Annual Dance
To Be Climax Of Field Day

Film-Eating Contest For 11 P.M.; Glee Club To Sing

I. DONAHUE WILL PLAY

The musical climax of the Field Day activities will be the annual Field Day dance which is to be held tonight in the Multi Hall of Walker Memorial. Doughnut and freshmen will then be able to get merrily again after their battles in the afternoon.

Since the occasion will be handled by Al Donahue and his orchestra, who have just left the world famous Rainbow Room at Rockefeller Center in New York City, Paula Kelly and Fred Bots will supply the vocals and Donahue will assume a top bat.

Intro Selectors
Last and most interesting intercollegiate on- campus of the day will be at 7:00 P.M., when a freshman and a sophomore dancing contest will be given to test the agility of the competitors. The dons will have their choice of several kinds of competition.

Field Day Eve Is Highlighted
By Bizarre Freshman Errands

"Was the night before Field Day a sight to see," commented one of the dormitory men. The Intercollegiate Men's Basketball Team was busy filling both hands.

In front of the doors, the young men were seated as sentries, guarding the entrance from the outside. The entrance was guarded by a team of men.

The scheduled time for the send-off was 2:00 P.M., but the game did not begin until 2:10 P.M. The crowd was eager to see the boys in their best uniforms.

The game was a thrilling one, with both teams playing with great enthusiasm. The Sophomore team managed to hold the Freshmen for a few minutes, but eventually the Freshmen emerged victorious.

The crowd was欢声雷动, and the players were congratulated on their fine performance.

$4250 Goal Set
For T.G.A. Drive

Starting Sunday

The annual drive is the sole means the T.G.A. has for financing its many activities. These include sending 100 postcards to students in the Boston area, conducting freshman camp for about 150 students, distributing 1,000 handbills, and the employment services for students.

The solicitors consist of the president and one other member of each fraternity, a student from each floor of the dormitories, and representatives of the senior and junior houses.

Post Drive Program

The progress of the drive will be shown on posters displayed at Walker Memorial, the Coop, and other locations.

The campaigns of the dormitory men, fraternity men, and non-fraternity men will be handled by lines of individual contributors, who will be sought for donations.

President of the Drive committee is Albert Bowker, '41. Other officers are William Phillip, '40; Paul Adams, '41; Richard S. Howe, '41; and C. C. Worley, '40.

"The Sophs will win this Field Day," stated Oscar Hedlund yesterday in his traditional last minute prediction of the outcome of the contest.

"I last for the Sophomores to win with the relay race because of their previous experience with that event. The relay race is the only event in the Field Day program that is determined largely by past experience and coordination." The relay team can easily pick up twenty yards lost by inefficient handling.

Last year's freshmen lost by becoming fatigued after setting a field lead.

We would like to see a number of such students get together and put forth an organ of such material. Only then the situation be- ginning is necessary; a miniharograph book- let. Editorial and executive supervision could be reduced to minimum.

All the Institute publications have had unimpressive beginnings; their present ap- pearance is only the result of years of trial. This is room at the Institute for a fir-dad.

HALF-COCKED

This country probably talks more about the European war than the combined popula- tions of the nations actually engaged in the struggle. We suppose it is human nature to take sides, but it is not good logic or good sense in this case.

Not very many in this country have actual knowledge of conditions in any of the European countries. All we know of the living, financial, and governmental condi- tions in those countries is hypothesis, drawn from a dozen different sources. We don't know how much of this hearsay is true and how much of it is false.

Official news is frankly spread by propa- gated agencies; unofficial news is usually de- rived from "a friend who has a brother liv- ing in Germany," etc. The reliability of that sort of news is questionable.

It all boils down to the fact that no very many of us have any personal interest in this war. Admitted that it seems well estab- lished that conditions exist in Germany, in France, before the war, which were condu- ctive to productive and peaceful living, most of us have no good reason to assume that any such way of life will return, in England. Such a presumption is a human reaction, but not a very well grounded one.

Yet it seems quite possible that we may yet go to war on the basis of such vague prejudices.

IN THE MAIL

Hatter of THE TECH

In the last (19-23) issue of LIFE the article on pages 13 to 15 summarizes the proposal of C. K. Streit, one of the leading American people. Their support for such a move can- not attempt?" This implies, of course, that there will be a number of men who would feel mildly urged to tweak

A CHALLENGE

Now that VooDoo has bashfully emerged from its purgatory, we may consider whether anyone feels mildly urged to revolt against the feline's tail.

We would like to recall to Pho's memory a suggestion made by our predecessor, who felt mildly urged to wrestle the feline's tail.

UP AND AT EM

Sad though it has degenerated from its days of pristine -ore, yet still today is Field Day—the one time of the year when the other lower classes are turned loose on each other with the mayhem and masquerade preliminaries.

This implies, of course, that there will be no more made over from conduct culled from the frases. Of course there must be a sportsmanship; give the other guy an even break. The devil needs food for thought: each man is, or should be, the blood of the other man, and the other man is sup- posed to know that and to be prepared for anything.

Deeply though it pains us, we feel im- pelled to remark that Field Day has become much too formalized a brawl. Forget the points, and get after the other class. Dig into the glove fight for all you are worth.

However, we don't suppose there is anyone else who will have to pay for it. Fight clean. Let's see some action today!

M.T.T. Harriers Are To Meet Yale

Capt. Edward Crosby Leads Team In Third Encounter Of This Season

The cross country team will travel to New Haven (this week) to meet the Yale harriers in a Saturday morning contest. This is the third meet of the year for the Track team. The team will leave Cambridge in the morning, and be ready for the meet at 11 A.M. tomorrow morning. Those who will compete are: 

1. None shall be allowed to wear separate pieces of clothing, and in the glove. If torn in pieces.

Glove, if brought in separately, must be deposited in the barrel. Controlled and it shall be the duty of entirely different color. The inspection of this type of analytical work has been given increasing recognition by industry during recent years. This fact led the Institute to establish the textile laboratory in 1933. Since then, under Professor Schwarz's direction, it has become one of the best equipped laboratories in the country for textile microscopy. Special emphasis has been directed toward the use of these facilities, both fundamental and for practical research.

Predictions

...year statistics indicate that the freshmen have too much to offer.

...high school football victory predictions...are based on the Class of '42's superior organization and experienced team. This combined with their early start of practice makes me favor the freshmen on the gridiron." Coach Hedlund stated.
