

## Nine Juniors Join the E. E. Honors Group

Students Are Allowed  
Independent Action;  
Classes Voluntary

Nine members of the Class of 1942 have been elected to the Honors Group in the department of electrical engineering, the department announced this week.

They are Charles L. Estes, Paul A. Holte, Robert I. Jacobson, Ragnvald Maartmann-Moe, Alan Macnee, Claude M. McCord, Jr., Sanford C. Peek, Jr., Emory St. George, Jr., and George J. Schwartz.

### Have Special Section

The group is elected after the Sophomore year. Instead of meeting with regular classes and following the usual assignments throughout the junior and senior years, these students conduct their courses independently. They are however, under the guidance of staff conferees and participate in meetings called by the conferees.

The group is not examined through the usual methods but must submit to comprehensive tests compiled by a board which includes practicing engineers.

### Class Attendance Voluntary

The Honors Group Plan offers to students of exceptional promise an opportunity to gain a broader knowledge of their profession. Attendance at classes is voluntary. The system is devised to develop originality and self-reliance.

## R. E. Caldwell Put On T. C. A. Board

Dean Of Humanities  
Completes Largest  
Board In 25 Years

Dean Robert E. Caldwell was unanimously elected to the T.C.A. Advisory Board, at its most recent meeting. The addition of the Dean of Humanities makes the board the largest that the T.C.A. has had in twenty-five years. It was thought by last year's advisory council that Dean Caldwell would be particularly valuable because of his world-wide experience and his position as Dean of Humanities.

The T.C.A. Advisory Board, which meets three times a year, last met on June 27, 1939. The board now includes: P. R. Zeigler, Walcott A. Hokanson, Dr. John W. Chamberlain, Professor L. F. Hamilton, Professor Carle R. Hayward, E. E. Katwinkel, Professor William H. Timbie, Dean Caldwell. Its function is to aid and advise the managing board of the Technology Christian Association on its policies.

## Camera Club To Hear Samuel Chamberlain

Mr. Samuel Chamberlain, well-known photographer is scheduled to address the first regular meeting of the M.I.T. Camera Club at 5:00 P.M. today, in Room 4-270.

Mr. Chamberlain, expert on photography, will discuss Picture Composition and its uses in commercial and amateur camera work. All members of the club, and any other photographers interested in this phase of work, are invited to attend the meeting.

Arthur J. Weinberger, '41, president of the Camera Club, will preside at the meeting and will introduce the guest speaker.

## Storm Announces Plans For Cheering Section

"This season's football opener with Massachusetts State Teachers' College this Saturday", announced football manager Frank J. Storm, '41, last night, will see a sizable supporting detail of Tech men present to cheer for their team, according to arrangements now in progress all over the campus'.

Emphasizing the fact that a large number of students have already made plans to take their dates on a Saturday afternoon jaunt to Hyannis to lend moral support to the Beaver gridders when the first whistle blows at 2:30 P.M., the chubby equipment overseer added that all information regarding tickets, cheering sections, and other details would be available by Wednesday at the A. A. office in Walker Memorial. Directions and road information will be printed in Friday's issue of *The Tech*.

## Outing Club Plans Trip For Friday Fifteen To Week-End At Mount Greylock With Association

Fifteen members of the M.I.T. Outing Club will leave on Friday the eighteenth for a week-end at Mount Greylock, where the Inter-collegiate Outing Club Association is holding among other things, a hike and a square dance. The contingent will be led by Norman I. Shapira, '41.

The term's first joint canoe trip will be held with the Radcliffe Outing Club on Saturday the 19th. Fifteen members led by Warren A. Schwarzman, '43, will depart in the early afternoon to paddle and picnic with the girls on the Concord River, returning later by car.

