

HIMBER SIGNED FOR I. F. C. BALL CLASSES TO VOTE TOMORROW

Forty Candidates Compete At Polls For Major Offices

Ten Are Nominated For Beaver Key Election

To Set Up a Voting Booth In The Main Lobby of Building 10

Forty candidates face the votes of their classmates tomorrow in the contest for fourteen student positions. Voting will start at 8:30 A.M. and continue until 5:20 P.M. in the Main Lobby of Building 10.

Results of the election are to be announced at the Institute Committee meeting Thursday afternoon.

Beaver Key Nominations

Nominations to Beaver Key were revealed last night by the elections committee. The following men are candidates for members-at-large from the Class of 1942:

Ernest M. Artz, Edward S. Campbell, John T. Carleton, William G. Denhard, Charles O. Dodson, Jack Madwed, Robert B. McBride, Robert S. Shaw, Peter L. Sibley, and John L. Whelan. Six out of these ten men are to be elected by the members of the class, at Wednesday's election.

Two of the three nominees for Senior Class President made statements to The Tech. Willard S. Mott said: "Your candidate will not be elected without your vote. This election should have a 100% turnout." John B. Murdock stated: "Anything that I might want to say would be quite out of order here. On the other hand, I refuse to make a trite and meaningless statement." Stephen W. (Continued on Page 2)

The Camera Club To Show Movies

Frank H. Conant To Lecture On Making Of Films At Meeting

"The Preparation of a Lecture Film" is the subject of the next meeting of the Technology Camera Club, to be held in Room 4-370 on Thursday, April 11 at 5 P.M. Mr. Frank H. Conant, director of the M.I.T. Photographic Service, will show his technical movies, "Fishing for Fun." The pictures will be accompanied by music, narrative, and sound effects.

Because of the popularity of these movies, the Camera Club is inviting all interested persons to come and see them. For those further interested, Mr. Conant will explain the methods used to produce the film after its showing.

Mr. Conant's pictures of yachting races at Marblehead and Newport have attracted large crowds whenever they have been shown at the Institute. This new movie, "Fishing for Fun", describes salmon fishing in New Brunswick, Canada, and was filmed in April, 1939. Since its completion last November, it has been shown at least once a week before interested groups.

Technology To Observe 79th Anniversary Wed.

On Wednesday, April 10, Technology falls one year short of being an octogenarian, by observing its 79th anniversary. On this date in 1861 the Institute received its Charter from the Commonwealth of Massachusetts. According to this Charter, the Institute was established "for the purpose of instituting and maintaining a society of arts, a museum of arts, and a school of industrial science, and aiding generally by suitable means, the advancement, development and practical applications of science in connection with arts, agriculture, manufactures and commerce."

I.F.C. To Hold Stag Banquet

Dean Lobdell, Prof. Lewis And Council Member Are To Speak

A dinner for all fraternity men, sponsored by the Interfraternity Council, will be held in the Marionette Room of the Hotel Brunswick at 6:00 P.M. on Thursday, April 11. 345 men are expected to attend the stag banquet.

Professor Albert A. Schaefer, of the Business and Engineering Administration department, has been selected to act as toastmaster. The speakers for the evening include Dean Harold E. Lobdell, Professor Warren K. Lewis, of the Chemical Engineering Department, and a representative from the National Interfraternity Council who is not yet chosen.

Dean Lobdell to Speak

Dean Lobdell is to speak on the relationship between the Institute and the fraternities. Professor Lewis's subject is "Life in Germany". The topic on which the National I.F.C. man will speak is not now known.

In charge is the Executive Committee of the I.F.C., which consists of Seniors Thomas F. Creamer, John R. Gray, Joseph C. Jeffers, John L. Danforth, Wesley J. Van Sciver, John H. Holloman, and Russell L. Haden, Jr., and Robert Wallace Blake, '41.

New Dining Committee Hears First Complaints

The newly formed Walker Dining Service Conference Committee held its first meeting last Friday evening, at 6:30 o'clock, in the Silver Room, under the chairmanship of Jack M. Klyce, '41.

Plans were formulated by which student complaints about the food are to be discussed by the committee and then transferred to the Dining Service to be acted upon. A number of the complaints already known were read and discussed.

