

## BEAVERS TRIM TUFTS JAYVEES

### Predictions By Magoun Prove Correct

#### First Frosh Lecture Includes Interview With Visiting Senior

By accuracy predicting the answers to an interview which he conducted with a visiting college senior yesterday morning in front of an audience composed of freshmen and women students, Professor F. Alexander Magoun, of the Humanities department, drove home the main points of his first "Study Helps for Freshmen" lecture.

Before the interview took place Magoun advised his audience to notice especially this college senior's vocabulary, the tone of his voice, the organization of his ideas, and whether he jumps at conclusions. These points are those which a business executive notices primarily in an interview with a prospective employe. Professor Magoun explained.

#### Aptitude Test Given

During the supposed conference, Professor Magoun asked the young man to draw on the board the outline of a piece of paper which was so cut that it entirely covered a small wooden box. "This question," ex-

(Continued on Page 2)

### Exhibition To Honor Emma Savage Rogers

Emma Savage Rogers, the erstwhile spouse of the founder and first president of the Institute, William Barton Rogers, will be honored in memory at a tea and exhibition from 4 to 5:30 P.M. tomorrow by the Technology Matrons in the Emma Rogers Room.

The tea will mark the official opening of an exhibition of Mrs. Rogers' possessions. As wife of Technology's founder, Mrs. Rogers, who died in 1911, had a profound influence on the growth of the Institute.

### Re-vamped Voo Doo Will Go On Sale Friday Morning

#### Institute Committee Issue Prepared By Klyce Is Eagerly Anticipated

First presentation to Technology of the new Voo Doo, subject of long Institute Committee and student debate, will be Friday morning, November 22, when the November issue goes on sale in the Main Lobby. The issue will also be on sale at the Sophomore Ball on Friday evening.

Revamped in appearance and content, the magazine is to be made up of

## Tech Junior-Senior Gridsters Garner First Victory, 21-6 In Thrilling Battle Saturday

### Microfilm Cameras On Exhibit In Central Library

#### Staff To Demonstrate How Apparatus Works Throughout The Week

An exhibition of the latest developments in microphotographic recording apparatus opened in the Main Library today. The exhibition will end on November 22.

Among the exhibits will be both recorders and projectors. The microfilm records are rapidly coming into use in libraries and business institutions as an efficient way in which to record reference material.

The apparatus on view will include a Holbrook projecting machine, an Argus techniscope (a microfilm camera), a library Recordac camera, several Recordacs which are more portable than the techniscopes in current use in banking and business institutions for copying records, a Graflex

(Continued on Page 4)

### Sargent Milk Bottle Hits Curious Student.

Conked on the cranium by a milk bottle as he beat a hasty retreat down a Sargent fire escape last Saturday night an ardent Tech man was still recuperating yesterday from hangover and bruises.

Three Institute students on their way home from the Delta Psi beer party had decided to investigate something on the fifth floor of a Sargent College of Physical Education dormitory. Forthwith they clambered up the fire-escape only to scramble hastily down as feminine screams rent the air. Safely reaching the swaying sidewalks of Cambridge they had gathered their dignity and started to stroll off when from out of the cool night air a milk bottle catapulted with unerring Sargent accuracy clunked one of them on the head.

### Monk Bunn Stars As Institute Sees Only Football Win In 37 Seasons

Coming from behind in the second quarter to tie the score, then smashing over 15 points in the second half to walk away with its first football victory in intercollegiate competition, Coach Hunt's Junior-Senior football team thrilled a goodly crowd of Medford spectators with its 21-6 victory over Tufts Jayvees last Saturday afternoon.

Unveiling a new star in halfback Monk Bunn, the Beavers smashed 20 yards for the first score, 46 yards for the second tally, blocked a kick for a safety, and struck as the fourth quarter was ending for the final seven points from 37 yards out. The Tufts score eventuated from a bad Tech pass from center early in the first quarter. The rest of the game was completely dominated by the tremendous play of the Tech line and

## WHAT TO PRINT

A new slant on journalism's role in public affairs was voiced recently by Vernon McKenzie, president of the American Association of Schools and Departments of Journalism.

His thesis is that the existence of uncensored press is not sufficient, in itself, for present-day news reporting. And it's very likely that he's right.

Talking about an "uncensored press" merely conveys a negative conception, it is true. There is more to the business of publishing world news than just that. A definite policy must be adopted. As Mr. McKenzie points out, journalism's problem today is concerned over the choice of two lines of action:

"1. Include 'all the news that's fit to print,' sedulously endeavoring to give all the evidence, but refraining from taking sides; or,

"2. Print all the news, and proportion and interpret it according to what those who own, control, and guide the American press deem best for the nation. This might be called constructive and intelligent 'slanting.'

"Number 1 is the imperative ideal in normal times. Number 2 is fraught with danger, and requires intelligence and courage. But in war newspapermen take sides. In 1917-18 there was censorship. During perplexing times just 'short of war' is it a journalistic duty to take sides? I am coming around to the belief that it may be, and that we have been derelict in failing to propagandize for the kind of way of living we want. . . ."

From these words, it's hard not to suspect Mr. McKenzie of being something of a purist. Despite the obvious merit of declaiming about one's beliefs with respect to a design for living, it is just as obvious that in certain societies such declamations can not always be made. In totalitarian nations the notion that opinions of any kind which are opposed to the extant regime could be printed, is ridiculous; in other countries, competing publications, politics, public opinion, and a dozen other factors exert a large influence on what observations are made in a newspaper's columns.

What is important behind the whole situation is the recognition of the fact that journalism does not only face the problem of censorship. Freedom of the press—

especially in times of world turmoil—implies obligations as well as prerogatives.

## CLASS A RECOGNITION

The refusal of the Institute Committee to admit the Debating Society and the Hobby Shop into its ranks has raised a great deal of discussion among the proponents of such a move.

That the protagonists of Class A recognition for the societies in question should be disappointed is only to be expected. Naturally when men work for a specific group, they want that group to be advanced as far as possible.

However, the Institute Committee evidently had good grounds for its refusal. These grounds center around the premise of structural permanence, yet unproved, rather than in a denial of the good work done by the Hobby Shop and the Debating Society.

The Institute Committee is a permanent body. Its quality depends upon the quality of its component members, which, in the ultimate, are the member societies.

This year the Debating Society asks the highest recognition of the Institute Committee. It maintains that it represents the Institute, to the credit of the latter, at many outside functions. It says that it has a very active and widespread membership. No one disclaims these statements.

But the Debating Society has existed more than this year. And its past record offers no evidence of such savory activities. Instead it shows ten to twenty men, led by a nucleus of four or five, who debated in an unorganized manner.

It is much to the credit of the present leaders of the Debating Society that they have been able to expand and remold their club into a smoothly functioning organization. Yet the Institute Committee can not risk Class A recognition on a society which has maintained a really creditable existence for only a year at the most. It has yet to be proved to the student governing body that it is the organization and not the leaders of the society which merits recognition. Time only can give the answer.

The case of the Hobby Shop is analogous. It differs only in that the shop was started but a few years ago and in that the product is very different. Again it is not to be denied that this society has attained a meritable status, but at the same time, it can be again declared, that its motivating force has yet to be proved.

The Institute Committee can hardly be called non-progressive this year. The accusation can not be hurled against them that they are afraid to depart from the usual or to do the drastic. Yet again they realized that an uncogitated act would result in future ills.

## THE READER SPEAKS

Editor, The Tech

The letter of Jerry Coe protesting the decision of the Institute Committee to refuse Class A recognition to the Debating Society, agrees 100% with the opinions of informed persons.

There is no denying the importance of the debating society to the Institute. Besides its regular schedule of inter-collegiate debates, the society debates for an hour every other week over the entire Colonial Network. It has recently taken over the old Tech Forum and is reviving this into a position of major importance. In addition, this year the debating society is sponsoring a series of inter-section debates among the freshmen, in which 72 freshmen will participate. The club is also considering the possibility of managing another well known activity, now run by another organization. The membership of the club is increasing by leaps and bounds. *It is the only large, major activity now listed as Class B.*

Here is a partial list of the activities of the debating society. Aren't these of Class A importance?

- (1) Regular inter-collegiate varsity debates.
- (2) Radio debates once every two weeks.
- (3) Freshman inter-collegiate debates.
- (4) Freshman inter-section debate tournament, with at least 72 men participating.
- (5) Management of the Tech Forum, open to the entire school, with outstanding outside speakers.

Refusal to recognize the Debating Society as a Class A activity is a blot on all Class B activities who hope to raise themselves, like the Debating Society, to a position of major importance in the Institute. It is to be hoped that the Institute Committee will reconsider its stand. Since the vote was 12-10, only two men would have to change their minds to recognize the Debating Society.

GEORGE M. MUSGRAVE, '43

## Magoun

(Continued from Page 1)

plained the lecturer, "tests the applicant's ability to grasp three dimensional analysis — an important quality for a technician to possess."