### Rock-climbing Sunday

A rock-climbing trip to the Quincy Railroad Quarries for the express purpose of teaching the novices of the club, the M.I.T.O.C. technique of climbing, is to take place on Sunday. President Alan A. Smith '41 will lead. Last Sunday, October 13th, the club went on a bicycle trip through Quincy, the coast, cutting through the Blue Hills returning to Boston via West Roxbury after covering forty miles.

## Mark Warnow Calls Himself Jan Savitt's "Number One Fan"

Jan Savitt's "shuffle rhythm", which will be featured at the Field Day Dance the evening of November 1, is the tops in swing entertainment if Mark Warnow, conductor of the Hit Parade Orchestra, is any judge.

Warnow, a highly successful leader in his own right, calls himself Savitt's "number one fan." Says Warnow of the Field Day maestro, "Savitt takes shoddy and banal tunes and makes them shine with his uncanny choice of tempo. His ingenuity and musical talent are most evident in the beautiful figures Jan composes for his sections to avoid thinness while getting the appearance of ease that sets off a great band from just another bunch of musicians."

Born in Petrograd, Russia, twenty-seven years ago, Jan was the son of a drummer in the Imperial Regimental Band and member of the Czar's Imperial String Orchestra. He came to the United States when still an infant, and was soon recognized as a musical prodigy. Before graduating from high school he had played for Victor Herbert, who predicted that Savitt would soon be the outstanding American violinist.

# 1200-1500 Technology Men To Register In Room 7-142 Tomorrow For Draft Service

## Peace Society Plans Election

Two Representatives  
Of Each Activity  
To Elect Officers

An out-of-season election of officers is to be held at the first scheduled meeting of the Technology Peace Federation, to be held Wednesday, October 16, at 5 P.M. in Litchfield (East) Lounge.

During the meeting, some of the present officers of the Federation will resign, and the elections will be held to fill their places. Plans for the future activities of the organization will also be discussed. The meeting is open to representatives of all activities and residential groups.

### All Activities Represented

The Peace Federation is composed of two representatives from each activity and undergraduate group. Last year the Federation presented two moving pictures: "All Quiet on the Western Front," and "Grand Illusion"; and organized a Peace Day rally, in which President Compton participated, and several debates.

The Executive Committee has not yet formulated a program for this year because of the impending resignations. However an interesting and entertaining program is expected.

## M. I. T. Honored In Radio Show

Technology on Program  
Over WNAC Tonight

A radio program dedicated to Technology is scheduled to go on the air tonight over WNAC at 8:00 P.M. under the sponsorship of the Phillip Morris cigarette company.

During the program there will be a salute to the Institute, in which the song, "Take Me Back To Tech" is to be played. Johnny Green and his orchestra will play the accompaniment while his chorus sings the lyric.

1925 and entered the Curtis Institute of Music in Philadelphia, won three scholarships, and on being heard by Leopold Stokowsky, was offered the opportunity of joining the Philadelphia Orchestra. He became a member of this famous group and was at that time the youngest man in the organization.

The following year Jan Savitt struck off on his own by organizing the Savitt String Quartet which won the Philharmonic Society's Gold Medal. This honor brought Savitt his first real success. From this time on the youthful maestro has enjoyed a steadily rising popularity.

After a short period during which he was affiliated with radio studios, Savitt stepped into the field of modern music. Unlike so many "long-haired" musicians the young Russian never lost sight of the tremendous possibilities in the realm of the modern swing music.

### Develops New Rhythm

The "shuffle rhythm" which is headlined by the Savitt combine, is a variation of swing which relies for its effect on the use of eight full beats to a measure instead of the customary four. The eight alternate between brass and reed sections.

## Questions To Be Asked In Draft Registration

1. Name.
2. Address.
3. Telephone (exchange and number).
4. Age (in years) and date of birth.
5. Place of birth (town and state).
6. Country of citizenship.
7. Name of person who will always know your address.
8. Relationship of that person.
9. Address of that person.
10. Employer's name.
11. Place of employment or business.

