The Pops concert will end the season for the Glee Club, and will make one of the fullest the Glee Club has had. One of their major engagements is the nation-wide broadcast they give over the NBC Blue network via WJZ last Saturday evening. This broadcast was recorded by the Electrical Engineering department, and recording was so successful that permanent twelve-inch record may be made.

Local Broadcast Also Given

The Glee Club has also given a local broadcast over station WEEI and has concerts and return engagements over eight other schools, including Radcliffe College, Pembroke College, Lasell Junior College, Simmons College, Sargent School, Bouve School, Fenway Student House.

## H. Wiethoff Elected President Of A. E. S.

Herbert H. Wiethoff, '41, was elected president of the Aeronautical Engineering Society at a business meeting Tuesday succeeding Benjamin W. Loch, '39.

Officers elected at the meeting were: Teddy F. Walkowicz, '41, president; Chester N. Hasert, '41, secretary; Joseph G. Anthony, '41, treasurer. The three new members of the managing board are Paul M. Wald, '40, Ronald Shainin, '42, and

## Perfect Forced Landing Made In New Tech Field

Coop Field once again served as an emergency landing field last night when a Boston advertising airplane was forced down.

The ship, an old type rebuilt biplane (NC8237), was towing a sign of the Aerial Advertising Company over Cambridge when the motor failed at 5:10 P.M. yesterday afternoon. The pilot dropped the sign at the far end of the field and came to a perfect three-point landing near the new track. The plane was repaired and flew away under its own power at 7:20 P.M.

## Oarsmen Lose To Yale Crews

Syracuse Crew Man Flies  
Out Of Boat; Tech  
Takes Second

Last Saturday the Technology crews traveled to Derby, Conn., where they raced Yale and Syracuse on the Housatonic River. The triangle regatta resulted in an overwhelming victory for the Yale oarsmen. The Eli men took first place in all three events. The Tech boats finished last in all events but one, the varsity race, in which a freakish accident allowed the Engineers to take a second place ahead of Syracuse.

From the very beginning of the regatta, Tech's oarsmen were up against far superior crews. The Yale Varsity had broken the two mile record last week, setting the new time at 10:11 3-5.

Man Overboard

The Syracuse crew, which had a lead in the early part of the race, was being overtaken by the Yale shell when one of the most freakish accidents in the history of crew occurred, resulting in an easy victory for the Eli boat and a second place for the M.I.T. boat. As the Syracuse boat neared the mile-and-a-quarter mark, the Yale boat gained a half deck length. Then suddenly the no. 4 man in the Syracuse shell was seen flying over the edge of his boat into the frigid water. It was believed that the

Crew

## Orators Triumph In Last Debate

Ending its season with a victory, the Institute debaters met a team from Connecticut State College Friday evening, March 12, in a contest held at Storrs, Connecticut. Tech advocated an alliance between the United States and Great Britain while the home team opposed the establishment of such a pact.

L. Hurley Bloom, '40, and Russell T. Werby, '40, represented the Institute in an orthodox style debate, arguing against Paula Weinstein, and Benton Berman, of Connecticut. This was the second time in two decision contests this year against teams including female forensic fighters that a victory has been gained by the Engineer speakers. Earlier in the season Pembroke fell before the verbal onslaught of two Technology debaters.

Banquet Closes Season

The 1938-39 season will be brought to a close Thursday evening when the Debating Society will hold its annual banquet in the Graduate House. An informal extemporaneous debate will be held between a team composed of Professor Theodore Smith and the father of one of the debaters, and a team composed of Peter M. Bernays, '39, and Samuel Sensiper, '39. Following this, officers for the coming year will be elected.

## Sailors Take Boston Regatta By 2 1-2 Point Margin Sunday After First Loss Saturday

### Dinghy Racers Lose For First Time In Year

### Colie And Hanson Race, Winning Four Out Of Seven Races

For the first time in over a year, the Institute sailing team was defeated, placing second in a regatta with six other New England colleges at Brown University in Providence.

Brown, although winning only three races to four for the Technology men, placed first because they had no penalty for fouls while Technology fouled in three races. These three fouls cost the Institute sailors sufficient points to drop them into second place.

