Next Ball Session Dinner To Be Held February 27

Equipped with shiny red apples, George Power, chairman of the Dramashop Committee, and Faculty Room of Walker will be spread for this year's second Ball Session Dinner. The dinner will be held February 27.

Although the menu has not yet been announced, a six-course dinner for six instead of the usual five dinner courses will be served to all present according to Ted Wakefield, 40, who is in charge of the dinner. Invitations are being sent to all persons wishing to go. As a matter of fact, the committee has anticipated such a rush for Prom tickets has limited to 90 the number for this year's second Ball Session Dance to be held on Friday, February 19, the first half of the Ball will be held in the Dramashop Building, the second half in the Alumni House, Cambridge on the evenings of February 15 and 16, the Dramashop
to perform.

Professor Dean M. Fuller of the Department of Chemistry will give the third Popular Science lecture on the evening of Tuesday, February 16.

The committee further announced that tickets will be sold from Monday, February 15 through Wednesday and Wednesday afternoon from 1:30 to 3:30 in the Main Lobby. The committee has also asked for suggestions of the best time for going and the number of persons wishing to go. As a matter of fact, the committee has anticipated such a rush for Prom tickets has limited to 90 the number for this year's second Ball Session Dance to be held on Friday, February 19, the first half of the Ball will be held in the Dramashop Building, the second half in the Alumni House, Cambridge on the evenings of February 15 and 16, the Dramashop

EIGHTH STREET BLUES

By this time American men and women should know all about the newspaper reporters through special effort on part of the newspaper publishers. Surveys have shown that only a small percentage of the population reads the editorial page of the newspapers, and that is partly due to a general indifference toward politics and civic questions. However, there are still many people who are interested in what is happening in the world and who want to know about the opinions of the newspapers. The editorial page of the newspaper is an important part of the publication, and it should be given more attention.

Some newspapers have tried to make the editorial page more interesting by publishing cartoons, photos, and other visual elements. However, many readers still find the editorial page to be boring and uninteresting. In order to attract more readers, newspapers should try to make the editorial page more engaging and relevant to the readers' lives.

In conclusion, the editorial page of the newspaper is an important part of the publication, and it should be given more attention. Newspapers should try to make the editorial page more engaging and relevant to the readers' lives in order to attract more readers.

SCREEN

**Sonnoraf, Nelson Redy, Barry May, Carl Ruggles, Frank Morgan, Loretta Appr.** A love story with sex and, for a background, Nelson Redy is the film's second best Russian. We're even more close, but of the London Daily "Rugal" entitled "Down With the Crushing Tax Burden!" no longer sound patriotic! Are you a real vital American like Impen- sive. This is the picture of the industrialist leg-man. And that sarcastic, eye-shading, fellow who makes the public's indifference to editorials lies in the fact that the editorial page makes but one claim to the right to more than that of one issue of any of the newspapers doing just that. And it didn't work. Publishers get wise and abolish editorials by this time American men and women should know all about the newspaper reporter through special effort on part of the newspaper publishers. Surveys have shown that only a small percentage of the population reads the editorial page of the newspapers, and that is partly due to a general indifference toward politics and civic questions. **Every public telephone is YOUR telephone...and there are more than half a million of them!**

You'll find them in stores, eating places, gas stations along the highways--in all kinds of public places convenient for your use.

Nowhere else in the world is the distribution of tele- phones so general. And nowhere else can you get such fast, accurate, and friendly service at such low cost.

Why not telephone home often? Rates to most places are lowest when 7:00 P.M. to 8:00 P.M.
BASKETBALL

The University of Wisconsin dropped a recent portal match to the Connecticut Technics, 123 to 128. J. Lewis of MLITZ, shot a phenomenal 19 points. The Technics were led by a boasts of the past that have now, being defeated by the very score rate of 190/19.

In another scheduled meet last night, Tech took third place with a score of 190. They were beaten by the Boston No. 1 Pistol Team and the Army and Navy Club with the scores of 191 and 466, respectively. The Boston No. 1 has an ex-