## Practice Forms To Be Provided For Speeding Up Of Process

Between 1200 and 1500 Technology men will register tomorrow in Room 7-142 for possible military service. Institute authorities estimated last night. The facilities are to be available from 7:00 A.M. to 9:00 P.M.

Students and Faculty members have been requested to appear in their home precincts whenever possible. However, for those who cannot conveniently do so, the registration facilities in Building 7 are available.

### Preliminary Forms Given

To speed up the mechanical process of filling out the more than 1000 blanks, preliminary forms will be provided. These forms are to be completed before the person registering reaches the registrar, who will make out the official form.

The Selective Service Act provides that all persons between twenty-one and thirty-six must register, with a few exceptions. Aliens—foreign students—are required to register just as are citizens.

### Advanced ROTC Exempted

Students enrolled in the advanced R.O.T.C. form the principal class of those over twenty-one who need not appear. Also exempted are students and Faculty members holding commissions in the Officers' Reserve (Continued on Page 4)

## Moreland Speaks To A. I. E. E. Group

Dean Tells Of Part  
Technology Takes  
In Defense Program

Dean Edward L. Moreland, Dean of Engineering was the speaker at the first meeting this fall of the student branch of the American Institute of Electrical Engineers, held last night in Pritchett Hall of Walker Memorial. The subject of his talk was "M.I.T. and the National Defense Program." Dean Moreland was in a particularly good position to give a picture of the work M.I.T. is performing in the defense program, since as Dean of Science he is especially well informed on the subject.

The meeting was preceded by a dinner attended by a large number of students in the Electrical Engineering department. An opportunity was given to those who had not previously done so to register for the society.

## Forget Your Technique? Get It Now Or Lose It

All those who have already paid for their 1940 Technique and have not as yet received them are given until October 31, 1940. After that date the Technique will no longer be responsible for the yearbooks. They may be called for any afternoon from 5 to 6 in the Technique office on the third floor of Walker Memorial.

## Prof. Smith To Speak At 5:15 Club Smoker

Professor Theodore Smith, of the Department of English, is scheduled to speak at the first 5:15 Club smoker at 5:15 in Pritchett Hall, Thursday, October 17. "America Faces a World Chaos" will be the subject of his talk.

The smoker, the first activity of the club for the fall term is open to all registered members of the 5:15 Club. Refreshments and cigarettes will be served.

## Capacity Crowd Jams Main Hall

600 Girls Present  
At Acquaintance Ball  
In Walker, Friday

Jamming the Main Hall of Walker Memorial, last Friday evening from 9 to 2, almost 1,200 people danced to the music of Jim Carmody and his ten-piece band at the Annual Fall Acquaintance Dance of the Catholic Club.

A success, both socially and financially, the dance was attended by almost 600 girls from Wellesley, Radcliffe, Simmons, Regis, Emmanuel, Lasell, Boston Teacher's College, and other local colleges.

The highlight of the evening was the "conscriptability" machine with which over 500 people were tested to determine their susceptibility to the conscription and their potential rank after conscription.

## Foreign Students Hear Speeches

Approximately 50 members of the recently formed International Club listened to talks by Professor Theodore Smith of the English Department and Wallace M. Ross, General Secretary of the T.C.A. at a meeting at 4:00 P.M. yesterday in Pritchett Lounge.

Professor Smith, who was introduced by President Charles W. N. Thomson, '43, discussed international politics. Mr. Ross gave a short sketch of his travels as a youth. Refreshments were served.

### Club Founded Last Spring

The International Club, which is open to both foreign and American students, was founded last spring to inter-racial unity and good feeling.

Future plans of the organization include a tea at Wellesley for all members as guests of the Wellesley Cosmopolitan Club on Sunday, October 20, and a dance sponsored by the Advisory Council for Foreign Students in Boston on Friday, October 25, in Walker Memorial.