Dr. Compton Will Address Peace Group

Professors Robinson And Caldwell To Speak At Meeting

TO BE HELD THURSDAY

President Karl T. Compton will speak at the fifth annual Peace Day meeting, sponsored by the Technology Peace Federation, on Thursday from 4 to 5 P.M. in Eastman Lecture Hall, Room 6-120. The theme of this year's demonstration will be: "How will we best keep the United States out of war."

Besides Dr. Compton, two students and two members of the faculty will address the meeting. David T. Morgenthaler, '40, acting president of the Senior class, and I. Seth Levine, '40, will be the student speakers.

Caldwell and Robinson to Speak

Dr. Robert G. Caldwell, dean of Humanities, and Professor Clark S. Robinson of the Chemical Engineering department, are the two faculty speakers. Dr. Caldwell, former United States minister to Bolivia and expert on U. S. relations with South America, will discuss to what extent the United States should interfere in South American Affairs, particularly if belligerent nations should attempt to get military or even economic control over some part of it.

Professor Robinson, although retired, is very active in the United States Army. He will talk about the way in which the army hopes to keep the United States out of war. In a statement to The Tech, Professor Robinson said that the army's method is based on fear, on showing to the people how terrible war is. At the same time the army wants to be prepared for any eventualities, he stated.

Tech And Lasell Glee Clubs Sing

Attendance Breaks Records At Concert In Walker Last Friday

The largest audience to attend a concert in Walker Memorial this year heard the M.I.T. Glee Club and the Orphean Club of Lasell Junior College present the first of their two combined concerts last Friday night. Following the concert a dance was held which was attended by over 500 members of the two clubs and guests.

Mr. Henry J. Warren, the club's director, characterized the concert as one of the most successful he has known, and complimented the club on its work, which he said was the best he had heard since he has been directing.

The previous evening, Thursday, April 4, the club had sung a program at the Boston City Club, consisting of several pieces by the club and a number of solos by Arthur L. Lowell, '41.

Saturday evening at Longwood Towers in Brookline, the M.I.T. Glee Club and the Glee Club of Bradford Junior College will present a concert, and the following Monday, a program with the Wheelock School Musical Guild will be held in Walker Memorial.

Smooth Band Leader Will Play For Dance On Friday, April 26

I. F. C. Vocalist

Miriam Shaw, who will sing with Richard Himber's Orchestra at the I. F. C. Ball, April 26.

'40 Men Lead In Dean's List

887 Receive Recognition To Top Last Year By Fifteen

With an increase of 15 men over the corresponding term in 1939, the official Dean's list, which contains the names of those students who have received the highest scholastic ratings during the past term, was announced yesterday. The 275 men from the Senior class led their fellow students in achieving high scholastic standing. 211 Juniors, 205 Sophomores and 196 freshmen comprised the remainder of the 887 men receiving term ratings of 3.5 or over. 4.9% of the freshman class, 4.2% of the Sophomore class, 5.1% of the Junior class and 4.7% of the Senior class were listed in the first Dean's list. This shows an improvement over last year's figure when only 4% of the students reached first rank.

Twenty-nine of the students in the first rank were in that place last year, including 11 in the Senior class. Issued since 1931, the Dean's Lists have increased steadily in size every year.

Eight Teams to Compete In I.F.C. Bridge Finals

Eight teams were selected in the I.F.C. Bridge Tournament held at the Sigma Chi house Sunday afternoon. Sixteen fraternity teams took part in this first round of the tournament being sponsored by Mr. and Mrs. George M. Leghorn, parents of Kenneth M. Leghorn, '42.

The remaining teams will compete at Sigma Chi house at 2:30 P.M. next Sunday, April 13. They are the representatives of Delta Psi, Delta Kappa Epsilon, Alpha Tau Omega, Sigma Alpha Epsilon, Phi Sigma Kappa, Phi Beta Delta, and Lambda Chi Alpha.

Tickets To Be Sold By Fraternities Exclusively

Each House Will Receive Blocks of Bids At Dinner

Richard Himber and his orchestra will play for the Interfraternity Council's Dance to be held in the Imperial Ballroom of the Hotel Statler from 10:00 P.M. until 3:00 A.M. on Friday, April 26. The maestro signed the contract at 11:00 A.M. yesterday.

Himber, noted for his "rhythmic pyramids", plays a smooth brand of swing. Pretty Miriam Shaw and Stuart Allen do the vocals. The orchestra has recently completed an engagement at the Hotel Pierre in New York City.