Colie Wins Three Races

Runyan Colie, '40, won three races for the Technology team, but fouled on buoys in two others. Commodore Herman Hanson, '39, won one race, in which he fouled, but went on to win anyway.

### Technique Subscriptions Redeemable In Walker

The men who have subscriptions to the 1939 Technique may obtain their copies in Walker, Room 309, not later than May 24. Those who fail to get their copies this term may pick them up next fall. For those who have no options there are seven unsubscribed copies available.

## Military Awards Presented To 72

### Outstanding Freshmen Gain R.O.T.C. Order Of Merit For Military Skill

Award of the Order of Military Merit, for outstanding effort in military training has been awarded to 72 freshmen, according to an announcement from the department of Military Science at the Institute.

Recipients Listed

Students to be awarded by the Order this year are: Arnold J. Cardarelli, Bruce L. Dunbar, Richard P. Gilooly, Francis B. Herlihy, George E. Howe, Frederick M. King, Robert E. Krucklin, Constantine J. Maletskos, George R. Clark, Edward H. O'Brien, Gordon P. Brown, David J. Cavanaugh, Charles H. Lawrence, Warren H. Kaye, Richard E. Russell, Marvin R. Kravitz, P. Turner, Jr., Edward F. Thode, John Hinchman, Carl Zeitz, William Devine, Robert S. Shaw, Harry E. Knox, Jr., Jack J. Jones, Daniel C. Hulet, Arthur J. Power, William A. Rote, Alwyne C. Jealous, Leon A. Baghdoyan, Bradford Darling, Robert I. Jacobson, Robert J. Kraus, John R. Taylor, John E. Krauss, Ronald Shainin, Sanford C. Peek, Jr., Raymond W. Shrewsbury, John M. DeBevoise, Louis K. Rosett, Martin B. Levene, Herbert H. Howell, Robert G. Vyverberg, Henry R. Dahmer, Richard A. Richards, Charles E. Ruckstuhl, Marshall J. McGuire, George J. Schwartz, Philip E. Fox, George Kava-

(Continued on Page 4)

Military Awards

## Institute Notices

Reports for the second term are sent to the student's home address. For students living outside the United States or Canada, reports are mailed to their term addresses. Students who want their reports sent elsewhere must call at the Records Office, Room 3-107, not later than Friday, May 26. Reports will be mailed on Thursday, June 8.

Any Senior who desires a photostat copy of his complete record at the Institute should leave an order at the Records Office, Room 3-107. There is a charge of \$0.50 for the first photostat and \$0.25 for each additional copy ordered at the same time. These will be ready for delivery about the first of July.

## Trumbauer Band To Supply Music For Senior Dance

### Table Reservations Available At Senior Week Desk In Main Lobby

Frankie Trumbauer and his orchestra will play for the annual Senior Ball to be held at the Copley Plaza Hotel on Tuesday, May 6, from 9 P.M. to 2 A.M., it was announced last night by Harold R. Seykota, '39, chairman of the ball.

Tables for four, six, eight, and ten couples are available, and all reservations must be made at the Senior Week desk in the Main Lobby either this afternoon or tomorrow afternoon between 10 A.M. and 3 P.M.

Girls Will Receive Locket

Each girl attending the ball will receive a golden locket, which will contain a picture of her escort, and is to be engraved with the Institute seal and the numerals of the class of '39.

Trumbauer, who played with Paul Whiteman for six years, has conducted his own orchestra for the past four. This fifteen piece band has appeared at the Biltmore Hotel in Los Angeles, the Hotel Nicolet in Minneapolis, and is coming to Technology directly from a tour of college proms in eastern United States.

## Thursday Is Date For Final T. E. N.

The difficulties and tricks of obtaining a job will be the subject of four related articles featured in the coming May issue of the T.E.N., which will be placed on sale Thursday and Friday.

Clearly demonstrated will be the various types of employers and the best methods for the prospective employee to approach them.