In clarifying the purpose of this "Study Helps for Freshmen" series, the professor pointed out that a counsellor is no substitute for an I.Q. He implied that while the course of lectures and demonstrations can be of tremendous help in learning how to study, the initiative and ability must lie with the student.

## Vocabulary Important

Increased and more exact vocabulary and good method were emphasized in the main body of the lecture as the ideal goal for every student. The vocabulary of the average college graduate ranges from 15,000 to 18,000 words, while the usual high school graduate is capable of only 10,000 words. Part of this enlarged vocabulary comes from the exact definition of previously known words, which brings the sciences into the category of a new language, explained the lecturer.

"Where there is no method there is only bad habit," declared Professor Magoun, and he went on to list prin-

## Freshmen Feted By Wellesley C. A.

The T.C.A. freshman Cabinet were the guests of the Wellesley Christian Association, at a dinner party and dance, Saturday, Nov. 16.

Approximately 15 members of the cabinet under the restraining guidance of three members of the T.C.A. Senior Board partook of the buffet supper prepared by the girls, and then proceeded to the business of the evening, which included dancing, singing, and games.

## Meeting at Tech Cabin

In the near future, if possible, the T.C.A. will invite the same group to a business meeting at the Tech Cabin at which time the future progress of the two organizations will be discussed, according to Sam Fry, '41, Director of T.C.A. freshman Cabinet. Informal entertainment will conclude this meeting also.

principles involved in good method. "To establish exact relationship of ideas is fundamental, and to think things through to the end is almost as necessary," he concluded.

## Two Goals Made By Monk Bunn

Tufts Defense Split By Coordination Of Beaver Eleven

(Continued from Page 1)

the fine running of Bunn. Jack Arnold and Bill Hooper.

### Welch Sneaks Over

Hooper kicked off to open the game; Tufts couldn't gain and kicked to Hooper on the Tech 19. Bill returned the ball to the 39. Bunn ripped off a first down to midfield then came the hand pass from center. Tufts captured the loose ball; two passes Sweeney to Loring and Ritchie to Loring put the ball on the Tech 20. Welch pulled a naked reverse ala Dick Harlow and faced untouched for 20 yards and a score. The kick was completely smothered by a raging Beaver line.

Early in the second quarter, Milt McGuire slipped through the porous Tufts defense and flattened a Jumbo fumble back on the Tufts 20 yard line. On the first play Monk Bunn went through a beautiful hole over his right guard, cut back to the left in the secondary, and scooted untouched for the tying points. Hooper's drop kick was low and failed to break the tie.

### Bunn Tallies Again

The second half started peacefully and was more or less a kicking duel till Given recovered a Jumbo fumble on their 46 yard line. In eight plays Tech had the winning points. Bunn carried six times for 44 of the yards and the score. Again it was the strong right side of the Tech line that rolled back the stubborn Tufts defense and gave Bunn the final 2 yards and the tally. Arnold's buck was no good.

### Arnold Ends Scoring

In the closing minutes of play with the ball on the opposing 35-yard line, Bob Arnold broke over his right guard, bowled over two would-be tacklers, and banged over for the final touchdown. Hooper hit his right end for the point after.

## Mat Tournament Nears Finals

N. C. W. A. Point System Used As Scoring Aid; 24 Grapplers Remain

Grunting and groaning, the Technology matmen in the intramural tournament have progressed to the finals of the 121 pounders and 128 pounders; semi-finals of the 145 pounders and heavyweights and quarter-finals of the 155 pounders and 165 pounders.

The bouts remaining in the tournaments are: Burns vs Gillooly, both with no demerits, in the finals of the 121 pounders; Kano vs Tyrrell, also with no demerits, for the finals of the 128 pounders; Clark with none vs Grant with three in the 136's the winner to wrestle Pettes, 0; Sutter with no demerits vs Woody with three; and Waters, none vs Quinn with three, in the 145 bracket.

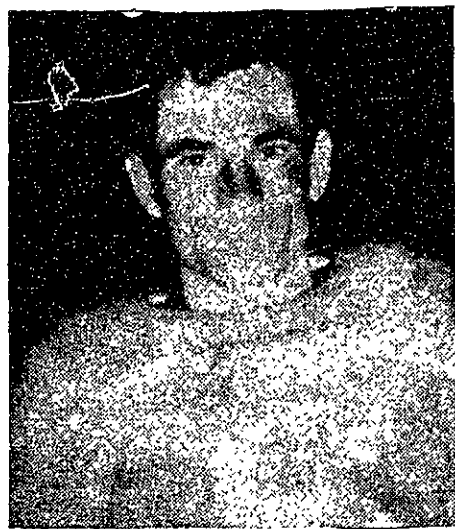

Herman, 0, vs Schaeffer, 3; MacFenzie, 0; vs Sellek, none, will grapple in the 155 pounders with Botten, 0; Red; Oznick, 3, vs Bohr, 3 and Lubell, 3, vs Gardner, 0, have yet to tussle in the 165 pound class with Seeley, 0; Red; Byfield, 0, Walke, 0, and Masik, 3 in the heavies.

