To Be Elected

25 Fresh Representatives

To Be Elected to Council

The dates for the election of representatives to the freshman council have been changed from those stated in the T.T.A. Handbook because of Columbus Day vacation. Nominations will be held Friday and Monday, October 15 and 19, and the elections will be held Tuesday, October 17 and 18. Twenty-five representatives will be elected in the various departments from each section. An alternate will be elected in the event that the man receiving the second highest number of votes refuses the position.

Janitors Will Officiate

Representatives of the junior class will visit the various sections on Tuesday to conduct elections. Members of the Class of '41 will also supervise the final elections on Wednesday, October 18.

The Tech is Host To 50 Freshmen

Approximately fifty invited guests of the freshman class gathered at the Freshman Hall Friday night to hear the basketball, football, and news editors and other officials of the Freshman council. The Tech invited these students to come to a reserved table in Walker, right on the corner of the First floor, the place where the Tech has traditionally been located.

Purpose Stated

According to a statement by Dr. Compton, it was stated that the Tech is the only one of the Institute's publications that is reported to the students. Dr. Compton also said that all the Tech is interested in is the student's interests and the student's welfare.

2,000 Treated Last Year

The year was one of the Infirmary's busiest years, Dr. Ladd, chief of the eye, nose, and throat department, said that the number of patients treated in the hospital.

BENG CHAIRMAN CHOSEN

For the second time the Combined Professional Directors' budget of $877 approved by the Institute committee meeting last night. This action came after a heated debate on the proposal beforehand. The Executive Board of the Institute committee felt that the budget was necessary to meet the financial needs of the years because the freshman council for the last three years, in order to have sufficient funds, has petitioned the MIT A.A. Dance Scheduled By Catholick Club

Over 500 Guests Expected To Attend Sophomore Dance

At 75 Cents

This year's Fall bicycle dance in the Catholic Club is scheduled to take place on Friday, October 19th, in the Main Hall of Walker Memorial. As usual it will be a nonstop dance. This year's dance will be under the direction of Joseph J. Cote, student body president and Joseph D. O'Connell, dance chairman. The dance will feature the department of the Freshman council. The dance will begin at 7:45 P.M. and will end at 12:00 A.M. (Continued on Page 3)

Physical Examinations Needed By 1200 Before November 1

At 1200 Wednesday, the number of undergraduate students who have received the required physical will be determined. This determination is necessary because the Institute will not honor the medical bills of any student who has not undergone a physical examination. The Institute's final registration is not to be honored by the Institute. As usual the Medical Examinations Department will not accept any applications for physical examinations after November 1. In order to avoid a $5.00 fine, each student should bring his completed physical examination card to the office of the Medical Examinations Department. The examination is required for all students who have not taken a physical examination within the last six months. It is also required for all students who have not taken a physical examination within the last six months. It is also required for all students who have not taken a physical examination within the last six months. (Continued on Page 3)

Dance will be provided by Jimmy (On)
MORE FINANCES

The animated discussion last night at the meeting of the Institute Committee on the inadequacy of the present Reserve and Contingency Fund should serve to focus attention upon possible modifications in the activity finance system which would be of great benefit to student life in future years. Undergraduate activities, arising depending upon the Institute Committee for support are now financed entirely from a student tax of $3.10 a term, declared by the Institute from tuition. Of this amount, $2.90 is earmarked for athletics, $2.00 for class dues, $1.00 for the Combined-Club Presidium, $1.00 for the maintenance of itself and other standing committees such as the Budget, Student-Faculty Committee, the Combined Clubs, and a reserve organization. These subtractions leave the tax of 13c, which is applied to a reserve and contingency fund.

This fund, which totals about $700 a year, was originally intended to provide for unusual and unexpected situations which would require appropriations and for which no provision had been made in the above allocation. In recent years, however, necessity has forced this fund to be used for financial activities such as the Debating Society, Combined Musical Clubs, and Beaver Key.

The financial demands of these organizations have assumed a decidedly permanent nature. Many activities which have indicated that "they are here to stay". The difficulties with the present method of financing these non-athletic activities supported by the Institute Committee are two-fold: first, the limited amount of money available for redistribution to all of these activities has tended to foster an unhealthy attitude of jealousy and competition on the part of each organization. This organization, and has seriously limited the amount of support the committee is able to allow any of these bodies. Second, by exhausting the reserve fund by the simple expediency of using it to provide for these permanent organizations, the committee itself is left without itself a reserve or contingency fund.

These organizations require support year after year and we suggest some definite provision be made for their financing in a revised allocation of a slightly increased student tax, whereby present funds remain intact and an additional tax be added from which funds could be given to the committee supported non-athletic activities. Under this system the Committee would approve the proposed budgets in the tax, quite capable with increased interest in extra-curricular pursuits, would adequately and safely provide for the extra-curricular groups, leaving the Reserve and Contingency Fund intact. This change, undoubtedly impossible this year, is a suggestion nevertheless which would be most helpful, here eliminate future financial friction.
Who wrote these? Who uttered such blasphemy? Henry Aldrich's father! And who is Henry Aldrich's father? You guessed it ... a Princeton man. And who is Princeton's father? You guessed it ... a God's Father. And who is God's Father? You guessed it ... a New York Times reporter! The answer is: "A new point system for Field Day, which prevents any possible tie and forces the varsity team to lose at least three of the five events, has been approved by the Field Day Committee. Of increasing importance this year will be the trend-war context, the winners of which will chalk up three points for their class as compared to the previous year's two points for the tower war. The other point, in turn, will replace the customary crew race, which will count for two points in the final result, while the football game, relay race, and glove flight tests are returned, in turn, to their former, first-year position in their competition.

This year's program is already in progress; it was first started by William B. R. Smith, secretary of this honor society for activities juniors. It will be followed and repeated in the spring of 1940...

The 1939-1940 season was a great one for the varsity team, and the upperclass teams have been ordered to retain their rating-four, three, and three points respectively.

University played in Doubt L. Holden, '39, the newly appointed president of the honor society for the varsity team, will preside at a meeting of the society. The meeting will be held tonight at 9 P.M. in the Union. Monday, October 12 and 14.

AND FOR NEW—What a success! The Athena's opening was attended by two hundred men and women. The aeroplane was flown over the city, and the thrill of the upperclassmen was complete.

FOOTBALL Schedules

The games are set for the week of October 6, 1939 with the summary of the winners:
