

Advance Sales For Field Day Dance Opened

Paula Kelly Is Scheduled To Sing With Band As Vocalist

AL DONAHUE TO PLAY

Room sales were reported by the Field Day Dance Committee last evening at the end of the first day of option sales for the affair October 27. Options were placed on sale for \$1.50 and will be available in the Main Lobby through the week. Redemptions are \$2.00.

Paula Kelly to Appear

One of the loveliest feminine vocalists in the dance orchestra world, Paula Kelly, has definitely been secured by the committee for the dance. Using only the vocal services of Phil Brito, Al Donahue, whose band will play at the dance, frequently makes appearances with his orchestra without the rhythmic singing and attractive presence of Miss Kelly.

Invitations to the annual fall formal were mailed Sunday to all Technology fraternities and the Graduate House, because the dance is open to all Institute students although promoted by the Dormitory Dance Committee. William G. Osmun, '40, has charge of ticket sales in the Graduate House.

Played at Smart Spots

The fashionable Bermudiana Hotel in Bermuda was the scene of Al Donahue's debut as a top-flight dance orchestra leader. From there he went into the exclusive Sands Point Bath Club on Long Island. There the Donahue combo was such a hit that it went directly to the Rainbow Room atop Radio City and thence to the Waldorf-Astoria. The next summer Al was featured at the Casino, Monte Carlo, probably the most fashionable spot in the world.

Menorah Society Is To Give Dance

Dinner Party With Radcliffe To Be Held In Walker This October

A dance sponsored by the Menorah Society will be held tomorrow evening in the North Hall of Walker Memorial from 8:30 P.M. to 1 A.M. Girls from Simmons College will be present for the occasion. The dance will be open to members of the Society, those who wish to join may obtain membership cards at the door.

Events on the Menorah Society calendar include an informal dinner party with Radcliffe near the end of October, a dance to be held next month in Walker Memorial, and a lecture followed by a tea at the Institute.

Debating Society Opens Against Emerson College

In what is promised to be an amusing and colorful contest, the M.I.T. Debating Society will open its season with a debate against Emerson College next Monday evening at 7:00 P.M. in room 6-125. Technology will take the affirmative on the subject "Women's Styles Show a Basic Inferiority Complex."

L. Hurley Bloom, '40, and Franklin P. Seeley, '42, will debate for the Institute, while Russell T. Werby, '40, president of the Society, will act as chairman. All those interested in joining the Debating Society are invited to the debate, and to the reception which will follow it.

Carmody To Play For Catholic Club In Walker Friday

Rev. Wm. J. Daly Will Speak To Club This Afternoon In North Hall

Jim Carmody's ten-piece band, well known to Technology men, will play at the Catholic Club dance from nine until two in the Main Hall of Walker, Friday, October 13. The dance will be open to all students. Feminine guests from a number of colleges have been invited.

The Main Hall will be decorated for the dance in traditional autumn style. The following chaperones have been invited: Professor and Mrs. Leicester

50 Students To Be Pilots

Plan Part Of Nation-wide Program To Train 10,000 Flyers

Fifty upperclass and graduate students of the Institute will receive training this year under the program sponsored by the Civil Aeronautics Authority, it was announced by Professor Richard H. Smith of the department of Aeronautical Engineering last night.

The training at Technology, which includes ground school instruction at the Institute and flight training at nearby airports, is a part of the five-year program launched last spring under the Civilian Pilot Training Act for training between 10,000 and 12,000 college students.

Twenty Trained Last Spring

Last spring, when the program was inaugurated, twenty Technology students participated, and, although the Institute's minimum quota has been announced as fifty, it is expected that the final quota will provide for the training of a greater number.

Beginning with ground school instruction at the Institute, the program will cover briefly the history of aviation, civil air regulations, navigation, meteorology, parachutes, aircraft and theory of flight, engines, instruments, and radio. It is expected that this instruction will be given for the remainder of the term three times a week from five to seven o'clock in the evening.

Flights Begin Next Month

Flight training is scheduled to begin about November 1, at the East Boston Airport and possibly at Norwood. This

A.E.S. Glider Crashes In Landing Attempt; Pilot Escapes Injury

Freshmen Remove Signs; Freshmen To Wear Signs

Late last week, in an attempt to throw off Sophomore tyranny, two freshmen removed from the bulletin of the Institute all the posters advertising the Sophomore Field Day rally and plastered them on the walls of their rooms.

These two defenders of the honor of 1943 were unfortunate in receiving, the next day, a visit from one of the dictatorial Sophomores who infest the dormitories. As a result, these martyrs to the cause of their class are being forced to make reasonably accurate facsimiles of the posters which they removed and wear them, like sandwich-men, all day Wednesday.

Sophs' Field Day Rally In 10-250 Tomorrow Night

Speeches On Football, Track, Sailing, And Tug-of-War To Be Given

The class of '42, one of the two annual Field Day participants, will hold a pep meeting tomorrow afternoon at 5:00 P.M. in Room 10-250.

Speaking to the sophomores at the rally will be Oscar Hedlund, coach of track at the Institute, who will attempt to build a winning relay team for the Class of '42. Walter C. Wood, boatswain in charge of the Nautical Association, is to describe the new Field Day sport, dinghy racing, to the second-year men.

Seniors to Speak

The two seniors in charge of the sophomore football and tug-of-war teams, respectively H. Garret Wright, '40, and David R. Goodman, '40, will tell of the progress of their men and the need for new material.

A probable guest will be the much-talked-of "Ferdinand" flag of the '42 men, which thus far has been kept safely from the freshmen. There is also to be a pianist present to lead singing.

Outing Club Plans Trips For Holiday

Two canoe trips on Columbus Day and a rock-climbing expedition on Sunday are planned by the Outing Club. These trips will bring the total held by the club to five for the week.

The first canoe trip is mainly for freshmen members of the club. The trip will start from Walker Memorial at 2 P.M. The group of freshmen and Radcliffe girls will spend the afternoon canoeing on the Concord River after which they will cook their own evening meal on the river bank.

To Climb Mt. Kearsarge

The second canoe trip with Radcliffe, which is limited to ten members, will start from Walker Memorial at 7:30 Thursday morning. The group will climb Mt. Kearsarge and eat lunch on top. A campfire supper is then to be held after the descent.

Prof. Peabody to Lead Trip

A second rock-climbing trip will be the other Columbus Day Outing Club excursion. The trip, under the leadership of Professor Dean Peabody, will be held at the Peabody Boulders in
(Continued on Page 4)

Ship Badly Damaged After Collision With Tree

A.E.S. Will Hold Inquiry At Special Meeting This Evening

Underestimating his flying speed, Max J. Breitenbach, '41, crashed the Aeronautical Engineers Societies' glider about sundown Saturday afternoon at the North Conway Airport, New Hampshire. The accident occurred during a three-way flying meet between the Harvard Glider Club, the Altosaurus Gliding Club of New Hampshire, and the Technology Club.

Breitenbach emerged from the wreckage unscathed, but the glider was damaged by an estimated \$250. One wing was completely ruined, while the nose and other wing were considerably crushed.

Struck Tree In Landing

The crash occurred when Breitenbach, attempting to land in a relatively high wind, overshot the field. He managed to turn the glider back toward the field but had lost altitude to such an extent that the ship struck one of the trees which border the edge of the field.

Tonight the A.E.S. will hold an official inquiry into the exact details of the accident. In addition to determining the specific causes of the crash, the club will discuss possible plans for the purchase of a new glider. A ship which would meet the needs of the gliding club would cost approximately
(Continued on Page 4)

Department Heads Write For T.E.N.

First Issue Of Year Includes Stratton Prize Winner's Article On Jobs

Articles by the heads of each department in the Institute discussing the individual courses will form the lead section in Friday's issue of the T.E.N. The first issue of the year will also include "Job Evaluation", by David S. Frankel, '39, the article which won a Stratton Prize last year.

"Radio Station Broadcasting Methods" will be the subject of the second article while the final section of the issue will be devoted to a pictorial analysis of the make-up and printing of the T.E.N.

The contributions by the heads of the departments will explain the aims of their respective courses and the possibilities for jobs that a student has on graduating.

So There!

Because of the fact that four hundred and forty-seven years ago this Thursday, Christopher Columbus discovered America (Ripley notwithstanding), and that Friday is a "Friday the Thirteenth" anyway, the regular issue of The Tech for Friday won't be.

FROSH-SOPHOMORE FESTIVITIES

Photo by Herbert A. Stein, '41

Dormitory freshmen and Sophomores started a war all their own Friday night. The battle scene shown above was typical of the hostilities seen in the halls that evening.

A preview of the Field Day glove fight was presented by a mob of approximately 200 freshmen and Sophomores last Friday evening in the court between the dormitories. The curtain fell on the scene only after the battered de-pantsed, and dirtied participants gathered together and rendered an off-key version of the Stein Song."

Slow to start, the melee was inaugurated when a horde of freshmen poured out of the dorms and spent a fruitless fifteen minutes daring Sophomores to come out and do battle. When no opposition appeared, the irate freshmen rushed back into the buildings and made a systematic search

custom of neat classwear, on such days most people will wear good clothes to classes and take a chance on emerging later from lab or shop with said good clothes intact.

It is true that there are aprons and lab coats designed to protect a suit, but in a steamheated room such protection is infernally hot and annoyingly cumbersome.

We would like to see the precedent set of wearing utilitarian clothing, such as good, tough overalls, to classes held on days which also involve shop or lab work.

It would be interesting to collect some figures on the value of the clothes that are ruined annually in the shops and labs of the Institute. Not only is such damage expensive but it is downright inefficient and as such hardly worthy of scientists.

GO AND GET IT

It is unfortunate that many of the freshmen have already the misconception that the fraternities run the activities around this school. This misconception is fostered by the large percentage of fraternity men at the head of activities and in honorary societies. It is still more unfortunate that such a misconception can degenerate into the fatalistic and worthless attitude of "what's the use".

The large percentage of fraternity men in activities is not due to any strangle hold which fraternities have on activities. It is due to the fact that the fraternities have had in the past and have at the present the interest and well-being of both the individual freshmen and the houses as a whole sufficiently at heart to push their freshmen into activities where they will be eligible for honorary societies.

Regardless of domicile grouping, all freshmen enter activities on a level with every other freshman. This is true both in theory and practise. After his initial turnout, it depends only on the individual freshman as to how far he goes in activities and as to how eligible he is for honorary societies.

It is not a matter of any strangle-hold, it is a matter of superior push which has gotten the fraternities where they are. The dormitories have the opportunity to put their men in activities and so in the honorary societies, if they will use it. They must get their freshmen into activities if they wish to get them into honorary societies; the same is true of the commuters.

"THE CATS MEOW"

October 7, 1939

Editor, The Tech:

It was with great pleasure that I read in one of your columns last week a little poem describing the beauties of nature in the White Mountain National Forest. I have enjoyed, as has no doubt the writer of the poem, a hike over the famous Presidential Range. Also I have stopped in the camps maintained by the Department of Agriculture where I have found a fine group of healthy and intelligent people. I also have found well run, orderly and sanitary camps.

No doubt it was at one of these camps that the writer of your poem stayed and all odds are that he stayed at the Dolly Copp camp which is by far the largest of them all. His praise of this camp is fully justified but I have one criticism to make of it. His latest stanza runs as follows:

"A little hut stood silently
 Amid that scenic view,
 Housing a chemical laboratory
 Painted buff and baby blue."

This is an inaccuracy. I have been to many National Forest camps and while they have many excellent chemical toilets available, all are finished in natural wood colors. I cannot see where the poet gets his colors here mentioned unless, of course, he is referring to the "waste" cans which are to be found in all the women's lavatories in the camps. These are painted, I believe, a baby blue. These waste cans because of their peculiar function are to be found only in women's lavatories and constitute only a small part of these structures.

But for this inaccuracy, the poem is an excellent one and I am glad to see that the cultural level of The Tech is being improved by the inclusion of verse of this sort and also that The Tech is devoting space to promote an appreciation of the beauties and advantages of natural living.