Tickets \$4.50 Per Couple

Tickets for the dance, which will sell for \$4.50 apiece, are to be handled only by the individual houses. The tickets have already been allotted to the houses according to their membership. Each fraternity will pay for its block and then will sell them. All non-fraternity men who wish to attend the ball must obtain their tickets from some fraternity house.

Robert Wallace Blake, '41, is to redistribute tickets between houses with excesses and deficiencies.

The blocks of tickets are to be distributed to the houses at the I.F.C. banquet next Thursday in the Marionette Room of the Hotel Brunswick.

Committee in Charge

The committee in charge of the dance consists of: Seniors Franklin E. Penn, chairman; Thomas F. Creamer; Wesley J. Van Sciver; John H. Holloman; Joseph C. Jeffers; Russell L. Haden, Jr.; John R. Gray; and John L. Danforth; and Juniors Robert Wallace Blake, William R. Burke, and Nathaniel M. Sage, Jr.

Invitations Issued To 14 Scientists

Special Tour Of Open House To Be Given Guests By Committee

Fourteen prominent men of New England scientific and engineering establishments in addition to the members of the New Products Committee of the New England Council, of which President Karl T. Compton is chairman, have been invited to a preview of Open House on Saturday, April 27.

The visitors are to be conducted on a special tour through the various exhibits by guides furnished by the Open House Committee and they will be shown as many of the displays as possible in the special morning showing, beginning at 10:30 A.M.

After the private tour, the visitors, as special guests of the Corporation will dine en masse in Walker Memorial.

VOTE — AND COMPLETELY

Tomorrow is election day. Officers of all four undergraduate classes will be named by the results of tomorrow's balloting.

In any democratic system, such as the organization of Technology's undergraduate classes, every eligible person must vote if the system shall make a pretense of being democratic. This action is the first requirement for making a "democracy work." No matter how intensely the members of the society feel toward their government, no matter how democratically the executive heads of the society administer the duties of their offices, if every unit of that society has not lent his voice to the shout which commands its operations, the government is not physically democratic.

The class elections tomorrow, however, put one more requirement on the potential voting public. It is not enough that every Tech man should go to the polls tomorrow. The mere casting of a ballot becomes meaningless or even misleading if the voting is not done intelligently.

Technology's preferential system of balloting is responsible for this extra demand. The system depends on proper ballot marking for its operation.

Section 19 of Article IV of the Elections Committee Constitution which explains the method followed in naming the election winners, shows the necessity for complete ballot marking:

"Provide a tally sheet containing the names of the candidates on the left, with columns to the right of the names.

Sort the ballots into piles in accordance with the first choice indicated on them.

Count the number in each pile, and enter the figures on the tally sheet in the first column against the candidate's name.

If, at this stage, one candidate has a majority of the total votes cast, he is elected.

If this count gives a majority to no one candidate proceed as follows:

Drop from the list the man with the least number of votes. Distribute his ballots among the remaining candidates in accordance with the second choice indicated on each ballot. Enter these total figures in the second column.

If there is still no choice, drop the candi-

date who stands last on the count in Column 2, and proceed as before. Continue until some one has a majority.

If two candidates are to be elected find the man who has the highest count by the method just indicated. Then eliminate his votes, and start again with the first choice."

Essentially, the system is designed to prevent a minority candidate from being elected when a majority splits its votes between two other candidates, either of whom it would prefer to the minority man. This procedure makes it difficult for power politics to split the opposition — providing the opposition votes properly according to the preferential system.

Each voter, therefore, must number the candidates in the order of his preference if the system is to function perfectly. Failure to name a sufficient number of candidates, (if his choices are near the bottom when the votes are counted) will nullify the influence of his ballot when the contest is narrowed down to two or three men.

Of course, most of the voters realize the need of voting preferentially, that a vote can easily be partially wasted if the numbering be stopped too soon. Every ballot, however, must be marked completely and precisely according to the choices of the voter lest Technology's excellent system of undergraduate government become the victim of innocence, or more tragically, carelessness.

FIRST AID

The Walker Dining Service Conference Committee held its first meeting last Friday, with results that were neither drastic nor surprising. They were not meant to be; the committee merely met to make plans for future procedure.

One notable feature of these plans was the suggestion to hold certain conferences in Morss Hall. This is in line with the attempt of the committee to make the students realize that it has been set up to help them, and not merely to quiet an unpleasant situation.

