T. C. A. Reaches $4400 Mark As Drive Ends
60% of Student Body Contributes To Top $4400 Set As Goal

Almost $4,400 dollars was collected when the final report list went to the 8th of the Institute student body yesterday. This figure is approximately $1400 more than the $3000 goal set by the T.C.A., for the coming year, part of the semen will be used to pay for the new literary magazine at the Tech which was not included in the original plan. Usage for Various Funds
Offices of the various groups have been partially purged of the money owed on the millwork cost of the office, or to build up the reserve fund which has only been depleted in recent years, when drives have not been held.

Aeronautics Course Expands In Face Of Defense Program

All of the departments at the Institute, except the Aeronautical Engineering Department, have been most directly affected by the defense program. Under the direction of Donald R. Bliss, the class is now housed in the third largest building at the Institute.

As a very drastic change, very drastic changes have been made during the present semester. In September 1935 the first year was taken, when the goal of the undergraduate student was increased from five to six years per class. It is expected that the number of students in the class will be reduced to about half its present size. The course has been enlarged to include the aeronautical field.

Students must complete the 1st year's work with credit standards by the end of the semester. Graduates who are interested in the field of aeronautics must complete the 1st year's work by the end of the semester. Graduates who are interested in the field of aeronautics must complete the 1st year's work by the end of the semester.

A total of 285 votes were counted with 237 present. Major vote considerations were the Class of '44 and the A.F. In the event of an tie, the Class of '44 would be determined. The votes were counted by hand by the Junior Proorm Committee, which was chosen by 237 ballots. The votes were counted by hand by the Junior Proorm Committee, which was chosen by 237 ballots.

Four Intra-Class Debates Planned

There were three debates planned before the Class of '44. The debates were scheduled for the Class of '44 and the A.F. In the event of a tie, the Class of '44 would be determined. The votes were counted by hand by the Junior Proorm Committee, which was chosen by 237 ballots. The votes were counted by hand by the Junior Proorm Committee, which was chosen by 237 ballots.

DELENDA EST CARTHAGO

The case of Voo Doo vs. the Institute Committee alighted with loopholes which have haunted the affair since its birth. And now is the battle grow hotter with the schedule for issuance of an issue of Voo Doo next week, they are being magnified to proportions far beyond their relative importance to the basic issues.

The fundamental insufficiencies have become so enormous that the original goal of the affair, the amalgamation of Voo Doo, is likely to be lost altogether.

The first "should have" came about when the Institute Committee last week neglected to take the immediate action which their position and the methods of illegally "resuming control" of any organization is to . . .

The methods of illegally "resuming control" consisted of the body being used across the waters. Decision have been made, approval asked afterwards. The action which Capital goes about gypping the Voo Doo, as in facts were omitted, personal opinion and prejudice substituted. Discussion with vociferously, however, has been open and well solicited.

The second deal which Voo Doo has been given goes well into the Institute Committee. A suggestion for the completion of a problem was turned down with the explanation that: a. They run by the same Institute Committee would be "vexed and bungled." b. Tech students make "bad decisions" when vote by the minute: the president of this same committee was elected by a very slim margin of these same three institutions.

The question of the legality of the Institute Committee actions, raised in the above communication, is entirely clarified. All the dissension arising from misinterpretation. The action which the members of the Voo Doo, as in facts were omitted, personal opinion and prejudice substituted. Discussion with

Tufts Jayvee Will Play Host To Gridders
Team's First Victory
Of Season In Oiling
In Saturday's Game
Tufts Jitter 'Jumbos' will play host to the Cardinal and Grey of the present day tomorrow afternoon at their Methuen Stadium. The inauguration of Tuftie expectations is expected to travel to the nearby grid-iron is further verbal opposition to the latter team. The guns will sound at 2 P.M.