Phases of Employment Discussed

Contacting the employer by letter will be explained in an article by Prof. Frederick G. Fassett of the Department of English. Favorable impressions at interviews is the subject of the article by Prof. Alexander Magoun of the Humanities Department.

The potentialities and advantages of Tech men in obtaining jobs in competition with other college men will be discussed by Nathaniel McL. Sage of the Placement Bureau. A short article presenting methods of getting a good start on a new job by J. F. Rock of General Electric will complete the discussion.

## Dinghymen Avenge Recent Defeat At Brown

### Hanson Tried For Barging In Third Race; Is Acquitted

Redeeming itself from its first defeat of the year at Brown, the Technology sailing team won the Boston Dinghy Club Challenge Cup on the Charles River last Sunday by the slim margin of 2½ points. Kenneth Wood of Brown proved to be the most formidable skipper, leading the field with 70 points and putting his team in second place.

Runyan Colie, Jr., '40, of Technology, won the first division with 62½ points, which put him second in the individual scores for the regatta. Wilcox of Harvard followed closely with 61½ points while Gardner Cox of Princeton placed third with 56 points.

Hanson Places Second

In the second division, Wood of Brown starred with 70 points, while Commodore Herman H. Hanson, '39, placed second with 61 points. A tense moment was provided in the post-racing protest meeting when Wood protested Hanson for barging in the third race, seriously endangering Technology's victory which would have been forfeited to Brown. Hanson claimed that he was forced by the McGill crew, and since the latter admitted its error, he was acquitted.

The purpose of the morning races was to decide the qualifying crews for the regatta, since only 9 of the 14 colleges could race in the finals. The breeze was tricky and easterly, proving difficult to handle, and the races were perfect for the light weather artists.

Tie in Morning Races

The racing was close and the morning ended with Technology and Princeton tied for first place with 71 points. Harvard and Brown were close on their heels with 70 and 69 points respectively. Other crews to qualify for the finals were Williams, Dartmouth, Lehigh, Michigan and McGill. New Hampshire, Holy Cross, Boston University, and Northeastern qualified at the New England Inter-collegiate three weeks ago.

## Dramashop Selects Play For Next Year's Season

Two major plays were chosen for next year's program by the Dramashop at a dinner meeting last Wednesday. The club closed the 1938-39 season with a picnic at Lake Bungy Sunday.

The first major play of the year "The Night of January 16" will be performed in December following three one-act plays which will be presented in November. The major play, a courtroom scene, will feature a jury selected from the audience. This jury will hear the evidence as it appears in the play, and will then give its own decision in the case.

"R.U.R." Is Main Play

In March, the Dramashop will offer its most important play of the year in Brattle Hall, Cambridge. The show planned is Caryl Chapin's production "R.U.R.", a fantasy depicting the activities of machine men of the future. The play will be staged three nights with a dance scheduled after the performance the second night.

## WAYS AND MEANS

A unique sign of Spring is the evident interest in next year's Field Day shown by member of the Quadrangle Club at last meeting of the Institute Committee. A motion, which was subsequently tabled until this week, called for the transfer of the work of the Freshman Rules Committee to the Quadrangle Club. No discussion of the motion was held, but it was evident that the present freshmen seem dissatisfied by their encounter with the freshmen rules. Article 10b of the present undergraduate constitution provides, "Special committees which . . . may carry out certain details of the business of the Institute Committee are . . . the Freshmen Rules Committee."

The motion introduced to the Institute Committee calls for the transfer of actual enforcing of the rules to the Quadrangle Club; the administration is left with the Institute Committee. This interest in properly inducting embryo engineers into their incubator shows an unusual splurge of spirit in the Quadrangle Club; it is the more unusual, and therefore commendable, at this time since the group does not stand to obtain any material benefits from the move. With the present arrangement, a special amendment ratified by two-thirds of the Institute Committee would be necessary to transfer any profit from the sale of Freshman ties to any particular group, regardless of who sold them. There seems little prospect of any group's asking for this change since only the Institute Committee can exert effective control over such a widespread group as the entire entering class.