Sincerely yours,
 ALEXANDER FREDERICKS, '43

Aviation

(Continued from Page 1)

part of the program will continue as rapidly as possible until winter sets in, and will be completed in the spring term.

Flying will most likely be carried on between daylight and nine o'clock in the morning on regular school week days. If possible, some flying may be arranged for week-ends.

Will Cost \$40.00 Apiece

Total expense to students will be approximately \$40.00 each to cover physical examination, insurance, and incidentals. Transportation to and from the airports also must be arranged and paid for by the students.

The method of selecting flight candidates this year will follow closely the standards set up in last year's experimental program. In addition to the physical qualifications set up by Dr. Eldridge Adams of the C.A.A., details of which are set forth on bulletins at various points about the Institute, the committee in charge of the program will require that the academic record of each applicant show his ability to maintain reasonable scholarship in addition to a liberal amount of extra-curricular activity.

Parent's Permission Required

Before being accepted for the program, the student must produce written permission from his parent or guardian, irrespective of age. Applicant forms will be available at the Information Desk in Building 7, and should be completed and returned there before October 17.

During the week of October 17, the Technology committee, consisting of Professors Richard H. Smith, Otto C. Koppen, and Charles S. Draper, together with three flight instructors, will arrange to see all applicants. For the purpose of expediting these interviews, each candidate should add to his application form the open hours in his schedule.

Daily Morning Practice For 11 Shells On Charles

Under the leadership of Coaches Jim McMillin and Bob Moch, the crew is now hard at work on the Charles river at early hours of the morning. With the elimination of the field day crew event, all attention is being centered on training for next Spring.

Every morning except Saturday and Sundays, crew men start out at 6:45 and spend the next hour out on the river. Crew is the only activity at Technology that starts work before breakfast.

Final Crews Unpicked

According to the coaching staff, it is expected that there will be six freshman crews and possibly five crews of upper classmen.

Catholic Club

(Continued from Page 1)

F. Hamilton, Mr. Henry P. McCarthy, and Mr. Herman J. Shea.

At the dance there will be representatives from Wellesley, Simmons, Radcliffe, Emerson, Boston University, Teachers' College, Portia, and Jackson. The dance is open to stags.

Smoker Today

Stressing the importance of Catholic action for Institute men, Reverend William J. Daly, director of Catholic literature study for the Boston Diocese, will speak at the club smoker, to be held in the North Hall of Walker at 5:00 P.M. The purpose of the smoker is to acquaint the new Catholic students with the club's activities.

WANTED FOR PART TIME—

Student to represent manufacturer of America's most exciting table game. Contact the TECH for details.

LOOK YE WELL, FRESHMEN!

At the end of this week, the first expression of the freshman class, as a unit, will find utterance in the nominations for the Freshman Council.

The importance of this first expression is, as always, overshadowed by the more gaudy display of Field Day, when the frosh lift their voices and howl.

These coming elections have a tendency to slip by unnoticed. The members of the class naturally do not know each other very well, and are somewhat at a loss when asked to name representatives. For this reason, many freshmen in the past have not paid a great deal of attention to the elections. That is a mistake.

It is unfortunate that it is necessary to hold the elections so early in the year, but that does not diminish their importance. The men who will be named as freshman representatives next Tuesday and Wednesday, of course, do not so automatically become the class leaders for the next four years, but they have a long start in leadership and the most favorable springboard to future prominence. Many of them will retain throughout their four years the leadership devolved on them next week.

Their selection, therefore, becomes a matter of not of supreme importance certainly of considerable weight.

Mark well, you freshmen! When you are asked to name representatives, don't just put up the name of the man you know best. Look over the entire thirty-five men in your section and call out the man who shows the most promise of having those qualities necessary to efficient and strong leadership.

Field Day makes more noise at the present, but next week's elections carry reverberations which may echo in your ears for four years.

LO, THE GREASE MONKEY!

For a bunch of engineers, the Institute student body would make a very well dressed set of executives. Not noted for its sartorial excellence, we still outdo in the formality and neatness of our everyday classwear many of the more socially minded colleges in the east.