## T.C.A. To Hold Smoker For Boys Work Division

The T.C.A. Boys Work Division will begin its 1940-41 season with a smoker to be held in the Faculty Lounge at 5 o'clock on Thursday, October 17.

Professor Timbie of the Electrical Engineering Department will talk on the value of Boys' Work as an extra-curricular activity. Mr. Havey of the North End Union and Mr. Athearn of the Elizabeth Peabody House will also address the gathering.

The smoker will close at 6 o'clock with the serving of refreshments.

## FATED

By all signs intra-mural sports at the Institute are headed for another year of the doldrums.

In past years the management of this highly-neglected phase of Tech's athletic program has been vested in the Beaver Key Society, which ran the tournament in a desultory fashion until last year a series of repercussions, within the Society and without, managed to instigate certain constitutional changes and install conscientious officers. The Society, in fact, just emerged with its life through promise of a more vigorous program.

To abolish one of the major objections of the intra-mural set-up—the elimination of a team after one defeat—the new officers of Beaver Key drew up elaborate plans this year for a double-elimination tournament by means of which every team should play three or four games at least. It also planned individualized contact with all teams; after a little talk with the house or hall athletic chairman, if it was learned that that house or hall was not to have a team on the field, the game wasn't scheduled. Defaults, common occurrences in past years, were thereby to be kept at a minimum through constant check-ups. Umpires and equipment were to be supplied regularly, a distinct officer in the Society specifically responsible for these items. In short, the Beaver Key Society, its back to the wall, was in a sink-or-swim position; it had to make good this time.

All the plans of the Society for the managing of intra-mural sports were conditioned, of course, on the fact that all residential groups would support the program. They apparently will not.

The Dormitory Athletic Committee, as it happens, has for a long time run an extremely successful inter-dormitory athletic program. It didn't want to merge with the Beaver Key's schedule. It apparently saw little reason to join up with an untried scheme, however sure-fire the scheme might appear on paper.

It is highly unfortunate that the Key isn't to get a chance to bring intra-mural sports up to the position of undergraduate importance they deserve. As things stand now the ambitious members of the Society might just as well throw their plans out the window. They simply can't force the Dormitory Athletic Committee to play ball with

them; no intra-mural sports program can get anywhere with two different groups at odds over its administration.

We're more concerned with playing as many games as we can, rather than fraternizing with other groups or building up any such nebulous thing as an enthusiastic spirit for intra-mural sports, reasons the Dormitory Athletic Committee. Such an attitude is short-sighted to the point of condemnation. To yield the point, however, is not to end the issue. The intra mural sports program ought to be given a chance.

## THE BIG GAME

"Our football team"—that's an unusual statement for a Tech man to make, but now he may make it.

"Our football team" is going down to Hyannis next Saturday. It's not a long ride, but it's an important game—our first in almost forty years.

"Our football team" should have some rooters. It isn't necessary for them to wear a raccoon coat, nor do they need to wave banners on canes. All that is asked is the well known husky set of windpipes and the presence of said windpipes at Saturday's game.

"Our football team" is untried, unscored upon, undefeated. In fact, it is unplayed, and therefore needs your moral support. It doesn't ask for your silent prayers; it wants your vociferous presence.

## ELECTIONS ANNOUNCED

The Tech, Volume LX, takes pleasure in announcing the appointment of the following men to positions on the staff. George E. Tucker, '42, has been elected to the associate board as an assistant editor.

Burton S. Angell, '43, Alexander H. Bohr, '43, Carleton F. Bryant, Jr., '43, Edward F. Czar, '43, Warren E. Foster, '43, Orvis B. Hartman '43, Cyril M. Krook, '43, William G. Loudon, '43, Walter C. McCarthy, '43, John W. McDonough, '43, A. Donald Moll, '43, Bailey H. Nieder, '43, Harry Ottinger, '43, Robert P. Richmond, '43, Stewart Rowe, '43, Robert J. Schaefer, '43, William A. Selke, '43, S. Joseph Tankoos, '43 and John F. Tyrrell, '43, have been elected to the positions of staff assistants.

