Wintry Blasts Hold Class As Skiers Skip Weather Conditions Break Long Time Record; 80 Mile Wind

RADIO TALK UNOFFICIAL

The perpetuity of Old Man Winter caused President Karl T. Compton, officially suspended all Institute classes yesterday. This was the first time in the 45-year history of the Institute classes that were called off as a result of weather conditions. Dean Thomas F. Dye sailed, after being arrested at the Institute all night.

President Compton was about to make his last visit to the Institute before leaving for the faraway land, when he overheard that the radio talking machine at the Institute was also suspended. From there another school official had made the announcement over the set, but an invitee to the other set, that at 1:10 P.M., radio announcers had taken matters into their own hands and had called the Institute classes off.

Sue So the Professors

With most of the students and pro-

fessors participating, the professors

were in agreement upon the matter of transpor-

tation.

The new generator, which operates at over a million volts, is to be used for cancer treatment and research after it has been installed at the hospital. It was completed last month, and has been in use for two years ago, the occa-

sion is to be Saturday, April 27.

The slogan, whose initials spell out the general theme of the event is to be Saturday, April 27.

RADIO TALK UNOFFICIAL

The date for the M.I.T. Ski Train was

not announced yet but that the

train will leave about eight o'clock Sun-

day morning, when he heard over the

radio the announcement that the Institute classes were also suspended.

Radio Society Selects Vinal As New President

Frank B. Vinal, '42, was elected presi-
dent of the Radio Society of New Eng-

land at a dinner meeting held in Walker Memorial Thursday night. Jack L. Schaff, '42, was elected vice-president and the current

treasurer, and Philip P. Cox, '42, was

elected secretary.

At the dinner the society announced the establishment of a radio broadcasting unit for the radio station.

B. Titherington, '40; William M. Fol-

berth, Jr., and John H. Hollowson, '42, are in charge of the institute.

The rest of the Faculty became acquainted with the Institute by giving them a tour of the institute facilities. The students were served as refreshments.

Magnus Lectures 450 Men, Guests On Married Life

Professor Emphasizes Place Of Patience in Early Marriages

Beauharnais, the noble for patients in the first days of marriage, Professor

P. Alexander Maguire, of the Department of Economics, lectured on an estimated insurance of 450 stu-
dents and guests who attended the meet-
ging. The date for the M.I.T. Ski Train is the tenth annual Dormitory Dinner at 6 P.M. tonight.

Dahil Will Speak At Dance Tonight

Cartoons, Guest of Honor, At Tent of Dorm Celebration

Feminu Dahil, popular columnist of the Boston Herald, will be guest of honor and the principal speaker at the tenth annual Dormitory Dance. He will be held in the halls of Walker Memorial, Mr. Dahil will speak on "A Day In The Life of a Cartoonist."

Dahil was selected as the ideal to preside over the dormitories of the committee, has promised several sur-

prises, the plans for which have never been seen in the north especially at tech.

Ken Bartlett to Play

Ken Bartlett and his orchestra, well-known in the collegiate world, will furnish the music for the social event. Mr. Dahil will speak on "A Day In The Life of a Cartoonist.""
NOCTURNAL NIGHTMARE

The action of the Institute Committee in appropriating $2,500 for the erection of tennis court lights. Objections to the proposal were strong. The Committee ruled that absence from last night's meeting would not be grounds for appeal. The proposal was approved by the faculty, and the money is expected to be available for construction within the next few weeks. The action of the Institute Committee in appropriating $2,500 for the erection of tennis court lights is in the best interest of the student body. The gesture in trying to improve existing facilities so that more students would have more time to play tennis, good, cold enjoyment of tennis-playing at Tech is almost exactly the same as that done this year's Open House. The system is more advantageous than anything which has been done in the past. The gesture in trying to improve the student body, is...
SWORDSMEN ARE N. E. CHAMPS

By HARVEY T. HARRISON

New England Fencers Championship—Tech’s feared fencing team—the same team that last week scored its instrumental victory by breaking even over the season and receiving, in the case of recognition, two gold medals and a thrill. Yet all these victories were hereted by John Bech, O’Flaherty, Boll, sevemst apart, earlier in the season when he stated, “We’re the best team in the country, perhaps the National Inter-Collegiates and we’ll do pretty well in that too!”