It is not in our editorial mind to deplore this situation—in general. However we do think it can be carried a little too far. Nearly every one in this school has one or more days during the week in which both classes and laboratory or shop work call him. Owing a good deal to our above mentioned

Soccer Team Defeated By Tufts' Jumbos

Josefowitz Scores First, Howie Samuels Ties Game

GAME DECIDED LATE

In a game marked by the steady play of both teams, the M.I.T. soccer eleven lost last Saturday afternoon to the Jumbos of Tufts by a score of 2 to 1. After the score had been tied for two quarters, Kelley of Tufts won the game on a solo shot seven minutes before the final whistle.

Josefowitz Scores

M.I.T. counted three minutes after the start of play on a kick by Dave Josefowitz '41 assisted by George Miller's corner kick. Seven minutes later Gould of Tufts not to be outdone knotted the count on the same type of play. Kelley scored Tufts second goal midway in the second period but Coach Malcolm Goldie's men came right back to tie it up on a brilliant kick by Howie Samuels '41, from 20 yards out.

Tech Goalies Star

Until Kelley's final goal the tide of the game surged back and forth with the two Tech goalies Herzog and MacPhaul making remarkable saves and the whole Tech team led by Macorra, Samuels, and Captain Haden playing outstandingly. The team was in poor condition, only three men playing throughout the game, and Coach Goldie had to make frequent substitutions. The original eleven men played throughout the game for Tufts. Starring for the Jumbos was their Captain Jenkins.

The Tech team will leave Wednesday for Hanover, New Hampshire and a game with the Dartmouth Indians on Thursday.

M.I.T.	Lineup	Tufts
Herzog	G	Picheux
Loren	RFB	Milhench
Sosa	LFB	Bowser
Perez	RHB	Bennett
Haden (C)	CHB	Westervelt
Samuels	LHB	Rockwood
Wu	OR	Coolidge
Kiraman	I	Kazenka
Josefowitz	CF	Gould
Macorra	IL	Kelley
Miller	OL	Jenkins (C)

Substitutes—Tech: VanSciver, Estes, Fay, Ewing, Guernsey, MacPhaul, Lemore, Schegen.

Sophomore And Frosh Practice Hard At Track

Freshmen and Sophomores are rapidly rounding into shape for the field day relay race, according to Coach Oscar Hedlund's statement late yesterday. Preliminary workouts have been completed and candidates will make their bids for positions starting this week.

Next Saturday a handicap meet will be held to give the men their first taste of competition. Starting next week the formal trials for positions will be held at 220 yards, the distance each man will run in the field day relay.

There will be fourteen positions open on each team; twelve men will run and two will be substitutes.

Big Frosh Turnout

Although the freshmen who turned out far outnumber the Sophomores, the sophs boast such stalwarts as McKee, one of the fastest of last year's freshmen, Denhard, Smith, Edwards, Schultz, Ford, Rote, Kelly and Darling.

Frosh P. T. Substitution Deadline Noon, Oct. 20

October twentieth at twelve noon is the deadline for all freshmen to sign up for an active sport as a substitution for physical training. All such applications must be made in Coach Henry P. McCarthy's office on the third floor of Walker Memorial.

Sports which may be substituted for P. T. include crew, track, basketball, swimming, fencing, boxing, wrestling, soccer, gym, and squash. If a freshman does not substitute a sport before the deadline he will be forced to take physical training twice a week in Walker gym.

Swimming Rally In Room 10-250 This Afternoon

Freshmen Invited To Hear Smith, Jarosh, Dean Explain Sport

At 5:15 this afternoon a rally will be held in Room 10-250 for anyone interested in turning out for the swim team. Speakers at the rally will include Gordon Smith, freshman coach; John Jarosh, varsity coach, and Mr. Russell Dean, a former Technology swimming coach.

All freshmen are invited to attend as the swimming program will be broadened this year because of the new pool, which will probably be ready late in the spring.

