

BROWDER ASKED TO TALK HERE

T.A.C. Motion Is Withdrawn By Sponsors

McGinnis Reports Profit Of \$2.03 On Soph Dance

BY-LAW MOTION MADE

The motion that the Technology Athletic Club be recognized by the Institute Committee was removed from the table last night by Valentine de Olloqui, Jr., '40, who proposed the motion. The withdrawal followed a recommendation by the Executive Committee.

Reporting for the Sophomore Dance Committee, Carl L. McGinnis stated that the total expenditures for the dance were \$1,972.22 and the receipts, including \$231.00 from the bond put up by the committee, were \$1,974.25. He reported that the \$2.03 profit would be placed in the class treasury.

By-Law Change Proposed

William S. Kather, '40, made a motion that the By-Laws of the Institute Committee be so amended that approximately one-half of the Committee take their seats in February and the rest in May. Kather stated that the motion was designed so that the whole Committee might not be inexperienced when it first met. The motion also provides that the general managers of publications do not remain on the Committee after the election of the new general managers in February, according to Kather. The motion was committed.

The recommendation by the Executive Committee will be discussed at the next meeting. (Continued on Page 4)

Talented Leaders Needed For T.C.A. Boys Work

There is still a demand for additional Tech leaders in settlement houses of Boston, it was announced recently by the T.C.A. Boys' Work Division.

Those interested in giving instruction in chemistry, physics, biology, or general engineering are especially welcome. There is also a place for those wishing to tutor groups in more specialized subjects. Several graduate students and a few freshmen who are now taking part in Boys' Work have stated that they find it valuable training for themselves as well as the boys.

Compton Reveals Open House Plans In Alumni Speech

Technology's Contributions To Science And Industry To Be Featured

Plans which indicate that next May's Open House will be the most elaborate ever held at the Institute, were revealed by President Karl T. Compton at a dinner of Philadelphia and Wilmington Alumni in Wilmington last Wednesday night.

The announcement followed a discussion by Dr. Compton, who was guest of honor at the dinner, of activities at the Institute, in which he spoke of the great varieties of research now in progress, advances in curriculum, and the new graduate course in Marine Engineering.

Tech Makes Contributions

A comprehensive exhibition illustrating the Institute's contributions to science and industry will be featured at the Open House. (Continued on Page 4)

Poland Scores Dies Probing

Civil Liberties Endangered In Event of War Says Speaker

"The Dies Committee is designed primarily to smirch the Roosevelt Administration and act as a stooge committee for the anti-labor organizations in this country," charged Orville S. Poland of the Massachusetts Civil Liberties Union to students assembled at a joint meeting of the Technology Peace Federation, the American Student Union, and the Technology Christian Association yesterday afternoon in Room 4-231.

In firm tones the speaker further intimated that the Browder and Kuhn incidents were just means to an end—to raise more funds for the committee's continuance.

Civil Liberties Discussed

Speaking chiefly upon the subject, "Civil Liberties in War", Mr. Poland insisted that the more dominant the other special interests in time of war, such as nationalism or jingoism, the less chance civil liberties have of remaining intact. "In fact," he continued, "they approach zero or even a minus quantity."

The speaker connected his topic to the current situation. (Continued on Page 4)

Outing Club Plans Joint Riding Trip

Wellesley Girls To Cook Meal For Tech Men After Ride On Horseback

A joint riding trip with the Wellesley Outing Club, is to be held this Sunday morning by the M.I.T. Outing Club. The Club will also hold an open meeting this coming Wednesday at 5:00 P.M. in Room 1-390.

The trip, which will include a two hour horseback ride followed by a lunch to be cooked by the girls, will leave from Walker steps at 9:30 A.M. and will return at 2:30 P.M. The cost of the trip is \$2.50.

Olympic Skier to Speak

Ted Hunter, member of the 1936 U. S. Olympic Skiing Team, will talk on "Ski Waxing" at the Wednesday meeting, which is to be devoted to skiing. Hunter will also show some moving pictures on skiing at the 1936 Olympics, in Chile, and in other places.

A second square dance, or Hill-billy Swingaroo, with Radcliffe, the first of which met with much success, will be held by the Outing Club in the Hangar Gym on Saturday night, Dec. 16, from 8:30 to 12:00 P.M. The attendance will be limited to thirty-two members and tickets at twenty-five cents may be obtained any afternoon between 5 and 6 at the Outing Club Office in Walker Memorial Basement.

Speech On Metal Cutting To Be Given By H. Ernst

"Recent research in Metal cutting" will be the topic of a speech by Hans Ernst, research director of the Cincinnati Milling Machine Company, at the meeting of the Boston Chapter of the American Society for Metals at 8:00 P.M. tonight in Room 6-120.

Born and educated in Australia, Mr. Ernst came to this country in 1915 and has spent much of his time since then in machine development research.

Peace Society Seeks Communists' Leader As Speaker Thursday

200 Options Are Sold For 1940 Senior Week

200 options for Senior Week have gone in the first two days of sale Fuehrer Bumsey, '40, stated late last night. This is 60 more than were sold in similar fall sales last year.

Today is the last that the options will be on sale in the Main Lobby until next spring. At that time the price is higher.

Tech Debaters To Meet Yale This Weekend

Institute Team Will Uphold Both Sides Of Topic In Two Debates

For the first time in the history of the reorganized Technology Debating Society, Institute orators will debate Yale. Two contests have been scheduled with that school on Saturday evening, December 9.

"Resolved that in the event that the allied powers should be faced with certain defeat, the U. S. should place its economic and military resources at their disposal," will be the topic of the two debates, one of which will be held at New Haven. The other will take place at home in the Eastman Lecture Hall, Room 6-120, at 7:30 P.M.

Tech Takes Negative Here

At home, the Technology team will uphold the negative of the question. Stanley L. Backer, '41; Franklin P. Seeley, '42, and Ward J. Haas, '43, will comprise the Institute team.

The affirmative of the question will be upheld by the Yale team. (Continued on Page 2)

A.I. Ch. E., A.C.S. Hear Dewey Speak

The first meeting of the Technology chapter of the American Institute of Chemical Engineers with American Chemical Society members as guests, will be held Monday, Dec. 11 in the North Hall, Walker Memorial at 8:00 P.M.

Mr. Bradley Dewey, '09, president-treasurer of Dewey and Almy Wrapping Products Company, will be the main speaker of the evening. Mr. Dewey's subject has been announced as "After the Degree—What?". The speaker will point out what the students may expect after graduation, and what industry expects of them.

Course X Inspected

Mr. Dewey is a member of the Course X visiting committee, which is made up of leading executives in industry. Members of this committee periodically inspect the conduct of the course, and make suggestions to keep it following the lines demanded by contemporary industry.

At the meeting, which is the regular December session of the A.I.Ch.E., the society will be carrying on its policy of having outside speakers. Visitors have been invited to attend the talk, and refreshments will be served.

Institute Officials, Inst. Comm. Give Approval

Spoke At Yale In November; Harvard Refused Permission

Earl Browder, Secretary of the Communist Party of America, has been invited to speak at the Institute next week by the Peace Federation.

Institute officials granted permission to hear Browder on Technology grounds, contingent upon the approval of the student government. The Executive Committee of the Inst. Comm. gave their consent and an invitation to talk next Thursday at 4 P.M. in Room 10-250 was sent the nationally known radical by I. Seth Levine, '40, president of the Peace Federation.

Spoke at Yale

Although Browder has been allowed to speak at Yale, permission was denied by the student government. (Continued on Page 4)

Wellesley Choir Is Guest At Concert

Institute Glee Club Presents Free Program In Walker This Evening

The Institute Glee Club will be host to the Wellesley College Choir at a concert of choral music to be given in the Main Hall of Walker tonight at 8:30. This free concert, sponsored by the combined M.I.T. Musical Clubs, will revive the popular joint meetings of the Wellesley and Technology musical groups, after a lapse of several years.

Both clubs will start the program with "Oh Rejoice Ye Christians Loudly" by Bach, and Handel's "Then Round About the Starry Throne." Next the Technology Glee Club will sing "Adoremus Te", by Palestrina; "Divine Praise", by Bortniansky; "The Donkey", by Robertson; and "Morning Hymn", by Henschel. After this the Wellesley Choir will sing "On Christmas Night", an English carol; "Oh Lord, Increase My Faith", by Gibbons; and "Praise to the Lord, the Almighty", an old German melody.

Solo by Lowell

"Vale of Touni", by Sibelius; and "Tous les Bourgeois de Chatres", arranged by Daltrey will then be sung by the Glee Club, followed by a solo, "Shenandoah", by Arthur L. Lowell, '41. The final number will be "Dr. Foster", by Hughes.

J. C. Chambers To Speak At Meeting Of A.S.M.E.

"Sound, Its Nature and Control," will be the subject of a talk to be given to the A.S.M.E. by Mr. John C. Chambers, on Tuesday evening, Dec. 12th, in the Faculty Dining Room, Walker Memorial.

Mr. Chambers is the sound proofing expert of Johns-Manville, Corp., makers of roofing materials. The lecturer will have with him an applause meter or decibel meter for demonstration and inspection purposes.

DRAMASHOP PLAY OPENS

Staff Photo

"Why did you hire a detective to spy on Bjorn Faulkner the day after you married him?", demands defense attorney Louis A. King, '41, (second from right) of Mrs. Faulkner (Ann E. Humphrey, '42, left). The judge is Burton S. Eddy, '42, while the officer is Raymond E. Hahn, '43. The clerk on the far right is David B. Hoisington, '40.

Plot Involves Murder

The action is placed in a courtroom, where Karen Andre is being tried for the murder of Bjorn Faulkner, important financier who commands a world-embracing enterprise. Faulkner's death occurred at a penthouse party attended by Miss Andre and two others.

The prosecution charges that Karen Andre drew a gun, shot Faulkner, and fled. (Continued on Page 4)

Dramashop's fall production, "The Night of January 16th", opens its two day run tonight in Room 10-250 at 8:30 P.M.

Performances at the dress rehearsal Wednesday night show particularly excellent work on the part of the two attorneys—Louis A. King, '41, as the defending lawyer, and George E. Power, '41, as the prosecutor. Creditable support is provided by the rest of the cast.

PAGE EARL BROWDER

The action of the Peace Federation in attempting to secure Earl Browder as a speaker for a forth-coming meeting is probably the most effective means imaginable for disillusioning the Institute student body concerning the Communist movement in this country, and so is to be most highly commended.

It may possibly be that there are intelligent people in this country who sincerely believe in the economic and psychological feasibility of a communistic civilization, but the existence of such a belief is not reflected in the present leadership of the Communist Party of this country.

Mr. Browder's utterances in the past have evidenced such plausible and illogical reasoning as to cast serious doubt on either his ability or his motives. A sincere belief in Communism is as praiseworthy as a sincere belief in any subject, but the deliberate misleading of people by the misinterpretation and false representation of fact cannot be too strongly condemned.

The intentions of a group must be represented by the manifestations of those intentions as made by the leader of that group. Whether or not Mr. Browder truly represents U. S. Communism is not for us to decide. We must judge whether the Communistic viewpoint, as represented by Mr. Browder, is worthy of our belief.

However, in view of the reception recently accorded Mr. Browder at Yale, the Peace Federation, if it secures him for a talk, will do well to provide every means possible for the maintenance of order.

TO BE OR NOT TO BE

This fall has marked the introduction of football between all four of the classes. Now would be a good time to survey the results of this innovation, with view to the advisability of its continuation in the next and succeeding years.

The Athletic Association reports that the cost of Interclass football this year was about nine hundred dollars. An average annual

expense, if such football became established, of about seven hundred dollars a year could be expected. As a contrast, soccer, which is an intercollegiate sport here, cost the student body about four hundred and fifty dollars this past year.

The turnout for the teams, averaging as it did about twenty men per class, seems to indicate that there is sufficient demand to justify the establishment of the sport; and the absence of any serious injury in any of the approximately five games played indicates that the sport could be established without danger of such injury to the players.

On the other hand, interclass football has had this year a small but strong and active group of supporters, mostly Seniors. These men will not be here next year, and the question is whether there will be other men to take their places and keep the sport alive.

Also, the classes this year have been fortunate to have the assistance of a very able bunch of volunteer coaches. It is certainly not assured that such coaching may be available every year, and the lack of such coaching would result in the collapse of popular support for the game, or the hiring of a professional coach, or the playing of football of very low calibre and under conditions endangering the safety of the players.

The question is probably not of paramount importance. Interclass football will probably be played as long as there is popular support for it; if and when this support ceases, the sport will die a natural death.

HIGHTY-TIGHTY

One of the standbys of the Institute student body has been the "Highty-tighty" yell. That cheer may be very good in its place, but there are not many places where it is good.

It was pulled several times at the recent basketball game between Tech and Harvard, and did not go over very well. It does not give a very good impression of Tech. It is not profane enough to class us a genuine hell-for-leather bunch of toughs, and is not clever enough to carry off in decent company the mild cussing it does have.

We think that every one of the Institute students would desire to have a cheer that is both clever and impressive. We do not have one now.

The increased activity of A.A.'s Publicity Department might very well find an outlet in this subject. It might, for instance, run a contest for new cheers which would replace the "highty-tighty". It might make a point of seeing that all the students know thoroughly the official cheers.

Of course, the first thing to do is to get a crowd big enough to cheer at a few of the Institute contests.

GOOD IDEA

The recommendation made at the last Institute Committee meeting that seating of new members be so timed as to remove the necessity for having an entirely new group of men take office each year deserves the support of the entire school.

Under this proposed system, certain of the new members, who receive the privilege of Institute Committee membership in February will take their seats immediately, instead of in May as is the case now.

This will eliminate the waste motion and mistakes caused by a new Committee learning its job, as is necessary under the present system.

The Apple

Polish the apple, boys, it may be worth your while. One of our economics professors appeared in class, prepared to give the dreaded quiz. He had the papers half given out before he spied an apple bright and red reposing on his desk. It sported such a big red bow he called the whole thing (quiz) off.

Sense

One fine day last week, some of the Lounger's freshmen friends encountering one of the Walker cats on their way to Professor William "P.B." Greene's E 11 section, plucked the surprised feline from its perambulations and carried it along to class. Of a group never noted for pep, the animal soon lapsed into a sound slumber on the instructor's desk while the class awaited the arrival of P.B. Soon he arrived, and noticing the still form, he stalked up to inspect it. The cat was breathing smoothly and unhurriedly in a lovely tranquillity, but as the Professor approached, its nose wrinkled; and as he came nearer, its brow creased and its breathing shortened. Finally as he bent over the cat, it took another choked breath, and then still asleep, turned its nose in the opposite direction and again resumed its peaceful breathing.

Themes Again

Feeling an urge, one of our brighter students ambled to the Boston Public

Debate

(Continued from Page 1)

be taken by the Technology representation at Yale. The Institute debaters will be L. Hurley Bloom, '40; Russell T. Werby, '40, and Paul M. Erlandson.

U. of Conn. Debate Friday

Upholding the affirmative of the same question that will be discussed in the Yale debate, L. Hurley Bloom, '40, and John J. Quinn, '42, will engage a University of Connecticut team on Friday evening, December 8, at Storrs, Connecticut.

Library in anticipation of an English theme. After a perfunctory consultation of the huge card catalogue, he selected a book dealing with the influence of the French navy during the Napoleonic wars. Back home he trudged, placed himself in a comfortable chair, opened the book and gasped. The characters were large, flowery and arranged in vertical columns; the book was, in fact, apparently written in Chinese. He wrote on "Life at Tech."

You'd be surprised how telephone engineers put them to work for you

How to put more and more wires into a telephone cable without increasing its diameter is an ever present problem at Western Electric—manufacturing unit of the Bell System. Existing ducts beneath city streets limit both the number and the diameter of cables—but demand for telephone service continues to grow.

Until recently, the largest cable contained 3636 wires in a diameter of 2 3/8 inches. Years of study led to an entirely new insulating process that saved 3/1000 of an inch per wire. Multiply this tiny fraction of an inch by 3636, and you provide enough space to place 606 more wires in the same size cable!—a total of 4242.

With such resourcefulness, Bell System engineers meet countless problems. Result: you can talk to almost anyone, anywhere—quickly, at low cost.

A telephone call home would be appreciated. Rates to most points are lowest any time after 7 P. M. and all day Sunday.

Tech Quintet Defeats Harvard 41-28

Repeats Last Year's Victory To Set Record at Tech; Team Plays In Hangar Gym Tonight

Tech Height Proves Too Much For Crimson

Wilson Garners 19 Points To Lead Onslaught Tuesday Night

A new basketball record was set by the Beaver five at the Harvard Gym on Tuesday night when the Crimson was defeated for the second consecutive year by a score of 41-28. Tech's victory was the result of fine, integrated play by the team as a whole, and especially of the fine under-the-basket play by Richmond W. Wilson, '40.

The game started off at a fast pace, and after only a few seconds of play, Howard J. Samuels, '41, dribbled through the entire Harvard defense to score, putting Tech two points up. Charles Lutz, captain of the Harvard team, and a member of last year's All New England Squad, got away shortly afterwards to tie the score at 2-2.

Farrell Scores

The next score came when W. Happer Farrell, '40, dropped the ball into the net from the center circle. A foul was then committed which gave Harvard the chance to score their last point of the quarter. After this until the end of the quarter, Tech had everything its own way, with Wilson at center, the outstanding man. The score at the quarter was Tech 14, Harvard 3.

At the beginning of the second period, Farrell was taken out and Ernest F. Artz, '42, took his place. The Harvard Quint got going, and proceeded to pile up score. At the half Tech barely held the lead with a score of 20-17.

Tech Excels in Second Half

After a rest, the Tech team once again showed the sparkling form displayed in the first quarter. Using Wilson's 6 feet, 5 inches to good advantage, Tech pulled far ahead. Most of the scoring in this period, however came from long shots by the forwards, Samuels and Glick, with the result that the score at the end of this quarter was 30-20.

In the last quarter Tech kept up
(Continued on Page 4)

Holiday Weekend Changes Deadline For Volley Ball

The deadline for playing first round matches in the Beaver Key Volley Ball tournament, originally set for last Sunday, was moved up to December 10, because of the late notice and the holiday week-end which resulted in the cancellation of many games.

Phi Gamma Delta played Munroe Wednesday and won its first games by scores of 10-15, 15-9, and 15-7. The Student House is scheduled to play two games this week-end; the first with Theta Xi today, and the other with Theta Delta Chi on Sunday. Phi Mu Delta and Phi Kappa Sigma will also play on Sunday.

Games in Walker Gym

All games should be played in the Walker Memorial gymnasium. Volley balls and equipment are at the janitor's office in the basement, and may be obtained by asking the janitor on duty.

Human Stepladder

Wilson Takes Off

Lowell Team Here Tonight To Test Technology

Opponents Bringing Strong Team; Game Begins At 8 O'clock

Many Tech students will get their first chance to see their now highly-touted basketball team in action, when Lowell Textile invades the Hangar Gym at 8:00 o'clock tonight.

The game will be the first of the year for the Lowell quint. Last year they were among the six teams beaten by Tech. Reports show however, that Lowell has a much stronger team this year, which includes Herbert Pesetzky, who was among the best players turned out by New York city high schools last year.

Game is Free to All Students

The game tonight will be free to Tech students, as usual. Because of the fact that over 200 students turned out to see their team win at Harvard on Tuesday, the hangar will probably be filled to capacity for the game tonight.

The Tech lineup will probably be the same as that which started the Harvard game, except for the left guard position where Ernie Artz may get the starting whistle in place of "Hap" Farrell.

N. H. to Play Here Dec. 15

A week from tonight the New Hampshire team will play in the Hangar. This team will be out to seek revenge for its defeat last year when Tech ruined the dedication of the New Hampshire's new gym by handing them one of their four defeats of the season. Many students are planning to see the game before the Dorm Christmas dance, and the demand might cause the Institute to set up extra bleachers for the event. Lineup for tonight's game is as follows:

Tech	Position	Lowell Textile
Samuels	Right Forward	Pernick
Glick	Left Forward	Pesetzky
Wilson	center	Staklinski
Creamer	left guard	Lisinen
Artz or Farrell	right guard	Pelt

Tech substitutes include: Coe, Goldfarb, Riell, Creighton, Mowrer and Cavanaugh. Lowell substitutes include: Coffin, Hicks, Gass, Leary, Lage and Cooper.

Wrestlers Meet Harvard Squads In Initial Contest

Both Varsity And Freshmen Will Enter Matches As Favorites

Coach Joe Rivers' Technology grapplers, both varsity and freshmen, make their bow in competition this week-end when they go to the mat with the Harvard wrestlers in the Hangar Gym Saturday afternoon. The freshmen match will begin at 2:00 P.M., and the varsity will follow at approximately 3:00 P.M.

Graduation dealt the varsity a heavy blow last year, especially in the heavier weights; but a promising crop of new men as well as some of last year's freshmen have stepped in to fill the gaps. Captain Bill Stone, former New England freshman champion, will make his bid for a successful season when he steps on to the mat to meet the Harvard 128-pounder.

Three New Men to Wrestle

Following him will be George Carnrick at 135 pounds and Andy Kopischiansky at 145 pounds, both experienced varsity wrestlers. New men to the sport at Tech, 155-pound Chuck Hoffmann, 165-pound Ed Fettes, and heavyweight Dick Powers, will all wrestle Saturday. John Carleton, 175-lb. undefeated captain of last year's freshman squad will round out the varsity lineup.

Though handicapped by the fact that it will be forced to forfeit the 121-pound bout to Harvard, the Beaver varsity is entering the meet as favorite.

Frosh Favorable

A crack freshman team is also favored over the Crimson aggregation. In the opening bout, 121-pound John Tyrrell will attempt to start the freshmen on the victory trail. Bob Fettes, brother of the varsity 165-pounder, will wrestle in the 128-pound bout. Wendell Davis at 136 pounds, John MacKenzie in the 145-pound bout, Bob Schaefer at 165 pounds, Hugh Byfield at 175 pounds and Bill Moore at the unlimited division. The freshman 155-pounder has not been named yet, but will probably be either Spence Brewster or Ray Sullivan.

Adelson Wins Fencing Title

Tech Swordsmen Sweep First Four Places In Meet

Captain Horace J. Adelson of the Tech fencing team won the Junior Championship in individual foils of the New England Division of the A.F.L.A. last Tuesday night in the Walker Memorial gymnasium. Three other Tech men, Johnny Bech, Dick Ackerman, and Ed Sherbourne finished second and third and fourth respectively to give the Institute a clean sweep for the first time in its history.

Adelson succeeded in defeating Bech only after a gruelling playoff by five touches to four, both men being tied after the final elimination with four wins apiece. Ackerman won three in the final round in which six men competed.

Eleven Men Compete

Eleven men took part in the tourney. Six of these were Tech men, three were from Harvard and the other two were not representing a college.

The next meet of the New England Division of the A.F.L.A. on December 12, will determine the Junior Championship in individual epee.

Senior House Teams Beat Hayden And Munroe Fives

Two senior house teams won their games in the dorm. basketball tournament last Tuesday in the Hangar gym.

The Senior C team beat Hayden by a score of 21-15, chiefly owing to the brilliant combination of Lee and Braunlich.

Touche Stars

In the other game, Senior House B outplayed Munroe 27-14, Touche being the outstanding man on the Senior House team with a score of 11 points to his credit.

Bill Davison, Ex-Champ, Is Handball Favorite

The progress of the Dorm handball tournament has revealed a champion in the person of Bill Davison, '41, former handball champion of Arkansas. According to reports, the form he has displayed in the tournament to date indicates that he is the best bet to take the tournament. He has won both of his matches after close, hard play.

Tech Pistol Team Shoots Fourth In Metropolitan

With a score of 808, the Technology pistol team last night placed fourth in a Metropolitan League shoot against strong opposition on the home range.

Team scores were:

Team	Points
Boston Rifle and Revolver Club No. 1	878
Army and Navy Club	820
Arlington Rifle and Pistol Club	816
M.I.T. Varsity	808

SATURDAY, DECEMBER 9

- 12:00 M. Placement Training Lecture—Room 10-250.
- 1:15 P.M. Eastern Photoelastic Conference Luncheon—North Hall.
- 3:00 P.M. Wrestling vs. Harvard, Varsity and Freshman—Hangar Gym.
- 7:30 P.M. Cosmopolitan Student Club Dance—North Hall.
- 7:30 P.M. Debate vs. Yale—Room 6-120.
- 8:00 P.M. A.S.U. Social—Wellesley.
- 8:30 P.M. Dramashop—Second Performance.

SUNDAY, DECEMBER 10

- 9:30 A.M. Outing Club Equestrian Trip with Wellesley — Leaves Walker 9:30 A.M.
- 2:00 P.M. Chess Club—East Lounge.

MONDAY, DECEMBER 11

- 9:00 A.M. T.E.N. Comes Out—Main Lobby.
- 8:00 P.M. A.I.Ch. E. Smoker—Faculty Dining Room.

Browder

(Continued from Page 1)

nied him to do so on the campuses of Harvard, Dartmouth and Princeton. Harvard authorities explained their refusal on the grounds that he was under indictment for travelling on a forged passport.

The Peace Federation decided to invite him at a meeting held last Wednesday at 5 P.M. in the Faculty Room. Representatives of fifteen undergraduate organizations were present.

19 to 3 Vote

The final decision was voted, 19 to 3, with the condition that some person representing opposite views speak in the near future. Such a stipulation was inserted to maintain consistency with the Federation's policy of hearing all sides of a question.

Until Browder, who has been a presidential candidate for his party many times, replies, his appearance is not assured. However, if he accepts, his speech is expected to deal with the nature of the European conflict and America's relationship to it.

Burbulent Yale Audience

Browder spoke at Yale on November 28 to an audience of 600, while a crowd of 4,000, attracted by the attempts of the American Legion to prevent his appearance, waited outside the lecture hall. During his talk, listeners frequently let out cries of "Viva Browder," "Down with everything," and "Open the door." As Browder left, several people attempted to overturn his car, but were soon stopped by other on-lookers.

The speaker, when commenting on the meeting, stated, "It was a model of orderliness and afterwards assembled students on the street cheered me on my departure."

Senior Placement Proofs To Be Available Next Week

Seniors whose placement picture proofs were sent in prior to Nov. 25th, may obtain these pictures in Room 309, Walker Memorial between 2:00 and 6:00 P.M., next Monday through Friday, it was announced by M. Loren Wood, '40, editor of *Technique*.

To make the 1940 *Technique* Senior pictures must be in before Monday, December 11th. *Technique* also announced an exhibition in the Main Hall, December 11-13th, to be called "The Parade of Books."

Dramashop

(Continued from Page 1)

then threw him off the penthouse roof. The defense, however, claims that the two struggled, the gun accidentally went off, and Faulkner then jumped to his death.

Complications Added

Other complications arrive when additional testimony indicates that some unknown man, and not Faulkner, was murdered, Faulkner disappearing to South America.

The conclusion cannot be revealed by this reviewer, not only because of the custom not to do so, but because he doesn't know how it all comes out. The play may end with a verdict of either guilty or not guilty, depending on the vote of the jury, which is composed of members of the audience.

Large Ticket Sale

Advance ticket sales have been high, Dramashop officials report, remarking that a record-breaking attendance is expected.

The principal characters are Karen Andre, the defendant, Edith M. Cameron, '40; District Attorney Flint, George E. Power, '41; Defense Attorney Stevens, Louis A. King, '41; Larry Regan a gangster, Richard H. Hutzler, '40; Nancy Lee Faulkner, widow of Bjorn Faulkner, Anne E. Humphrey, '42; and John Graham Whitfield a financier, father of Nancy Lee Faulkner, Raymond G. O'Connell, '41.

Harvard Game

(Continued from Page 3)

its constant barrage on the Harvard goal, and Wilson's under-the-basket play improved until it was nearly perfect. Practically every long shot which the Tech forwards put fairly close to the basket was immediately knocked in by Wilson. His height enabled him to drop the ball into the basket almost without jumping.

Wilson Is High Scorer

High scorer of the game was Wilson with 19 points. If he carries on in the same style throughout the season, it is conceivable that he will be high scorer of New England. Samuels was next for Tech with 7 points, and Glick was close behind him with 6. Lutz was high man for Harvard, starting on his dribbling plays, which accounted for most of his 10 points. Peabody, with 8, was second on the Harvard squad. Creamer and Artz, played a steady game for Tech, and they assisted in many of the scores. Tom Creamer deserves special praise for his fine defense work.

Dorm Xmas Dance Will Glimpse Santa Claims Chairman

Music Will Be Provided By Larry Lane For This Annual Affair

Santa Claus has promised to make an appearance at the Christmas Dance next Friday night. His bag will be overflowing with gifts for all, it was also announced by Charles H. Wales, '41, chairman of the Christmas Dance Committee.

Tickets, which are priced at \$1.69, have been on sale in the main lobby from 12:00 noon to 2:00 P.M. since Wednesday and will continue so until the end of next week. In the dormitories, a new method of selling tickets will be tried. Members of the dance committee will circulate throughout the dormitories with tickets.

Larry Lane to Supply Music

Larry Lane, who played at the beginning of the year for the Dormitory Freshman Get-Acquainted Dance, will be on hand with his eleven piece band. Vocals will also be rendered.

Decorations, with the Christmas theme predominant throughout, have been planned by the committee. Many innovations in keeping with the atmosphere of the dance are also being planned by the committee.

Christmas Tree Will Be Erected

The traditional Christmas tree, which has been a customary adornment at all the preceding Christmas dances, will be erected in the middle of the dance floor.

Inst. Comm.

(Continued from Page 1)

tive Committee that the constitution of the proposed Technology Athletic Club not be accepted was due to the fact that its functions are already carried out by the M.I.T.A.A., according to de Oloqui. The constitution states that the Club shall promote interest in athletics at Technology.

Honorary Commuter Society Proposed Speaking for the commuters, Wylie C. Kirkpatrick, '40, made a motion that "Urbis", an honorary society for commuters, be recognized. The motion was tabled.

The Outing Club constitution was submitted for approval and committed to the members of the Junior Class on the Committee.

Absent from the meeting were Edward G. Pollak, '40, and Walter H. Farrell, '40. Thomas F. Creamer, '40, was acting chairman.

Civil Liberties

(Continued from Page 1)

democracy as a whole by declaring that civil liberties are its distinguishing feature and continued by saying that the Bill of Rights in the constitution, a statement of civil liberties, embodies the dignity and freedom of individuals. "There would be no democratic government without the Bill of Rights, and no totalitarian state with it," he declared.

Before concluding his talk, the guest gave this definition of propaganda, which he selected for its completeness: "The use of symbols to communicate the rationalization of our visual demands."

Increased Attachment For Pets Seen Among College Students

Judging by shipments made between colleges and homes before and after vacations, college men the now much more partial to dogs, cats and other pets than they used to be, according to K. N. Merritt of the Railway Express in a statement made recently.

In recent years the expressman serving colleges has been called upon with increasing frequency to carry crated dogs, cats, cage birds, monkeys and even goldfish. Just what this new trend may mean is an interesting topic best left to college debating societies to investigate. Small animals not only for students, but also

for breeding farms, dog fanciers, migrating societies, and dealers of all kinds, have been carried by the company, Mr. Merritt said.

The rules on shipping a dog—adaptable to other pets—call first of all for a strong, well ventilated crate, large enough to give the dog space in which to stand up, stretch, and turn around. A drinking cup or other receptacle for water should be attached inside. Also, instructions as to feeding should be provided in written form if possible, together with an adequate supply of any special foods that are to be given.

S.A.E. Members To Visit Ford Plant At Somerville

Members of the Society of Automotive Engineers making a Plant trip to the Ford assembly plant at Somerville will leave today from the lobby of Building 7 at 2:00 P.M.

The society will also attend a meeting today at the Engineer's Club in Boston at which the National S.A.E. President will speak on "Modern Diesels". The M.I.T. Chapter is to meet at 7:20 P.M. in the Lobby of Walker Memorial. All members and guests who have cars are requested to bring them for both events.

Dr. Murphy Addresses Photoelasticity Meeting

Dr. William M. Murphy, of the department of Mechanical Engineering, will open the tenth semi-annual Eastern Photoelasticity Conference here at the Institute tomorrow at 10 o'clock.

Professor Edward L. Moreland, Dean of Engineering, will deliver the welcoming address to the many prominent authorities in the field of photoelasticity. During the morning's technical session, papers will be delivered by Professor M. S. Ketchum, of the Case School of Applied Science, Cleveland, Ohio; Dr. D. Sinclair, of Columbia University, New York City, and Dr. Murray of the Institute.

Talks After Lunch

After luncheon in Walker Memorial the conference will continue with papers by Dr. J. Polivka and Professor H. D. Eberhard, of the University of California, and Professors Harold E. Edgerton and Frederick E. Barstow of Technology.

Open House

(Continued from Page 1)

trating the contributions of Technology to science, industry, and government service will be sponsored at the annual Open House according to Dr. Compton's announcement.

The program will include a conference of leaders in important fields of science and industry to discuss the social implications of technological progress and the intelligent application of the benefits of science and engineering for the advancement of civilization.

Run by Students

Open House, which is run by students, characteristic of all Institute activities, will also show by means of exhibits the contributions of the school to public service, including city, state and Federal governments, to the field of medicine, and various fields of medical research.

Chi Epsilon Will Initiate Tonight

Three Juniors and two Seniors will be initiated into Chi Epsilon, the Honorary Civil Engineering Fraternity, at a formal banquet and initiation to take place tonight in the Hotel Kenmore at 6:30 P.M., it was announced by John W. Read, '40, president.

Professor Charles B. Breed, head of the department of Civil Engineering, will be the main speaker at the banquet. The initiation ceremonies are to take place immediately following the dinner. The initiates are William F. Hart, Jr., '41; John M. Briggs, '41; James W. Mar, '41; Tui Voodhigula, '40, all of Course I. and Donald F. Monell, '40, Course XVII.