But if the students expect to be aided in their quest for food improvements, they in turn must inform the members of the committee of their requests. That is what they are there for. Without student suggestions the committee can do little in the way of lasting good.

GRIDIRON GRIT

This fall, for the first time since before the first World War, Technology, will have an intercollegiate football team.

The team can not technically be called a "varsity", for Sophomores, according to the present arrangement, will not be allowed to compete for positions. Except for this condition, next autumn Tech could sport its first varsity grid team since 1903.

For the past several years the lobby for revival of football at the Institute has been steadily mounting. Now that the most typical American college sport is again here its effects will no doubt be closely watched.

It would indeed be tragic should the zeal-ousness of the players be the cause of the sport's death after all the work and words of its crusading fans. Candidates for the team should bear in mind that any scholastic slips on their part will reflect unfavorably on the new organization.

THE READER SPEAKS

Dear Editor:

Amid this column of jangled nerves, I would like to sound one harmless note. My note is a word of advice to you brown-baggers on how to clean your glasses so that they really are clean. It has been suggested that I write a thesis about it; but I shall satisfy myself with a letter to The Tech.

This idea is sure-fire and has my personal guarantee as a help for tired eyes. The technique is as simple as it is successful. One simply dips their glasses in a soapy solution of hot water and, after rinsing them with cold water, wipes them with a clean handkerchief.

This is my formula for success.

Yours truly,

MILTON R. McGUIRE, '41

Elections Tomorrow

(Continued from Page 1)

James, the third candidate, had no statement to make.

'42 Presidential Nominees Speak

In the Class of 1942 presidential contest, Ernest M. Artz said: "No matter who wins, the class cannot lose." Jerome T. Coe stated: "The Class of 1942 will elect whomever they want. All the candidates are pledged to do their best if elected." "Having no platform on which to orate, I pledge nothing except my sincerity in wanting to uphold the class in all things," said William G. Denhard, the third nominee for the office.

The nominees for next year's Sophomore president had the following statements to make. Said John F. Tyrrell, "A true class election should be supported by the entire class. If the Class of '43 turns out in full force, I feel sure that the best man will win." James S. Malloch stated, "Let's see some enthusiasm from the freshman class. Make the Class of 1943 one to be long remembered." Said Robert S. Reebie, "I hope the class will turn out 100% for the election and also for our class dance."

SAILORS WIN FIRST SPRING MEET

SPORT SLANTS

by HARVEY I. KRAM, '42

The advisability of a Basketball training table for next year's season is now being considered by various members of the Beaver basketball squad. Tentative plans call for an evening dinner five times a week. There is much in favor of having a training table for the Basketball team. Foremost of these is the possibility that such a dinner table for the Beaver hoopers might help improve their team work and morale. The training table idea came to Tech last year when crew instigated it for those men out for rowing. In view of the fact that it has been continued this year, it can be said that the experiment has proven successful. One of the values of having such a dinner table for the Beaver athletes is best described by an explanation Bob Moch gave recently as to why crew conducts a training table. He stated that the reason he has the training table is because the men up at the boat house during practice don't get the opportunity to find out what's in the back of the other fellow's head but only what comes off the end of his oar.

This statement can be adapted to Basketball quite easily. Basketball, as we all know, is a very fast game and as a result requires a high level of cooperation and spirited teamwork for the maximum of success in competition. A training table would help the morale of the team a great deal as it would give the players a chance to become better acquainted with their team-mates. After all, one of the main purposes of athletics and team competition in any school is to provide those students participating in the sport with an experience of fellowship and teamwork. This basic purpose of college athletics is in itself reason enough for a Basketball training table.

KRIEGER ELECTED CAPTAIN

The Beaver D'Artagnans formally closed their successful 1940 season last night at a dinner meeting. Ray Krieger, '41 was elected Varsity captain for next year. Ray has been one of the main-stays of the team this past season and his handling of the epee has been highly commendable. The team also voted the Varsity Club awards for sabre, epee, and foils to Adelson, Krieger, and Bech respectively. On May 11th there will be held on the Boston Common an Open Fencing Three Weapon Tournament. This contest is open to all amateurs and is being sponsored by the Amateur Fencing League of America. Prizes will be awarded to the winners of the different events.