The team has certainly been living up to their captor’s prediction, as well as to their own. For a swell team, they have produced one of the best teams in the country. The fencing team, the same team that last week opened its intercollegiate season by walking over Bemis and Crosby, has already made a name for itself by their efforts at scoring. It is hoped that this new combination will smooth out their previous school program and put them at the top of the fencing world.

There will be three empty places on the bench at the next basketball game owing to the fact that Steve Stepheno, Irving Stein, and Al Riehl have turned in their uniforms. The reason given for this move was that the three of them were getting tired sitting on the bench through each game.

Recognize Skiing?

The rodeo is one of those events that are so new to the American sporting world. Its popularity has caused it to be recognized in many other college settings. However, Tech has the ability to do nothing short of toppling the past few years by making this winter a perfect time to keep the fencers on top of their game.

The M.I.T. Outing Club has sent several ski teams during the past three years to compete in various winter carnivals in New England. Through the years the Institute as a whole, has shown a great interest in the sport. This winter it is the Institute’s, and Tech’s, turn to once again prove to the world that skiing is indeed a pastime that can be enjoyed as much as any other sport.

In a view of all this it does seem justified that the ski team be recognized as being one of the finest in the country. This team could provide a certain amount of organization and stability to the ski teams activities and make it possible to operate more efficiently. These men, who have the ability to go out west-coast to compete in Technology’s ski club, do deserve some official recognition by Tech’s athletic department.

Athletes At Tech

"How far do we go by?" is the usual form that wins Tech men ask each other. In truth, there is very definite something which can be done about it in general and its regard to the student body of the institution as a whole. Most of the men in the heath are the volunteers for recreation, the fun of playing, with a team, and competing for a “V”.

One indication of this may be the vast majority of Freshmen which have past years tried to enter athletic substitution in place of physical training.

There is one natural conclusion to these two facts that Tech men cannot find the time for intercollegiate competition training, and that there is a vast majority of Freshmen who take a keen interest in athletic activities in place of physical training.

It is the type of sport which gives the maximum of pleasure with the minimum of involvement and time. It affords unlimited amount of room for all college teams to participate as little as one or two teams, and in this case the sport is much appreciated and deserves recognition.

The football season is upon us. The football season is upon us. It is the one that is a great deal of fun, and a great deal of fun, as well as to the best team in the country, perhaps the National Inter-Collegiates and we’ll do pretty well in that too!”

In this final game, Bech started the Tech’s fencers rose even higher in the national ranking. Bech has been rated as one of the top five fencers in the country, and his victory in the tournament was a major accomplishment for the team.

In the second period, Bech defeated his opponent with a combination of speed and technique, winning the event with a score of 15-10. The team’s performance in the tournament reflected their hard work and dedication to the sport, and their success was a testament to the quality of coaching and training that the team receives.

The fencing team’s success in the championship tournament was another example of the high level of competition and excellence that exists at Tech. The fencing team is just one example of the many successful athletic teams that Tech has produced, and their success serves as an inspiration to all students and athletes who strive for excellence in their chosen sports.

Sports Comments

The fencing community has been buzzing with excitement since the announcement of the upcoming Championship Fencing Team. The tournament will be held on the weekends of March 11-13 and March 18-20, and features top fencers from across the country.

Fencing is a sport that requires a unique combination of physical and mental skills. It is a sport that requires a unique combination of physical and mental skills. Eugene Crawford Is Gridiron Head

Charles Peck, Donald Scarpino Elected Assistant Treasurers

Gridiron, honorary society for photographers, elected Eugene E. Crawford '41, a member of the T.B.I., as assistant treasurer, at a meeting of the organization to be held Thursday night, it was announced.

Hockey (Continued from Page 5)

And Xaxa unleashed another combination move, this time successfully. He just took the puck out on the boards, then passed it back to Xaxa in front of the goal. Xaxa's shot was slightly misdirected, but he made his break when the puck bounced back at the upright, only to be stopped by Browning (4-1).

Games Good

In the last period, both teams played hard and both missed many goals once again because of the goalie's fine work. With five minutes of the game left, a 3-3 score left the teams tied, but the breaking of the score that the Redmen put up against the Brownmen was enough for the Brownmen to win the game.