## THE READER SPEAKS

The Tech would like to make clear to its readers that anonymous letters to the Editor cannot be printed. A writer's name will be omitted from his communication on his request and his initials or a nom de plume substituted, but all communications must be signed by the writer.

The Tech welcomes signed letters pertaining to articles appearing therein.

Editor, The Tech

Dear sir:

It is about time someone called the attention of the Institute authorities to the disgraceful appearance of our school when viewed from anywhere but the front. Old, piled-up lumber, shabby World War temporary buildings, tin cans, and trash piles all do their bit to pull down the wonderful reputation of our Alma Mater. There is a widespread student sentiment against this condition, but nothing is done about it. I would like to offer a few constructive suggestions:

1. Tear down the Hangar Gym, which the Boston Herald last spring called the "ugliest building on any college campus in America," which was a conservative statement.
2. Build a new gym and auditorium (big enough to hold all the students at once) on the other side of Mass. Avenue.
3. Tear down the Cape Cod Canal Model building.
4. Replace these two buildings with grass and trees.
5. Plant trees between the dorms and the Institute.
6. Plant more trees between the Institute grounds and the other factories.
7. Clean up the trash behind the Institute and get some grass, shrubs, and trees growing.
8. Clean up the land on the other side of Mass. Avenue and plant trees on the land owned by the Institute but not used for drilling or track.
9. An expensive finishing touch would be to buy up the block of stores opposite the Architecture building and tear them down, replacing them with grass and trees. (I know this is impractical, but it's a pleasant possibility).

You will notice that outside of point 9, none of these suggestions cost much money, except point 2—a new gym. Trees and grass seed are surely within the budget of the Institute. I feel quite certain that the rawest Architecture student would not approve of the way Tech looks from the back, and yet it is left unimproved year after year. Is anything going to be done about it?

Yours very sincerely,  
 GEORGE M. MUSGRAVE, '43.

# Sailors Win First Meet On Charles

## Dinghymen Vanquish Five Other Teams In Boats Saturday

Recovering from the unsuccessful 1939-40 yachting season, the Institute dinghymen sailed through five college teams in their first meet of the present schedule last Saturday morning on the Charles River Basin.

Harvard, Boston University, Northeastern, Boston College and Tufts lost to the strategy of the Beaver sailors. Sixty-three points was the Technology total scored by Thomas T. Crowley, '42, with thirty, and Richard P. Knapp, '41, with thirty-three. The nearest that the opposing yachtsmen came to the institute's winning score was Harvard's 46 points.

### Grad Gobs Win

Sunday the Technology Graduate team followed up the undergraduate victory with a win over the Harvard Law School representatives, 114 to 51.

### Hanson, Olsen Star

The Institute skippers Herman Hanson and Eric Olsen, who in their undergraduate years put Technology on the sailors' map, led the scoring on both sides with a total of 57 points.

Franklin P. Seeley, '42, placed first in the Red Division of the intramural competition for the Vose Cup on Saturday with 30 points. Harvey S. Freeman, '43, of the Yellow Division and Robert Kirby, '42, of the Blue Division led in the Nickerson Trophy races with 39 and 40 points respectively.

### Intramural Racing Sunday

On Sunday, Richard Knapp paced the Red Division. Freeman and Kirby repeated their Saturday performances by copping the honors in the Blue and Yellow Divisions. Hanson scored forty points to lead the Graduate aggregation.

# Connecticut State Wallops Techmen

## Potential N. E. Champs Walk Away With Cross Country Meet Saturday

Handicapped by a late start in practice, and faced with a well prepared and quite superior opponent, the Tech harriers went down to defeat last Saturday to Connecticut State College. The score of the meet, held at Franklin Park in Boston, was 15 to 45.