CARLETON TO LEAD GRAPPLERS

Another new leader in Tech sporting world is John T. Carleton, '42, who was recently elected captain of Varsity wrestling. Carleton was also captain of the 1942 Freshman wrestling team on which he starred, and was the most consistent winner on this year's Varsity team.

SPRING SOCCER PRACTICE UNDER WAY

The Tech Booters started Spring practice last Thursday. About fifteen men turned out, and more are expected to report today. Practice is being held on Tuesdays and Thursdays on the Briggs Field. Practically all of last year's team has reported to practice and this may be a significant fact in anticipating the team's record next fall when they enter intercollegiate soccer competition. New organization of the Tech soccer team is being made, and there will be an attempt to put into use a set of training rules to aid those men out for this sport.

Lacrosse Team Wins First Game

Beavers Defeat Boston Club In Hard, Fast Game For First Time

Technology's Lacrosse team pulled one of the first surprises of the spring sport season when they defeated an old rival, the Boston Lacrosse Club, last Saturday by the score of 9 to 5, with Tech out in front from the outset.

Tom Creamer scored the first goal of the game and was immediately followed with one by Randolph Browning. The Beaver team went on to score four points before the Boston team could get started. At the half, Tech led 5 to 2 and by the end of the third period the outcome of the game was assured.

First Win Over Boston

It was the first time that Technology has ever beaten the Boston club. The latter is composed of former college players who have had much experience in Lacrosse.

The Tech team played a steady game and was mostly on the offensive. The defense was rarely troubled and when it was, it cleared very fast. The outcome of this game points to a successful season for the Lacrosse team. With a large number of reserves on hand and the present optimistic air, the team is looking forward to their match with a strong Stevens outfit next Saturday.

Spring Tennis Practise Commences In Earnest

Spring Tennis practice started last Monday in preparation for the first match of the season on the 23rd of this month. Jack Summers, coach of the sport, has arranged a bumping board, with which he hopes to discover the best men for 1940 Beaver tennis team.

Players interested in coming out for the sport should see Jack Summers on the squash courts, as soon as possible.

Beaver Key Sets Track Meet Date

The annual Intramural Track Meet, sponsored by the Beaver Key Society, is to be held May 1 and 2 at 4:30 p.m. on the Briggs Field track. The first day's events will consist of a Medley Relay (220, 220, 440 and 440 yards), High Jump and Shot Put. An 880 yard relay together with a 100 yard dash, Broad Jump, and Potato Race will be the features of the next day's competition.

The Medley Relay, a new event, has been substituted for the 220 and 440 yard dashes, in order to increase the importance of team work in the meet. Each house, or group, may enter two men in each event and one team in each relay. One man may compete in two events plus a relay or in both relays and one other event.

Many Spills Mark Dinghy Season's Beginning

Harvard, Navy, And B.U. Defeated As Coe, Adams Star

Starting off the 1940 season on a triumphant note, Tech's sailors out-classed Navy, Harvard, and Boston University in a quadrangular meet held on the Charles Basin Saturday afternoon. The Beaver sailors garnered 41 points to Navy's 20, Harvard's 17, and the Terriers' 13. The series was marked by a large number of swamped and capsized craft, due to the West wind of near-gale proportions, which blew up just before the meet started.

The thirty-two sailors taking part, pitted every bit of seamanship they knew against the fury of the gale which made racing conditions probably the most difficult ever experienced on the Charles River Course. The race was originally scheduled to begin at 1 p.m., but did not get under way until two hours later, as worried officials watched the choppy waters, waiting for the wind to abate.

Many Boats Capsize

Things finally did get started with the weather but little better, and three of the eight scheduled races were run off, before the meet was ended. The final race was the worst of the lot for spills, as Southard, of Navy, Mattern of B. U., and Siedman of Harvard, sailed their boats under, while the second Navy captain was forced to beach his dinghy on the Boston side of the river to avoid a similar fate. Harvard had another disaster in an earlier race to bring the total number of tip-overs to four.

The Engineer squad was the only one to have all its men finish in all the races. High scorer on the Beaver crew was Adams, who made a first and second in his two yellow division races to build up a tally of 15 points. Coe was next high scorer of the meet, scoring fourteen points with a first and third in the same two races. Scheu of Navy finished second and fourth, to make the next highest tally of 12.

Knapp Gets Second

In the one race run in the Blue division, Navy pulled up from third position in the meet to second, as Lemos of Navy just bested Knapp of Tech. Anden of B. U. was the most successful Terrier captain, scoring a third in this race.

