Some students at the Institute enter the exam room and remark with pride to their friends, "I studied hard for this exam. I feel certain that I'll do well because of all the studying I did." But others enter the exam room and remark with pride to their friends, "I didn't study much for this exam. I'm sure to 'hit' it for a high mark because I didn't waste my time studying." The tendency to try to hand in too many pursuits probably arises from a genuine interest in, and aptitude for, diversified endeavors.