A new innovation used by Coach Rivers this year in deciding matches is the point system, adopted recently by the National Collegiate Wrestling Association.

## Pucksters Start Morning Practise

Starting practice last week, the 1940 edition of the Beaver Hockey Team worked out under the watchful eye of Coach George Owen in a series of early morning scrimmage sessions. With a veteran defense unit of Sage and Cadogan at the points and Gordon in the net, the pucksters seem to be well fortified in their quest for a first division berth in the New England Intercollegiate annual free-for-all.

### MONK BUNN

Beaver halfback who starred in Tufts game, scoring twelve of the twenty-one points gathered by the team.

## Chi Phi, Sigma Chi To Meet In First Round Robin Game

Other Two Play-Off Posts To Be Decided Over Week-End

Chi Phi and Sigma Chi, the only teams to cop berths on the round robin series of the Beaver Key football tournament thus far, meet next Sunday morning in the first game of the play-offs.

The other two positions will be filled by the winners of two tilts to be played sometime during the week-end. Senior A and Senior B will be fighting for the right to represent the dormitories in the finals of the tourney, while Alpha Tau Omega and Phi Gamma Delta battle for the fourth and remaining position.

### Chi Phi Defends Title

Chi Phi goes into its tilt with Sigma Chi on Sunday as defending champion. Last season, the Chi Phi's romped over all opposition and finally copped the title by downing Phi Gamma Delta 26-6. The Fi Ji touchdown was the only marker scored against the victors all season.

This year, the Chi Phi squad gained its playoff berth by defeating Delta Upsilon 12 to 0 last Sunday after a scoreless tie had made two extra quarters necessary. Jerry Coe's passing and "Snuffy" McCuen's receiving stood out in the closest game of the year.

Sigma Chi, the other round robin team, won out over Phi Beta Epsilon 6 to 0 last Sunday in another close contest.

## Swimming Meet Is Scheduled

Frosh, Sophs To Race For Relay Cup At Same Time

The first all-Tech swimming meet, sponsored by the Tech Swim Club, will take place in the new pool during the first week of November. It will be open to any student who does not hold any college insignia in swimming.

Each dormitory, fraternity, and the 5:15 Club will be invited to enter a team. Plans call for five events in the meet, with the restriction that each man can enter two events. The trial races will be held on Wednesday and Thursday, December 4 and 5, at 5:00 P.M., and in order that spectators can bring dates to the event, the final will be held at 3:00 P.M. on Sunday afternoon, December 8. After the meet the pool will be open for the use of the spectators.

### Frosh-Soph Meet

As an added highlight to the Sunday afternoon program, the annual competition for the freshman-Sophomore relay cup will be held. A team from each of the two lower classes will compete in a 400-yard relay race for the cup. The events of the open meet will be: 50-yard freestyle; 50 yard backstroke; 50-yard breaststroke; 150 yard medley relay; and 200 yard freestyle relay.

## Senior Sailors Challenge Juniors

Frosh Will Attempt To Avenge Field Day Defeat By Sophs

Challenging the Juniors to a race, next Saturday, the Senior members of the Nautical Association labeled their opponents as "rocking chair skippers," termed their boasts as "fantastic fabrications," and warned them to expect a "crushing defeat."

By giving them a decisive beating on Saturday, the members of the class of '41 hope to end the Juniors' claim to superior sailing ability, and to prove conclusively the greatness of their own skill, according to Franklin W. Kolk, '41, one of the Association's bosuns.

This challenge race will take place on the Charles at 2 P.M., Saturday, November 23, as part of an Interclass dinghy meet which will find the freshman dinghy team attempting to avenge the defeat received at the hands of the Sophomores on Field Day. There will be five men on each team, the freshman and Sophomore teams being the same as the Field Day teams.

## Frosh Squash Tourney To Start On Nov. 20

The freshman intramural squash league tournament will start Wednesday, November 20. For purposes of this tournament the freshmen are divided into six groups, each group made up of between ten and fifteen men.