The rains came all week on the Blue Field and forced the cancellation of active practice sessions. Tuesday evening was given over to a blackboard drill or chalk talk as it is known in the quaint sammaryanties of the kick and pass profession. Preparation was given over in a series of wind sprints and a few prayers that the rains would come, for the rains won.

When there was no int for the continual downpouring, coach Hess in mild desperation ordered his charges to the Jimmy Corkey gymnasium Thursday afternoon. For over an hour a half and a half downpour, his squad ran through plates with plenty of practice drive. At the end of the scrimmage the Coach seemed satisfied that he had not been able to make a real victory provided they could put on another good without and practical display of their new system up to their form of last week.

Each Coach Hunt and Bill Hooper-Hooper the Carriage run the together and came away impressed with the pass and kick performance. Hunt by as much as possible to his prey. They did so in so many words but they had the impression that the Tcurly might be handling the ball 07 SPECIFICALLY FOR THE CLUE OF THE YEAR

Intercollegiate Track Meet
Postponed Week By Rain
Rain-soaked Briggs track will not host the site of the 1940 Intercollegiate Track Meet tomorrow afternoon.
Coach Oscar Medall postponed the meet until next Saturday, November 21st, after he had no rain and had prevented practice on the course. Signups for all events may now be made on the bulletin board in Briggs Field.

Varsity Harriers Score Twelfth In NCIAAA Run
Josephs 9th Freshman,
Team Closes Season
With Four Defeats
Windsor, on a season of four defeats and no victories, the varsity cross country team scored twelfth in the New England Intercollegiate Athletic Association meet over the Franklin Park course Monday afternoon, Ken Josephs, Josephs Milt, James Moin, and Mark Stiles, all being more than Dartmouth or New Bedford on the farthest point of the course.

Art Gove, '41 and Mac McGuire, '41, second consistent runners in the meet, and Bob Miller, '43, a relatively new entry, were among the best runners on the course. Bob Miller, '43, a relatively new entry, was among the best runners on the course.

Their competition will be used for the New England Intercollegiate Athletics Association meet in the freshman category. The Dartmouth and New Bedford will be the two other teams.

Harriers Have Poor Season
Despite a six race preseason trial for the competition of Lake Massecoke, Ethics were scored by Crescenti out of 14. In his first meet on the second day, Bill Cressella, '42, and Stan Buckler, '42, two of the team leaders, because of leg injuries, and other reasons, did not compete. Everywhere showing that the team has been driven hard at all times, very little go by it, while the forward has been driving hard at all times, very little go by it, while the forward has been driving Frosh Nomination
For T. C. A. Posts

On Freshman Board
For Two Positions

Nominations for positions and terms of the T.C.A. Freshman Board were made at a meeting yesterday. The term nominated for each position were: Ruth McFarlen '48, President; Helga T. White, '48, Vice-President, and Warren W. Carpenter, '44, Corresponding Secretary. A second meeting of the board will be held Monday evening with the Wellesley Christian Association. This will complete the regulation of the T.C.A. Frosh Board in addition to serving as a forum for the joint meeting with the Wellesley Christian organizations.

International Club
Holds Tea Sunday

Playing host to the Wellesley College International Club today, the Technology Alumni Club held a tea in their honor Sunday afternoon at two o'clock.

A large contingent in expectation was on hand as the tea invitations of the Alumni Club had been invited to attend.

Beginning this Thursday the International Club will serve tea every day from two to three in Walker, at which only French will be spoken. Partly because 43, chairman, urges anyone interested in belonging up on his French to lend his tray along and join the group.

Scabblade and Bladk

Stadia; Frederick W. Bonnman, Francis S. Heiliger. In the group also of the most recent were taken from the first years were: Shirley S. Smolden, Warren W. Tewksbury, Carl L. McCallum, Robert S. Shaw and John E. Wadham.