While the transfer of rules enforcement to the Quadrangle Club might be effective in the fraternities, it is difficult to see how any control whatever would be exerted in the dormitories or among the commuters. Leaders of the latter two groups questioned yesterday indicated that a more effective freshman control group might be desirable, but that it could be obtained only by a composite group of sophomores. We might suggest that the present amendment which will be considered Thursday be altered to include the Agenda Society and a Sophomore group from the 5:15 Club. If this combined group could not control the newcomers, the Sophs might as well don the striped ties themselves and run errands for the entering younger generation.

## FEWER OR BETTER EXAMS

Although it is too late to alter this year's exam schedule, we think this to be the logical time for a discussion of that schedule and the circumstances surrounding it. Student interest in exams is never so high as during this period.

In a letter printed elsewhere on this page, Professor Hamilton submits that no student

must take seven exams in four days if he has a mind not to do so. Professor Hamilton was most likely referring to seven scheduled exams in four days. However there are numbers of courses which do not give scheduled exams, but only a final quiz, usually on the last day of the course. These final quizzes quite often require as much labor in preparation as do the three hour exams. This year in particular many of these final quizzes fall during the three days preceding the start of scheduled exams. This hits very hard students who have in succession both final quizzes and scheduled exams.

In this situation it must be confessed that a moratorium on classes would be of little avail, since courses giving scheduled exams have, in fact, little else than review work during the several days preceding their exams; and the courses giving final quizzes are mainly electives and are attended in large part by graduate students, who have no or few scheduled exams to contend with also. However, undergraduate students taking these elective courses, a certain number which are required of most students, should not therefore be penalized by a concentrated exam schedule.

One way out of this dilemma would be to so compose the exams that their emphasis would not fall on memory so much as on constructive thinking. In other words, more open-book exams should be given—exams which would not test the amount of brown-bagging a student can do in the period just before the exam, but which would test his ability to utilize the methods and information which his courses have made available to him. Such open-book exams are feasible in many courses which do not use them now. Such exams do not place a premium on the time a student can afford to give in preparation for each exam, and would so ease the burden of a heavy exam schedule.

Exams requiring mostly an exercise of the memory do not give a true measure of the student's ability or grasp of the subject; they are a measure of the time which he has been able to give in preparation for that particular exam—and so are a false measure.

Let us have either a more fairly arranged exam schedule; or, far better, exams requiring less routine, futile drudgery.

## DEAR EDITOR—

The Tech assumes no responsibility for communications printed in this column, nor do they necessarily represent the editorial opinion of this paper. All communications must be signed by the writer, whose name will be withheld on request.

Editor, The Tech:

With reference to your editorial entitled "Give the Student a Break", in the issue of "The Tech" on Friday, May 12, I respectfully call your attention to Rule 9 entitled "Examinations" under the Rules and Regulations of the Faculty, published in July 1937 and now in force. The statement in your editorial that a student may have seven examinations in the first four days of examination week, and that the Faculty has taken no action to prevent this, is not correct.

Very truly yours,

L. F. Hamilton

## SCIENCE IN BRIEF

by ARTHUR M. YORK, '38

### WHEN IS IT PURE?

All is not gold that glitters. Nor is all gold that demonstrates the typical chemical test for that yellow metal, say spectroscopists. In other words, chemically pure gold contains impurities that can be detected by the spectroscope. If these small percentages of impurities could be and were removed from all the refined gold on earth, the total value of the world's monetary reserve would be reduced by hundreds of thousands, perhaps millions, of dollars. Must be the American dollar is worth even less than 56 cents.

### ART TREASURES

If a destructive war sweeps Europe during coming months or years, there will be reproductions of the works of the best masters in one art. Two Americans, Robert and Gertrude Metcalf of the Dayton (Ohio) Art Institute have been in Europe since last summer taking photographs and making color sketches of the stained glass treasures in the windows of cathedrals and other buildings. They have already taken 7,000 photographs and plan to take a total of about 20,000 during a period of two years.

"THE COOP"

# Phi Mu Delta, D. U. In Baseball Finals; S.A.E. Takes Track

## Defeat Kappa Sigs To Win Beaver Key Tourney

### Commuters Third; Betas And D. U.'s Tied For Fourth

The Sigma Alpha Epsilon track men won this year's Beaver Key Track Meet by a score of 23½ points, nosing out the Kappa Sigma team with 22½ points.