Varsity Squad Larger

The varsity squad will be larger than in past years because of the new rule limiting a man to participation in only two events per meet. The team will be built around Captain Bill Schuler, '40, who broke the Tech fifty yard record last year, and Dave Howard, '41, ace diver. Although five varsity men were graduated last June, the coach expects a good team because of the talent in the men coming up from last year's freshman team.

Soph Managers Needed

According to Jack Heist, '41, head swimming manager, an intramural meet between the four classes will be held early in December. Jack would also like some Sophomores to turn out for the position of Sophomore manager.

Schedule For Season

	Varsity	Freshman
December 15	Amherst	Harvard Frosh
January 12	Conn. State	Brockton H. S.
January 13	Boston University	Huntington H. S.

Frosh Tryouts For Sail Races

Intercollegiate Races To Be Held Sunday At Tech

The freshmen are holding their tryouts for the dinghy races to be staged field-day. Calvin Dunwoody, '43, has been chosen freshman captain, and tryouts are taking place under his direction. Although the turnout already is encouraging, more freshmen are urged to appear at the Pavilion.

Intercollegiate Here

The New England Intercollegiate Championship Races will be held on the Basin next Sunday, October 15. Twelve colleges: American International College, Amherst, Bowdoin, Boston College, Holy Cross, Middlebury, University of New Hampshire, Northeastern, Rhode Island State, U. S. Coast Guard, Worcester Tech, and Wesleyan have been invited to participate, and it is expected that most of them will be present.

Despite very calm weather, series races were held last Saturday and Sunday, and will be continued on Thursday of this week. The Saturday results were as follows: in the Red division, John Carleton, '42, crossed the finish line first with a score of 34 while Dean Lewis, '42, came in second with 27 points. First place in the Blue division went to John McKee, '40, who scored 49 points; and tying for 42 points, Walter Kern, '40, and Thomas Gouzoule, '40, came in second. In the graduate section, the Yellow division, Charles McArthur, was first with a 20, and Leonard Jaffe second with 19.

Series Races Continue

Races on Sunday included the same divisions, Red, Blue, and Yellow, and were won in the following manner: for the Red, Hans Aschaffenburg, '42, was first with 21 points, and Delevan Downer, '40, second with 19, William Strong, '42, led the Blue division with 15 points, and Edward Owen, '41, who scored 13 points was second. The Yellow division raced with Eric Olsen, in first place with a score of 35 and the second place was won by Dr. Joseph T. Rivers, Jr., with a score of 32 points.

Frosh Tug-of-War Team Practising For Field Day

Freshman tug-of-war practice started last night at 5 on the Coop Field under the supervision of Valt Aker, '41, with a satisfactory, but still too small turnout. All Freshmen are urged to come out and help their classes. There are still positions open on the tug-of-war team.

The date for the beginning of Sophomore tug-of-war practice will be announced at the Sophomore Rally on Wednesday at 5 in Room 10-250, according to the coaches, Beano Goodman, '40, and Gregg Bry, '40.

Class Football Practice Starts

Freshmen Hold Scrimmage With Wentworth; Games Start Soon

The Junior and Senior football teams, which expect to receive their equipment by Thursday, will most likely hold their first practice scrimmage that afternoon, according to Dave M. Heskett, '40, head football manager. About 35 men have turned out so far for these two teams, but they have not as yet held any scrimmage because of lack of equipment. Also, the Senior team is still looking for another coach.

The freshman team yesterday had its first scrimmage with the Wentworth Trade School. As indicated by this scrimmage, they have an exceptionally good first team and quite a few competent reserves. They are to play games with Wentworth and with several house teams at Harvard, but no definite dates have been set as yet.

Sophs Use Tricks

According to Garry Wright, '40, the coach of the Sophomore team, they expect to play at least three games before Field Day. The team is at present working on trick plays, but they are naturally quite handicapped by not having enough equipment to outfit their thirty-three players.

Largest Fencing Turnout Raises Hopes For Season

"We're going to win every league but the inter-collegiate and we'll be in the first half of that", was the bright hope expressed by Frank W. Kolk, manager of fencing, in an interview today. He bases his opinion on the fact that this year's turnout has been the largest in the history of the sport at Technology.

