Pie Contest
On Field Day
Two-Man Pie-eating Teams Will Compete For Class Glory

Another contest, in addition to the more serious events, is scheduled to take place on Field Day. The pie-eating program, which was announced by the Domestic Dance Committee, could be a pic pining contest taking place that evening at the Field Day Dance. Planned as an interlude to the formality of the dance, the contest will be between teams of two men representing the classes of '42 and '43. Contestants will have a choice between apricot, blueberry, and apple. The grand prize will be a pie.

Tech-in-Turkey Fund Helped 100 Poor Boys To Go To Camp

Bringing its philanthropic efforts closer to home this year, the Tech-in-Turkey fund announced that it has helped one hundred underprivileged boys to attend camp. The fund is part of the boy's work program at Tech, with the goal of aiding underprivileged boys to go to camp. The fund has helped numerous students over the years, and has received donations from various sources. Donations can be made to the Tech-in-Turkey Fund committee, and will be used to support the program. For more information, please contact the fund committee.
THE CHICKEN OR THE EGG?

Surviving another of its perennial crises, the C.P.S. fought a hot battle, obtained approval of its budget from the Institute Committee yesterday evening.

However it was apparent that many of those who voted on the question of that approval did not have in mind the subject before them, which was the budget submitted by the C.P.S. Instead, they voted with some vague idea of giving the C.P.S. a chance to show its good. That is only indirectly the concern of the Institute Committee.

It has not been the custom of the Institute Committee in years past to advance monies to an activity in order that that activity may prove its worth. Quite the opposite. Last year the Finance Federation was given only provisional recognition because it had not proved its worth. For several years the Debating Society had been receiving money from the Institute Committee only on a basis of an extremely active and beneficial program, which it has been careful to explain in detail to the Institute Committee when presenting its budget.

The Institute Committee cannot afford to set the precedent of sponsoring an activity until it has proved its worth. There are many groups which would gladly accept the time and so offered, and the Institute Committee would either have to resort to discrimination or bankruptcy—a most unpleasant pair of alternatives.

In the future it would well behove the Institute Committee to scrutinize thoroughly both the budgets presented to it for approval, and also the activities presenting these budgets. The question of approving a budget should depend upon whether or not it is presented by an organization qualified to submit a budget.

Since the C.P.S. has obtained its budget, the problem of next year is how to prove to the Institute Committee that the Institute Committee was right in considering it an organization qualified to submit a budget. We expect to see the C.P.S. which assumes the chair of which is to provide for active and effective coordination of the professional societies. That is one chair which the C.P.S. has not yet performed with any success. It is a function demanding considerable thought and planning, and if we do well only enough to occupy both the time and energy of C.P.S. and remain as a danger to the value of the organization.

WATER, BOYS!

In addition to the frequent brawls between freshmen and the sophomore's, these activities have become subject to another and more serious annoyance. This annoyance is the number and persistence of itinerant peddlers who hawk their wares by means of an official peddler.

There are regulations prohibiting the under-cover commercial activity, but it is very apparent that these regulations are not very well enforced.

It is then up to the students themselves to protect themselves from annoyance by these commercial flies. By this we do not mean just closing the door in a peddler's face. They are used to that.

If the dorm men would gently and firmly remove any such unofficial peddler in the face. They are used to that. It happened in 2-120. A certain foreman know nas Hallie Joe was trying during a hundred and anata to the mysterious of enthralling, steam doors and negative emotions. The situation was getting very critical. He had reached the critical pressure, the critical value, the critical point. In short, he was at the critical point. "Now let us cool the field in a direction, and lo and behold we have a bubble of vapor rising winding its way upwards, and desolate of liquid is on the surface of the bubble. Take this great collection of 'what shame does gravity have against Archimedes.'"

**Field Day Sports**

**1942**

With Field Day rapidly approach- ing, the large freshman contingent of the football and track teams have been working hard on the准备 for the event. The freshmen have been working on the track for the past few weeks. No official team has been selected, but in the practice games and scrimmages the following men have been seen:

- First String: Sam Trinkle, Wayne Harris, and Ray Rehr.
- Second String: Bob Smith, Bill Broderick, and Artie Foster.
- Third String: Billy McManus, Fred Harris, and John Stovall.

The freshmen, according to Coach John Stovall, '41, will employ an offense with a single back who will be on the offensive line. They will average about 180 pounds, but the backs carrying averages 200 pounds. Environmental conditions will be bad, but in the practice games and scrimmages the following men have been seen:

- First String: Sam Trinkle, Wayne Harris, and Ray Rehr.