The Commuters finished in third place with a total of twelve points. Fourth place was a tie between Beta Theta Pi and Delta Upsilon, both teams scoring eight points. About fifteen teams competed in the meet this year. However, the meet did not go over with the enthusiasm and large turn-out that was hoped for. This was probably because of the fact that the eight events were staggered over two days during the week. As a remedy for this next year the meet will be held on a Sunday afternoon.

#### Sargent, Morrill Star

Those that entered the track meet did well, and Fred Sargent of Kappa Sigma house starred. He took first place in the hundred-yard dash, finishing in 10.6, and finished first in the running broad-jump, doing 20 ft. 9½ in. Vaughan Morrill, Jr., '41, starred for the Sigma Alpha Epsilon team.

#### Crew

(Continued from Page 1)

accident was caused by the unfortunate man's oar butting against the marker. This freakish accident allowed the Yale Varsity to row on to an easy victory in 10:46. The Tech boat, in the meantime, moved into second place and finished ten lengths behind the winner. The unlucky boat barely continued the race minus one man and finished only a length and a quarter behind the Engineers. The Tech time was 11:27.

The Junior Varsity Race was also over a two mile course. Yale came from behind and vanquished Syracuse and Technology, the two latter teams finishing second and third respectively. The Yale time was 10:44 2-5 while Syracuse was clocked in 10:48 2-5. It took 11:33 for the M.I.T. boat to cover the course.

#### Freshman Close

The Freshman race, over the same two mile course, was another victory for the Eli oarsmen. They finished the race in 10:59 2-5 while Syracuse touched three quarters of a length behind the winner, being clocked in 11:01. The Tech Yearlings finished in a very close third place taking 11:03 to cover the course.

## First Two Teams To Reach Finals Are Easy Winners

### Sigma Chis And Senior House Fall Before Hard Hitting

Two teams, Delta Upsilon and Phi Mu Delta, won the chance to enter the final round-robin of the Beaver Key Baseball tourney during the past week of intramural play.

The Delta Upsilon baseball team beat the Sigma Chi ball players yesterday by a score of 31 to 6. The game was very lively and many amateurish errors helped the game move on rapidly. The D.U.s will meet an equally powerful team in the Phi Mu Delta ball players in one of the final play-off games of the tournament.

#### Phi Mu's Win 23-7

Phi Mu Delta beat the Senior House A team 23 to 7. The game was full of action as the Phi Mu Delta team went to town in the first inning, scoring thirteen runs.

Phi Kappa Sigma beat Beta Theta Pi by a close score of 5 to 4. Phil Stoddard, '40, starred for the winning team. He hit a home run in the fifth inning when the bases were loaded, accounting for four of the five runs. Thursday at 5 P.M. the Phi Kappa Sigma baseballers will play Bemis which is once again a dark horse contestant for the first place in a Beaver Key Tournament. The winner of this game will enter the play-offs.

## Tech Taken By Wesleyan Varsity Golfers 7½ to 1½

The Tech Golfers were holed-out to defeat by the Wesleyan Varsity, 7½ to 1½, in a match at the Edgewood Country Club in Middletown, Connecticut last Saturday.

Of the six man Tech team, John P. McEvoy, '40, was the only one to win in the two-ball games; Richard C. Wynne, '41, tied, and the rest lost their matches. Tech lost all the four-ball games. The others on the team were Dudley B. Follansbee, '40, John C. Klock, '40, Joseph C. Jefferds, '40, and John B. Wuehrmann, '40.

## Brown Edges Track Teams In First Loss

### Varsity Defeated, 72-63; Freshmen Lose, 70-56 At Providence

Brown University track teams dashed M.I.T. hopes of two consecutive undefeated seasons Saturday when they edged the varsity, 72-63 and the freshmen, 70-56 at Providence. Ken Clapp, IC4A 60 yard dash champion, led the Brown stars with wins in the 100 and low hurdles. McLaughry and Gosnell set new field records, while Klie and Schuetz won the 880 and 440 respectively. Together, the five men scored 40 of the Bruin's 72 points.