Turnout Picks Up

Despite the fact that the year started off without a coach and a very poor rally of only fifty attendants, the sport has picked up considerably since then and the season promises to be very successful.

Technology Team To Leave For Conn.

First Meet Of Cross Country; Capt. Crosby Leads Men Against Univ. of Conn.

The Technology Varsity cross country team is scheduled to leave Saturday afternoon for Storrs, Connecticut, where they will open their 1939-40 season against the already proven team of the University of Connecticut.

A team of ten men under Capt. Dan Crosby will make the trip. A tentative list as released by coach Oscar Hedlund included Stan Backer, Eugene Brady, Lester Gott, Arthur Gow, Ed Lamanski, John Rode, and Lawrence Tornoch.

Tech Looks Good

The University of Connecticut team last week raced and beat the Northeastern runners at Franklin Park by a 35 to 21 score.

Coach Hedlund, in an interview with The Tech, said that Technology's chances against Storrs were very bright.

T.C.A. Will Continue New Children's Camp Project

The Technology Christian Association has tentatively voted to continue its new policy of sending underprivileged children to summer camps. It was first tried this past summer, and it was pronounced an unprecedented success by T.C.A. officials.

Until last year it had been their policy to spend one thousand dollars to send a Technology man to Robert College, Istanbul, Turkey, as a teacher. Because of student unpopularity, it was discontinued this past summer in favor of spending the one thousand dollars to help send one hundred and fifty underprivileged boys to camp.

mately \$600, while the expense of constructing a plane of the same type by the club would total nearly \$500.

First Event of Year

The glider meet, which took place over the week-end, was the first big event of the year for the A.E.S. Three institute students, Roger H. Wiethoff, '41, president of the A.E.S., Joseph G. Anthony, '41, treasurer, and Breitenbach, entered the meet with four Harvard and four New Hampshire students.

Originally scheduled for soaring events, the meet was limited to demonstration flights because of unsuitable weather conditions.

Walker Committee Plans Tryouts Tuesday Evening

Sophomores who are interested in serving on the Walker Memorial Committee are to attend the tryouts at 5:00 o'clock on Tuesday, October 10, in the East Lounge of Walker Memorial, according to William R. Ahrendt, '41. The purpose of the committee and the duties of its members as well as the benefits to members will be explained.

Gridiron Cards Available At Office Of The Tech

Those students who have not yet received their Gridiron Subscription Cards may procure them in The Tech Business Office.

These cards entitle the purchaser to one year subscriptions to The Tech, Tech Engineering News and Voo Doo. Cards for the 1940 Technique will be mailed from Technique's office.

Dorm Riot

(Continued from Page 1)

floor by floor, carrying all Sophomores into the showers by sheer man power.

Sixty Immersed

It has been estimated by neutral observers that no fewer than sixty of the Class of '42 were routed out of their rooms and propelled forcibly under the icy waters. One of the victims, none the daunted by his submersion, followed the marauding frosh around to the other floors to warn and protect his fellow classmen.

"Ferdinand the Bull", who bothered the freshmen as they set out for the T.C.A. camp, made his appearance again, draped out of a fourth floor window by a belligerent Soph. The flag was marked for annihilation as freshmen poured into the dorm after the offending "Ferdinand". But the wit of the '42 man who "blacked out" his dorm by throwing the main light switch saved the Disney-esque banner.

Sophs Convocate

By that time a few of the second year men had collected a potent fighting force and met the freshmen on their chosen ground, the court between the buildings. From then until one-thirty in the morning it was every man for himself, and the best man kept his pants.

Outing Club

(Continued from Page 1)

Peabody, Massachusetts. The group will leave from the steps of Walker Memorial at 9:00 A.M. It is requested that all members wishing to attend this or one of the other trips sign up on the bulletin board in the main lobby of Building 10.

The first rock-climbing trip, which was attended by sixteen people, was held last Sunday at Quincy quarries. The majority of the time was spent in instructing the novices in the use of the climbing-rope in belaying and rappelling. (Belaying is the use of a rope as a safety device while climbing, while rappelling is the use of a rope as a means of lowering oneself down the face of a cliff.)
