10-250 yesterday afternoon at the first
is hoped to have Professor Frederick
late November or early December, it
tively hoping to secure the regional
weekly discussions.

T.C.A. to Revise Budget As Drive Fails Expectation
Only 79% Of $4,250 Goal Is Raised By Solicitors
in Week Drive
Necessity of Drawing up a new T.C.A.
plan becomes more evident after the recent
this year the committee members
by mail instead of personal calls and
the solicitors were received with
less than previously. The contribu-
tion from the dormitories were the
same as last year, while the
larger donation were obviously last.

T.C.A. has been unable to
increase the new budget which will prob-
sibly contain small deductions in the
allowance to each T.C.A. student.

POOR PUSSY

The woods pussy of Walker— that disputed feline with a pow led glaze in its faded eyes personifies our honored sister publication, VooDoo, has taken up its residence in a student among its furry friends, reminding us once again that the Tech is the right place to be a distinguished feline. The acceptance, we admit, does credit to the animal's discretion. The student who with a lewd gleam in its eye would attempt to assert itself as the life of the student body of the Institute. The necessity of sitting down at a specified time to keep the lore of its students, however, is the student's own fault. Although we cannot guarantee that the woods pussy will be retained, it is our hope that it will be a source of entertainment for the student body for many years to come.

This week's schedule.

**EXETER**—A hilarious comedy which is successful, the desk will be opened in New York.

**ROOTS**—Beginning next Monday evening, April 13, at 5:00 P.M., "A Good Bargain" will be presented at Harvard. The show is successful, the desk will be opened in New York.

President Hedlund predicts "Victory by Maine"

The University of Maine was pronounced as the favorite team for the New England Intercollegiate Cross Country meet to be held at Franklin Park, Boston, on Saturday, January 1.

According to Coach Hedlund's fig-
ures, Maine should have more than enough men to compete with the teams of the East. TheSingle 9-man team from Maine should score more than one-third of the meeting. Maine's 9-man team, coached by William Edwards, will probably have a good chance of winning the race.

Trophy Predicted "Victory by Maine"

The Maine team is expected to win the race, but the University of Maine is also expected to be a strong contender. Maine's team has not kept up a good build-up. The team has been worked out under the direction of Bill Cadigan's expert kicking and running. The team will play its only outside game for the last game of the season.

Three times a week from 6:15 to 7:00 in the morning the twenty-eighth turn for cross-country practice in the Boston area. The remaining work at least eleven more practice ses-
tions will be held before the meeting. The University of Maine team is being prepared for the cross-country meet to be held on December 5 with Boston University. The cross-country meet will include three trips to the State of Maine. The first trip will be to Dartmouth early in the morning on December 11, New Hampshire on January 3, and Maine on January 5. The cross-country meet will be held before the meeting.

Trips Scheduled

Three trips have been scheduled for the Maine team; the first being to Dartmouth early in the morning on December 11, New Hampshire on January 3, and Maine on January 5. This is one of the main events of the season. The last trip before the meet will be held before the meeting. Three Freshmen Elected To Inst. Comm. Positions

The three freshmen Institute committee positions were filled by elections held at a meeting of the Freshmen Council yesterday in the East Lounge of Walker Memorial. Dick Rockenbach, '42, section 17, and Robert Blum, '42, section 16, were elected to the position of secretary-treasurer, the highest office in the freshman class. Others elected to the committee are Warren L. Jellison, '43 and Kemp Sappington, '43.

Marriage Lecture

Four points were enumerated by the lecturer in his attempt to explain the problem of sex in married life. They were:

1. That the more we talk about sex, the more we understand it.
2. That a healthy sex life is a normal, necessary part of a mature adult's life, and allows the individual to grow through it.
3. That sex may be used profitably in any phase of life after marriage.
4. That the expression of sex is most beneficial when coupled with the natural affection of matrimony.

Scientific approach

Passing a motion, the lecturer called to the blackboard and wrote the terms, which, in his opinion, explain the proper way to sex control. Professor Magura then repeated the technique, saying "This is the problem in its simplest form."

"What are the things that most supply marriage people have done?" is a question that the lecturer posed. "The answer is not always obvious of itself. We must understand the problem and recognize the need for a solution, the need for personal involvement with the problem."

"Don't speak to them. Guide them to the solution, or you will lose their trust."

Psychological Expression

"Long-term experience has shown," the lecturer said, "that our problems are not the responsibility of the individual, but rather the responsibility of the society. We must understand the problem and recognize the need for a solution, the need for personal involvement with the problem."

"Don't speak to them. Guide them to the solution, or you will lose their trust."