The Connecticut team showed itself as potential New England champs when six of their men tied for first place in Saturday's meet. The next five places were taken by Art Gow, '41; Malcolm McGregor, '42; Bill Cochran, '43; Larry Turnock, '41 and Gene Brady, '42, all from Technology.

### Next Meet at Amherst

A meet with Massachusetts State Agricultural College is scheduled for next Saturday at Amherst. The schedule for this season will include meets with Dartmouth and Yale; the New England Intercollegiate meet at Franklin Park; and the IC4A at Van Cortland Park in New York.

# Sophs Defeated By Dummer 13-0

Inability to halt Governor Dummer's deadly passing attack cost the M.I.T. Sophomores a victory last Saturday afternoon on the Academy's gridiron when they bowed to the home eleven, 13-0.

Twice the scarlet-shirted prep school gridders set the stage for touchdowns by a series of short and accurate passes which the Beaver secondary seemed unable to stop. Shortly after the third period opened the scoreless deadlock was broken when an Academy back gave a beautiful exhibition of tight-rope walking the sideline as he dashed fifty yards for the first score. Then with seconds to go the prep schoolers shoved over another score to make the total 13-0.

Horner in the line, Sophomore star, and the entire backfield stood out for the Tech gridders in valiant defeat.

## TECH ACTION AGAINST BROWN

Action photo taken during hard-fought rough and tumble match against Brown at Providence Saturday

## Beaver Booters Lose To Brown In First Game, 2-1

### Winning Goal Scored On Penalty Shot Late In Third Period

Going down in a hard-fought game, the Beaver booters lost to a strong Brown aggregation, 2-1 in their opening game in Providence on Saturday.

The game started off at a fast pace, with Brown pressing, and disaster overcame the Cardinal early in the first quarter when Brown made their first goal. The rest of the quarter as well as the second period was a ding dong evenly matched battle.

### Tech Comes Even

Tech drew level nine minutes before the end of the third quarter when Fenmen drove a hard ball into the net, but Brown got ahead when they scored the winning goal on a penalty shot in the same period.

Noticeable on the Tech squad were: Capt. Fred Herzog, whose skillful work in goal broke up many Brown rushes; Kirman, for his excellent defensive play, and Johnson and Loven, whose good play in the full back berths saved Tech much trouble.

### Rough and Tumble Game

The game was a fairly rough one throughout, Johnson was the only Tech man hurt when he was windcd, but four Brown men were taken off the field due to injuries and windings during the course of the game.

At the end of the game the team members as well as managers O'Connor and O'Meara, watched the Brown Colgate football game in a neighbouring stadium.

## Field Day Teams Begin More Intensive Training

Both Sophomore and freshman field day teams are rapidly being whipped into shape for their all important contests November 1. The teams are practicing daily with increasing enthusiasm as the time grows shorter.

More men who are interested in both the tug-of-war teams are urged to report at 5:00 o'clock this afternoon at the Coop Field. All members of the winning teams will receive their class numerals.

## Tennis Tourney In Second Round

The fall tennis tournament for upperclassmen bounced out of the first round on Monday, the 14th, with three more rounds to go to the semi-finals sometime in late October or early November.

All those who advanced in the first round are warned that the second round returns must be in before Monday, October 21st, and the third round before Saturday, October 26th. Phillip B. Freeman, '41, Howard J. Samuels, '41, and Maurice N. Katz, '42, advanced by virtue of drawing byes in the tournament.

### First Beaver Key Match On Oct. 19

#### Harry E. Knox Releases Schedule Of Fall Games In Football Tournament

Announcement of the schedule of games to be played in the Beaver Key football tournament next weekend was made yesterday by Harry Edward Knox, Jr., '42.

Announcements are being made early in order that the houses concerned will have time to organize teams and not lose games by default. All games are to be played on the Coop field.