During the next two months each group will play a round robin and the winners in the different groups will then have a tournament of their own. The final winner will receive a trophy, and the freshman team will be selected from those who make the best showing in the tournament.

## Pistoleers Book Three Matches

Shoulder-to-shoulder matches with the Lexington Minute Men, Cambridge Gun Club, and Harvard varsity have been scheduled for December and January by the pistol team, according to manager Edward F. Thode, '42.

Eighteen postal matches have also been arranged for February and March with the leading intercollegiate pistol squads of the country.

## Frosh Booters Triumph 3-0

Beat New Bedford To Snap Four Year Losing Streak

Winning its first game in four years, the freshman soccer team defeated New Bedford Vocational School 3-0 last Saturday afternoon, after dominating the play throughout the entire game.

The Technology team jumped off to an early lead on a goal scored by Tom Mamose during the first minute of play, and then was held in check by the New Bedford team until well into the third period when Hugh Slawson booted in the second score. The third goal was scored by Bob Doak in the last quarter.

The New Bedford team, which had previously beaten the Harvard frosh by a score of 1-0, provided unexpectedly weak opposition for the young Beavers who were beaten 5-0 by Harvard. According to Daniel B. Grady, '42, who is coach of the frosh booters, the reason for their success was that they "followed instructions."

## Dramashop To Present Two Plays

### Drama By Saroyan And Farce Postponed Until This Saturday

"My Heart's In the Highlands", originally scheduled for last Saturday, has been postponed until Saturday, November 23 because of the illness of one of the cast. Tickets originally purchased for the 16th will be honored when the play is produced in Room 2-190 at 8:15 P.M.

Lisa Minevitch, '42, is production manager for the play by William Saroyan prominent playwright, who was recently featured in Life Magazine. Production manager for "Lima Beans", the farce by Kreyenborg which will be presented at the same time is Raymond G. O'Connell, '41. Kendall H. Spencer, '43, is the head production manager for the evening.

#### Cast Announced

The cast for "My Heart's In the Highlands" includes Stannis Coryell, '44, as Johnny; J. D. Ward, '44, as the father; K. K. Knudsen, '44, playing the part of Jasper McGregor; J. V. Tylinger, '44, as Mr. Kosak; while Sherman P. Sackheim, '43, is the newsboy; Samuel Jeroff, G., Mr. Wiley; Harvey S. Freeman, '43, the husband; and Lisa Minevitch as Esther. The cast for "Lima Beans" is Pauline Morrow, G, as the wife and Raymond O'Connell as the husband.

#### Tickets on Sale in Lobby

Tickets may be purchased for 35 cents from twelve to two P.M. daily in the lobby of Building 10, from any Dramashop member, or at the Dramashop office, Room 2-176. This set is the second of the series of three being presented this fall by the Dramashop.

## Outing Club Will Hold Gala Barn Dance Friday

Eight outing clubs from colleges in the Boston metropolitan area will take part in an evening of square dances to be sponsored by the M.I.T. O. C. this Saturday in Hangar Gym. A phonograph, in place of the usual fiddlers will supply the music.

Saturday afternoon several members of the Outing Club will take part in a horseback trip. Those going will leave Walker Memorial at 1 P.M. for Blue Hills Reservation.

Sunday morning at 9 A.M. the club will leave on its second all-day bicycle trip of the fall from Walker Memorial for a jaunt through Middlesex Fells and the Mystic Lakes.

## Sophs Conduct Hit Parade Vote

Technology's own Hit Parade of popular songs will be known tonight when the Soph Dance Committee finish counting the ballots cast today by all students of the Institute at the "Drum" in the Lobby of Building 10.

Gene Krupa, maestro for the November 22 ball, has promised the committee he will play one composite song composed of the Technology Hit Parade winners.

Fifty tickets are left to be sold by the committee in this last week before the dance, and these may be purchased during the day at the "Drum." The other item of business decided at the recent meeting of the committee was to allow fifty tables to be open for reservation today.

## Endicott College Instructor Chosen Football Queen

### Miss Virginia Jewell Selected To Reign At Dance In Walker

Miss Virginia Jewell, comely brunette instructor from Endicott College, was chosen Football Queen at the Football Dance held last Friday night in Morss Hall. In her official capacity as Queen of the dance, Miss Jewell awarded the 5:15 Club football Trophy to Robert H. Given, '42, captain of the

team for last Saturday's victorious game.

The queen was chosen during the intermission from a group of 10 picked by the chaperones after viewing the Grand March. The final selection was made from the amount of applause that each of the contestants received. A compact inscribed with the seal of the Institute was awarded as the sceptre of her reign.