#### Balance Fails to Even Score

Tech balance came within nine points of evening the score. Lew Jester captured the high hurdles and was close behind Clapp in the lows; Dan Crosby won his third mile in a row; Parks Toolin took the two mile with Crosby second; John Nagle out-did McLaughry in the shot put; and Howard Marshall won the broad jump. Nagle and Wilson were in a triple tie for first in the high jump, while Gilbert and Russe tied with Brown's Krause for pole vault honors.

#### The varsity summaries:

120-High Hurdles—Won by Jester (MIT); second, Taylor (MIT); third, Clark (B). Time: 15.88.  
220-Low Hurdles—Won by Clapp (B); second, Jester (MIT); third, Taylor (MIT). Time: 21s.  
100-Yard Dash—Won by Clapp (B); second, Chafee (B); third, Clark (MIT). Time: 10s.  
220-Yard Dash—Won by MacAusland (B); second, Clark (MIT); third, Chafee (B). Time: 22.38.  
440-Yard Dash—Won by Schuetz (B); second, Klie (B); third, Wood (MIT). Time: 50.98.  
880-Yard Run—Won by Klie (B); second, Wood (MIT); third, Schuetz (B). Time: 2m. 21s.  
1 Mile Run—Won by Crosby (MIT); second, Ferguson (B); third, Turnock (MIT). Time: 4m. 37.4s.  
Two-Mile Run—Won by Toolin (MIT); second, Crosby (MIT); third, Werkheiser (B). Time: 10m. 19.88.  
Hammer—Won by McLaughry (B), 174 ft. 6 in. (new Brown record); second, Gordon (B), 140 ft. 6 in.; third, Van Greenberg (MIT), 134 ft. 7¾ in.  
Shotput—Won by Nagle (MIT); second, McLaughry (B); third, Crolius (B). Distance: 41 ft. 11 in.  
Discus Throw—Won by Gosnell (B), 141 ft. 11 in. (new Brown record); second, McLaughry (B), 125 ft. 3 in.; third, Nagle (MIT), 123 ft. 7¾ in.  
Javelin Throw—Won by Kapstein (B), 177 ft. 3 in.; second, Ross (MIT), 169 ft. 3 in.; third, Welch (MIT), 166 ft. 1 in.  
High Jump—Tie for first among Nichol (B), Nagle and Wilson (MIT), 6 ft.  
Broad Jump—Won by Marshall (MIT), 22 ft. 5½ in.; second, Lane (B), 21 ft.; third, Booth (MIT), 20 ft. ¾ in.  
Pole Vault—Triple tie among Krause (B), Gilbert and Russe (MIT), 11 ft. 6 in.

## Classes To Begin Track Meet Today

Climaxing the season for the majority of track men, the annual Spring Interclass Meet is being held tonight and tomorrow night at 5 P.M.

Everyone interested in track events is eligible to enter the meet. Points will be scored for each of the four undergraduate classes. In each scheduled event, the individual winners will be awarded cups for their achievements.

#### Banquet After Meet

At the completion of the meet Wednesday night, a track banquet will be staged in North Hall of Walker Memorial at 6:30. The banquet is for those interested in track as well as those who participated in the Interclass Meet.

#### CHEF COLORED

HOWARD HILL  
WORLD CHAMPION  
FIELD ARCHER

# Hitting the Mark

**H**OWARD HILL, World Champion Field Archer, can flick the ash off your Chesterfield with a single shot.

And Chesterfield's *right* combination of the world's best cigarette tobaccos hits the mark every time for what smokers want in a cigarette . . .

- ☉ *They're milder refreshingly milder*
- ☉ *They taste better you'll enjoy every one*
- ☉ *They Satisfy the blend can't be copied*

# Chesterfield

*... the RIGHT COMBINATION of the world's best cigarette tobaccos ... they're Milder and TASTE BETTER*

*When you try them you will know why Chesterfields give millions of men and women more smoking pleasure . . . why THEY SATISFY*