#### Time Limit Set

A time limit of seventy-five minutes has been set by the rules committee for the football series. If for any reason the game is not over at the end of the time limit the game will go to the team holding the highest score at the end of the time limit.

The schedule is as follows:

To be played 2:00-3:45 P.M., Saturday, October 19:

Theta Chi vs. Phi Kappa.  
Sigma Alpha Epsilon vs. Phi Gamma Delta.

Beta Theta Pi vs. Phi Delta Theta.  
Phi Beta Epsilon vs. Delta Tau Delta.

To be played 3:45-5:00 P.M., Saturday, October 19:

Theta Delta Chi vs. Chi Phi.  
Delta Upsilon vs. Lambda Chi Alpha.

Phi Sigma Kappa vs. Commuters.  
Delta Kappa Epsilon vs. Phi Mu Delta.

To be played 10-11:15 A. M., Sunday, October 20:

Alpha Tau Omega vs. Sigma Chi.  
Theta Xi vs. Phi Beta Delta.

Sigma Alpha Mu vs. Sigma Nu.  
Kappa Sigma vs. Student House.

To be played 2:30-3:45 P.M., Sunday, October 20:

Delta Psi vs. Phi Kappa Sigma.

## The Massachusetts Institute of Technology

CAMBRIDGE, MASSACHUSETTS

THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY offers the following Professional Courses:

### SCHOOL OF ARCHITECTURE

Architecture City Planning City Planning Practice

### SCHOOL OF SCIENCE

Biology and Public Health Geology  
Options: Biology Options: Geology  
Biology and Public Health Mineral Resources  
Industrial Biology Mathematics  
Public Health Engineering Physics  
Biophysics & Biological Options: General Physics  
Engineering Applied Physics  
Chemistry  
General Science

### SCHOOL OF ENGINEERING

Aeronautical Engineering Electrical Engineering—  
Building Engineering and Con- Cooperative Course  
struction General Engineering  
Business and Engineering Admin- Marine Transportation  
istration Mechanical Engineering  
Options:  
Engineering based on Physical Automotive  
Sciences General  
Engineering based on Chem- Materials and Design  
ical Sciences Refrigeration and Air Condi-  
tioning  
Chemical Engineering Textile  
Chemical Engineering Practice Mechanical Engineering—  
Civil Engineering Cooperative Course  
Electrical Engineering, including Metallurgy  
Options: Naval Architecture and Marine  
Illuminating Engineering Engineering  
Electrical Communications Sanitary Engineering

Each of the above undergraduate Courses is of four years duration, with the exception of Architecture, City Planning, Biophysics and Biological Engineering, and the cooperative Courses in Electrical Engineering and in Mechanical Engineering, which extend over a period of five years, and City Planning Practice which covers a period of six years. In addition to the Bachelor's degree, the above five and six year Courses, with the exception of Architecture and City Planning, lead also to the Master's degree.

Graduate study, leading to the Master's and Doctor's degrees, is offered in Ceramics, Meteorology, and in most of the above professional Courses.

A five year Course is offered which combines study in Engineering or Science, and Economics. This leads to the degree of Bachelor of Science in the professional field, and to the degree of Master of Science in Economics and Engineering or Economics and Science.

The Summer Session extending from June to September includes many of the undergraduate subjects given during the academic year.

For information about admission, communicate with the Director of Admissions.

Any of the following publications will be sent free on request:

- Catalogue for the academic year
- Summer Session Bulletin
- Educational Opportunities at the Massachusetts Institute of Technology

### DO YOU SMOKE THE CIGARETTE THAT SATISFIES

IT'S THE 'SMOKER'S CIGARETTE, because All America has a line on their

**DEFINITELY**

*Milder*  
**BETTER TASTE**

What smokers like yourself want most is *mildness, coolness and taste...* and that's just what you get in Chesterfield's right combination of the finest tobaccos grown... a definitely milder, cooler, better taste. That's why it's called *the Smoker's Cigarette.*