On Sunday, in calm weather, a Tech team consisting of Delevan Downer, Hans Aschaffensberg, and Knapp went up to Marblehead to compete with a Boston Yacht Club team consisting of Mather, an instructor in the Naval Architecture Department, Poor, and Whittemore. Six races were run in Marblehead Harbor, and the Beaver sailors went down by 20 points. A return meet is to take place next Sunday morning on the Charles in Tech boats, when the Engineers will be given their chance for revenge.

In races held at Tech on Sunday morning, Eric Olsen won all four races run to take first place in the first Division Competition.

'43 Sweeps Wrestling Tourney Capturing Six Championships

Six freshmen and two seniors survived four days of grappling in the annual All-Tech Wrestling Tournament, to be crowned champions of their respective weight classes by Mr. John A. Rockwell, chairman of the Advisory Council on Athletics at Technology, last Friday afternoon in the Hangar Gym.

Mr. Rockwell, in his short talk to the contestants, asked them to keep in condition during the summer so that Technology's wrestling team may continue its progress next season.

Freshmen Steamroll to Win

The team scores, as compiled by Captain Johnny Carleton, indicated a sweeping victory for the freshman contingent. 58 points were chalked for the Class of '43, more than doubling the score of any other class. The Sophomores garnered 24 points, and the Seniors 16, while the Juniors even failed to break into the scoring column.

The six freshmen who won the first place medals, under keen competition were Cyrus Kano in the 121-pound class, Barrie Mackenzie in the 145-pound division, Wm. Sullivan in the 155-pound division, Bernie Brindis in the 165-pound class, Hugh Byfield, 175-pounder, and Bill Moore, unlimited class.

145 and 165 Pounders More Tough

Particularly hard fought final round matches were seen in the 145 and 165-pound classes as freshmen Mackenzie and Brindis each gained the referee's nod over their varsity opponents, Mackenzie and Brad Torrey, Sophomore, wrestled aggressively for the full six minutes of their match, with neither of the men gaining a distinct advantage over the other. The referee then handed a close decision to the freshman grappler.

Brindis, 165-pound 'grunt-and-groaner' also won one of the hardest fought matches in the finals, just edging Frank Seeley. Brindis gained an early advantage over the stocky Sophomore, and held onto it during his opponent's last minute drive.

Seniors Gain Two Wins

The other two firsts were captured by Seniors, Henry Brewer in the 128-pound division and the former Navy grappler, Bob Hall, in the 136-pound class. Hall won in his division with two decisive pins over his fellow Senior and former varsity teammate Bob Cohen, and the regular freshman performer, Warren Schwarzmann. He fell Cohen in 5:00 minutes with a headlock and arm drag and the freshman in 3:08 minutes with a body press.

Brewer, in the 128-pound class, came close to being eliminated in the first round when he barely eked out an overtime fall over John Tyrrell, freshman grappler, with one second left to go in the first overtime. The final match in this division resulted in well-earned fall over George Watters with a tight body press after 3:08 minutes of grappling.

155-Pound Class Taken by Sullivan

The 155-pound division, one of the most crowded classes, was taken by Ray Sullivan with successive pins over Bert Saer in 4:50, Bob Lotz in 4:19 minutes and Pete Gramis in the finals in 4:50. All matches were closely contested, belying what the quick falls would indicate.

Burly Bill Moore was the unlimited medal winner as he pinned Ed Telling in 1:50 with a bar and chancery, and then went on to defeat Bob Schaefer in a referee's decision. In the final round Moore overcame a slight lead that Schaefer built up in the early minutes with an aggressive brand of wrestling.

Summaries:

- 121-pound class: 1. Cyrus H. Kano 2. Alan M. Milman 3. Edgar W. Burns.
- 128-pound class: 1. Henry Brewer Jr. 2. George A. Watters 3. Harry Ottlinger, Jr.
- 136-pound class: 1. Robert J. Hall 2. Robert J. Cohen 3. Warren A. Schwarzmann
- 145-pound class: 1. J. Barrie Mackenzie 2. Bradford M. Torrey 3. Allen G. Quyan, Jr.
- 155-pound class: 1. William J. Sullivan 2. Peter E. Gramis 3. Robert W. Lotz.
- 165-pound class: 1. Bernard S. Brindis 2. Franklin P. Seeley 3. Peter J. Dunne, Jr.
- 175-pound class: Hugh W. Byfield 2. Spencer H. Brewster 3. Melvin S. Shamban.
- Unlimited: 1. William B. Moore 2. Robert J. Schaefer 3. Unheided.