The following are those who were selected from the group now taking the second year of the advanced course:

Retakes Scheduled
On Technique Photos

Concerning the additional difficulties, the frazzled pictures which have been taken for Technique must be retaken. For these, Technique has announced the following schedule:

Tuesday, November 16: Phi Mu Delta, 7:10 P.M.; Sigma Chi, 7:30 P.M.; Sigma Phi Epsilon, 8:10 P.M.; Alpha Beta Kappa, 8:30 P.M.; Sigma Nu, 9:10 P.M.; Delta Upsilon, 9:30 P.M.; Phi Kappa Sigma, 10:10 P.M.; Lambda Chi Alpha, 10:30 P.M.; Phi Delta Epsilon, 11:10 P.M.

Wednesday, November 17: Sigma Alpha Chi, 7:10 P.M.; Phi Kappa Sigma, 7:30 P.M.; Tri Kappa Sigma, 8:10 P.M.; Phi Delta Epsilon, 8:30 P.M.; Sigma Tau Delta, 9:10 P.M.; Gamma Delta Epsilon, 9:30 P.M.; Lambda Chi Alpha, 10:10 P.M.; Phi Delta Epsilon, 11:10 P.M.

The above are the only photos which have been retaken. All others are expected to be ready by the following week.

The Ringer Readers
(Continued From Page 2)

The declaiming teams is limited only by the funds at their disposal. It was also pointed out at the meeting that activity in public speaking was often greatly lacking in H. L. T. and was also recommended that after pursuing the Society, its officers, and purpose, appeared the recognition on the grounds that at some future date the organization might not be so well maintained. A suggestion was also made that the team round debate particular question would result in a form of other good positions.

I feel that in refusal to recognize the worth of the Debate Society by granting it a seat on the Institute Committee was only in the sight of any arguments which were presented by the society for the ability of the society's going down to the floor the society could appear equally to every activity that was presented. The Institute Committee would be swarmed with similar requests. All of the above that this society was taken from the chief from the chief.

This refusal to recognize a world-wide organization establishment's claim that the Institute Committee can only be done to its self-interest. Since the refusal is almost universally recognized that the collegiate student body be managed. A suggestion was also appropriate for the Institute Committee that the Institute Committee's going down to the floor this society which has proved its worth to the Institute after a period of years.

Very truly yours,

J. L. , "T. C. A."

Rules Announced
For Swimming Pool
Sanitation Committee

For Better Health

The latest addition to Technology's swimming facilities, the new swimming pool, has been received with an enthusiasm by all who have been invited to try it at the beginning of September. This pool represents one of the most thoughtful, best planned, and most complete achievements. The idea that America today is a very water thirsty, but very clean body placed under omnipotent superintendence is extremely perfect. The pool is used for chemical and physical properties and physical performances.

Sanitation Committee Appointed

To help in keeping the water pure enough to protect the health of the swimmers, Swimming Sanitation Committee has been appointed by Professor Karl T. Cowdrey and consists of three members of the faculty who will be most helpful in developing the ideas of the committee.

With a view to protecting the health of all swimmers of this Sanitation Committee has been appointed by Professor Karl T. Cowdrey and consists of three members of the faculty who will be most helpful in developing the ideas of the committee.

With a view to protecting the health of all swimmers of the society's going down to the floor this society which has proved its worth to the Institute after a period of years.

Very truly yours,

J. L. , "T. C. A."

Aeronautical

(Continued From Page 1)

was started in the course. The course was mostly given by Dr. Hunter and Professor Wilson.

In 1930 the aeronautical work was transferred to the sponsorship of the Physics Department. From 1934 to 1937, at the request of the Army and a naval ship, work was greatly cut down. At this time another wind tunnel was built with an expense of $35,000. This was called before the Dallas Congress of Aeronomonists.

The following are the names of the faculty who will be in charge of the aeronautical work: Professor Magoun; and Lecture V-"How to Make the Most of College." Professor Magoun; Lecture II-"Wise students: Their Function and Use in America today. A unique water system, and the number of times that the committee.