You can't afford to hang around college this vacation—when it costs so little to get away! Hop the very next Greyhound bus and head for home—or in the opposite direction if the wanderlust's got you. Small change is all you need to make a big change in your surroundings—Greyhound's low fares keep your capital practically intact! Have more fun where you're going—with the money you save getting there by Greyhound!

Elections Tomorrow

(Continued from Page 2)

1940 Nominee

In the 1940 nominations Walter H. Farrell is the sole candidate for permanent president and H. Garrett Wright is the only nominee for permanent secretary. Other Senior nominations are Marshall P. Bearce, Joseph J. Casey, Thomas F. Creamer, Valentine deV. de Olloqui, Jr., and Henry Rapoport, candidates for the three positions of class marshals.

1941 Candidates

Stephen W. James, Willard S. Mott, and John B. Murdock will run for president; Joseph G. Gavin, Walter P. Keith, Charles A. Wales and Teddy F. Walkowicz, are the candidates for the two Institute Committee positions. Nominations for the office of secretary-treasurer are Stanley Backer, Edward A. Beaupre, James S. Cullison, and Donald D. Scarff.

1942 Nominees

The presidential candidates in the class of 1942 are Ernest F. Artz, Jerome T. Coe, and William A. Denhard. Francis B. Herlihy and Robert S. Shaw are nominees for secretary-treasurer, and John T. Carleton, Warne P. Johnson, Robert W. Keating, and Carl L. McGinnis will run for the two positions on the Institute Committee.

1943 Candidates

In the freshman class the candidates for president are James A. Malloch, John F. Tyrrell, and Robert S. Reebie. Bernard S. Brindis, John W. McDonough, Jr., and Robert S. Rouffa have been nominated for the position of secretary-treasurer and the candidates for the Institute Committee positions are J. Richard Baumberger, S. Richard Childerhose, Jr., James T. Harker, Thomas K. Maples, John O'Meara, Edmund R. Swanberg, and William A. Verrochi.

Any old rock is good enough for Frank A. McClintock, '42 and John W. Jenkins, '42, when they are in a climbing mood. Here is McClintock on the way down from the fifty foot peak of Bemis dormitory, after he and Jenkins had shown off their climbing ability to the duly impressed dormitory residents last Sunday afternoon.

He heard about "Eastern's" low round-trip rate and he's off to New York for the week-end!

M.I.T. Chemical Society Nominates Exec. Board

Nominations for the executive board of the M.I.T. Chemical Society were announced last night. The candidates, nominated by the retiring board, are Mason L. Downing, '41, for president; Marjorie G. Quinlan, '41, for vice-president; Francis A. Regan, '41, for treasurer; and Samuel L. Solar, '41, for secretary.

Elections by the society are to be held at a meeting in Eastman Lecture Hall, Room 6-120, on Monday evening, April 15 at 8 P.M.

A.S.U. Executive Sec. Will Speak At Meeting

Herbert Witt, national executive secretary of the American Student Union, will be the guest speaker at a meeting of the A.S.U. to be held this afternoon at 4:00 o'clock in the Eastman Lecture Hall, Room 6-120.

The general subject is to be the view in Europe, its causes, and how the United States can remain neutral. There is to be an open discussion of the talk and Mr. Witt will endeavor to answer any and all questions on the subject.

Busiest Cigarette in the Country ...that's Chesterfield

Miss Aasta Pedersen

... the smiling hostess who welcomes guests at one of New York's most famous hotels. She will tell you Chesterfield is the busiest cigarette in the place.

Going "two packs at a time" because Chesterfield is today's definitely milder, cooler-smoking, better-tasting cigarette

These three qualities—MILDNESS, COOLNESS, TASTE... are the sum and substance of real smoking pleasure. You enjoy all three in Chesterfield's right combination of the world's best cigarette tobaccos.

At over a million places where cigarettes are sold you can see these clean white Chesterfield packages going into more pockets and more handbags every day. All over the country smokers are finding out you can't buy a better cigarette.

Chesterfield

Today's DEFINITELY Milder, Cooler-Smoking, Better-Tasting Cigarette
